EIGHTEENTH REPORT

OF THE

Iowa Library Commission

MADE TO THE

GOVERNOR OF IOWA

FOR THE

**BIENNIAL PERIOD JULY 1, 1934 TO
JUNE 30, 1936**

JULIA A. ROBINSON,
Secretary

Pulished by
THE STATE OF IOWA
Des Moines

LETTER OF TRANSMITTAL

To HONORABLE CLYDE L. HERRING, *Governor of Iowa*:

In compliance with Section 4539, Code of 1935, I herewith transmit the eighteenth report of the Iowa Library Commission for the biennial period, July 1, 1934 to June 30, 1936.

JULIA A. ROBINSON, *Secretary,*
Iowa Library Commission.

Des Moines, Iowa, November 1, 1936.

IOWA LIBRARY COMMISSION

MEMBERS EX-OFFICIIS

* JOHNSON BRIGHAM, *State Librarian, Chairman.*
DR. E. A. GILMORE, *President State University.*
AGNES SAMUELSON, *State Superintendent Public Instruction.*

MEMBERS APPOINTED BY THE GOVERNOR

ARTHUR E. THOMPSON, Sioux City.
MRS. D. S. HUMESTON, Albia.
MRS. H. H. TEDFORD, Mount Ayr.

JULIA A. ROBINSON, *Secretary and Director of Library Extension*
HEADQUARTERS: State Historical Building

* Died—October 8, 1936.

REPORT OF THE IOWA LIBRARY COMMISSION, 1936

MEMBERSHIP AND OFFICE STAFF

Three appointments were made during the biennium in the membership of the Library Commission to fill expiring terms: Mr. A. E. Thompson, of Sioux City, for the term expiring in 1938; Mrs. D. S. Humeston, in 1939; and Mrs. J. C. Pryor, in 1940.

Three changes have also occurred on the office staff caused by resignations. All the staff positions are filled by competent people.

ACTIVITIES

The activities of the Iowa Library Commission authorized by law are two-fold: (1) Extension and supervision and (2) the loan of books through the Traveling Library.

EXTENSION AND SUPERVISION

This activity covers the work with the libraries of the state in help given in the formation of new libraries and supervision of and assistance to libraries in existence, making for greater efficiency. Under this activity is reported:

LIBRARY CONDITIONS IN IOWA

In many states, tax support for libraries in towns of a population of 3,000 or less is discouraged. The reason for this is that the amount received would be wholly inadequate to maintain an efficient library furnishing reading for the schools as well as the adults, doing reference work and being open a sufficient number of hours to allow school service. Another need is the employment of a competent librarian to do this work.

In Iowa, however, the desire for library service is so great that many very small towns have sought and secured tax support although their population falls much below the size indicated above and this is done without the knowledge or advice of the Library Commission and the result is that

we have in Iowa a large number of small towns which are serving their communities in a very inefficient and inadequate manner. Instead of listing the new and old libraries together, the new are made to follow the old. For these lists and figures see the general Library Statistics at the close of this report.

Without the help of the Traveling Library few of the new libraries could function at all and even with the help given by the Library Commission they fail to be of real value to the community. The Planning Board of the state of Iowa should furnish a solution to this problem which should be put into immediate execution by legislative action. See list under General Statistics.

Association Libraries. New association libraries not having tax support have been organized at Adair, Aurelia, Bayard, Bradgate, Charter Oak, Dow City, Everly, Irwin, Lakota, Larchwood, Lone Tree, Moville, Oakland, Ruthven, Thurman, Wall Lake, and Wilton Junction. Libraries not reporting or listed in last report have been revived at Birmingham, Farnhamville, Gravity, Letts, Lohrville, Sharpsburg, Shelby, Silver City, and Wayland.

Library Buildings. No new buildings or gifts for buildings are to be reported for the past two years. At Callender and McGregor, a store or bank building has been given to the town and remodeled for Library use.

Gifts. During the past two years the following libraries have received gifts in the amounts indicated:

Algona, \$200.00 from Mrs. Florence Call Cowles.

Charles City, \$1,000.00 for books through bequest of Mrs. Kate G. Ellis, former member of the library board.

Eagle Grove, \$1,000.00 by bequest of Elsie Dann, former librarian, for children's books.

Fort Dodge, \$1,000.00 through bequest of Mrs. Alice Granger.

