

Chronic Disease Connections

An e-bulletin created for healthcare systems working with patients to control their chronic disease, high blood pressure and/or manage their prediabetes, diabetes, and/or high cholesterol.

January is Cervical Cancer Awareness Month

Investigating protection with single vs. multiple HPV vaccine doses – Trials are evaluating the efficacy of a single-dose vaccine regimen by examining HPV infection prevalence among women by the number of vaccine doses received.

Cervivor Stories help break down the stigma surrounding cervical cancer - Emily is a cervical cancer survivor and Cervivor School Graduate sharing her story and raising awareness for prevention.

Governor Reynolds proclaims January as Cervical Cancer Awareness Month – Results from a quick and easy pap test and HPV co-test can help prevent cervical cancer or detect it at its earliest most curable stages.
