INTRODUCTION

I am pleased to present the FY13 (July 1, 2012 – June 30, 2013) performance report for the Iowa Department of Inspections and Appeals (Department). This report is published to provide the Governor, the legislature, department employees, and citizens with information about the challenges and accomplishments of the Department during FY13.

The biggest **key strategic challenge** facing the agency is continuing to deliver timely and accurate services that are critical to our mission within available human and financial resources.

Another **key strategic challenge** is to identify ways to improve collaboration and communication with internal and external customers and stakeholders to accomplish our mission and vision.

Major accomplishments during FY13 include:

- The average age of pending Unemployment Insurance appeal cases is 24 days, compared to the federal Department of Labor guidelines of 40 days.
- 92.3% of the children served by the Child Advocacy Board were safe from re-abuse.

- 93% of racing and gaming occupational licensees received no serious violations after licensure.
- 100% of all health care facility complaint investigations triaged as immediate jeopardy (harm) were initiated within the federally mandated timeframes.
- The Investigation Division collected \$3.9M of new public assistance money.

We invite all citizens and our customers and stakeholders to join with us to protect public interests and integrity of executive branch programs.

Respectfully submitted,

Rod Roberts
Director

AGENCY OVERVIEW

The Department of Inspections and Appeals is a diverse regulatory agency established to protect the public through the enforcement of state and federal laws.

The services, products and activities of the Department relate to five core functions: Adjudication/Dispute Resolution; Advocacy; Legal Representation; Regulation and Compliance; and Resource Management.

Our Vision is to be “an adaptable organization dedicated to objective, consistent regulation.”

Our Mission is to “investigate, regulate and adjudicate to ensure program integrity and to protect the health, safety and welfare of lowans.”

Seven principles guide us in upholding the law through:

- Leadership
- Strategic Planning/Deployment
- Customer Focus
- Performance Measurement & Analysis
- Employee Engagement
- Continuous Improvement/Lean
- Results

The Department consists of four operating divisions and five attached units.

- The **Administration Division** provides essential, centralized fiscal and administrative services, such as budget preparation, accounts payable and receivable, personnel, public information, purchasing, lease and vehicle management, legislative affairs, strategic and performance planning, and legal counsel.

The Division regulates social and charitable gambling activities to protect the public from incidence of fraudulent or illegal activities and certifies targeted small businesses for eligibility for state loans and procurement opportunities.

The Division conducts (either through state inspectors or contracts with local boards of health) food safety inspections of restaurants, grocery stores, food processing plants, and vending machines to ensure consumers receive safe and wholesome food. It also conducts sanitation inspections of barber and cosmetology shops and hotels and motels to ensure lowans receive clean service.

The Director enters into, implements and enforces compacts between the State of Iowa and Indian tribes to operate Indian gaming

establishments in accordance with federal law.

- The **Administrative Hearings Division** affords citizens due process for adverse actions taken by state agencies. The Division conducts contested case hearings involving lowans who disagree with decisions issued by state government agencies. The Division issues a proposed decision subject to final review by the Director of the agency involved in the contested case proceeding. During FY13, the Division disposed of 13,379 cases. Close to half of the hearings involve lowans who have disputes regarding public benefits or other matters regulated by the Department of Human Services.

- The **Health Facilities Division** enhances the safety, security and general welfare of the persons served in over 4,000 regulated entities. The Division inspects/monitors, licenses and/or certifies under the Medicare and Medicaid Programs health care providers and suppliers, which includes long-term care facilities, hospitals, hospices, end-stage renal disease units, rural health clinics, elder group homes, assisted living programs, adult day services programs and child-placing agencies.

The Division also provides staff for the **Hospital Licensing Board**, which consults with and advises the Division in matters of policy affecting administration of Iowa Code chapter 135B, including reviewing and approving rules and standards prior to adoption.