Grinnell, Grinnell College, \$5,000.00 from anonymous friends for books on International Relations and Peace in memory of Professor H. G. Campbell, of Morningside College.

McGregor, the town received a gift of a two-story brick building for library use.

New London, by the will of Henry J. Nugent, was to receive \$50,000.00, \$10,000.00 for a building and the balance for the maintenance of a library. The will is being contested and result undecided.

Odebolt, \$1,000 will of W. A. Helsell.

Oskaloosa, Penn College, received \$8,500.00 from Judge J. Kelly Johnson as a memorial fund, the interest to be expended by the library.

Salem, received fifteen to twenty thousand dollars for a library building and endowment.

Tipton, \$200.00 by legacy of Matt Thiel; \$500.00 legacy of W. T. Gilmore.

Iowa State College, Ames, has received the music library of Frederick Schneider, valued at \$1,000.00.

PWA AND WPA AND LIBRARIES

A number of libraries in the state have received help in the renovation of their building by the PWA, others have received help in mending from the WPA.

In Polk County a library project has been in progress by which thirty to forty people have been employed in mending books and giving such other help as untrained people are able to give in the libraries of the schools of the county. The employment of a trained librarian, Mrs. Dorothy Donahoe, as supervisor, has alone assured this work being done in a satisfactory manner.

The help received from the WPA has been in many cases very unsatisfactory inasmuch as the people available and assigned for the work were people without any library qualifications, yet in some few cases work of value to the library has been done.

SCHOOL LIBRARIES

Again the fact that there is no supervisor of school libraries working under either the Library Commission or the State Department of Public Instruction, makes it impossible to state how many school libraries exist in Iowa or the number of volumes which are available in these libraries. Many schools receive almost all their books, others books to supplement their own collections, from the Traveling Library.

Without this help many school libraries would be without books.

In some cases the county Superintendent borrows books for the rural schools of the entire county and this would be a desirable way of furnishing books, did the Traveling Library have an adequate number of volumes to loan.

In but few schools of the state is a librarian employed. In a few, a teacher-librarian is in charge of the library and in a few of the larger cities there is a trained librarian. But this phase of library work should be very much enlarged and receive direct supervision of some one charged with that work.

I. F. W. C. Survey. The Library extension division of the Iowa Federation of Women's Clubs, under the chairmanship of Mrs. Gordon Hayes, of Red Oak, working through the committee representatives in the counties have done a very good piece of work in securing information regarding Library facilities in many counties. The work is naturally not complete because of lack of cooperation on the part of some from whom this information must be secured.

LIBRARY MEETINGS

State Meetings. In October, 1934, the Iowa Library Association was held in Des Moines, with attendance of 237. In 1935 the association met in Sioux City with an attendance of 168. The president of the association in 1934-35 was May B. Ditch, librarian of the Ottumwa Public Library, and in 1935-36, the president is Mildred N. Pike, librarian of the Sioux City Public Library. The meeting for 1936 will be held in Des Moines in November, one day session being held in connection with that of the State Teacher's Association.

District Meetings. Eight district meetings in which the Iowa Library Association and the Iowa Library Commission cooperate are held each spring, attended by the president of the association and the secretary of the Library Commission. The 1935 meetings were held in Ames, Iowa City, Cedar Falls, Villisca, Centerville, Algona, Sanborn, and Rockwell City. The meetings for 1936 were held at Storm Lake, Audubon, Corning, Cedar Rapids, Garner, Nashua, Marshalltown, and Bloomfield.

Library Section State Teachers' Association meetings were held in 1935 in the offices of the Library Commission and will be held in 1936 in connection with the school library section of the Iowa Library Association during the meetings of Library Association and State Teachers' Association in Des Moines.

American Library Association conferences were held in 1935 in Denver, attended by Miss Robinson, and in 1936 at Richmond. Miss Lelia S. Wilson, librarian of the Traveling Library attended the meeting. Mr. Brigham's ill health prevented his attending either of these meetings.

SUMMER LIBRARY SCHOOL

In 1936 the Iowa Summer Library School, which had been discontinued for three years was resumed with a total attendance of 43, divided among the different states as follows: Iowa, 32; Illinois and Wisconsin, 3 each; Indiana, 2; and Kansas, Louisiana, Nebraska, and South Dakota, 1 each. Many of these students already had positions before coming to the school.

