¹License not required for residents under 16 if accompanied by a licensed adult (18 years or older). See page 7. ²Lifetime hunting license available to residents who qualify. Deer and Turkey licenses, Iowa Migratory Game Bird Fee and Federal Waterfowl Stamp must be purchased annually. Call 515/281-5918 for more information. ³License not required for resident and nonresident landowners or tenants or their juvenile children when hunting or trapping on their own land. See page 7. ⁴Unless under 16 years old. ⁵Required for hunting and trapping all furbearers, except coyote and groundhog, which may also be taken on a hunting license. ⁶Except residents under 16 or over 65. See wildlife Habitat Fee on page 6.

⁷Needed to hunt ducks, geese, gallinule, rails, snipe and woodcock but not other small game. ⁸See page 7.

Hunting License and Fees

RESIDENTS

Hunting	\$17.50
Habitat Fee (Ages 16 to 65)	\$8.50
Migratory Game Bird Fee	\$8.50

² Includes \$1 Help Us Stop Hunger fee (HUSH)

³ Includes \$1 writing fee and \$1 HUSH fee

Special Licenses for Residents

- 1) Annual Free Combined Hunting and Fishing licenses are available to residents of Iowa 65 years or older with low income, or residents permanently disabled with low income.
- 2) Lifetime Combination Hunting and Fishing License for Disabled Veterans - Available to Iowa residents who served for a minimum aggregate of 90 days of active federal service, plus who was disabled, or who was a prisoner of war during their military service. Disabled means entitled to compensation under United States Code, title 38, chapter 11.

Applications for these special licenses and assistance may be obtained at DNR district offices that sell hunting and fishing licenses, at the DNR central office by calling 515-281-5918, or online at www.iowadnr.com

HUNTER EDUCATION

Residents born after Jan. 1, 1972, and nonresidents born after Jan. 1, 1967, must satisfactorily complete a hunter education course in order to obtain a hunting license. A person who is 11 years-old or older may enroll in a course, but those who are 11 and successfully complete the course shall be issued a certificate of completion which becomes valid on that person's 12th birthday. Residents under the age of 12 can be issued deer and turkey licenses, but the youth hunter must be accompanied by a licensed adult hunter.

Call 515-281-5918 or go to www.iowadnr.com for class dates and locations.

Alternative. A hunter education certificate issued by another state or a foreign nation will meet the above requirement. Proof of completion is required when purchasing your first Iowa hunting license.

IMPORTANT

All hunting and fishing licenses, including lifetime licenses are sold through the Electronic Licensing System for Iowa (ELSI). Licenses may be purchased at more than 900 license sales agents statewide, online at www.iowadnr.com, or over the phone at 1-800-367-1188. Before purchasing an electronic license for the first time, resident and nonresident sportsmen and sportswomen need to be aware of certain requirements. (continued on p.10)

REQUIREMENTS FOR PURCHASING RESIDENT LICENSES

Hunters must meet at least one of the following criteria to purchase a resident hunting or trapping license in Iowa:

1. Have an Iowa driver's license or Iowa non-operator's identification card and have physically resided in Iowa at least 30 consecutive days **immediately** before applying for or purchasing a resident license.
2. Be registered to vote in Iowa. In order to do so, you must meet all of the qualifications to register to vote as outlined in Iowa Code chapter 48A.5.
3. Be a full-time student at an educational institution located in Iowa and reside in Iowa while attending the educational institution.
4. Be a nonresident under 18 years of age whose parent is a resident of Iowa.
5. Be a member of the armed forces of the United States serving on active duty, and: (a) is stationed in Iowa or (b) is stationed outside of Iowa, claims residency in Iowa, and has filed an Iowa income tax return for the preceding tax year.

Dual Residency Not Permitted: Unless you qualify under 3, 4 or 5 above, you may not purchase Iowa resident hunting licenses if you have done any of the following:

- Have a currently valid resident hunting, fishing, trapping or other recreational license issued in another state or country
- Have a currently valid driver's license issued in another state or country
- Are legally registered to vote in another state or country
- Claim a homestead or other state tax exemption in another state or country
- Are receiving public assistance in another state or country

This is not a complete list. Other privileges claimed as a resident of another state or country may also be disqualifying.

An Iowa resident Hunting License will be invalid if you:

- a) Obtain the license under false pretenses. Providing false information on a deer or wild turkey hunting license or application invalidates that license and transportation tag and all other deer or turkey licenses/tags obtained during the same year.

- b) Do anything that would forfeit your eligibility for a resident license after the license is obtained, such as moving out of Iowa or purchasing a resident hunting privilege in another state or country.

Licenses, Fees and Stamps Required

Iowa residents 16 years and older, and nonresidents regardless of age, are required to have a valid Hunting License on their person, and have paid all applicable fees and possess all required stamps while hunting.

Wildlife Habitat Fee - Iowa residents who are 16 to 65 years old, and nonresidents regardless of age, who are required to have a Hunting or Furharvester License must pay the Wildlife Habitat Fee to hunt or trap. Residents that have special licenses for the disabled are exempt.

Iowa Migratory Game Bird Fee - All residents and nonresidents 16 years and older must pay the Iowa Migratory Game Bird Fee to hunt wild geese, brant, ducks, snipe, rail, woodcock, gallinule or coot. The fee must be paid even if a Hunting License is not required.

Federal Migratory Waterfowl Stamp - All residents and nonresidents 16 years old and older must have a valid Federal Migratory Waterfowl Stamp (duck stamp) on their person while hunting wild geese and wild ducks. The Stamp must be signed across the face by the hunter. The Stamp is required even if a Hunting License is not required.

Deer and Turkey Hunters - Residents (and nonresidents) who hunt deer or wild turkey must have a valid resident (or nonresident) Deer or Wild Turkey Hunting License on their person while hunting. Residents must also have a valid resident Hunting License and have paid the Habitat Fee if normally required to have them to hunt. All nonresidents must have a valid nonresident Hunting License and have paid the Habitat Fee. All deer hunters must also pay a \$1 Help Us Stop Hunger (HUSH) fee for each deer license obtained.

Furharvesters - All residents and nonresidents regardless of age must have a Furharvester License to trap or hunt furbearing animals. Residents 16 to 65 years old and all nonresidents regardless of age must also have paid

the Habitat Fee. A Hunting License is not needed to hunt furbearers. Coyote and groundhog may be hunted with either a Furharvester License or a Hunting License.

Nonresident Falconry Permit - All nonresident falconers, regardless of age, who intend to hunt with a bird of prey must purchase and have in their possession a nonresident Falconry Permit, a nonresident Hunting License, and have paid the Habitat Fee. These permits are available wherever hunting licenses are sold or may be purchased online at www.iowadnr.com. Call 515-281-5918 for details.

All Participants Must be Licensed - All participants in a hunt must be properly licensed and have paid the appropriate fees. It is up to the discretion of the conservation officer to determine whether or not a person is “participating.” Participation includes, but is not limited to, handling firearms or ammunition during the hunt, making animal calls to attract game, driving, flushing, or locating game, and working dogs.

The following persons do not need a Hunting License and/or pay certain fees:

1a) Residents under 16 years old that hunt under the direct supervision of their properly licensed parent, guardian, or other competent adult with the consent of the parent or guardian do not need a Hunting License or pay the Habitat or Migratory Game Bird fee. One properly licensed adult must accompany each unlicensed hunter under 16 years old.

