# Enrich Iowa: Overview

In accordance with 2004 IOWA ACTS Chapter 182 (5)(5)(b), the State Library of Iowa submits this report on the uses and impact of state funding provided to Iowa libraries through the Enrich Iowa Program.

**Enrich Iowa includes Direct State Aid to public libraries, Open Access, and Access Plus.** \$2,302,245 was distributed to Iowa libraries through the FY04 Enrich Iowa programs.

**Direct State Aid** helped 477 Iowa public libraries purchase needed books, supplies, computers and other necessities they could not otherwise provide their customers. The following report reflects the importance of these funds in promoting lifelong learning; strengthening reading and literacy programs for children; providing safe, accessible buildings; improving Internet connections; and increasing library hours. Direct State Aid funding in FY04 was \$1 million from the general fund.

**Open Access** allows Iowans to walk into any participating library in the state and borrow books and other materials, with libraries being reimbursed a small portion of the expense involved. Iowans checked out 3,336,342 items from 590 libraries in FY2004. Open Access funding in FY04 was \$490,720 from the general fund and \$459,881 from the Rebuild Iowa Infrastructure Fund.

Libraries are reimbursed a part of the cost of mailing materials to other libraries through **Access Plus**, which provides Iowans with equal access to library resources no matter where they live. The 617 participating libraries loaned 191,653 items in FY2004. Access Plus funding in FY04 was \$211,525 from the general fund and \$140,119 from the Rebuild Iowa Infrastructure Fund.

The Enrich Iowa program improves library services in Iowa. It gives Iowans access to all of our state's library resources and continues a longstanding tradition of public/private partnerships among all types of libraries in Iowa.

## Open Access

Established in 1989, Open Access is the statewide library card program which permits library customers from one participating library to check out materials at other participating libraries. Over the last nine years, the number of items checked out has increased 69% from 1,976,860 to 3,336,342.

---

## Access Plus

Established in 1989, Access Plus provides Iowa citizens with equal access to library materials through resource sharing among libraries. Libraries borrow materials from other participating libraries to fulfill the requests of their customers. Over the last nine years, the number of items loaned has increased 27% from 151,444 to 191,653.

# Direct State Aid

Direct State Aid moves library services in Iowa closer to the statewide vision for library service:

*“Each Iowan will have equal access to information and ideas in order to participate knowledgeably and productively in a democratic society and to lead an enriched life through lifelong learning.”*

Direct State Aid for public libraries was recommended by the Governor of Iowa and passed by the Iowa General Assembly in 1999. The program is designed to improve library service and reduce inequities in library services among communities; to enhance, not replace, local funding; and to encourage achievement of recognized and adopted public library standards (*In Service to Iowa: Public Library Measures of Quality*).

*The Ackley Public Library was able to increase the number of hours it is open and purchase materials and books to supplement children’s programming. “Patrons are much happier with the extended hours and the children’s programs encourage reading and a love of the library. The new day care center is next door and the children who attend use the library. There is a lot of feedback on how this is affecting positive language and reading skills.”*

The funding formula is composed of three tiers which include selected public library standards. Since the funding level increases with greater compliance with standards, the tiers provide incentives for improvements in library services. The State Library and Iowa Library Service Areas have worked tirelessly to help all public libraries meet minimum standards of quality.

*The Callender Public Library was able to purchase more books with Direct State Aid. “We added quite a few new ‘beginning readers’ this year. One girl has learned to read over the summer using library materials during the summer library program.”*

Of Iowa’s 543 public libraries in FY04, 266 received Tier 3 funding, 117 received Tier 2 funding, 94 received Tier 1 funding, and 66 were not eligible this year.

Libraries are a critical part of Iowa’s rich educational tradition. Libraries provide preschoolers with early exposure to the written word, support students, and offer lifelong learning opportunities for adults. The local library is often the only place in town to use a computer, access the Internet, make photocopies or send faxes. For many Iowans, Direct State Aid means the difference between living in isolation and having the world at their fingertips.