LYDIA ROBERTS SCHOLARSHIP

A scholarship for librarians at Columbia University was left by Lydia Roberts for Iowa students, born in Iowa and graduating from Iowa colleges, and who will agree to return for two years' work in Iowa.

The librarians receiving the grant in 1935-36 were Mary E. Brindley, of Ames, and Harold D. Petersen, of Fort Dodge. In 1936-37, Mary E. Brindley received the scholarship again to enable her to secure her master's degree. Ruth Josephine Cubbage was the other recipient.

PUBLICATIONS

At the close of 1936 the *Iowa Library Quarterly* will complete its twelfth volume, and thirty-sixth year of publication, the first number having been issued in January, 1901. The first four volumes contain but four numbers each, but since 1904 a volume has included sixteen numbers for four years. The index covering the sixteen numbers is included at the close of each volume.

This is one of the methods of giving aid to libraries through the publication of helpful articles and items of library news.

Blanks for daily, monthly, and annual reports for budget and tax certificates and leaflets explanatory of the Traveling Library are supplied as in the past.

A Monthly Book List to assist librarians in their book selections is prepared by the Secretary of the Library Commission and mailed on mimeographed sheets to all the libraries of the state. While the purchase of these books is not compulsory, the list is suggestive and valuable to libraries having no access to late books or book reviews.

BOOK WEEK

The Library Commission cooperates with libraries, schools, women's clubs, parent-teachers' associations, and other organizations in the observance of book week by the loan of books and posters for display, and of leaflets and book lists for distribution, and with suggestions for the observance of the week, thus aiding in the promotion of good reading among the boys and girls of the state. The observance of this week has grown among all organizations during the past few years. The theme for 1935 was "Reading for fun," and the theme for 1936 will be "Books to grow on—the modern world for young people."

EXHIBITS

The Iowa State Fair exhibit was located in the Education Building during 1935, and will be in the same place in 1936. Mary Parmelee was in charge of the exhibit in 1935, and Dorothy Deyoe will be in charge in 1936. Book collections are also placed during the fair for use or display in the Baby Health and Farm Bureau Women's Departments, and the Garden Club Exhibit, and the 4-H Girls' Dormitory, where much reading is done.

In 1936 space was not available for the Library Commission exhibit at the Shrine Auditorium during the Farm and Home Exposition, and no display was maintained.

LIBRARY EXTENSION IN IOWA

Library service to the rural schools of Hardin county through the libraries of Alden, Eldora, and Iowa Falls, and of Page county through the libraries at Clarinda and Shenandoah, is still continued. This is accomplished through contracts between the library boards and the county supervisors. These contracts include only the rural schools, separate contracts being necessary for each town having this privilege. Several towns in Page county are in contract with two libraries supplying books in that county.

The law allows the extension of library privileges from individual libraries also to outside towns, schools, and townships and a number of such units enjoy this privilege, either borrowing from the library or with book collections sent to schools and other stations which are exchanged at regular intervals. A list follows, although possibly small groups of books may be loaned elsewhere and not reported.

DUBUQUE COUNTY LIBRARY ASSOCIATION

In Dubuque county, a library association has been formed among the rural people of the county with a membership fee of \$1.00. This, with books given by donation, enables the management of the county library to supply books to rural schools and town organizations throughout the county.

In 1934, the first year this work was undertaken, forty-five rural schools were supplied with books. In 1935 the number grew to ninety, and in the first half of 1936, 107 schools were visited regularly and stations established in practically all the small towns of the county.

The Dubuque Women's Club has been active in furthering this work and County Superintendent Flynn is a most ardent supporter. The work was inaugurated by Mrs. Herbert Adams, of Dubuque, who is assisted now by Catherine Seitz, a trained librarian.

In Warren county, the County Federation of Women's Clubs has greatly assisted the Indianola Library in maintaining a free book corner for the people of the county who would otherwise pay for a card to enable them to borrow the regular library books.

(*) These two libraries supply the rural schools of Page County with books through county contract.

*These three libraries supply the rural schools of Hardin County with books through county contract.

xAlso fourteen in Fremont County.

With 52% of the population of Iowa without library facilities, except as provided by the Traveling Library, which has a limited appropriation and book supply, there must of necessity be people of the state wishing books which they are unable to secure.

