On Feb. 20 and 21, Feb. 25 and 26 and March 1 and 2, when a player buys either a Pick 3 or Pick 4 evening play, they'll receive a free play for the midday Pick 3 drawing.

When retailers sell the evening play for Pick 3 or Pick 4 during these special time periods, the free Pick 3 midday play will be generated automatically by the lotto terminal.

## At A Glance...

### On This Date in Iowa Lottery History . . .

**Feb. 11, 1988**—The LOTTO\*AMERICA game began sales with a 7 of 40 matrix. This game was offered by seven different lotteries (Oregon, Kansas, Missouri, West Virginia, Rhode Island, Washington, D.C. and Iowa) to produce jackpots much larger than could be produced by any of those lotteries alone. This game was the predecessor to Powerball, which replaced it in 1992.

### Notice: Surcharge to Change March 1

The surcharge on dishonored electronic funds transfers, checks, drafts or orders will increase to \$30 effective March 1, 2004.

### Electronic Game Card Distribution Limited

A new icon will appear soon in the manual cashing section on your lottery terminal. This will be used for the upcoming electronic game card called "Quarter Play." Initially the game card will only be distributed in a limited area around Cedar Rapids. However, distribution could continue statewide if the concept is well received by players. Most retailers won't need to use the icon right away, but those who do will use it to validate the new game card. More details will follow for those who will be using it.

### Check Your Terminal's Paper Supply Often

With the Heating Bills Raffle Promotion still running through Feb. 14, you should check your lotto terminal's paper supply, as it may run out quickly. You'll also likely be printing out the winning raffle numbers from your terminal. Check inside this edition for how to do this. Remember that all supplies should be ordered through Scientific Games, either on the terminal or by calling 1-800-858-4744.

# 'Recycle' Mistake Powerball/Hot Lotto Tickets

Everybody makes mistakes. Even if your mistake happens to be a Powerball or Hot Lotto play made in error, it doesn't have to be the end of the world!

Let's review the steps you must take to handle a "mistake" Powerball or Hot Lotto ticket.

## If the ticket did not print or the ticket is misprinted or mutilated so it can't be validated:

- The defective play must be confirmed by immediately producing a REPRINT ticket.
- Call the SGI hotline at 800-858-4744. They will provide you

with a Control Number. They'll also help you get the information needed to report the problem to the lottery and, if necessary, help you produce the REPRINT ticket.

- Any or all parts of the defective ticket, along with the REPRINT ticket and Control Number, must be returned to the lottery in the retailer settlement envelope.
- When the lottery receives the defective ticket and the REPRINT ticket, we'll examine it and then issue credit to the retailer for the cost of the ticket. You can't receive credit if you don't follow the first three steps!

## If the ticket is printed correctly by the terminal, but the clerk or the player makes an error:

- Call the SGI hotline to report the problem and correct ticket information. A Control Number will be provided.
- **Remember, the ticket is still valid and can be sold.** If you can't sell the ticket, validate it for any prizes won on the ticket after all draws have passed. Then send the ticket and the control number to the lottery in the retailer settlement envelope. The lottery will credit you for the cost of the ticket less any winnings.

## The most common reasons for denying credit:

- 1) The retailer did not call SGI.
- 2) No ticket or play was sent to the lottery.

In short, if you don't follow the steps outlined above, you are out of luck!

Why not sell the ticket? Unless the problem ticket is a mutilated ticket, why not try to sell it to one of your other customers? Especially during busy, high-jackpot times, your customers may be more willing to take that ticket than stand in line. 🎰
