		Contact: Andy Nielsen
FOR RELEASE	May 23, 2012	515/281-5834

Auditor of State David A. Vaudt today released a report on the Iowa Braille and Sight Saving School, Vinton, Iowa, for the year ended June 30, 2010.

The School is governed by the Board of Regents, State of Iowa and provides residential and day school educational programs for visually impaired youth, as well as a variety of resource services for mainstreamed students. For the year ended June 30, 2010, the average enrollment was 9 students and the average cost per student was \$253,707, compared to an average enrollment of 12 students and an average cost per student of \$230,432 for the prior year. During the year ended June 30, 2010, the School provided outreach services to 453 students compared to 405 students in the year ended June 30, 2009.

A copy of the report is available for review at the Iowa Braille and Sight Saving School, in the Office of Auditor of State and on the Auditor of State's web site at <a href="http://auditor.iowa.gov/reports/1161-8040-BR00.pdf">http://auditor.iowa.gov/reports/1161-8040-BR00.pdf</a>.

Auditor of State

### OFFICE OF AUDITOR OF STATE

STATE OF IOWA

David A Vaudt, CPA Auditor of State

State Capitol Building
Des Moines, Iowa 50319-0004

Telephone (515) 281-5834 Facsimile (515) 242-6134

April 25, 2012

To the Members of the Board of Regents, State of Iowa:

The Iowa Braille and Sight Saving School is a part of the State of Iowa and, as such, has been included in our audits of the State's Comprehensive Annual Financial Report (CAFR) and the State's Single Audit Report for the year ended June 30, 2010.

In conducting our audits, we became aware of certain aspects concerning the School's operations for which we believe corrective action is necessary. As a result, we have developed recommendations which are reported on the following pages. We believe you should be aware of these recommendations, which include recommendations pertaining to the School's internal control and compliance with statutory requirements and other matters. These recommendations have been discussed with School personnel and their responses to the recommendations are included in this report. While we have expressed our conclusions on the School's responses, we did not audit the Iowa Braille and Sight Saving School's responses and, accordingly, we express no opinion on them.

Also, we have included on page 10 of this report certain unaudited financial and other information to report an average cost per student for the School for the five years ended June 30, 2010 as required by Chapter 11.28 of the Code of Iowa.

This report, a public record by law, is intended solely for the information and use of the officials and employees of the Iowa Braille and Sight Saving School, citizens of the State of Iowa and other parties to whom the Iowa Braille and Sight Saving School may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Iowa Braille and Sight Saving School during the course of our audits. Should you have questions concerning the above matters, we shall be pleased to discuss them with you at your convenience. Individuals who participated in our audits of the Iowa Braille and Sight Saving School are listed on page 9 and they are available to discuss these matters with you.

DAVID A. VAUDT, CPA Auditor of State WARREN G. JENKINS, CPA Chief Deputy Auditor of State

cc: Honorable Terry E. Branstad, Governor David Roederer, Director, Department of Management Glen P. Dickinson, Director, Legislative Services Agency

### Findings Reported in the State's Single Audit Report:

No matters were noted.

### Findings Reported in the State's Report on Internal Control:

No matters were noted.

### Other Finding Related to Internal Control:

- (A) <u>Segregation of Duties</u> One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. The following areas were noted where there is inadequate segregation of duties:
  - (1) Responsibilities for receipt collection, deposit preparation and reconciliation functions are not segregated from those of recording and accounting for receipts.
  - (2) Responsibilities for disbursement preparation are not segregated from those for recording cash disbursements.
  - (3) Responsibilities for check signing are not segregated from those for reconciling cash.

<u>Recommendation</u> – We realize segregation of duties is difficult with a limited number of office employees. However, the School should review its control activities to obtain the maximum internal control possible under the circumstances.

### Response -

- (1) IBSSS will implement a procedure to have the Account Specialist review and initial all deposits prepared by the Account Clerk.
- (2) Accounts payable disbursements are approved (signed and dated) by the Director of Business Operations. In addition, a check sequence log is kept and initialed by the Director of Business Operations on a weekly basis. Regarding payroll disbursements, bi-weekly timesheets are viewed and signed off on by the Director of Human Resources.
- (3) The Director of Business Operations continues to review and initial the monthly cash reconciliation prepared by the Account Specialist. The IBSSS will investigate procedures which will strengthen this segregation of duties weakness.

