## DNR Water Supply Move: Fax Number Changing

Two items related to the impending move of the Water Supply Sections, which includes all of the staff for the public and private Water Supply, Water Use, Operator Certification, and Laboratory Certification programs, from the second floor to the fifth floor of the Wallace Building:

Effective immediately, the main telephone number for DNR, including Water Supply, is 515-725-8200.

The WS Fax number changes to the main 5th Floor Fax number of 515-725-8202. With the exception of the WS Fax number, which will be discontinued, the rest of the phone numbers will transfer with the staff.

The moving activities have already started, with the physical relocation happening in stages beginning October 30th. The moves for all Water Supply staff should be completed by Thanksgiving.

Please be patient during this time of transition!

## SRF Sponsored Projects Application Deadlines

Communities or wastewater utilities interested in applying for an SRF Water Resource Restoration Sponsored Project should note the upcoming deadlines:

**December 1, 2017:** Deadline to contact DNR to schedule a pre-application conference call. The call is mandatory with the purpose of discussing potential projects, getting technical advisors involved early, and going over the application requirements.

**March 1, 2018:** Deadline to submit a sponsored project application.
