

# Cyclospora Update

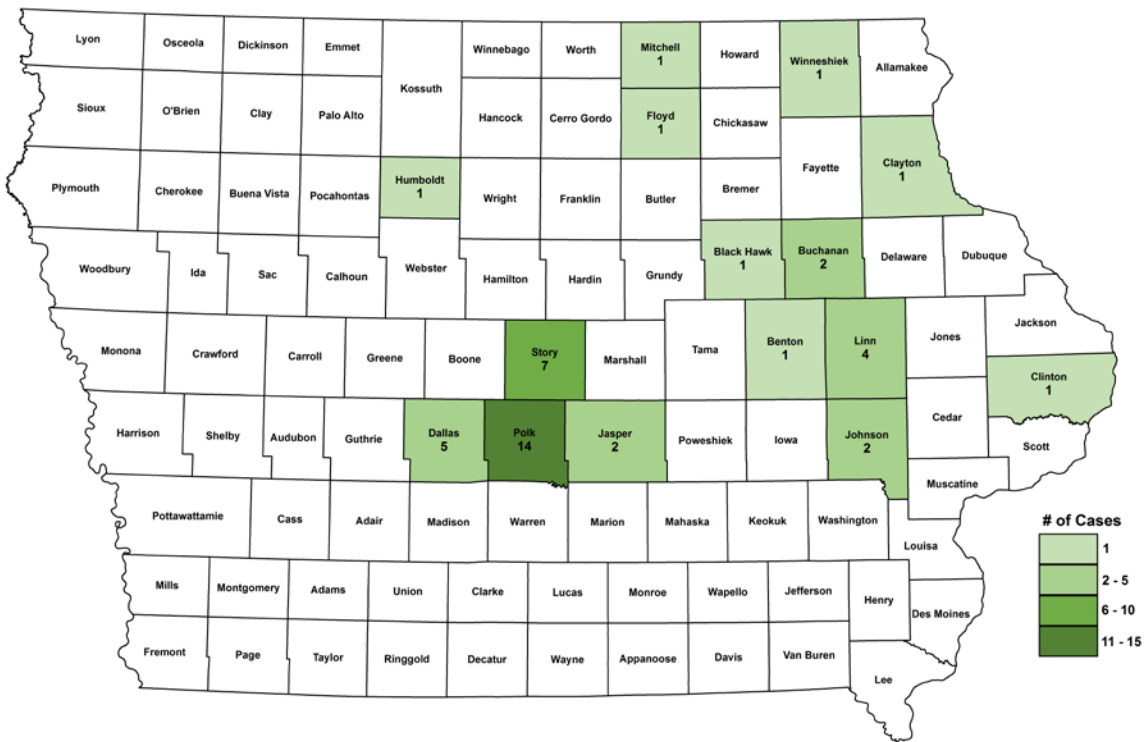

All data presented in this report are provisional and may change as additional reports are received

Published July 5, 2018

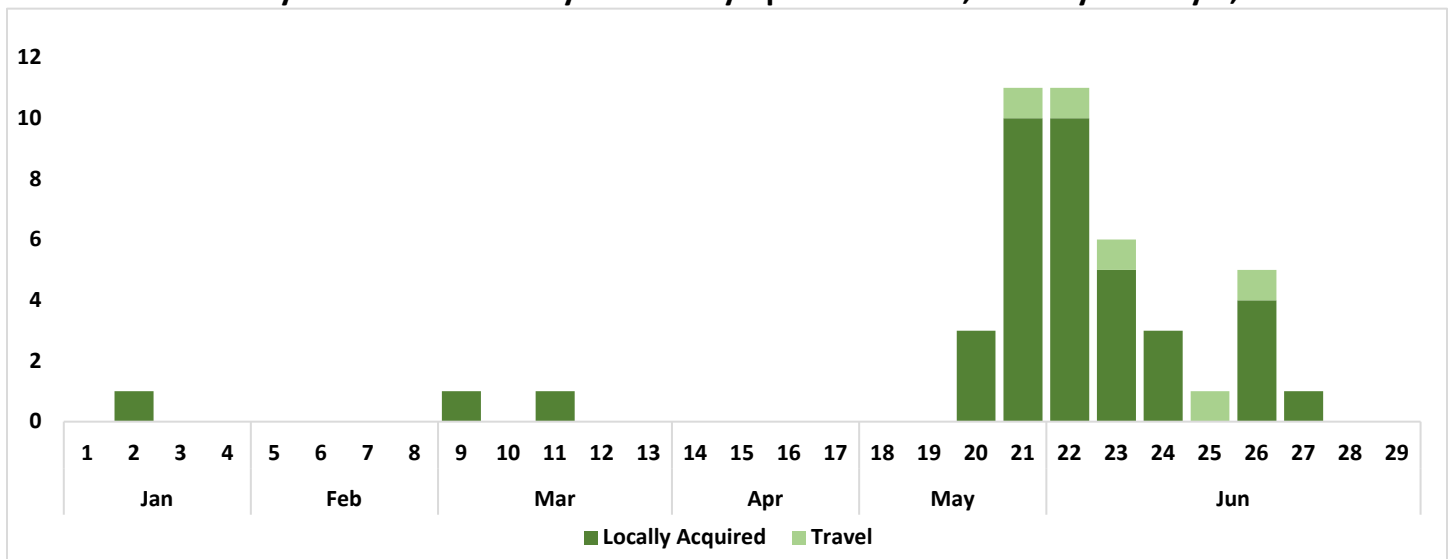

The Iowa Department of Public Health, in collaboration with local public health partners, the Iowa Department of Inspections and Appeals, and the State Hygienic Lab, is investigating an increasing number of *Cyclospora* infections. Since the beginning of the year, 44 *Cyclospora* infections have been reported in 15 Iowa counties. Five of the cases are associated with a multistate [outbreak](#) associated with vegetable trays sold at Kwik Trip, Kwik Star and Tobacco Outlet stores. Nationally, 212 cases have been linked to these vegetable trays in four states. In addition, one case is associated with an outbreak involving the [Sonora Grill](#) in Minneapolis.
