NEWS RELEASE

FOR RELEASE

March 28, 2011

Contact: Andy Nielsen
515/281-5834

Auditor of State David A. Vaudt today released an audit report on the Wayne-Ringgold-Decatur County Solid Waste Management Commission.

The Commission had total receipts of \$727,144 during the year ended June 30, 2010, a 20 percent decrease from the prior year. The receipts included member assessments of \$199,698, landfill gate receipts of \$481,086 and interest of \$49,769.

Disbursements for the year totaled \$505,609, a 45 percent decrease from the prior year, and included \$171,394 for salaries and benefits, \$77,126 for disposal/recycling/hauling services and \$58,976 for loan repayments.

The significant decrease in receipts and disbursements is primarily due to the purchase of equipment with proceeds from a bank loan in the prior year.

A copy of the audit report is available for review at the Wayne-Ringgold-Decatur County Solid Waste Management Commission, in the Office of Auditor of State and on the Auditor of State's web site at <http://auditor.iowa.gov/reports/1014-2328-B00F.pdf>.

Independent Auditor's Report

To the Members of the Wayne-Ringgold-Decatur County
Solid Waste Management Commission:

We have audited the accompanying financial statement of the Wayne-Ringgold-Decatur County Solid Waste Management Commission as of and for the year ended June 30, 2010. This financial statement is the responsibility of the Commission's management. Our responsibility is to express an opinion on the financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

As described in Note 1, this financial statement is prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the cash basis financial position of the Wayne-Ringgold-Decatur County Solid Waste Management Commission as of June 30, 2010, and the changes in its cash basis financial position for the year then ended in conformity with the basis of accounting described in Note 1.

In accordance with Government Auditing Standards, we have also issued our report dated March 7, 2011 on our consideration of the Wayne-Ringgold-Decatur County Solid Waste Management Commission's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 7 through 9 is not a required part of the financial statement, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Solid Waste Management Commission**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Wayne-Ringgold-Decatur County Solid Waste Management Commission (W-R-D CSWMC) provides this Management's Discussion and Analysis of its financial statement. This narrative overview and analysis of the financial activities of the W-R-D CSWMC is for the fiscal year ended June 30, 2010. We encourage readers to consider this information in conjunction with the Commission's financial statement, which follows.

2010 FINANCIAL HIGHLIGHTS

- ◆ Operating receipts increased 4.9%, or approximately \$32,200, from fiscal year 2009 to fiscal year 2010.
- ◆ Operating disbursements decreased 6.6%, or approximately \$27,500, from fiscal year 2009 to fiscal year 2010.
- ◆ Cash basis net assets increased 13.8%, or approximately \$221,500 from June 30, 2009 to June 30, 2010.

USING THIS ANNUAL REPORT

The W-R-D CSWMC has elected to present its financial statement on the cash basis of accounting. The cash basis of accounting is a basis of accounting other than U.S. generally accepted accounting principles. Basis of accounting refers to when financial events are recorded, such as the timing for recognizing revenues, expenses and the related assets and liabilities. Under the cash basis of accounting, revenues and expenses and the related assets and liabilities are recorded when they result from cash transactions.

As a result of the use of the cash basis of accounting, certain assets and their related revenues and liabilities and their related expenses are not recorded in this financial statement. Therefore, when reviewing the financial information and discussion within this annual report, readers should keep in mind the limitations resulting from the use of the cash basis of accounting.

The annual report is presented in a format consistent with the presentation of Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the cash basis of accounting.

This discussion and analysis are intended to serve as an introduction to the financial statement. The annual report consists of the financial statement and other information, as follows:

- Management's Discussion and Analysis introduces the financial statement and provides an analytical overview of the W-R-D CSWMC's financial activities.
- The Statement of Cash Receipts, Disbursements and Changes in Cash Basis Net Assets presents information on the W-R-D CSWMC's operating receipts and disbursements, non-operating receipts and disbursements and whether the W-R-D CSWMC's cash basis financial position has improved or deteriorated as a result of the year's activities.
- The Notes to Financial Statement provide additional information essential to a full understanding of the data provided in the financial statement.

FINANCIAL ANALYSIS OF THE W-R-D CSWMC

Statement of Cash Receipts, Disbursements and Changes in Cash Basis Net Assets

The purpose of the statement is to present the receipts received by the W-R-D CSWMC and the disbursements paid by the W-R-D CSWMC, both operating and non-operating. The statement also presents a fiscal snapshot of the cash balance at year end. Over time, readers of the financial statement are able to determine the W-R-D CSWMC's cash basis financial position by analyzing the increase and decrease in cash basis net assets.