This desire for books is indicated by the organization of libraries in small towns previously referred to. Without doubt, Iowa should take some step to remedy this lack in book supply for her people by inaugurating a plan for providing books for the schools, for the small towns, and for the rural people. And not only book supply, but an opportunity for reference work, which means an experienced staff and facilities for book transportation.

IOWA LIBRARY ASSOCIATION LITERARY AWARD

In 1934 the Iowa Library Association established a literary award through which a plaque was to be given each year to an Iowa author whose book published within the year was voted by the librarians of the state to be most outstanding. In 1934 Johnson Brigham received the plaque for his book, "Youth of old age," and in 1935 the plaque was given to Ruth Suckow for "The folks."

CERTIFICATION

In 1924 a plan of certification for Iowa librarians was established by the Iowa Library Association but allowed to lapse. At the meeting of the association in Des Moines in 1934 it was voted to revive the plan and a certification committee was appointed. The committee has worked on this subject during the past two years and will have a new plan of certification to present to the association at its meeting at Des Moines in November. Later legal action for library certification will probably be sought.

A FEDERAL LIBRARY AGENCY

By action of the last Congress, \$25,000.00 was appropriated for the creation of a Federal Library Agency. This means a library division in the Office of Education under the direction of the Commissioner of Education which will survey library accomplishments and needs, foster coordination between public and school library service and between library service and other forms of adult education; develop library participation in federal projects; and encourage interstate cooperation and nation-wide coordination of research materials.

LIBRARY COMMISSION ON THE AIR

During the winter of 1935-36 the Iowa Library Commission appeared at various times on the air over various broadcasting stations. On November twenty-ninth a dialogue was given over WHO describing the work of the Traveling Library. From October to March a book review was given once a month by different members of the library staff. The Secretary also appeared on October 16 over WSUI on "Books as life-long friends," and over KSO in a review of Christmas books on December 5th.

THE TRAVELING JUVENILE BOOK EXHIBIT

During the winters of 1933-34 and 1934-35 a Juvenile Traveling Book Exhibit was maintained by the Library Commission, a selected list being made up by the Library Commission from books furnished by the publishers of the country. These exhibits traveled from library to library which wished to examine them and on their return in the spring became the property of the Traveling Library.

Much interest was shown in these exhibits and the libraries seeing the books received help in their selection by being able to examine the books as they could not otherwise have done. These exhibits are sponsored by the Book Production Committee of the Section for work with children of the American Library Association.

TRAVELING LIBRARY

As already stated there is 52% of the population of Iowa without library facilities except as provided through the Traveling Library. This means that many towns, a large part of the rural population, and most of the schools would be without books were it not for the help given by the Library Commission. Loans are made from the Traveling Library: to schools, town and rural; to organizations of all kinds; to public libraries to *supplement their own collections*, and to individuals for study purposes or recreational reading and to study clubs, organizations and individuals desiring material for the preparation of papers for programs, public speeches, and so forth.

As has been stated, many schools depend entirely on the Traveling Library for books for recreational reading by pupils, and supplementary work, the former books loaned for three months and the latter for four weeks.

Of late some schools, both town and rural, have added to their school collections books for the use of the community.

The small amount of money available for the purchase of books by many of the small libraries of the state makes it impossible for them to supply all the book needs of the community and material required for serious study is borrowed from the Traveling Library although new fiction cannot be loaned for such purposes. The libraries must furnish this

through rental shelves and many of the libraries are doing that.

To individuals in small towns and to farm families the Traveling Library is a source of reading of which many are glad to avail themselves. During the winter of 1935-36, with its storms and cold weather, the books of the Traveling Library proved a boon.

The Iowa Library Commission fulfills a unique place as a cooperating agency with the many organizations working toward the social betterment of the state. Collections of books varying in size from 25 to 300 are loaned to different organizations for a period of three months and reloaned, thus forming a small community library.

In all loans the circulation figures should be multiplied by at least three to show the amount of use which the books really have, inasmuch as most of the books from the Traveling Library go out on a three months loan and the figures are very much lower than they would be for two or three weeks. Individuals, and special loans to schools is for four weeks only.

A special group of books is set aside each year for specialized classes of borrowers in courses of study sponsored by the State University and others. For five years or more Mrs. Alma Jones has used groups of books in duplicate in selected counties for work with Farm Bureau women in special projects in Children's Reading and Parent Education. This has resulted in a request for similar groups from counties where the projects have been completed.