1b) Residents 12 to 16 years old may hunt without adult supervision, but must have a Hunting License and must have passed a hunter education course (see p. 5 for hunter education training requirements). Fees are not required.

Persons exempted under 1a) or 1b) must have a Deer and Wild Turkey Hunting license to hunt deer and wild turkey.

2) Military personnel that qualify as a resident of Iowa, that are on active duty with the armed forces of the United States, and are on authorized leave from a duty station outside of Iowa, do not need a Hunting License, Deer License, Wild Turkey License, or pay the Habitat Fee. They must

possess a Federal Migratory Waterfowl Stamp and pay the Iowa Migratory Game Bird Fee to hunt migratory game birds. They must carry their leave papers on their person while hunting and a copy of their current earnings statement showing a tax deduction for Iowa income taxes for the previous year. They may claim residency in lieu of their earnings statement by being registered to vote in Iowa. If a deer or wild turkey is taken, a conservation officer must be contacted immediately to obtain a transportation tag for the animal. Conservation officer cell phone numbers are listed on page 11.

3) Persons with a dog entered in a licensed field trial may participate in the event and train their dog on the same area where the field trial will be held during the 24-hour period immediately preceding the trial.

Hunting Licenses for Landowners and Tenants

1) Small game and furbearers. Resident and nonresident owners and tenants of land in Iowa and their juvenile children do not need licenses to hunt and trap on such lands and may shoot by lawful means ground squirrels, gophers, and woodchucks upon adjacent roads. Deer and Wild Turkey Licenses are required to hunt deer and wild turkey. Nonresidents hunting deer or wild turkey must also have a Hunting License and pay the Habitat Fee. A Wild Turkey Hunting License is not required to hunt wild turkey on a licensed hunting preserve. Persons exempted under this provision must still possess a valid Federal Migratory Waterfowl Stamp and have paid the Iowa Migratory Game Bird Fee in order to hunt waterfowl and other migratory game birds if they are 16 years old or older.

2) Deer and Wild Turkey. Iowa residents who are owners or tenants of a farm unit, or are a member of the owner’s or tenant’s family that resides with the owner or tenant, are eligible for reduced-fee deer and wild turkey hunting licenses, commonly called landowner-tenant licenses. Owning land in Iowa does not confer residency, unless the residency requirements on p. 6 are met. Nonresident landowners and tenants are not eligible for these licenses.

Landowner-Tenant deer and turkey licenses are valid for taking the appropriate species, but only on the farm unit of the owner or tenant. The qualifying landowner or tenant does not have to reside on the farm, but must qualify under the following definitions:

“Farm unit” means all parcels of land that are in tracts of 2 or more contiguous acres that are operated as a unit for agricultural purposes and are under the lawful control of the landowner or tenant. Parcels of land in a farm unit need not be contiguous, but all will be considered part of a single farm unit regardless of how those parcels are subdivided for agricultural or business purposes. An owner cannot receive a Landowner-Tenant License on one parcel and a family member receive a Landowner-Tenant License on another, even if the parcels are separate business operations.

“Owner” and “Tenant” definitions

“Family member” means a resident of Iowa who is the spouse or child of the owner or tenant and who resides with the owner or tenant.

“Owner” means an owner of a farm unit who is a resident of Iowa and who is one of the following:

- A. Is the sole operator of the farm unit.
- B. Makes all farm operating decisions but contracts for custom farming or hires labor for all or part of the work on the farm unit.
- C. Participates annually in farm operation decisions or cropping practices on specific fields of the farm unit that are rented to a tenant.
- D. Raises specialty crops on the farm unit including, but not limited to, orchards, nurseries or trees that do not always produce annual income but require annual operating decisions about maintenance or improvement.
- E. Has all or part of the farm unit enrolled in a long-term agricultural land retirement program of the federal government.

F. Rents the entire farm to an adult child who operates the farm.

G. An owner DOES NOT mean a person who owns a farm unit and who employs a farm manager or third party to operate the farm unit, or a person who owns a farm unit and who rents the entire farm to a tenant who is responsible for all farm operations (unless the renter is the owner’s child).

“Tenant” means a person who is a resident of Iowa and who rents and actively farms a farm unit

owned by another person. A member of the owner’s family may be a tenant. Rental includes cash rent and share crop arrangements. A person who works on a farm for a wage and is not a family member does not qualify as a tenant.

Common Landowner/Tenant Scenarios

The following examples illustrate the most common scenarios involving Iowa landowners and tenants and who is eligible for Landowner-Tenant licenses. However, each case must be decided on its own merits.

■ **A husband and wife own land jointly (both names are on the deed).**

■ Although both are owners, only one may obtain a Landowner-Tenant License. Another member of the family or a third party could have a Landowner-Tenant License, if they otherwise qualify.

■ **The husband is listed as the owner; the wife and/or minor children actively participate in the farm operation but are not tenants as previously described.**

One may get a Landowner-Tenant License, but not both (husband as owner, wife or child as family member). Or, the wife is listed as the owner and the husband farms the land. One may get a Landowner-Tenant License, but not both, unless the husband pays rent and qualifies as a tenant.

■ **The husband is sole owner of part of the farm unit and the wife is sole owner of another part, but all the land is farmed together as a unit.**

Both qualify for a Landowner-Tenant License but each must hunt only on the land they own individually unless one also qualifies as a tenant.

■ **One spouse owns a parcel of land away from the farm unit that they farm. The spouse’s parcel is farmed by another individual and the spouse is not actively engaged in farming it.**

No Landowner-Tenant License may be granted for the separate parcel since neither spouse qualifies under the definitions listed above. Only the tenant of that parcel may have a Landowner-Tenant License.

■ **The owner cash-rents the entire farm to a tenant who is not the owner’s child.**

Only the tenant may have a Landowner-Tenant License.

■ **A parent owns the land and an adult child farms it.**

Both may qualify if the child pays rent. Only the child qualifies if there is a formal purchase agreement between the two.

■ **A tenant rents farm land from several owners.**

The tenant or a member of the tenant's family may have one Landowner-Tenant License valid on all the land the tenant rents. Each owner or a member of the owner's family may have a Landowner-Tenant License for their own land if they otherwise qualify.

■ **Farm laborer.**

A farm laborer who is not a member of the farmer's family and who works for wages or other compensation is not entitled to a Landowner-Tenant License.

Multiple Offender

Effective July 1, 1990, the Iowa Legislature enabled the DNR to implement a Multiple Offender program for fish and wildlife violators.

Convictions are assigned point values as determined by the Iowa Administrative Code. Licenses will be suspended or revoked for a specific period as determined by the number of points accumulated. Point values range from one to three points depending on the seriousness of the violation. A "Multiple Offender" is any person who has equaled or exceeded five points during a consecutive three year period. This program applies even if all violations occur as a single event with no previous violations.

This program is administered by the DNR and is in addition to any penalties or revocations/suspensions imposed by the court for the same violation. Persons with suspended or revoked hunting and fishing privileges will not be allowed to purchase licenses during the suspension period.