Operating receipts are received from gate fees for accepting solid waste and assessments from the members of the W-R-D CSWMC. Operating disbursements are disbursements paid to operate the landfill. Non-operating receipts and disbursements are for interest on investments, capital projects, related engineering services, equipment purchases and related loans. A summary of cash receipts, disbursements and changes in cash basis net assets for the years ended June 30, 2010 and 2009 is presented below:

	Changes in Cash Basis Net Assets	
	Year ended June 30,	
	2010	2009
Operating receipts:		
County and city allocations	\$ 199,698	199,730
Landfill gate receipts	481,086	449,835
Miscellaneous	5,591	4,632
Total operating receipts	<u>686,375</u>	<u>654,197</u>
Operating disbursements:		
Salaries and benefits	171,394	164,200
Other	218,907	253,614
Total operating disbursements	<u>390,301</u>	<u>417,814</u>
Excess of operating receipts over operating disbursements	<u>296,074</u>	<u>236,383</u>
Non-operating receipts (disbursements):		
RCC grant	-	2,318
Interest on investments	40,769	42,289
Proceeds from bank loan	-	212,200
Engineering/professional services	(56,332)	(115,065)
Equipment	-	(212,930)
Loan payments	(58,976)	-
Capital projects	-	(168,052)
Net non-operating disbursements	<u>(74,539)</u>	<u>(239,240)</u>
Net change in cash basis net assets	221,535	(2,857)
Cash basis net assets beginning of year	<u>1,604,151</u>	<u>1,607,008</u>
Cash basis net assets end of year	<u>\$ 1,825,686</u>	<u>1,604,151</u>

In fiscal year 2010, operating receipts increased \$32,178, or 4.9%, over fiscal year 2009. The increase was primarily a result of an increase in tonnage fees on July 1, 2009. In fiscal year 2010, operating disbursements decreased \$27,513, or 6.6%, from fiscal year 2009. The decrease was primarily a result of a reduction in leachate hauling disbursements.

A portion of the W-R-D CSWMC's cash basis net assets (77.6%) is restricted for closure and postclosure care and solid waste tonnage fees retained. State and federal laws and regulations require the W-R-D CSWMC to place a final cover on the landfill site and perform certain maintenance and monitoring functions at the landfill site for a minimum of thirty (30) years after closure. The remaining net assets (22.4%) are unrestricted cash basis net assets which can be used to meet the W-R-D CSWMC's obligations as they come due. Restricted net assets increased \$64,047, or 4.7%, during the year. Unrestricted cash basis net assets increased \$157,488, or 62.5%.

LONG-TERM DEBT

At June 30, 2010, the W-R-D CSWMC had long-term debt of \$162,936 outstanding. During fiscal year 2009, the Commission entered into a bank loan to assist in the purchase of equipment.

ECONOMIC FACTORS

W-R-D CSWMC's cash basis net assets increased during the current fiscal year. The current financial condition of the counties and cities budgeting and availability to make their allocations continues to be a concern for W-R-D CSWMC officials. Some of the realities which may potentially become challenges for the W-R-D CSWMC to meet are:

- Facilities and equipment require constant maintenance and upkeep.
- Technology continues to expand and current technology becomes outdated, presenting an on going challenge to maintain up to date technology at a reasonable cost.
- The on going concerns of household toxic and hazardous materials coming into the landfill.

The Wayne-Ringgold-Decatur County Solid Waste Management Commission, staff and employees are committed to continued operation and service to the residents of the cities and counties that use the facility. The Commission is working with Professional Services, the Iowa Department of Natural Resources, local contractors and employees for the construction of cells and lagoons to support the continued operation of the W-R-D CSWMC.

The W-R-D CSWMC anticipates the current fiscal year will be much like the last and will maintain a close watch over resources to maintain its ability to react to unknown issues.

CONTACTING THE COMMISSION'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the W-R-D CSWMC's finances and to show its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Wayne-Ringgold-Decatur County Solid Waste Management Commission, 21377 125th Avenue, Grand River, Iowa 50108, or call 641-773-5229.