### <u>Conclusion</u> – Response accepted.

- (B) <u>General Ledger System</u> We noted the following regarding the School's general ledger accounting system:
  - (1) The general ledger system does not carry forward fiscal year beginning or ending balances for balance sheet accounts until the fiscal year is closed. Accordingly, the system does not report a balance until the books are closed. While the balance can be calculated by taking the prior ending balance and adding monthly activity, this process is cumbersome and time consuming and there is no assurance prior year ending balances are properly carried forward to ensure the calculation is accurate.

- (2) To perform the monthly bank reconciliation, a report showing "cash per the checkbook" is printed from the system and used to reconcile the book balance to the bank balance. However, "cash per the checkbook" cannot be verified against the cash per the general ledger for the reason noted above. We determined printouts are available showing transactions clearing the checkbook and transactions not clearing the checkbook. However, per discussion with School personnel, it is possible for "cash per the checkbook" not to agree with cash per the general ledger because journal entries posted to the general ledger are not reflected in the "checkbook balance" on the system.
- (3) Outstanding checks totaling \$488,701 were not carried forward during the School's conversion to new accounting software. Accordingly, cash per the system is overstated by this amount. Per discussion with School personnel, they are unsure how to correct this, so the variance remains and is carried forward each month as a reconciling item.
- (4) The School reports General, Special Revenue, Private Purpose Trust and Agency Funds. However, entries on the system are made only to the General Fund cash account. Accordingly, cash balances of each of the other three funds do not change, even though activity occurs in these funds monthly.
- <u>Recommendation</u> The general ledger accounting system should be reviewed to determine whether the system meets the accounting needs of the School. School personnel may also need additional training to ensure they understand how to properly use the system.

### Response -

- (1) IBSSS has worked with the Microsoft Great Plains Dynamic software vendor to better understand the software's fiscal year end closing process. IBSSS will close the current year under audit review prior to audit field work. This audit finding will be present in FY2011.
- (2) IBSSS has worked with the Microsoft Great Plains Dynamics software vendor to better understand the software's bank reconciliation process. IBSSS corrected the \$488,701 error in FY2011.
- (3) IBSSS has worked with the Microsoft Great Plains Dynamics software vendor to better understand the software's fiscal year end closing process. The software vendor noted activity for all the cash accounts can be reconciled from the cash operating account and an interfund entry made to correct the cash accounts activity. This audit finding will be present in FY2011.

<u>Conclusion</u> – Response accepted.

### Report of Recommendations to the

### Iowa Braille and Sight Saving School

June 30, 2010

- (C) <u>Bank Reconciliation</u> A reconciliation of bank to book balances for June 30, 2010 was not performed timely and, as noted below, cash reported in the GAAP package did not reconcile to the bank balance by \$562,135.
  - <u>Recommendation</u> The School should establish procedures to ensure monthly bank to book reconciliations are performed timely and variances are resolved monthly.
  - <u>Response</u> IBSSS worked with the Microsoft Great Plains Dynamic Software vendor to better understand the software's closing and bank reconciliation process. The bank statement has reconciled to the balance sheet cash balance for all of the first nine months of FY2012. This audit finding will be present in FY2011.

<u>Conclusion</u> - Response accepted.

- (D) <u>Financial Reporting/GAAP Package</u> During the audit, we identified the following errors in the School's fiscal year 2010 GAAP Package:
  - (1) Cash reported in the GAAP Package compared to the bank reconciliation was understated by \$562,135. The understatement resulted from an understatement of cash of \$1,050,836, primarily due to checks issued in July 2010 but posted to June 2010, offset by a \$488,701 overstatement of cash which occurred when the School converted to new accounting system software. The conversion process failed to carry over \$488,701 of outstanding checks, thereby overstating the cash balance in the new system. This error remains uncorrected in the general ledger.
  - (2) The June 30, 2010 vehicle replacement cash balance was understated by \$46,925. The balance was reported as (\$48,175) but should have been reported as (\$1,250).
  - (3) The compensated absences liability at June 30, 2010 was overstated by \$8,376.

<u>Recommendation</u> – The School should implement procedures to ensure all transactions are properly reported in the GAAP Package.

### Response -

- (1) IBSSS has worked with the Microsoft Great Plains Dynamic software vendor to better understand the software's fiscal year end closing and bank reconciliation process. IBSSS corrected the \$488,701 error in FY2011. This audit finding will be present in FY2011.
- (2) Greater care will be given when reporting the vehicle replacement cash value in the GAAP package. FY2011 vehicle replacement cash value was correctly reported in the GAAP package.
- (3) Greater care will be given when calculating the compensated absence liability. The overstatement has corrected itself in FY2011 and reported correctly in the GAAP package.

Conclusion - Response accepted.