During the summer months books are loaned to the Y. M. C. A., Y. W. C. A., Camp Fire Girls and other organizations for camp reading. This is greatly appreciated by these organizations.

CCC Camps. Many applications have been received for recreational reading for the CCC camps but with the large demands on the Traveling Library from communities and schools it is impossible to loan books for this purpose. An attempt was made during the year to secure a special fund for the purchase of books for these camps but all effort to find a source for such a fund proved in vain. Books for study in CCC camps are loaned, however, for a limited period.

Wear and Tear. The wear on Traveling Library books is very heavy, not because of the class of people using them, but because of the strain of travel, carefully as the books are packed. This means that every year many books must be discarded and the titles replaced in addition to the purchase of new books, all of which calls for a larger amount of money for the purchase of books.

WPA Aid. A large amount of mending has been done by WPA help, greatly reducing the amount of binding to be done in 1936.

Books for the Blind. The Library Commission continues to supply books for the blind in Braille, grades 1½ and 2, and also a few in New York point. These books are carried free through the mail but the large cost of the books interferes with the buying of many. Fortunately a few are received as gifts and a subscription to the *Reader's Digest* in Braille has been given by Chapter V, P. E. O. of Des Moines for several years.

For the past two years a blind man in Burlington, who was provided with a machine by donation and was given WPA assistance, has been transcribing books into Braille for the use of the Traveling Library and these books are being bound by WPA help. This enables the Traveling Library to choose its own books which is an added advantage.

Stereoscopic views on geography, historical and industrial subjects are available for loans to schools.

The statistics for the loans to the different classes of borrowers are given in the *report* of Traveling Library statistics appearing below.

REFERENCE WORK

In addition to the loaning of books for the use of individuals, schools and communities, the Library Commission maintains a department for reference work. This requires research for material for preparation of programs, for debates, for public speeches, and for use in other ways. The call for this kind of work is heavy and requires much time for its proper accomplishment.

Debate material on the subject used by the High School Debate League each year is duplicated many times and largely loaned as well as material for debates on other subjects.

The reference work can only be done by a librarian acquainted with books and magazines and with ability to search out the material as it cannot always be found under the subject given. The work is so heavy that it requires more than the time of one person and even with help it often runs behind. Books to fill such requests are expensive yet greatly needed and additional help is imperative to do the work efficiently.

Library work is not clerical work and requires more preparation than does teaching as it not only necessitates an acquaintance with books but library methods. This makes the appointment of a certain number of trained workers necessary in the Traveling Library for the selection of books as well as technical work. The clerical and shipping force must be accurate, speedy, and conscientious to carry on the work with any degree of efficiency or satisfaction to borrowers, and to secure the safe return of the books.

LIBRARY NEEDS OF IOWA

The library needs of the state are more and better selected books and better facilities for their distribution and use.

This means not more *libraries* but better and more efficient libraries and more money, both for public libraries and the Library Commission and this must come through legal enactment.

The *legislative needs are*: (1) for public libraries, a clarification of the public library law enabling public libraries to have the use of their gifts and petty cash; (2) for the Library Commission, a more adequate appropriation for books and personnel and the pooling of the state resources in making all state books and service available to all the people of the state.

This question is not how much or how little the Library Commission can get along with, but whether it shall fully supply the book needs of the people of the state.

TRAVELING LIBRARY STATISTICS

July 1 to June 30

	1934-36
Books added	7,354
Total number in the library.....	69,484
Books loaned	228,698
Gain	4,402
Requests filled	23,010
Gain	164
Books for blind added	98
Total number books for blind	1,110
Books for blind loaned	2,997
Traveling Library Stations	
Additions	1,884
Total	6,174
Picture collections, etc., loaned	315
Stereoscopic views loaned	397
Books loaned to schools.....	100,973
Books loaned to clubs, etc.	72,439
Books loaned to individuals	38,147
Public libraries	17,139

DETAILED STATEMENT

The total annual appropriation for the work of the Iowa Library Commission is \$19,500. This covers all of the activities of the Library Commission, and the Traveling Library in the purchase and rebinding of books, extension, traveling expenses, salaries, etc.

Inasmuch as the law provides that all accounts and expenditures must be audited by the Audit Board, a detailed statement of expenditures is given in the printed record and is not repeated here.