Wayne-Ringgold-Decatur County Solid Waste Management Commission

Notes to Financial Statement

June 30, 2010

(1) Summary of Significant Accounting Policies

The Wayne-Ringgold-Decatur County Solid Waste Management Commission was formed in 1988 pursuant to the provisions of Chapter 28E of the Code of Iowa. The purpose of the Commission is to develop, operate and maintain solid waste and recycling facilities for Wayne, Ringgold and Decatur Counties on behalf of the units of government which are members of the Commission.

The governing body of the Commission is composed of one representative from each of the member units of government. The member counties are Wayne, Ringgold and Decatur Counties and the member cities are the cities of Lamoni, Leon, Davis City, Garden Grove, Van Wert, Grand River, Decatur, Weldon, Pleasanton, Le Roy, Mount Ayr, Diagonal, Kellerton, Tingley, Redding, Ellston, Delphos, Maloy, Beaconsfield, Benton, Humeston, Lineville, Clio, Corydon and Allerton. The commissioners are appointed by the participating political subdivisions and each has one vote for each one thousand population, or fraction thereof, which the member represents.

A. Reporting Entity

For financial reporting purposes, the Wayne-Ringgold-Decatur County Solid Waste Management Commission has included all funds, organizations, agencies, boards, commissions and authorities. The Commission has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the Commission are such that exclusion would cause the Commission's financial statement to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Commission to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the Commission. The Commission has no component units which meet the Governmental Accounting Standards Board criteria.

B. Basis of Presentation

The accounts of the Commission are organized as an Enterprise Fund. Enterprise Funds are utilized to finance and account for the acquisition, operation and maintenance of governmental facilities and services supported by user charges.

Enterprise Funds distinguish operating receipts and disbursements from non-operating items. Operating receipts and disbursements generally result from providing services and producing and delivering goods in connection with an Enterprise Fund's principal ongoing operations. All receipts and disbursements not meeting this definition are reported as non-operating receipts and disbursements.

C. Basis of Accounting

The Commission maintains its financial records on the basis of cash receipts and disbursements and the financial statement of the Commission is prepared on that basis. The cash basis of accounting does not give effect to accounts receivable, accounts payable and accrued items, including the estimated payables for closure and postclosure care. Accordingly, the financial statement does not present the financial position and results of operations of the Commission in accordance with U.S. generally accepted accounting principles.

D. Net Assets

Funds set aside for payment of closure and postclosure care and solid waste tonnage fees retained are classified as restricted.

(2) Cash and Investments

The Commission's deposits in banks at June 30, 2010 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The Commission is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Commission; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2010, the Commission had the following investments:

Type	Fair Value	Investment Maturities (in Years)	
		Less Than 1	1-5
U.S. treasury bonds	\$ 966,729	213,989	752,740

Interest Rate Risk. The Commission's investment policy does not limit the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) to instruments that mature within 397 days.

(3) Pension and Retirement Benefits

The Commission contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.30% of their annual salary and the Commission is required to contribute 6.65% of annual covered salary. Contribution requirements are established by state statute. The Commission's contributions to IPERS for the years ended June 30, 2010, 2009 and 2008 were \$8,786, \$8,236 and \$7,558 respectively, equal to the required contributions for each year.

(4) Other Postemployment Benefits (OPEB)

Plan Description - The Commission operates a single-employer health benefit plan which provides medical/prescription drug benefits for employees and retirees and their spouses. There are 3 active and no retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with United Health Care. Retirees under age 65 would pay the same premium for the medical/prescription drug benefits as active employees.

Funding Policy - The contribution requirements of plan members are established and may be amended by the Commission. The Commission currently finances the retiree benefit plan on a pay-as-you-go basis. The most recent active member monthly premiums for the Commission and plan members are \$708 for single coverage and \$1,559 for family coverage. The same monthly premiums would apply to retirees. For the year ended June 30, 2010, the Commission contributed \$20,388 and plan members eligible for benefits were not required to contribute to the plan.

(5) Compensated Absences

Commission employees accumulate a limited amount of earned but unused vacation leave hours for subsequent use or for payment upon termination, retirement or death. However, sick leave hours are lost upon resignation, retirement or death. These accumulations are not recognized as disbursements by the Commission until used or paid. The Commission's approximate liability to employees for earned vacation leave at June 30, 2010 is \$3,300. This liability has been computed based on rates of pay in effect at June 30, 2010.