Liquidated Damages

In addition to penalties assessed by the court, a person who is convicted of unlawfully selling, taking, catching, killing, injuring, destroying or having in their possession any animal, shall reimburse the state for the value of the animal as follows:

1. For each antlered deer, reimbursement shall be based on the point score of the antlered deer as measured by the Boone and Crockett club's net scoring system for whitetail deer as follows:

(a) 150 points or less \$2,000 to \$5,000 and 80 hours of community service or, in lieu of the community service, a minimum of \$4,000 and not more than \$10,000, in an amount that is deemed reasonable by the court.

(b) More than 150 points \$5,000 to \$10,000 and 80 hours of community service or, in lieu of the community service, a minimum of \$10,000 and not more than \$20,000, in an amount that is deemed reasonable by the court.

2. For each deer \$1,500

3. For each wild turkey, beaver, mink, otter, red fox, gray fox or raccoon \$200

4. For each animal or bird or the raw pelt or plumage of such animal or bird for which damages are not otherwise prescribed \$50

5. For each fish, reptile, mussel or amphibian . \$15

6. For each animal classified by the Natural Resource Commission as an endangered or threatened species \$1,000

7. For each elk, antelope, buffalo or moose \$2,500

8. For each swan or crane \$1,500

For each conviction of unlawfully harvesting ginseng, the state will be reimbursed 150 percent of the ginseng's market value as determined by the department.

Wildlife Violator Compact is an agreement between participating states that prohibits a person whose hunting or fishing privileges are suspended in one state from participating in those activities in another state. Member states include Iowa, Arizona, California, Colorado, Georgia, Idaho, Indiana, Maryland, Minnesota, Missouri, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming. Other states may be in the process of joining the compact.

- Under sections 252J.8 of the Iowa code and 42 U.S. Code 666 (a)(13), the DNR is required to collect social security numbers from all licensees. The primary purposes for gathering this information are to verify identity, to determine applicants' eligibility for licenses, and to provide information to the Iowa Child Support Collection Unit for the purpose of establishing, modifying and enforcing child support obligations. Information may also be provided to law enforcement agencies. Providing a social security number is mandatory when purchasing a conservation license using ELSI for the first time. The social security number will not appear on the license.
- Anyone currently under revocation or suspension for fish or wildlife violations will be denied purchase of a license for the activity in which they are revoked or suspended.

HUNTER PREVENTION AGAINST WEST NILE VIRUS

Information from the Centers for Disease Control, Iowa DNR and Iowa State University shows most small game (pheasants, quail, turkey, rabbits, squirrel), big game and waterfowl can carry West Nile Virus (WNV). According to the National Wildlife Disease Center, there is no evidence that just by touching a dead animal, a human can contract West Nile. However, since the virus is a blood-born pathogen, it may be possible for someone butchering an infected animal to contract the virus through an open cut on the hand. Therefore, as is recommended when handling all wild animals, hunters are advised to wear rubber gloves while dressing out any game animal. Hunters concerned about their dog should contact their veterinarian for the latest information on WNV. As with all food handling, proper cooking of game is recommended.

Ruffed Grouse Hunting Zone

The Ruffed Grouse hunting zone is that portion of northeast Iowa bordered by U.S. Highway 63, 20 and 151, and Iowa Highways 13 and 64.

1985 - 2005 Turn In Poachers Celebrates 20 Years in Iowa

Beginning in September 2005, hunters and anglers will have the opportunity to voluntarily donate \$2 anytime a hunting or fishing license is purchased. The money will be used by the Turn In Poachers, Inc. board, an independent, private organization, to provide rewards and promote the TIP program.

Poaching Is A Crime!

If you observe or know of a fish or wildlife violation, report it to TIP as soon as possible by calling 1-800-532-2020. Provide as much information as possible when you call, such as a description of the possible violator, the vehicle and the time and location of the violation.

A conservation officer will be dispatched to investigate. Since the TIP program began in 1985, more than \$140,000 has been approved in reward payments.

GENERAL HUNTING REGULATIONS

Definitions

Please read the definitions of these terms, commonly used in the hunting regulations summary, before referring to the rest of the text.

“Motor vehicle” means any self-propelled vehicle having at least three wheels and which must be registered as a motor vehicle under Iowa Code Chapter 321.

“Paraplegic” means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease of or injury to the spinal cord.

“Physically disabled person,” when used in reference to crossbow permits for deer and turkey hunting, means a person having a physical impairment of the upper extremities that makes a person physically incapable of shooting a bow and arrow. This includes difficulty in lifting and reaching with arms as well as difficulty in handling and fingering a bow.

“Physically disabled person,” (nonambulatory permit), when used in the Motor Vehicle Restrictions section (see p. 16), means an individual commonly termed paraplegic or quadriplegic, with paralysis or a physical condition of the lower half of the body involving both legs, usually due to disease or injury to the spinal cord; a person who is a single or double leg amputee; or a person with any other physical affliction which makes it impossible to ambulate successfully without the use of a motor vehicle.

“Severely disabled person,” when used in reference to the Disabled Hunter deer season, means a person that qualifies as severely disabled under Iowa Code Chapter 321L.1.8, including those who have difficulty walking due to lung or heart disease or an arthritic, neurological or orthopedic condition.

“Roadway” see diagram below for description of a “Roadway” and “Right of Way.”

“One-way mobile radio transmitter” means a radio capable of transmitting a signal but not capable of transmitting a voice signal. The signal may be tracked or located by radio telemetry or located by an audible sound.

“Two-way radio transmitter” means a radio capable of transmitting and receiving voice messages, including, but not limited to, a citizen band radio or a cellular telephone. Two-way radio transmitters would also include walkie-talkies or hand held radios.

“Trespass” means entering property without the express permission of the owner, lessee or person in lawful possession, with the intent to commit a public offense; to use, remove therefrom, alter, damage, harass, or place anything animate or inanimate, or to hunt, fish or trap on the property. The term trespass does not mean entering the right-of-way of a public road or highway. Railroad right-of-ways are considered private property.

This paragraph does not prohibit the unarmed pursuit of game or furbearing animals lawfully injured or killed which come to rest on or escape to the property of another.

Hunting Incidents Must be Reported

Anyone involved in a hunting incident involving a firearm which results in a personal injury or property damage exceeding \$100 must report the incident within 12 hours to the sheriff’s office in the county where the incident occurred or to the local conservation officer. If the conservation officer is not immediately available, and it is between normal office hours of 8 a.m. to 4:30 p.m. M-F, report the incident to the law enforcement bureau of the DNR at the central office in Des Moines at 515/281-8652.

Anyone who intentionally discharges a firearm in a reckless manner is committing an offense, ranging from a simple misdemeanor to a felony, depending on the seriousness of the personal injury or damage to property.

Showing License to Officer

Upon request, you must show your license, certificate or permit to any peace officer or the owner or person in lawful control of the land or water on which you are hunting or trapping. You must have your license, certificate or permit in your possession.

Use of CB or Mobile Transmitter

You cannot use a two-way mobile radio transmitter to communicate the location or direction of game or furbearing animals, or to coordinate the movement of other hunters.

Exceptions: Coyote hunters may use two-way transmitters, except during the two regular gun (shot-gun) deer seasons. A falconer may use a one-way mobile transmitter to recover a free-flying bird of prey that is properly banded and covered on a falconry permit. Hunters with dogs may use a one-way mobile transmitter to track or aid in the recovery of the dog. (See the definitions of one-and two-way mobile radio transmitters on p. 12 for more information.)