## A Glimpse at Uses of Direct State Aid in FY04

*The Calmar Public Library: “With the money we received from Direct State Aid, we were able to purchase many new fiction books for our juvenile fiction section and new reference materials to replace older, outdated materials. We have also greatly expanded our audio-book section providing books on tape to our many non-traditional library users.”*

*The Carnegie-Stout Public Library, Dubuque: “We were able to pay the salary of one library assistant who works on Sundays. Additional staff greatly improves customer service on an understaffed, yet busy day. We also added more money to the adult materials budget. This reduces the length of time patrons have to wait to receive best sellers – both fiction and non-fiction.”*

*The Fairbank Public Library: “With Direct State Aid, we added DVDs to our collection. Now our customers have a new format of movies to watch. We added many new children’s reference books to supplement the school’s new reading program. Our books on CD and large print have been greatly appreciated by our adult readers.”*

*The Jesup Public Library: “We were told not to spend anymore than absolutely necessary this fiscal year, as the city was short on funds. Direct State Aid was the only way I could afford a new set of encyclopedias. My community is using more audio tapes than ever before, but with the budget cut, it would have been impossible to purchase what we ordered without this additional funding.”*

*The LuVerne Public Library: “The children really enjoy the summer library program. In a small town, there are not a lot of scheduled activities during the summer. The kids love to come to the summer programs. Some of the senior citizens in LuVerne do not travel out of town very often. New books at the library can be the highlight of their week. The children’s eyes light up when they see a display of new books to choose from.”*

*The Marshalltown Public Library: “Although our city lost revenue due to funding cuts made by the state legislature, Direct State Aid has allowed us to remain open 65 hours a week. Without state aid, we would have lost an employee who provides public service.”*

We have increased reading incentive programs to include all ages.
<b>Albia</b>	<b>\$1,672</b>	Materials & Supplies	Videocassettes, DVDs, books on tape and CD. Because there is no money allotted in our budget for these materials, direct state aid allows us to provide the newest in entertainment for our patrons. We have a patron who recently lost her husband. She began coming into the library to borrow books and videocassettes. When she found that we also had books on CD and DVDs, she bought a player. She said it was the first time she'd ever had to read instructions and program an electronic device. She also said that she never would have tried if she was not able to get the materials at the library for free.
<b>Albion</b>	<b>\$502</b>	Materials & Supplies	Books. We are able to purchase more current materials with this funding.

<b>Alexander</b>	<b>\$1,415</b>	Materials & Supplies; Library Programs	Books, videos, DVDs; summer story hour. We have a young man with multiple sclerosis who is in a motorized wheelchair. <b>Algona</b>	<b>\$2,830</b>	Materials & Supplies	Adult, young adult and children's books. It is important that libraries provide material for their patrons, especially in the wake of the Reinvention Bill. This funding helps us maintain the type of collection that our library patrons expect.
<b>Allerton</b>	<b>Not eligible for Direct State Aid</b>		
<b>Allison</b>	<b>\$1,017</b>	Personnel	Extended hours. Will be open six days a week in our new library. Because of extended hours, people who work out of town have time to get to the library and they are really pleased when we are open. The story time mothers are pleased that we are offering a morning for the younger children so that it does not interfere with nap time.
<b>Alta</b>	<b>\$619</b>	Personnel; Furniture	Salary for three library clerks; computer stand.
<b>Alta Vista</b>	<b>\$1,364</b>	Materials & Supplies; Furniture	Children and adult books; printer cartridges and copy machine; computer table. <b>Altoona</b>	<b>\$4,704</b>	Materials & Supplies; Technology & Equipment	Juvenile music; public photo copier; computer to be interfaced with a digital microfilm scanner. This pre-literacy program is making a difference in the lives of parents and babies, focusing on the importance of reading to children from birth. Studies show this has an impact on speech development, reading readiness and success in school.
<b>Anamosa</b>	<b>\$2,617</b>	Materials & Supplies	Direct state aid will supplement our materials budget which was cut drastically by the Reinvention bill. Service is being maintained at a lower standard. Because of the budget cuts, our materials line item was reduced by half.
<b>Anita</b>	<b>\$1,495</b>	Personnel; Technology & Equipment	Additional staff hours; automation – pay for catalog and circulation support; purchase printer receipt paper. This funding is helping us to continue our automation project, which in turn will make easier and up-to-date services to our customers.