(6) Closure and Postclosure Care

To comply with federal and state regulations, the Commission is required to complete a monitoring system plan and a closure/postclosure care plan to provide funding necessary to effect closure and postclosure care, including the proper monitoring and care of the landfill after closure. Environmental Protection Agency (EPA) requirements have established closure and thirty year postclosure care requirements for all municipal solid waste landfills that receive waste after October 9, 1993. State governments are primarily responsible for implementation and enforcement of those requirements and have been given flexibility to tailor requirements to accommodate local conditions that exist. The effect of the EPA requirement is to commit landfill owners to perform certain closing functions and postclosure monitoring functions as a condition for the right to operate the landfill in the current period. The EPA requirements provide that when a landfill stops accepting waste, it must be covered with a minimum of twenty-four inches of earth to keep liquid away from the buried waste. Once the landfill is closed, the owner is responsible for maintaining the final cover, monitoring ground water and methane gas, and collecting and treating leachate (the liquid that drains out of waste) for thirty years.

Governmental Accounting Standards Board Statement No. 18 requires landfill owners to estimate total landfill closure and postclosure care costs and recognize a portion of these costs each year based on the percentage of estimated total landfill capacity used that period. Estimated total costs consist of four components: (1) the cost of equipment and facilities used in postclosure monitoring and care, (2) the cost of final cover (material and labor), (3) the cost of monitoring the landfill during the postclosure period and (4) the cost of any environmental cleanup required after closure. Estimated total cost is based on the cost to purchase those services and equipment currently and is required to be updated annually for changes due to inflation or deflation, technology, or applicable laws or regulations.

These costs for the Commission as of June 30, 2010 have been estimated at \$646,449 for closure and \$1,034,641 for postclosure care, for a total of \$1,681,090. The estimated remaining life of the landfill is 61 years, with approximately 4.7 percent of the landfill's capacity used at June 30, 2010.

Chapter 455B.306(8)(b) of the Code of Iowa requires permit holders of municipal solid waste landfills to maintain separate closure and postclosure care accounts to accumulate resources for the payment of closure and postclosure care costs. The Commission has begun to accumulate resources to fund these costs and, at June 30, 2010, assets of \$1,304,361 are restricted for these purposes. They are reported as restricted cash basis net assets in the Statement of Cash Receipts, Disbursements and Changes in Cash Basis Net Assets.

Also, pursuant to Chapter 567-113.14 of the Iowa Administrative Code (IAC), since the estimated closure and postclosure care costs are not fully funded, the Commission is required to demonstrate financial assurance for the unfunded costs. The Commission has adopted the dedicated fund financial assurance mechanism. Under this mechanism, the Commission must certify the following to the Iowa Department of Natural Resources:

- The fund is dedicated by local government statute as a reserve fund.
- Payments into the fund are made annually over a pay-in period of ten years or the permitted life of the landfill, whichever is shorter.
- Annual deposits to the fund are determined by the following formula:

$$NP = \frac{CE - CB}{Y}$$

NP = next payment

CE = total required financial assurance

CB = current balance of the fund

Y = number years remaining in the pay-in period

Chapter 567-113.14(8) of the IAC allows a government to choose the dedicated fund mechanism to demonstrate financial assurance and use the accounts established to satisfy the closure and postclosure care account requirements. Accordingly, the Commission is not required to establish closure and postclosure accounts in addition to the accounts established to comply with the dedicated fund financial assurance mechanism.

(7) Solid Waste Tonnage Fees Retained

The Commission has established an account for restricting and using solid waste tonnage fees retained by the Commission in accordance with Chapter 455B.310 of the Code of Iowa. At June 30, 2010, the unspent amounts retained by the Commission and restricted for the required specific purposes totaled \$111,733.

(8) Risk Management

The Commission is a member in the Iowa Communities Assurance Pool, as allowed by Chapter 670.7 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 634 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained to equal 200 percent of the total current members' basis rates or to comply with the requirements of any applicable regulatory authority having jurisdiction over the Pool.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses and reinsurance premiums, all of which are due and payable in the current year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The Commission's property and casualty contributions to the risk pool are recorded as disbursements from its operating funds at the time of payment to the risk pool. The Commission's contributions to the Pool for the year ended June 30, 2010 were \$11,979.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured in an amount not to exceed \$2,650,000 per claim and \$10,000,000 in aggregate per year. For members requiring specific coverage from \$3,000,000 to \$10,000,000, such excess coverage is also reinsured. Property and automobile physical damage risks are retained by the Pool up to \$150,000 each occurrence, each location, with excess coverage reinsured on an individual-member basis.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim or series of claims exceeds the amount of risk-sharing protection provided by the member's risk-sharing certificate, or in the event a series of casualty claims exhausts total members' equity plus any reinsurance and any excess risk-sharing recoveries, then payment of such claims shall be the obligation of the respective individual member. As of June 30, 2010, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days' prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Members withdrawing within the first six years of membership may receive a partial refund of their casualty capital contributions. If a member withdraws after the sixth year, the

member is refunded 100 percent of its casualty capital contributions. However, the refund is reduced by an amount equal to the annual casualty operating contribution which the withdrawing member would have made for the one-year period following withdrawal.