- (E) <u>Data Processing System</u> The School does not have a written policy for requiring passwords to be changed at least every 60-90 days. In addition, the School does not have a written disaster recovery plan.
  - <u>Recommendation</u> The School should develop a written policy requiring passwords be changed timely. A written disaster recovery plan should be developed. At a minimum, the plan should identify computer equipment needed for temporary processing and paper supplies, such as checks, warrants, purchase orders, etc., which should be located off-site. Additionally, copies of user documentation and the disaster recovery plan itself should be maintained at an off-site location.
  - Response The automatic Windows user password change occurs every 180 days. This will be changed to 90 days. Regarding the Great Plains Dynamics user password, there is not automatic login password notice. IBSSS will implement a procedure to have the Great Plains Dynamics users passwords changed every 90 days. IBSSS does have an Accounting System Safeguards policy. The policy was adopted in 1996 and needs updating. The Superintendent, Director of Business Operations and Information Technology Specialist will update the policy. The policy will then be reviewed and approved by the IBSSS Cabinet. This will be an audit finding in FY2011

<u>Conclusion</u> – Response accepted.

- (F) <u>Credit Card Policy</u> The School has a credit card and several store charge accounts for use by employees to purchase items for the School. The School has not adopted a formal policy to regulate the use of the credit card and store charge accounts.
  - <u>Recommendation</u> The School should adopt a formal written policy regulating the use of the credit card and store charge accounts. The policy should, at a minimum, address who controls the credit card, who is authorized to use the credit card and store charge accounts, for what purposes the credit card and store charge accounts can be used and the supporting documentation required to substantiate charges.
  - <u>Response</u> IBSSS has drafted a credit card purchases policy. Per the recommendation noted above, the credit card purchases policy will be expanded to encompass store charge accounts. The policy will then be reviewed and approved by the IBSSS Cabinet. This will be an audit finding in FY2011.

Conclusion - Response accepted.

### Findings Related to Statutory Requirements and Other Matters:

- (1) <u>Electronic Check Retention</u> Chapter 554D.114 of the Code of Iowa allows entities to retain cancelled checks in an electronic format and requires retention in this manner to include an image of both the front and back of each cancelled check. The School does not obtain an image of the back of each cancelled check.
  - <u>Recommendation</u> The School should obtain and retain an image of both the front and back of each cancelled check as required by the Code of Iowa.
  - Response IBSSS did have cancelled checks in an electronic format which included images of both the front and back of each cancelled check on site for the entire FY2010 as required by Chapter 5554D.114 of the Code of Iowa. The electronic format which provided compliance with Chapter 554D.114 of the Code of Iowa was discontinued July 1, 2010 due to cost restraints but will be reinstated in FY2012. This will be an audit finding in FY2011.

<u>Conclusion</u> – Response accepted.

### Staff:

Questions or requests for further assistance should be directed to:

Marlys K. Gaston, CPA, Manager Jenny M. Podrebarac, Staff Auditor Andrew E. Nielsen, CPA, Deputy Auditor of State

Other individuals who participated on the audits include:

Darryl J. Brumm, CPA, Senior Auditor II Kristin M. Ockenfels, Staff Auditor Aaron P. Wagner, CPA, Staff Auditor Clinton J. Krapfl, Assistant Auditor Brooke A. Lytle, Assistant Auditor Justin M. Scherrman, Assistant Auditor Brandon J. Vogel, Assistant Auditor

### Iowa Braille and Sight Saving School

### Average Cost per Student

(Unaudited)

### Year ended June 30, 2010

### with comparative figures for the four preceding years

_	Average N	Number of	Total	Average Cost Per
Year	Students	Employees	Expenditures	Student *
2010	9	107	\$ 2,283,363	\$ 253,707 **
2009	12	95	2,765,184	230,432 **
2008	17	95	2,963,950	174,350 **
2007	26	112	4,285,112	164,812 **
2006	31	128	4,586,977	147,967 **

- \* The average cost per student excludes expenditures for outreach services. For fiscal years 2010, 2009, 2008, 2007 and 2006, the School provided outreach services to 453, 405, 398, 497 and 510 students, respectively. For fiscal year 2010, the average cost for outreach services per student was \$13,424.
- \*\* For fiscal years 2010, 2009, 2008, 2007 and 2006, capital outlay for construction in progress totaling \$2,266,060, \$204,627, \$993,492, \$577,106 and \$697,570, respectively, paid by the Iowa Braille and Sight Saving School were removed from costs for purposes of this computation.

See accompanying independent auditor's report.