Laser Sights are Prohibited

You cannot use laser sights that cast a ray of light on the animal while hunting. (See the exception under the hunting by artificial light section on p. 14.)

Unlawful Transportation

You cannot ship, carry or transport, in any one day, game, fish, birds or animals (except furbearing animals) in excess of the number legally permitted to be possessed, unless authorized by a special license such as a Taxidermy License.

Game Brought into the State

You may possess game that has been lawfully taken outside the state and lawfully brought into the state, but you must be able to prove it was legally killed and legally transported into the state.

Retrieval and Waste of Game

While taking or attempting to take game or furbearing animals, you cannot abandon the injured animal without making a reasonable effort to retrieve it from the field. You cannot leave a usable portion of the game or furbearing animal in the field. "Usable portion" in this instance means the following: 1) for game, that part of an animal that is customarily processed for consumption; and 2) for furbearing animals, the fur or hide of the animal.

Possession and Storage of Game and Hides

You cannot possess game or furbearing animals or their pelts, except deer venison, for more than 30 days after the close of the season for that species. A person in lawful possession of deer venison taken with a valid license, may hold the venison until the following September 1. From September 1 until the first day of

the next deer open season for which the person holds a valid deer hunting license, the person shall not possess more than 25 pounds of deer venison. Any person may possess up to 25 pounds of deer venison if the deer was lawfully obtained.

A permit to hold for a longer period may be granted by the DNR. The permit application will be verified in person and show the number and varieties of the skins or hides you may hold. The permit will authorize the holder to sell or otherwise dispose of such skins or hides.

Obstruction of Hunting or Trapping

No one may intentionally obstruct the participation of another in the lawful activity of hunting or trapping, including but not limited to:

A) intentionally placing oneself in a location where human presence may affect the behavior of a furbearing animal, game bird or other game or the feasibility of killing or taking a furbearing animal, game bird or other game with the intent of obstructing or harassing another person who is lawfully hunting or trapping.

B) intentionally creating a visual, aural, olfactory or physical stimulus for the purpose of effecting the behavior of a furbearing animal, game bird or other game with the intent of obstructing or harassing another person who is lawfully hunting or trapping.

C) intentionally affecting the condition or altering the placement of personal property used for the purpose of taking furbearing animals, birds or other game with the intent of obstructing or harassing another person who is lawfully hunting or trapping.

A person shall not interfere with the lawful hunting or trapping activities of another person where hunting or trapping is authorized by a custodian of public property or an owner or lessee of private property. This rule does not prohibit a landowner, tenant or an employee of the landowner or tenant from performing normal agricultural operations or a law enforcement officer from performing official duties.

Blinds

A blind is a constructed place of concealment for hunting, observing or photographing wildlife. You may construct a blind on a game management area using only the natural vegetation found in the area, except that no trees or parts of trees other than willows can be cut for that purpose. The use of such blinds is on a first-come, first-served basis whether or not you constructed the blind.

You cannot drive or otherwise place any nail, spike, pin or any other object, metal or otherwise, into any tree on a game management area to construct a blind or to make access to a blind or to a hunting location above the ground.

Portable blinds placed in trees and used for purposes other than hunting waterfowl may be left on an area for a continuous period of time from seven days prior to the open season for hunting deer or wild turkey to seven days after the final day of the respective seasons.

Decoys

Live animals may not be used as decoys for any type of hunting. A “decoy” is a likeness of a bird or animal used to lure game within shooting range.

Selling Game

Except as otherwise provided, you cannot buy or sell, dead or alive, a bird or animal, including fish, or any part of one which is protected. This does not apply to furbearing animals and the skins, plumage and antlers of legally taken game. You cannot purchase, sell, barter or offer to purchase, sell or barter migratory game birds; and for millinery or ornamental use, the same applies to the feathers of migratory game birds.

Unlawful sale

You cannot buy or sell any wild animal or part of a wild animal if the wild animal was unlawfully taken, transported or possessed.

Transporting Firearms

You may not have or carry a shotgun or rifle in a vehicle that is on a public highway, unless the firearm is taken down or totally contained in a securely fastened case with its barrels and magazines unloaded. Handguns must be transported unloaded in a closed container or securely wrapped package too large to conceal on your person or which is not readily accessible to any person in the vehicle. Muzzleloaders must be cased but will be considered unloaded if the cap is removed from the nipple or the primary charge is removed from the pan.

Prohibited Hunting Near Buildings

You cannot discharge a firearm or shoot or attempt to shoot a game or furbearing animal within 200 yards of a building inhabited by people or domestic livestock or a feedlot unless the owner or tenant has given consent to do so. Feedlot means a lot, yard or corral where livestock is confined for the purpose of feeding and growth prior to slaughter. Pastures, hayfields or

croplands where animals are allowed to graze are not considered feedlots.

Protection of Public Hunting Areas

If a public hunting area was in place prior to the construction of an adjacent feedlot or building inhabited by people or livestock and such construction occurred on or after May 14, 2004, then consent is not required to shoot on the public hunting area or within 200 yards of the feedlot or building. This act protects existing uses of public hunting areas from infringements caused by new construction and development.

As used in this subsection, “public hunting area” means public lands or waters available for hunting by the public and identified as a public hunting area by the city, county, state or federal government.

Hunting by Artificial Light

Sights that project a light beam, including laser sites, are **not legal** for hunting. You cannot cast the rays of a spotlight, headlight or other artificial light on a highway or in a field, woodland or forest for the purpose of spotting, locating, taking or attempting to take or hunt a bird or animal, while having in possession or control, either singly or as one of a group of persons, any firearm, bow or other device capable of killing or taking a bird or animal. This rule does not apply to hunting raccoons or other furbearing animals when they are treed with the aid of dogs.

This rule also does not apply to deer being taken by or under the control of a local government body within its corporate limits pursuant to an approved special deer population control plan.

Shooting Rifle Over Water or Highway

You cannot shoot any rifle on or over any of the public highways or waters of the state or any railroad right-of-way. You cannot discharge a shotgun shooting a slug, pistol or revolver on or over a public roadway (see p. 12 for diagram of public roadway).

Trapping and Hunting Furbearers Furbearing Animals

The following are considered furbearing animals: beaver, badger, mink, muskrat, raccoon, striped skunk, spotted skunk, opossum, weasel, coyote, groundhog (woodchuck), red fox, gray fox, otter, bobcat and gray wolf. See p. 19 for those that may be legally harvested.

Permit to Hold Hides (see p. 13)

Disturbing Dens

You cannot molest or disturb, in any manner, any den, lodge or house of a furbearing animal or beaver dam except by written permission of an officer appointed by the director of the DNR. You cannot use any chemical, explosive, smoking device, mechanical ferret, wire, tool, instrument or water to remove furbearing animals from their dens.

This section does not prohibit a property owner from destroying a den to protect their property.

Box Traps

A person shall not use or attempt to use colony traps in taking, capturing, trapping or killing any game or furbearing animals except muskrats as determined by rule of the commission. Box traps capable of capturing more than one game or furbearing animal at each setting are prohibited. A valid hunting license is required for box trapping cottontail rabbits and squirrels.

