

State of Iowa Historical Building

❖ Built in 1987 ❖

Airplanes in our atrium! There's too much to see and do at the museum showcase of the State Historical Society of Iowa including our largest new (December 2000) exhibit in a decade, "A Few of Our Favorite Things" and the famous tongue-in-cheek "Never Put Things Into Your Mouth" display. First-time visitors get their bearings by looking up at three historic airplanes. The building is also home to the state historical library and archives, the Museum Store, and The Terrace Café, the rooftop restaurant with a panoramic view. ☺
