Legal Authority Code of Iowa, Chapter 152B; Iowa Administrative Code 645, Chapters 260-264

Job Description Under qualified medical direction, respiratory care practitioners practice the therapy, management, rehabilitation, diagnostic evaluation, and care of patients with deficiencies and abnormalities affecting the cardiopulmonary (heart-lung) system. They may work with newborns, critical care, emergency procedures, and geriatrics. Practitioners may administer pharmacological, diagnostic, and therapeutic agents; observe and monitor patient responses and report changes which may implement changes in protocol or treatment; analyze blood gasses, respiratory secretions and pulmonary function testing; measure and monitor cardiac function as it relates to respiratory care; administer mechanical or environmental control mechanisms; and, provide the maintenance of artificial and natural airways.

Education & Experience Required Applicants must successfully complete a respiratory care education program from an accredited school/program for training respiratory therapists. They must also pass the National Board of Respiratory Care (NBRC) Examination or the State Clinical Examination administered by the NBRC. Out-of-state practitioners must meet Iowa requirements to obtain licensure in Iowa.

Continuing Education Thirty hours of continuing education are required biennially for license renewal.

Examination Applicants must pass the National Board for Respiratory Care examination for RRTs or for CRTTs.

Fees Application: \$100
Duration: Two years (March 31st of even numbered years)
Renewal: \$50
Exam: Arranged by applicant, fee paid to the exam service