Removal of Animals from Traps and Snares

All animals or animal carcasses caught in any type of trap or snare, except those that are placed entirely under water and designed to drown the animal immediately, must be removed from the trap or snare, by the trap or snare user, immediately upon discovery and within 24 hours of the time the animal is caught.

Snares

For the purpose of law enforcement, snares are considered to be traps.

No person shall set or maintain any snare in any public road right-of-way so the snare, when fully extended, can touch any fence. A snare set on private land other than roadsides within 30 yards of a pond, lake, creek, drainage ditch, stream or river must have a loop size of 11 inches or less in horizontal measurement. All other snares must have a loop size of 8 inches or less in horizontal measurement, except for snares with at least one-half of the loop under water. Snares cannot

be attached to a drag. All snares must have a functional deer lock which will not allow the snare loop to close smaller than 2 1/2 inches.

Mechanical Snares

It is illegal to set any mechanically-powered snare designed to capture an animal by the neck or body unless the snare is placed completely under water.

Body-gripping and Conibear-type Traps

You cannot set or maintain any body-gripping or conibear-type trap on any public road right-of-way within 5 feet of any fence.

Humane traps, or traps designed to kill instantly, with a jaw spread as originally manufactured that exceeds 8 inches, are unlawful to use except when placed entirely under water.

Public Roadside Limitations for Snare, Body-gripping and Conibear-type Traps

Conibear-type traps and snares must not be set on the right-of-way of a public road within 200 yards of the entry to a private drive serving a residence without the permission of the occupant. You cannot set or maintain any snare or conibear-type trap within any public road right-of-way within 200 yards of buildings inhabited by humans unless a resident of the dwelling adjacent to the public road right-of-way has given permission, or unless the body-gripping or conibear-type trap is completely under water or at least one-half of the loop of the snare is under water. This does not limit the use of foothold traps or box-type live traps in public road right-of-ways.

Foothold and Leghold Traps

You cannot set or maintain, on land, any foothold or leghold trap with metal serrated jaws, metal-toothed jaws or a spread inside the set jaws greater than 7 inches.

Trap Tag Requirements

All traps and snares, whether set or not, possessed by a person who can reasonably be presumed to be trapping must have a metal tag attached, plainly labeled with the user's name and address. Officers appointed by the DNR can confiscate such traps and snares when not properly labeled or checked.

Exposed Bait

You cannot set or maintain any foothold or body-gripping trap or snare within 20 feet of exposed bait on land anywhere in the state, or over water in the follow-

ing areas:

a) Mississippi River corridor - Allamakee, Clayton, Dubuque, Jackson, Clinton, Scott, Muscatine, Louisa, Des Moines and Lee counties.

b) Missouri River corridor - Those portions of Woodbury, Monona, Harrison, Pottawattamie, Mills and Fremont counties west of Interstate 29.

c) Des Moines River corridor- Boone, Dallas, Polk, Marion, Mahaska, Wapello and Van Buren counties.

“Exposed bait” means meat or viscera of any animal, bird, fish, amphibian or reptile with or without skin, hide or feathers that is visible to soaring birds.

Trapping near beaver lodges or dens

To protect river otters, no trapping is allowed within 10 yards of active or inactive beaver lodges or dens in Linn County on the Cedar River and Indian Creek floodplains between Highway 30, Highway 151, Business 151 and Interstate 380.

Trapping on Game Management Areas

Marking Trap Sites

You cannot place on any game management area any trap, stake, flag, marker or any other item or device to trap furbearers, or to mark or otherwise claim any site to trap furbearers, except during the open season for taking furbearers other than coyote.

Motor Vehicle Restrictions

Game management areas. The use of motor vehicles on all game management areas is restricted.

Roads and parking lots. Motor vehicles are prohibited on a game management area except on constructed and designated roads and parking lots unless specifically permitted (see following paragraphs).

Physically disabled persons. Physically disabled persons may use certain motor vehicles on game management areas, according to the restrictions set out as follows, so that they might enjoy such uses as are available to others. (See the definitions of “Motor Vehicle” and “Physically Disabled Person” on p. 12.)

“Permits.” Each physically disabled person must have a permit issued by the director of the DNR to use motor vehicles on game management areas. Such permits will be issued without charge. An applicant must submit a certificate from their doctor stating he or she meets the criteria for physically disabled persons.

“Approved Areas.” A permit holder must annually contact the technician or wildlife biologist of the specific area(s) the permit holder wishes to use. The technician or wildlife biologist will determine which areas or portions of areas will not be open to use by permittees to protect the permittee from hazards or to protect certain natural resources of the area. The technician or wildlife biologist will assist by arranging access to the area and by designating specific sites on the area where the motor vehicle may be used, and where it may not be used. The technician or wildlife biologist will provide a map of the area showing the sites where use is permitted and bearing the technician’s or wildlife biologist’s signature and the date. Non-handicapped companions of permit holders are not covered under the conditions of the permit.

“Exclusive use.” The issuance of a permit does not imply that the permittee has exclusive use of the area. Permittees shall take reasonable care so as not to unduly interfere with the use of the area by others.

“Prohibited acts.” Except as provided, the use of a motor vehicle on any game management area by a person without a valid permit, or at any site not approved on a signed map, is prohibited. Permits and maps must be carried by the permittee at all times that the permittee is using a motor vehicle on a game management area, and must be exhibited to any DNR employee or law enforcement official upon request.

“Shooting from a motor vehicle.” Except where prohibited by law, a physically disabled person meeting the above conditions may shoot from a stationary motor vehicle.

Falconry

Game may be taken by licensed falconers. All falconers who pursue game must carry a copy of their state Falconry License and have a valid resident or nonresident Hunting License and pay the Habitat Fee. Falconry regulations for hunting, including bag and possession limits and the listing of permitted game species can be found at www.iowadnr.com/wildlife/ or by calling 515/281-5918 during the normal business hours of 8 a.m. to 4:30 p.m. M-F. The minimum age of falconers is 14.

Protected Nongame

Protected nongame species include wild birds, fish, bats, reptiles and amphibians or their eggs or nests, their dead body or dead body parts or a product made from their parts. Any bat, with the exception of the Indiana bat, that is found within a building occupied by humans is not protected.

Unprotected Nongame

The European starling, the house sparrow, and the common garter snake are not protected species. Timber rattlesnakes are protected in Allamakee, Clayton, Delaware, Des Moines, Dubuque, Fayette, Henry, Jackson, Jones, Lee, Madison, Van Buren and Winneshiek counties but not including an area of 50 yards around houses actively occupied by human beings in those counties.

Regulated Harvest and Sale of American Ginseng

Harvest season and definitions. The harvest season for wild or cultivated ginseng is from Sept. 1 to Oct. 31, each year. “Wild ginseng” means ginseng that is not grown or nurtured by a person beyond planting of seed at the site of collection. “Cultivated ginseng” means ginseng that is artificially propagated and maintained under controlled conditions, for example, in intensively or intermittently prepared or managed gardens or patches, under artificial or natural shade.

Permits and root retention. To harvest wild ginseng, you must have a valid harvester’s permit which costs \$11 per year. The permit is also required for harvesting wild ginseng on your own land. Permits may be purchased through the ELSI system from Dec. 15 through Oct. 31. Harvesters with valid Iowa Ginseng Harvesters’ Permits may sell wild ginseng from Sept. 1 through March 15 of the following year. All state parks and preserves are closed to the harvest of ginseng.

