Legal Authority Iowa Code 124, 126, 147, 155A, and 272C

Job Description Pharmacists compound and dispense medications pursuant to prescriptions issued by physicians, dentists, or other authorized health professionals (MD, DO, DDS, DVM, DPM, OD, PA or ARNP). They weigh, measure, and mix drugs and other medicinal compounds, and fill bottles or capsules with the correct quantity and composition of preparation; dispense non-prescription medication to public; counsel patients and answer patients' questions regarding prescription medication; use refrigeration and other methods to store and preserve biological and other drugs, vaccines, and serums subject to deterioration; order and maintain supplies of drugs, chemicals, and other pharmaceutical stock; maintain up-to-date patient medication profiles; advise physicians on the proper selection and use of medicines; and, perform prospective and retrospective drug utilization review.

"Practice of pharmacy" is a dynamic patient-oriented health service profession that applies a scientific body of knowledge to improve and promote patient health by means of appropriate drug use and related drug therapy.

Education & Experience Required An applicant for a license to practice pharmacy must be a graduate of an accredited college or school of pharmacy with a minimum of bachelor of science in Pharmacy. One thousand hours of internship credit is awarded upon graduation from an accredited college of pharmacy. Applicants for Iowa license by examination must complete an additional 500 hours internship in hospital or community practice. Credit may be granted for experience obtained non-concurrent with school. A maximum of 250 hours of the required 500 hours may be granted for preapproved non-traditional experience. Intern registration is required prior to employment as an intern. No credit will be granted prior to registration.

A license may be issued to anyone who has been licensed in another state if they are able to meet Iowa's licensing requirements. A fee is due to the Pharmacy Board for such reciprocal licenses in addition to the appropriate fees to the original license state, the National Association of Boards of Pharmacy, as well as an examination fee.

Continuing Education Pharmacists must take thirty hours or 3.0 CEU of continuing education during a two-year period. At least fifty percent must be courses approved by the American Council on Pharmaceutical Education (ACPE) dealing with drug therapy.

Examination Computerized examinations are administered daily at authorized computer testing centers nationwide.
