Dec. 9, 2019

Join us Dec. 12 for the EASY Air "how-to" webinar

Sign up now to learn how to use DNR's Environmental Application System (EASY Air)—an online faster, easier system to apply for air construction and Title V operating permits.

Join us Dec. 12 from 1 to 4 p.m. for a training webinar that provides the essentials to use EASY Air. Starting with an introduction to the new application, you'll learn how to:

- access and navigate the system
- complete construction permit applications
- complete Title V applications and
- use the public inquiry portal.

There will also be time to answer your questions.

Register at https://attendee.gotowebinar.com/rt/2172318719377747724. After registering, you will receive a confirmation email containing information about joining the webinar.

This new electronic system speeds final permit delivery by:

- Reducing data entry
- Increasing data accuracy
- Saving time on application preparation and submittal
- Accepting online payments.

If you cannot attend but are interested in learning more about EASY Air, next week you can look for a link to the recorded webinar at eAir Services. For more information, please visit our new eAirServices webpage.