Only those ginseng plants with three or more true leaves (prongs) can be harvested. Harvesters with valid Iowa Ginseng Harvester permits may retain no more than 4 ounces of dry wild ginseng for personal consumption for one year beyond the expiration date of the permit.

If you cultivate ginseng you must have a grower’s permit valid for five years from the date of issue. A grower’s permit costs \$1 and must be renewed within 60 days of expiration.

If you buy and sell wild or cultivated ginseng, you must have a dealer’s permit which costs \$100. A dealer’s permit must be filed with the DNR at least 15 days prior to the Sept. 1 ginseng season opening. Dealer permits are valid from Sept. 1 through Aug. 31 of the following year. Dealers must keep record of their transactions and report them annually by April 15 on forms provided by the DNR.

Shipping certificates are free to ginseng growers or dealers and can be obtained from the DNR Central Office in Des Moines. Harvesters may obtain a shipping certificate for \$5 per certificate from DNR weighing

stations around Iowa.

Violations of the administrative rules or the code sections regulating ginseng are subject to a scheduled fine of \$100. In addition, any person convicted of unlawfully harvesting wild ginseng will be required to reimburse the state at 150 percent of the ginseng’s market value.

Taxidermy

A taxidermist is a person engaged in the business of preserving or mounting game, fish or furbearing animals. A license is required for anyone to practice taxidermy and the taxidermist must contact a DNR officer prior to operating. A licensed taxidermist may possess at any time game, fish or furbearing animals which have been lawfully taken. A taxidermist shall keep accurate records of transactions showing the numbers and kinds of specimens received for preserving, the date of acquisition and the name and address of the owner of the specimens. A taxidermy license may be revoked for good cause.

You cannot put or leave any game, fish or furbearing animal in the custody of another person for the purpose of having taxidermy services performed unless each specimen has a tag attached which is signed by the possessor and states the address of the possessor, the total number and species of the specimens and the date the specimens were killed. All transactions, tags and specimens left in the custody of the taxidermist by another person shall be open to inspection by a conservation officer at any reasonable hour. A federal permit is required for activities involving migratory birds. Obtain the permit by contacting U.S. Fish and Wildlife Service at 612-713-5449.

Dog Restrictions

Rabies vaccination. Hunters bringing dogs four months of age or older into Iowa must have in their possession a health certificate verifying the rabies and other vaccinations of the dog(s).

Where restricted. Dogs are prohibited on all state-owned game management areas, between March 15 and July 15 of each year; except that dog training is permitted on designated training areas. Field and retriever meets are restricted to designated sites.

A permit must be obtained from the DNR for field and retriever meets. The permit shall show the exact designated site of the meet and all dogs shall be confined to that site.

Training dogs. You need to have a valid Hunting License and have paid the Habitat Fee to train a bird dog on game birds. An Iowa Migratory Bird Fee and

Federal Waterfowl Stamp are required if using waterfowl. A valid Furharvester License is required to train a coon hound, fox hound or trailing dog on any furbearing animals at any time of the year, including during the closed season on such birds or animals. The animals, when pursued to a tree or den, shall not be further chased or removed in any manner from the tree or den. You must have a Hunting License or a Furharvester License to train a dog on coyote or groundhog.

Only a pistol, revolver or other gun shooting blank cartridges shall be used while training dogs during closed seasons.

If you have a dog entered in a licensed field trial you do not need any type of Hunting License to participate in the event or to exercise your dog on the area on which the field trial is to be held during the 24-hour period preceding the trial.

Pen-raised game birds may be used and shot in the training of bird dogs. Before any bird is released or used in the training of dogs, the bird must be banded with a band from the DNR. Contact the DNR at 515-281-5918.

ATV Use and Hunting

The following regulations apply when using all-terrain vehicles for hunting purposes:

- ◆ ATVs cannot be operated on roadways (except for agricultural purposes).
- ◆ It is illegal to operate an ATV on DNR Wildlife Management Areas.*
- ◆ A person shall not operate an ATV with more persons on the vehicle than it was designed to carry.
- ◆ You must obtain permission from the landowner to operate an ATV on private land.
- ◆ When transporting guns on an ATV, guns must be unloaded and in a case at all times.
- ◆ It is illegal to chase or use a machine to assist in the taking of any game animal.

*Physically handicapped persons may be eligible for a permit to operate an ATV on DNR lands. See "Motor Vehicle Restrictions" on p. 12.

For a copy of Iowa's ATV Regulations, contact your local state conservation officer, county recorder or DNR office. The information is also posted on the DNR's website at www.iowadnr.com/

Wildlife Refuges

Restrictions. The following areas under the jurisdiction of the Department of Natural Resources are established as game refuges where posted as such. It shall be unlawful to hunt, pursue, kill, trap or take any wild animal, bird or game on these areas at any time, and no one shall carry firearms thereon. It shall also be unlawful to trespass in any manner on the following areas, where posted as such, between the dates of Sept. 10 and Dec. 31 of each year, both dates inclusive, except that DNR personnel and law enforcement officials may enter the area at any time in performance of their duties.

UPLAND GAME HUNTING INFORMATION

See p. 12 - 14 for general hunting regulations that may also apply to upland game hunters.

Resident and Nonresident License Requirements

See p. 6 for eligibility requirements for resident licenses and for licenses required.

Resident and Nonresident License Fees p. 5.

Hunter Orange Required

To hunt upland game birds you must wear at least one of the following articles of visible, external apparel with at least 50 percent of its surface area solid blaze orange in color: hat, cap, vest, coat, jacket, sweatshirt, shirt or coveralls.

Transporting Pheasants

A foot, fully feathered wing, or fully feathered head must remain attached to any pheasant transported within the state. The bird may be field dressed, but the carcass must remain intact.

Youth Pheasant Season

Resident hunters ages 15 or younger may hunt rooster (male) pheasants during the Youth Pheasant Season without having a Hunting License, paying the Habitat Fee, or passing a hunter education course. The youth hunter must be accompanied by an adult 18 years old or older who has a valid Hunting License and has paid the Habitat Fee if normally required to do so to hunt. Only the youth may shoot pheasants. The adult may shoot other game if seasons are open. All other regulations in effect for the regular pheasant season apply during the youth hunt.

2005 DEER HUNTING INFORMATION

2005 Deer License Purchase Deadlines and Season Dates

Season	Purchase Dates	Season Dates

³ Purchase until county antlerless quota is reached ⁴ Purchase until nonresident antlerless quota is reached
⁵ See p. 25 for nonresident deer zone map

WHAT'S NEW FOR 2005

- A \$1 Help Us Stop Hunger (HUSH) fee is added to every deer license. See p. 30.
- The definition of antlerless deer has changed. See below.
- Eligibility for landowner deer licenses has changed, as well as the penalties for obtaining them illegally. See p. 7.
- The number of reduced fee licenses available to landowners and tenants has increased. See p. 23.
- A new antlerless-deer only season will be held Nov. 25 - 27. See p. 22.
- The January Antlerless-deer only season will be extended in southern Iowa for 7 days. Centerfire rifles will be allowed during the extension. See p. 21.

License Requirements and Fees

See p. 6 for eligibility requirements for resident Hunting Licenses.

See p. 6 for required licenses.

See p. 5 for license fees.