The number of patrons using PCs increased from 27,108 to 29,040 from FY02 to FY03. We now can offer "groups" PCs to use for projects. Aplington	\$1,508	Personnel; Technology & Equipment	Additional staff hours; DSL line. The DSL connection for the Internet has been very much appreciated by the public. The speed it allows on a networked system is almost a necessity.
Archer	\$464	Capital Improvements; Furniture	New door, outdoor security lighting; two computer desks. The new computer desks enhance the appearance of the library and provide patrons with more comfort when using the computers. The new door and outside lighting provide a safer environment for everyone. A patron commented how the improved outdoor lighting aided her in seeing the sidewalk and possible icy spots.
Arlington	\$1,327	Materials & Supplies; Technology & Equipment	large print materials; Internet access, Spectrum technology maintenance fees for patron catalog, circulation and web catalog. Patrons are excited about our new computers and high speed access. One of our patrons stays in touch with her husband in Iraq. She cannot afford her own computer and high speed Internet.
Armstrong	\$1,450	Materials & Supplies; Technology & Equipment; Capital Improvements	Non-fiction books for children's section; server computer; storm windows for library. With the high cost of fuel, we felt storm windows would conserve costs. Our server had very little space left and we were having trouble with it. Since we replaced it, we have no trouble checking out books.
Arnolds Park	\$1,584	Materials & Supplies	Books on CD and audio tapes. We have a big demand for books on tape and CD. We would not be able to offer these titles if not for this extra funding. One man had to lay still for a long time after extensive eye surgery. He said the audio tapes saved his sanity.

<b>Stuart</b>	<b>\$1,249</b>	Technology & Equipment	Scanner, printer and equipment for automation. We are purchasing an automation system. This will allow us to have more equipment. This funding will help free up budget money so we can have our catalog online for patron use. This will be especially helpful to our readers in the care center as they will be able to reserve books they want to read. It will also help the school system as we will be better able to share resources. Teachers and students will know if we have a certain item available.
<b>Sully</b>	<b>\$1,681</b>	Materials & Supplies; Technology & Equipment	Books were purchased to go along with our summer program theme. The children were excited to have titles about cowboys and covered wagons. Two computers were added to our network and funding was used to purchase monitors, software upgrades and technical support to install them. Our library received \$14,000 in funding cuts this year from our county and city. We could not have purchased these materials or installed the computers without this funding.
<b>Sumner</b>	<b>\$1,300</b>	Materials & Supplies	Audio books and CDs. Listening to audio books while commuting or working in a factory has added to the quality of life. Our customers wait for new orders to come in so they have a new selection to choose from. For many people, it is the only format that they check out at the library.
<b>Superior</b>	<b>Not eligible for Direct State Aid</b>		
<b>Sutherland</b>	<b>\$1,398</b>	Materials & Supplies	Books, audio books, videos. We are able to supply a wider selection of materials in all formats. Large print books and audio books are needed more now with our aging population. We have a patron who was very depressed following cataract surgery. I was able to direct her to audio books and later to large print so she was able to continue 'reading.' She says it saved her sanity.
<b>Swaledale</b>	<b>\$879</b>	Personnel; Materials & Supplies; Technology & Equipment; Capital Improvements; Library Programs; Other	Salaries for summer reading program staff; videos; paper cutter, borrower cards, stamps, book pockets; replaced hollow core door with solid door; summer reading program supplies; posters and bookmarks. <b>Tabor</b>	<b>\$555</b>	Materials & Supplies	Books for children and adults. Patrons have found that their choices of authors and books do count. We have made it clear that these books were purchased with direct state aid funds. We have a young person who volunteered to read a book for our Junior Book Club, but never got around to it. I picked out a few interesting books that are a level above what had been set for reading. We also have several people who have DVD players in their homes. We have a truck driver who makes long trips and he likes to listen to books on tape. His truck vibrates so much it loosens up the tapes and they won't play or they break. It's easier for him to play a CD now...it won't break!

<b>Villisca</b>	<b>\$1,094</b>	Materials & Supplies	New books. Our county had been giving us \$9,202 a year. They now give us \$5,717. One of the places that we found we had to cut was our book budget. Direct State Aid helped replace some of those funds. We have a number of men who love westerns. Many need large print books. It is difficult to keep up with their reading needs. This money helps satisfy their needs and they are excited to find another book they haven't read.
<b>Vinton</b>	<b>\$2,509</b>	Personnel; Capital Improvements; Library Programs	Part-time staff.
