An old saying goes, "What's everybody's business is nobody's business." Since the first white settlers came to Iowa, precious little thought has been devoted to public records administration as a state-wide responsibility. As an illustration of this point, Iowa is presently one of two states in the Union that does not have a professional state archivist although there is much interest in some quarters in creating the position.

In 1977 the Division of the State Historical Society received funding from the National Historical Publications and Records Commission for a two-year study of county records. Precisely what records have been generated and retained by Iowa's 99 counties? To help answer this question, effort has been directed during the project's first year to inventorying the records in a representative sample of six counties - one from each of the state's six congressional districts. The document which follows is one of the initial half dozen inventories compiled by Mark H. Jones, Archivist for the County Records Project.

People will find this inventory useful for a variety of administrative, legal, and research purposes. Information and insights gained in the preparation of the inventory will also help to bring into focus public policy issues that transcend an individual county. For example, Mr. Jones is responsible for reporting on the general status of county records in Iowa. He will draft an Inventory Procedures Manual which will assist in the preparation of surveys beyond the sample group. He will also draft, with the aid of county and state officials, a Records Management Manual including a retention-disposal schedule which will help to bring order to the management of records in Iowa's courthouses. Finally, on the basis of his two years' experience with county records in Iowa, the project archivist will make recommendations for a permanent local records program for the state.

The National Historical Publications and Records Commission, the Iowa Historical Records Advisory Board, the State Historical Board, and several dedicated county officials have all supported this project in various ways. Special thanks are due to Joyce Giaquinta and Loren Horton of the State Historical Society's staff for being generous with their time and experience for the benefit of the County Records Project. Mrs. Giaquinta in fact got the project started by writing the initial grant application.

County Superintendent of Schools		p.44

Introduction

Ringgold County was created in 1847 and organized in 1855. Mt. Ayr is the County seat. County offices and records are located in the courthouse which was built in 1926.

Within the courthouse records are stored in the following rooms:

First Floor:	Assessor's Office; Commission of Veterans Affairs Office
Second Floor:	Auditor's Office and Vault; Treasurer's Office and Vault; Recorder's Office and Vault; Clerk's Office and Vault
Third Floor:	Sheriff's Office; Magistrate's Office; Engineer's Offices
Fourth Floor:	Attic Storage Room (Access through Sheriff's Office)

The following inventory was taken during the week of 20-27 January 1978. Entries are arranged according to the office of origin with the exception of County Auditor, REPORTS, and County Treasurer, TAXATION, SPECIAL ASSESSMENTS, TOWNS AND CITIES. Offices are arranged according to those elected (Auditor, Clerk of Court, Recorder, Sheriff, Treasurer) and those appointed by the Board of Supervisors (Commission of Veterans Affairs, County Assessor, County Engineer, County Magistrate, County Medical Examiner). Entries for Auditor are grouped in one section under three broad headings which reflect the legal areas of responsibilities faced by this office: Auditor, Auditor as Commissioner of Elections; Auditor as Clerk, Board of Supervisors. Within office sections entries are arranged according to alphabetical order except for MISCELLANEOUS, which appears at the end of sections.

Other arrangement problems are handled in the following ways. Entries for records of the MEDICAL EXAMINER (CORONER) are placed in

the Clerk of Court's section. Magistrate's and Justice's records are listed within the Clerk's section and a MAGISTRATE section. Records of the defunct County Superintendent of School's office are grouped in the last section of the inventory.

The following rules apply to the entries:

1. The first part of an entry represents the actual, latest title found on bindings, drawers, and boxes or within the series. Titles enclosed in brackets were generated by the surveyor. Information within single parantheses () completes the actual title or gives other titles found in the record series. Information within double parantheses (()) includes explanatory material or titles of several instruments found in the record series.
2. Dates generally represent inclusive filing dates or dates of entry. "ca." before a date indicates an approximation. N.D. means No Date.
3. The third piece of information gives the quantity and/or receptical of the record series. Absolute measurements were not obtained. A record series listed as 1/4 cu. ft., for example, indicates an approximate measure of loose documuments. One drawer or three boxes may indicate the total quantity of the record series or that the series is found in these three containers.
4. Index: Within Series means that every volume or box within the record series contains an index. Index: Partial Within Series indicates that only a few volumes contain indexing. Indexes separate from record series are noted by title, dates and quantity.
5. Floor and room locations represent areas of storage at the time of the inventory. The following code appears after every notation of indexing:

Assessor's Office	<u>1</u>
Commission of Veterans Affairs	<u>2</u>
Auditor's Office	<u>3</u>
Auditor's Vault	<u>4</u>
Treasurer's Office	<u>5</u>
Treasurer's Vault	<u>6</u>
Recorder's Office	<u>7</u>
Recorder's Vault	<u>8</u>
Clerk's Office	<u>9</u>
Clerk's Vault	<u>10</u>
Sheriff's Office	<u>11</u>
Magistrate's Office	<u>12</u>
Engineer's Offices	<u>13</u>
Attic Storage Room	<u>14</u>

The Ringgold County Board of Supervisors granted permission to

conduct the survey and county officers and staff members extended encouragement and assistance and approval of the contents of this inventory. Society Director Peter T. Harstad and staff members, Loren Horton and Joyce Giaquinta, gave advice and helpful suggestions. Vickie Hegwood typed the final copy, and she and Joyce Giaquinta proofread and made corrections. The Project Archivist thanks these persons for contributing to the preparation of this inventory.

Mark H. Jones