A deer hunter may not carry a deer hunting license or transportation tag issued to another hunter.

LICENSE TYPES

Resident hunters may obtain the following types of deer licenses:

Paid Any-deer Licenses are valid statewide in the season selected by the hunter at the time the license is purchased. Any-deer licenses are valid for taking deer of either sex. An individual may have one Any-deer license for the Bow Season and one Any-deer license for one of the following seasons: Youth/Disabled, Early Muzzleloader, Late Muzzleloader, Shotgun Season 1, or Shotgun Season 2.

Exceptions:

- Youth/Disabled Season hunters see p. 22.
- There is a quota of 7,500 Early Muzzleloader Season licenses. These are sold first come first served until the quota is filled or until the last day of the Early Muzzleloader Season.

Paid Antlerless-only Licenses are valid for taking only antlerless deer and only in the county and season selected by the hunter at the time the license is purchased. **An antlerless deer is a deer with no forked antler.** Quotas for Antlerless-only licenses are established for each county to direct the additional harvest of does to areas with the greatest number of deer. The quota is the maximum number

of Antlerless-only licenses that will be sold for each county for all deer seasons. Licenses are sold first come first served until the quota is reached.

Antlerless-only licenses are available in most seasons. In the two following antlerless-only seasons, no antlered deer may be harvested; hunters may take only does to reduce the size of the deer herd:

NEW - A 3-day Antlerless-only deer season will be held beginning the Friday after Thanksgiving. Hunters may participate regardless of any other deer licenses that have been purchased. Shotguns, muzzleloaders, handguns and bows may be used. The regular bow season will remain open during this season.

The January Antlerless-only season will be open statewide from January 11- 22. Hunters may participate regardless of any other deer licenses that have been purchased. Shotguns, muzzleloaders,

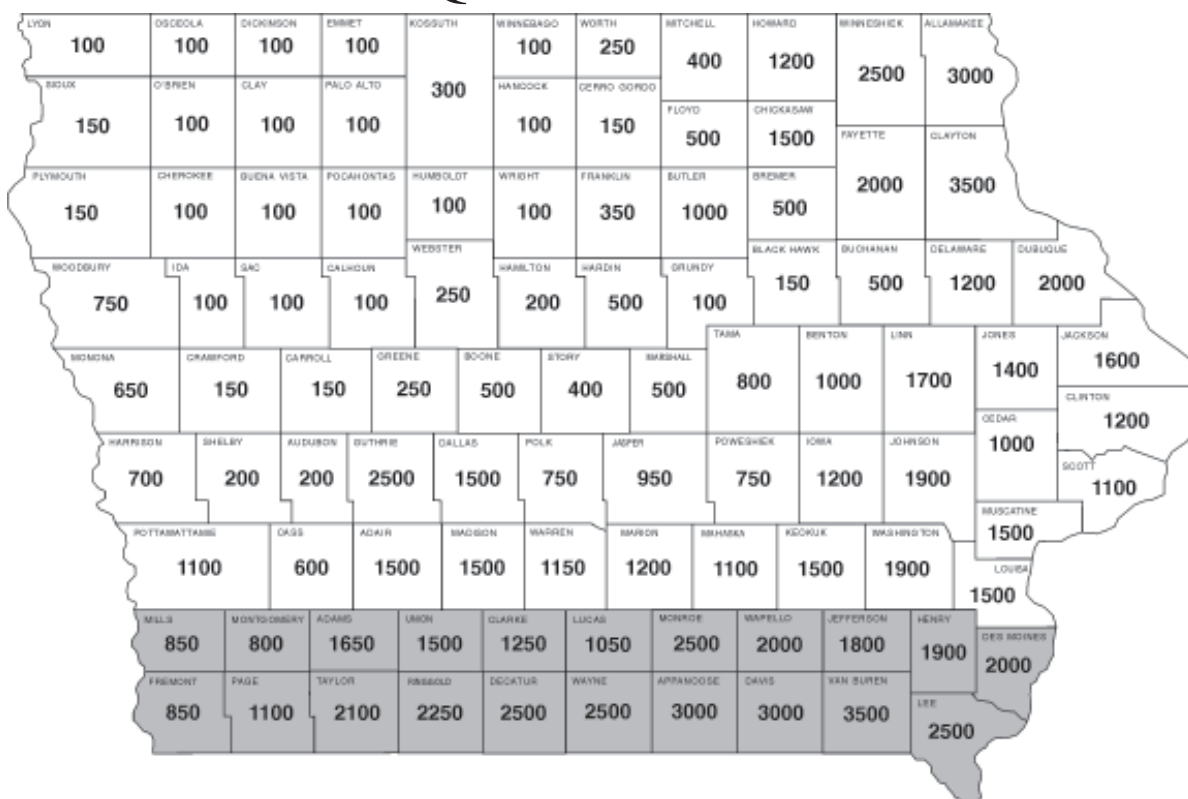

handguns and bows may be used during the statewide segment.

NEW - The January Antlerless-only season will be extended for 7 days from Jan. 23 - 29, 2006, in the following counties in southern Iowa: Mills, Fremont, Montgomery, Page, Adams, Taylor, Union, Ringgold, Clarke, Decatur, Lucas, Wayne, Monroe, Appanoose, Wapello, Davis, Jefferson, Van Buren, Henry, Lee, Des Moines. Hunters with an unfilled January Antlerless-only that is valid in one of the above counties may participate during the extended period. Center-fire rifles, as described on p. 24, will be allowed along with bows, shotguns, muzzleloaders and handguns.

Hunters may purchase multiple Antlerless-only licenses in some seasons and season combinations subject to the following restrictions:

- Beginning August 15, hunters may purchase a total of 3 Antlerless-only licenses in one or a

2005 Antlerless Quotas For Resident Hunters

RESIDENTS ONLY: All counties will be open during the January Antlerless-only Season

- ◆ Antlerless licenses will again be available for all deer seasons in 2005 ◆ The January Antlerless-only Season has been extended to Jan. 29, 2006, in southern Iowa (see shaded counties on map)

combination of the following seasons: Disabled Hunter, Bow, Early Muzzleloader, Late Muzzleloader, Shotgun 1 or Shotgun 2, and up to 3 Antlerless-only licenses for the January Antlerless-only Season.

- Beginning October 1, an unlimited number of Antlerless-only licenses may be purchased for these seasons until county quotas are reached.
- Beginning November 12, hunters may purchase an unlimited number of Antlerless-only licenses for the November Antlerless-only Season.

Allowable Combinations of Any-deer and Antlerless-only Licenses

A hunter's selection of season for an Any-deer License will affect the seasons in which Antlerless-only licenses may be purchased. The chart on p. 26 - 27 explains the combinations of paid licenses that may be purchased.

BONUS DEER HUNTS

Youth Deer Season. Iowa residents that are ages 12 through 15 are eligible for the Youth Season subject to the following restrictions:

- Youth hunters must have reached their 12th birthday but not reached their 16th birthday on the day they obtain the license.
- The youth must provide proof of having passed a hunter education course sponsored by a state wildlife agency when obtaining the license.
- While hunting, youth hunters must be under the direct supervision of an adult mentor who has a valid Hunting License and has paid the Habitat Fee, if the adult is normally required to have them to hunt. Only one youth hunter per adult mentor.
- The youth hunter and mentor must comply with the blaze orange clothing requirements and all other deer hunting regulations that are in effect during the regular deer seasons.

