Notice: Only the bid proposal holders receive this addendum and responsibility for notifying any potential subcontractors or suppliers remains with the proposal holder.

Add the following to the contract documents:

If dewatering is necessary to complete the project, and the water can't be discharged within the project limits other than into the existing drainage ditch and the Levee District assesses the contractor a fee for pumping water into the drainage ditch then the Contracting Authority will pay the invoiced costs charged the contractor by the Levee District. The contractor will be responsible for the cost of the pumping and the transport of the water to the drainage ditch.
