United States.....	9.59	11.30	11.70	32,145,207	37,546,840	35,784,360

All prices are marketing year average (MYA) prices which do not include allowances or adjustments for commodities under government loan at the end of the marketing year, commodities forfeited to the Commodity Credit Corporation, loan deficiency payments, direct and counter cyclical payments, or disaster payments.

State MYA price is based on sales in the months comprising its marketing year, while United States MYA prices are based on sales during the standard United States marketing year for each crop.

State value of production is computed by multiplying each state price by its production. Value of production estimates in the report relate to the crop year. These estimates should not be confused with cash receipts which relate to sales during a calendar year irrespective of the year of production.

**Farms: Number, Average Size, and Land in Farms, Iowa**

Year	Number of Farms	Average Size	Land in Farms	Year	Number of Farms	Average Size	Land in Farms
	<i>1,000 farms</i>	<i>Acres</i>	<i>Million acres</i>		<i>1,000 farms</i>	<i>Acres</i>	<i>Million acres</i>
