Dec. 13, 2019

EASY Air training webinar rescheduled for Dec. 19

MEDIA CONTACT: Marnie Stein at 515-725-9555 or Marnie.Stein@dnr.iowa.gov.

The “how-to” webinar on using DNR’s Environmental Application System (EASY Air) had to be rescheduled for next week after technical problems with the webinar interface—not the EASY Air application.

Please join us Dec. 19 from 1 to 4 p.m. for a training webinar on the essentials of using EASY Air—an online faster, easier system to apply for air construction and Title V operating permits.

Starting with an introduction to the new application, you’ll learn how to:

- access and navigate the system
- complete construction permit applications and
- complete Title V applications.

There will also be time to answer your questions.

Register at <https://attendee.gotowebinar.com/register/79800757161986572>. After registering, you will receive a confirmation email containing information about joining the webinar.

This new electronic system speeds final permit delivery by:

- Reducing data entry
- Increasing data accuracy
- Saving time on application preparation and submittal
- Accepting online payments.

If you cannot attend but are interested in learning more about EASY Air, next week you can look for a link to the recorded webinar at [eAir Services](#). For more information, please visit our new [eAirServices](#) webpage.

DNR's Air Quality News listserve is targeted to the regulated public and consultants to deliver timely regulatory news, program updates, and technical guidance to your email. If you have difficulty, please contact DNR's Wendy Walker at 515-725-9570.