- The **Investigations Division** works to ensure misspent public assistance moneys obtained through fraud, inadvertent error or agency error are identified and collected so that only eligible applicants receive them in the appropriate amounts. The Division also provides necessary and timely information so the Iowa Department of Public Health can appropriately address professional licensing complaints. In addition, the Division ensures compliance with applicable federal and state financial requirements by DHS offices and health care facilities.

- The **Child Advocacy Board** works to ensure effective permanency planning for all children in out of home placement through advocacy. The Board accomplishes this purpose through local citizen foster care review boards, foster care registry and the Court Appointed Special Advocate volunteer program. In addition, the Board makes recommendations to the Governor, Legislature, Supreme Court, Chief Judge of each Judicial District, Iowa Department of Human Services, and child-placing agencies on ways to improve the delivery of foster care services and remove barriers that prevent the delivery of top-quality foster care.

- The **Employment Appeal Board** timely adjudicates the rights and duties of workers and employers under unemployment insurance laws, decides final resolution of contested OSHA and contractor registration violations, and handles

personnel-related cases. The Board serves as the final administrative law forum for unemployment benefit appeals.

- The **Racing and Gaming Commission** works to protect the public from incidence of fraudulent or illegal activities at pari-mutuel racetracks and excursion boat gambling. It also works to protect the health and welfare of the racing animals. The Commission licenses eligible applicants for employment and sets and enforces standards for the licensing of industry occupations and for the operation of all racetracks and excursion gambling boats.

- The **State Public Defender** provides high-quality, cost-efficient legal representation to indigent clients in state criminal court, juvenile court, and other proceedings as required by law in those areas of the state where local public defenders exist. The provision of legal services to indigent clients is constitutionally mandated. In Iowa, these services are provided through a combined system of local public defenders and private attorneys. The State Public Defender also has jurisdiction over the Indigent Defense Fund, which provides funds to pay for indigent defense and ancillary services provided by private and contract attorneys and miscellaneous vendors, such as expert witnesses and court reporters. Indigent defense services are constitutionally mandated, which requires these services to be paid by the state. The Indigent Defense Fund pays for those indigent

services not covered by local public defenders. (SPD will be filing their own agency report).

- The Department's **customers** and **stakeholders** include state agencies; municipal corporations; citizens (adults and children); federal government agencies; consumers of elder group homes, tenants of assisted living programs, consumers of adult day service programs, residents of health care facilities; health care providers; licensees; industry and advocacy associations; targeted small businesses; other businesses; unemployed persons; indigent persons; attorneys; law enforcement; the legislature; and the court system.

STRATEGIC PLAN RESULTS

STRATEGIC PLAN

Key Strategic Challenges and Opportunities:

The protection of public interests and executive branch program integrity is the key result of the mission of the Iowa Department of Inspections and Appeals (Department). Accomplishing that result is challenged by the ability to continue to deliver timely and accurate services with reduced human and financial resources and to overcome any negative perception of our regulatory and oversight role.

To address these strategic challenges, the Department established three long-term goals and associated key strategies:

Goal #1: Improve access to information and awareness of DIA responsibilities.

Strategies:

- 1.1 Develop and implement a more interactive website
- 1.2 Maximize technology opportunities
- 1.3 Expand web-based licensing and payment options for applicants and debtors
- 1.4 Educate the public about DIA

Goal # 2: Create a work environment that allows employees to maximize their talents and opportunities.

Strategies:

- 2.1 Management interacts frequently with field staff in the field
- 2.2 Provide effective management and supervision of staff
- 2.3 Provide mentoring opportunities for staff
- 2.4 Empower employees to make decisions and change processes
- 2.5 Provide adequate training to maximize potential
- 2.6 Expand use of LEAN government events
- 2.7 Use new technologies and efficiencies that allow for government savings

Goal # 3: Regulations meet the state's changing demographics.

Strategies:

- 3.1 Review and update administrative rules
- 3.2 Review programs DIA currently is responsible for and evaluate need/priority
- 3.3 Expand multilingual capabilities
- 3.4 Evaluate changing demographics and impact on programs
