

Cyclospora Update

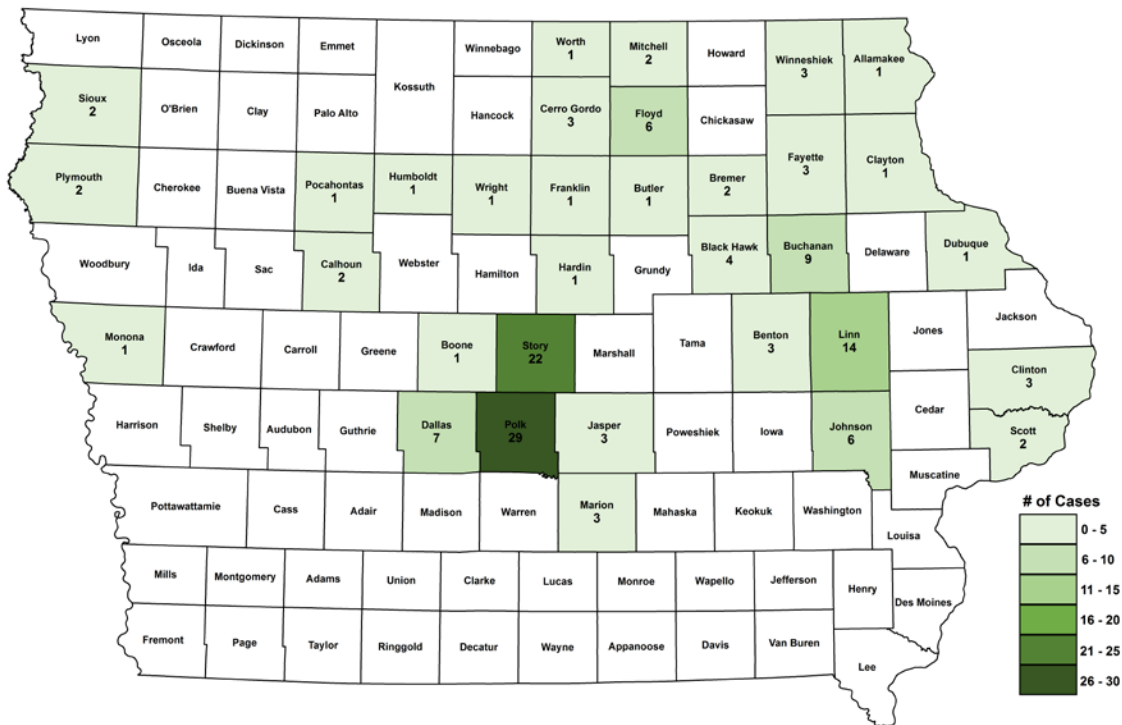

All data presented in this report are provisional and may change as additional reports are received

Published July 19, 2018

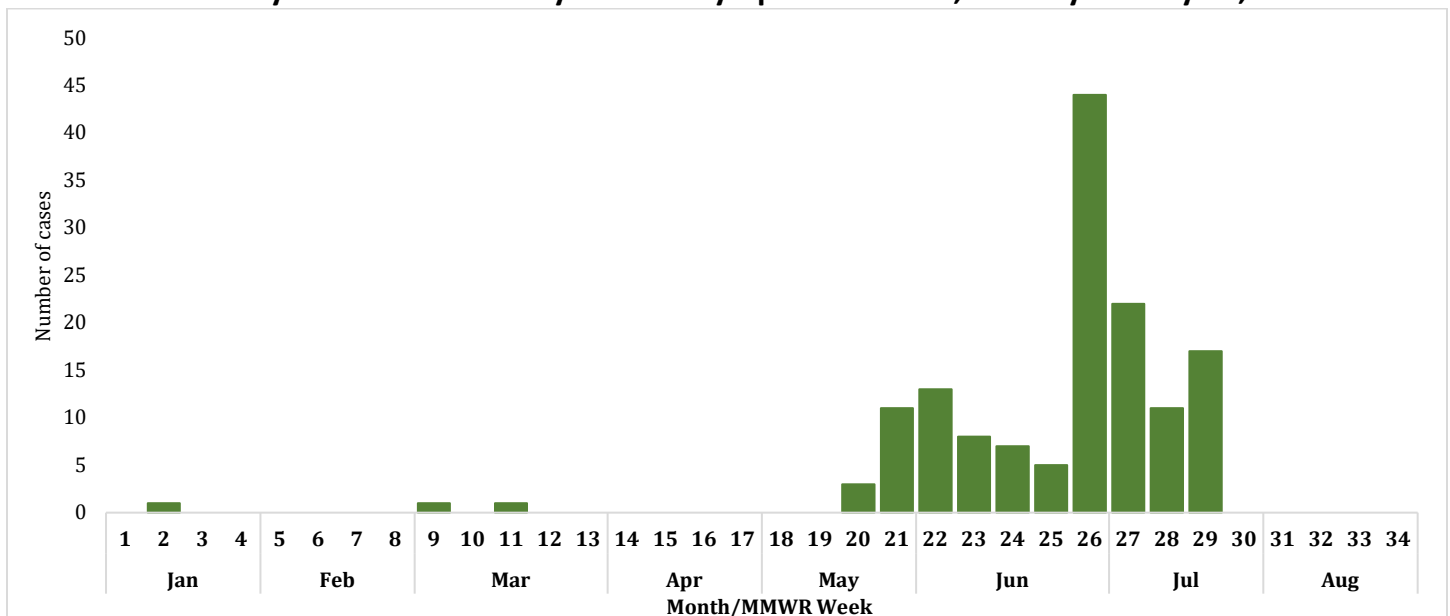

The Iowa Department of Public Health, in collaboration with local public health partners, the Iowa Department of Inspections and Appeals, and the State Hygienic Lab, is investigating an increasing number of *Cyclospora* infections. Since the beginning of the year, 144 laboratory confirmed *Cyclospora* infections have been reported in 33 Iowa counties. Forty-nine of these cases are associated with a multistate outbreak associated with salads sold at [McDonalds](#), seven cases are associated with a multistate outbreak associated with vegetable trays sold at [Kwik Trip, Kwik Star and Tobacco Outlet stores](#) and one case is associated with an outbreak involving the [Sonora Grill](#) in Minneapolis.

Laboratory confirmed cyclospora cases by county of residence, January 1 – July 19, 2018

Laboratory confirmed cases by week of symptoms onset*, January 1 – July 19, 2018

*Lab collection date used when onset date is unknown