The Commission also carries commercial insurance purchased from other insurers for coverages associated with workers compensation, auto, commercial property, commercial inland marine, and employee blanket bond. The Commission assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(9) Equipment Loan

On February 12, 2009, the Commission entered into a loan for \$212,200 from Great Western Bank to purchase a Caterpillar tractor. The 4.75% per annum interest loan is to be repaid in eight semi-annual installments of \$29,488, which began on August 15, 2009. During the year ended June 30, 2010, the Commission paid \$58,976 on the loan, including principal of \$49,264 and interest of \$9,712. The balance on the loan at June 30, 2010 was \$162,936.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of a Financial Statement Performed in Accordance with
Government Auditing Standards

To the Members of the Wayne-Ringgold-Decatur County
Solid Waste Management Commission:

We have audited the accompanying financial statement of the Wayne-Ringgold-Decatur County Solid Waste Management Commission as of and for the year ended June 30, 2010, and have issued our report thereon dated March 7, 2011. Our report expressed an unqualified opinion on the financial statement which was prepared in conformity with an other comprehensive basis of accounting. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Wayne-Ringgold-Decatur County Solid Waste Management Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing our opinion on the effectiveness of the Wayne-Ringgold-Decatur County Solid Waste Management Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Wayne-Ringgold-Decatur County Solid Waste Management Commission's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses and other deficiencies we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the Wayne-Ringgold-Decatur County Solid Waste Management Commission's financial statement will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings as items (A) and (B) to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings as items (C) through (E) to be significant deficiencies.

Compliance and Other Matters

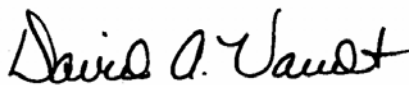

As part of obtaining reasonable assurance about whether the Wayne-Ringgold-Decatur County Solid Waste Management Commission's financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters which are described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the Commission's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statement of the Commission. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

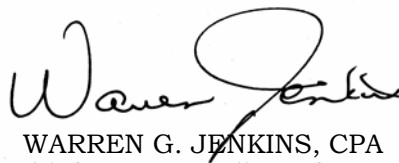

The Wayne-Ringgold-Decatur County Solid Waste Management Commission's written responses to findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the Commission's responses, we did not audit the Wayne-Ringgold-Decatur County Solid Waste Management Commission's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the members and customers of the Wayne-Ringgold-Decatur County Solid Waste Management Commission and other parties to whom the Commission may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Wayne-Ringgold-Decatur County Solid Waste Management Commission during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Solid Waste Management Commission

Schedule of Findings

June 30, 2010

Findings Related to the Financial Statement:

INTERNAL CONTROL DEFICIENCIES:

- (A) Segregation of Duties – During our review of internal control, the existing control activities are evaluated in order to determine incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and, therefore, maximizes the accuracy of the Commission’s financial statement. Generally, one individual has control over the bank reconciliations, disbursements, payroll, investments, receipts and accounts receivable.

Recommendation – We realize segregation of duties is difficult with a limited number of employees. However, the Commission should review its operating procedures to obtain the maximum internal control possible under the circumstances.

Response – We will work on different ways to handle different duties although it is a little tough with such a small group of employees.

Conclusion – Response accepted.

- (B) Bank Reconciliations – Bank reconciliations are performed on a monthly basis. However, the reconciliations are not properly reconciled to the book balances. In addition, the bank reconciliations are not reviewed by an independent person.

Recommendation - The bank balance should be reconciled to the book balance on a monthly basis. The bank reconciliations should be reviewed by an independent person, such as a Commission member, and the independent review should be evidenced by the signature or initials of the reviewer and the date of the review. Also, reconciling items, such as outstanding check listings, should be accurate and readily available so an independent person could reperform the bank reconciliation.

Response – We will work on this and have a Commission Member sign off on the reconciliations.

Conclusion – Response accepted.

