Legal Authority

Code of Iowa, Chapter 156; Iowa Administrative Code 645, Chapters 100-104

Job Description

Funeral directors gather personal information, complete required documents, remove remains from the place of death, help conduct funeral services, direct the final disposition of the deceased, and provide for the needs of the survivors during the period of and immediately after the funeral. They may also be involved in the selling of caskets, urns, vaults, markers or other burial receptacles. They prepare bodies of the deceased by embalming or preserving, completing restorative work, applying cosmetics, dressing, and arranging bodies in casket in preparation for burial. Occasionally, they complete the paperwork for and supervise disinterment.

Funeral directors also handle the paper work involved with the person's death. They may help family members apply for veterans' burial benefits, notify the Social Security Administration of the death, apply on behalf of survivors for the transfer of any pensions, insurance policies, or annuities, and submit papers to state authorities so that a formal certificate of death may be issued and copies distributed to heirs.

Education & Experience Required

An applicant must successfully complete: a minimum of 60 semester hours as indicated on the transcript in a regionally accredited college or university with a minimum of a 2.0 (or "C") grade point average; and a course in mortuary science from a school accredited by the American Board of Funeral Service Education. The 60 semester hours shall not include any technical or vocational mortuary science courses. A one-year internship must be served under the supervision of a board-certified preceptor.

The applicant must submit a completed application, the appropriate fee, an official transcript of grades showing completion of training in a college of mortuary science approved by the Iowa State Board of Mortuary Science Examiners, and National Board scores.

Students enrolled in an accredited mortuary science school may apply for student practicum, which allows the student to work under supervision of a licensed funeral director who has a valid preceptor certificate.

A preceptor must be an Iowa-licensed funeral director for a minimum of five years and complete a preceptor training course.

Continuing Education

Twenty-four hours of continuing education are required biennially for license renewal.
