

ITTC Regulatory Plan (Fiscal Year 2019) September 20, 2018

Purpose: The Iowa Telecommunications and Technology Commission (ITTC) is required by Executive Order #9 to prepare a regulatory plan listing each regulatory action or potential rule currently under active consideration or development that the ITTC reasonably expects to issue in proposed or final form for Fiscal Year 2002 and annually thereafter, excluding those rules that do not have a substantial impact on the legal rights, privileges, or duties of persons. The ITTC has been notified in writing by the General Counsel, Office of the Governor, that it is not required to provide this plan to any other agency. ITTC has sole rule-making authority for Iowa Administrative Code, Agency 751.

Statement of ITTC's current regulatory objectives and priorities and how they relate to the obligations imposed on the ITTC by statute and the Governor's priorities.

The ITTC issues only those administrative rules that are authorized by state law and specifically aid in interpreting Iowa Code Chapter 8D and other law in serving the public need. The ITTC was established under Chapter 8D to coordinate communications of state government, effect maximum practical consolidation and joint use of communications services, and manage, develop, operate, and ensure compatibility of the fiber optic network. The ITTC coordinates with and provides services to all authorized users and operates within the Governor's budget and other priorities.

Description of each contemplated regulatory action, including to the extent practicable, alternatives to be considered and a preliminary estimate of the anticipated costs and benefits of the action.

No new substantial regulatory action is anticipated or contemplated during FY 2019.

Summary of the legal basis for each action, including whether any aspect of the action is required by statute or court order.

Not applicable since no regulatory action has been identified at this time.

Statement of the need for each such action and, if applicable, how the action will reduce risks to public health, safety, or the environment, as well as how the magnitude of the risk addressed by the action relates to other risks within the jurisdiction of the ITTC.

Not applicable since no regulatory action has been identified at this time.

The ITTC's contemplated schedule for action, including a statement of any applicable statutory or judicial deadlines.

The ICN continues to review its rules as provided in Code section 17A.7, as well as reviewing potential changes consistent with recommendations previously made by the Auditor. If identified and approved by the ITTC, rules changes may be proposed during FY 2019. There are no judicial deadlines, and no rules or policy requirements other than those determined by the Administrative Rules Coordinator.

Action with potential impact upon the ITTC.