- (C) Electronic Data Processing Systems - During our review of internal control, the existing control activities in the Commission’s computer based systems were evaluated in order to determine activities, from a control standpoint, were designed to provide reasonable assurance regarding the achievement of objectives in the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. The following weaknesses in the Commission’s computer based systems were noted:

The Commission does not have written policies for:

- password privacy and confidentiality.
- requiring passwords to be changed periodically.
- requiring strong passwords.

Wayne-Ringgold-Decatur County
Solid Waste Management Commission

Schedule of Findings

June 30, 2010

- usage of a time out or log off function to protect a terminal if left unattended.
- a screen saver password.
- ensuring only software licensed to the Commission is installed on computers.
- usage of the internet and email.

Also, the Commission has a written disaster recovery plan, but it does not include such things as the identification of staff responsibilities, computer equipment needed for temporary processing, alternate business locations and training for emergency situations.

Recommendation – The Commission should develop written policies addressing the above items in order to improve the Commission’s control over computer based systems. The disaster recovery plan should be further developed.

Response – We will contact the various software providers and see if we can come up with some way of complying.

Conclusion – Response accepted.

- (D) Disbursements – The Commission’s general practice is to have two signatures on checks. However, the Commissioner’s signature stamp is under the control of the individual who prepares and countersigns the checks. In addition, two disbursements tested could not be traced to supporting documentation.

Recommendation – The Commission’s signature stamp should be under the control of an independent person if not under the control of the Commissioner. Supporting documentation for all claims should be maintained.

Response – When a Commission Member is present they sign the checks, the stamp if used when a member is not present, but it may be possible to put the same under the care of a deputy in the County Auditor’s Office. The two claims paid were made to a person or company we use on a regular basis, checks were cashed and endorsed by those written to and have no idea what happened to the supporting documents.

Conclusion – Response accepted.

- (E) Investments - A detailed record of investment transactions was not maintained. Interest earned on investments is added to the principal. However, this was not being tracked in the investment ledger.

Recommendation - A detailed record of investment transactions should be maintained on a current basis. This record should include investment number, purchase date, redemption date, interest rate and amount of principal and interest. All interest earned should be recorded in the accounting records.

Response – The ledger includes the date of the last purchase of the investment, interest rates and the period of the investment, but we will add areas in the ledger to include your request.

Conclusion – Response accepted.

Wayne-Ringgold-Decatur County
Solid Waste Management Commission

Schedule of Findings

June 30, 2010

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

Wayne-Ringgold-Decatur County
Solid Waste Management Commission

Schedule of Findings

June 30, 2010

Other Findings Related to Required Statutory Reporting:

- (1) Questionable Disbursements – No disbursements we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.
- (2) Travel Expense – No disbursements of Commission money for travel expenses of spouses of Commission officials or employees were noted.
- (3) Commission Minutes – No transactions were found that we believe should have been approved in the Commission minutes but were not.

However, not all Commission minutes were published within 20 days as required by Chapter 28E.6 of the Code of Iowa.

Recommendation –The Commission should publish Commission minutes within 20 days to comply with Chapter 28E.6 of the Code of Iowa.

Response – We will work on getting them to the newspaper on a more timely basis.

Conclusion – Response accepted.

- (4) Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the Commission’s investment policy were noted.
- (5) Solid Waste Fees Retained – No instances of non-compliance with the solid waste fees used or retained in accordance with provisions of Chapter 455B.310 of the Code of Iowa were noted.

Schedule of Findings

June 30, 2010

- (6) Financial Assurance – The Commission has elected to demonstrate financial assurance for closure and postclosure care by establishing a local government dedicated fund as provided in Chapter 567-113.14(6) of the Iowa Administrative Code. The calculation is made as follows:

		Closure/ Postclosure Care	Total
Total estimated costs for closure and postclosure care at June 30, 2010	\$ 646,449	1,034,641	1,681,090
Less: Balance of funds held in the local dedicated fund at June 30, 2009	496,667	745,000	1,241,667
	149,782	289,641	439,423
Divided by the number of years remaining in the pay-in period	÷ 8	÷ 8	÷ 8
Required payment into the local dedicated fund for the year ended June 30, 2010	18,723	36,205	54,928
Balance of funds held in the local dedicated fund at June 30, 2009	496,667	745,000	1,241,667
Balance of funds required to be held in the local dedicated fund at June 30, 2010	\$ 515,390	781,205	1,296,595
Amount Commission has restricted for closure and postclosure care at June 30, 2010			\$ 1,304,361
