EXPLANATION

This Reference Guide is designed to facilitate the study of Iowa history. Ever since the State Historical Society was founded in 1857 a deep appreciation of the work of the pioneers has prevailed. This interest in historical foundations has been cultivated by the Society which, especially under the leadership of Dr. Benjamin F. Shambaugh, has been most active in the dissemination of trustworthy information. Research and publication have kept pace with the growing attention to the history of this Commonwealth so that the available materials are very extensive. In view of the current centennial anniversaries of Iowa beginnings and the approaching centennial of the admission of the State into the Union in 1846, knowledge of our heritage is particularly desirable. It is hoped that this compilation of historical writings will stimulate further investigation and understanding of the record of past achievements.

The purpose of A Reference Guide to Iowa History is to provide useful lists of references on many topics. Like One Hundred Topics in Iowa History issued in 1914 and Two Hundred Topics in Iowa History issued in 1932, this guide will be especially helpful to teachers, to persons interested in local history and active in county historical societies, to students who wish to read systematically, and to clubs which prepare programs in Iowa history. The object has been to cite materials which are available and accessible to general readers, rather than to present an exhaustive bibliography for research scholars.

In general the main divisions of the Reference Guide are arranged in logical sequence beginning with the natural setting of Iowa history and proceeding through the periods of exploration and settlement to the principal fields of activity and to the people who have made history in this Commonwealth. The order of the topics in each division follows a similar plan, but the specific references under each topic are listed alphabetically. To find a specific topic or reference, consult the detailed table of contents in the front or the index at the end of the bulletin.

A large number of the references are to historical magazines and periodicals — four of which have been published by the State Historical Society of Iowa, namely: the Annals of Iowa; the Iowa Historical Record; the Iowa Journal of History and Politics; and the Palimpsest. The Annals of Iowa, first series, cited here as Annals (1), includes twelve volumes and covers the years from 1863 to 1874. This series is
now out of print, and only a few libraries in the State have complete sets. A second series of the Annals of Iowa, cited here as Annals (2), containing three volumes, was published from 1882 to 1884. In 1885 the State Historical Society of Iowa began the publication of the Iowa Historical Record, cited here as Historical Record. It was continued until 1902 and contains eighteen volumes. The Annals of Iowa, third series, cited in this bulletin as Annals (3), is published at Des Moines by the State Department of History and Archives.

At present the State Historical Society of Iowa publishes two historical magazines: the Iowa Journal of History and Politics (referred to in the citations as the Iowa Journal), a quarterly which was begun in 1903; and the Palimpsest, a monthly periodical which was first issued in 1920.

Books published by the State Historical Society are marked SHSI, followed by the date of publication. In the case of books not published by the Society, the name of the publisher and the place and date of publication are given. Only a few references to rare and out-of-print books have been included.