Youth licenses are Any-deer licenses valid statewide for taking one deer of either sex. Youth hunters may hunt with a bow, shotgun or muzzleloader as defined on p. 23. Youth hunters may also obtain one Any-deer License for Bow, Early Muzzleloader (subject to quota), Late Muzzleloader, Shotgun 1 or Shotgun 2 seasons and

Antlerless-only licenses like any other hunter. See the chart on p. 26 - 27.

A youth who resides with and is a member of the family of a landowner or tenant who is eligible for a Landowner-Tenant Deer License may obtain a Landowner-Tenant License for the Youth Season. The Landowner-Tenant Youth License will count as the one Landowner-Tenant Any-deer License the landowner or tenant family is entitled for all deer seasons.

Severely Disabled Hunter. Persons classified as severely disabled as defined in Iowa Code section 321L.1(8) may hunt during the Youth and Disabled Hunter Season. Severely disabled hunters may hunt with a bow, muzzleloader, shotgun, or handgun (if eligible) as defined on p. 23.

Disabled Hunter licenses are Any-deer licenses valid statewide for taking deer of either sex. This license will be the one paid Any-deer License valid for a firearm season that the individual may purchase. Persons with this license may also purchase one Any-deer License for the Bow Season and multiple Antlerless-only licenses for the Disabled Hunter and Bow seasons (see Paid Antlerless-only licenses on p. 20).

Applications for special licenses for this season may be obtained from the DNR's website at www.iowadnr.com (click on 2005-06 Deer Hunting Season Dates), or by calling 515-281-5918, or by going to the DNR central office in Des Moines or one of the district offices across the state (see p. 3). Nonresidents must obtain their license during the regular nonresident application period in May.

Deer Population Management Zones.

Deer population management zones have been established to reduce high deer numbers in areas where traditional hunting seasons cannot be held - chiefly urban areas and state and county parks. Most licenses are Antlerless-only. Licenses for these hunts will not count in determining the number of licenses an individual may have, or against the county quota for Antlerless-only licenses. Licenses cost the same as regular deer season licenses.

These management zones have individual license quotas and may have different season dates,

license restrictions, and firearm proficiency requirements. For more information, consult the chart on p. 28 - 30 .

Educational Deer Hunts. Some of the deer population management zone hunts are designed to educate young deer hunters in proper hunting and safety practices and to hunt in an ethical manner. These hunts are designated as “**Youth Only**” on the table on p. 28 - 30. Contact the hunt location for more information.

REDUCED FEE LICENSES FOR LANDOWNERS AND TENANTS

Reduced-fee deer licenses are available to qualifying landowners and tenants or their eligible family members. See p. 8 to determine who is eligible. These licenses are valid only on the farm unit of the landowner or tenant. Hunters obtaining these licenses may purchase all of the paid deer licenses otherwise available to other hunters.

Landowner-Tenant Any-deer licenses will be valid for taking deer of either sex during the season selected at the time the license is purchased. The license may be for any season except the November and January Antlerless-only seasons. Landowner-Tenant Any-deer licenses for the shotgun seasons will be valid in both shotgun seasons. Only 1 deer may be tagged.

Landowner-Tenant Antlerless-only licenses will be available to hunters that have obtained a Landowner-Tenant Any-deer license. Landowner-Tenant Antlerless-only licenses will be valid for taking

only antlerless deer. **An antlerless deer is a deer with no visible forked antler.** One Landowner-Tenant Antlerless-only License may be selected for any season. A second Landowner-Tenant Antlerless-only License may be selected for the January Antlerless-only Season.

Reduced-fee Antlerless-only Licenses for any season are available to hunters who have already obtained a Landowner-Tenant Any-deer License. These licenses cost \$12 each. A total of 2 may be purchased.

SPECIAL HUNTING REGULATIONS THAT APPLY TO DEER HUNTING

See p. 12 - 14 for general hunting regulations that may also apply to deer hunters.

Shooting Hours

Shooting hours for all deer seasons are one-half hour before sunrise to one-half hour after sunset.

LEGAL WEAPONS

Archery: Longbows, recurve bows, and compound bows shooting broadhead arrows are permitted. No explosive or chemical devices may be attached to the arrow or broadhead. There are no minimum draw weights for bows or minimum diameter for broadheads. Arrows must be at least 18 inches long.

Crossbows are not legal except that a physically disabled person incapable of shooting a bow, as defined on p. 12, may obtain a permit from the DNR to use a crossbow. Applications are available at

WEAPONS LEGAL BY SEASON

SEASON	Archery	Muzzleloader	Handgun	Shotgun	Center-fire Rifle
Youth/Disabled	X	X	X ¹	X	
Bow	X				
Early Muzzleloader		X	X ²		
Late Muzzleloader	X	X	X		
Shotgun 1		X	X	X	
Shotgun 2		X	X	X	
Nov. Antlerless-only	X	X	X	X	
Jan. Antlerless-only	X	X	X	X	
Jan. Antlerless-only Extension	X	X	X	X	X

¹ Only disabled hunters that are otherwise eligible may use a handgun.

² Muzzleloading pistols only.

www.iowadnr.com under Licenses, by visiting the DNR central office or any of the district offices (p. 3), or by calling the DNR at 1-515-281-5918.

Shotguns: 10-, 12-, 16-, and 20-gauge shotguns shooting single slugs only.

Muzzleloaders: Flintlock or percussion cap muzzleloading rifles or muskets between .44 and .775 caliber shooting single projectiles; muzzleloading pistols .44 caliber or larger with a minimum barrel length of 4 inches and no shoulder stock or long barrel modifications. There are no restrictions on in-line or disk-type muzzleloaders. Riflescopes may also be used.

Handguns: Center-fire handguns .357 caliber or larger, shooting straight wall ammunition with expanding-type bullet. Minimum barrel length for all handguns is 4 inches. No shoulder stock or long barrel modifications are allowed.

Only the following center-fire cartridges may be used: .357 Magnum, .357 Maximum, .375 Winchester, .38 Super, .40 S&W, .401 Powermag, 10 mm Auto, .41 Remington Magnum, .41 Action Express, .44 S&W Special, .44 Remington Magnum, .44 Automag, .444 Marlin, .445 Super Mag, .45 ACP, .45 Colt, .45 Super Mag, .45 Winchester Magnum, .45 Silhouette, .451 Detonics, .454 Casull, .45-70 Govt., .460 Rowland, .475 Widley Magnum, .475 Linebaugh, .480 Ruger, .50 Action Express, .50 Linebaugh and .500 S&W Mag.

Hunters age 16 and under may not use any handguns. Hunters ages 17 through 20 must be accompanied by a parent, guardian or spouse who is at least 21 years old to use a handgun.

Center-fire rifles: Rifles .24 caliber or larger with a maximum capacity of 6 rounds in the chamber and magazine combined.

Tagging Requirements

An ELSI-issued transportation tag with the date of kill properly shown must be attached to the deer in a manner that is easily visible and which cannot be removed without being mutilated or destroyed. Transportation tags are proof of possession and must remain attached to the carcass until the animal is processed for consumption. All deer must be tagged within 15 minutes after the kill or before they are moved whichever occurs first. The head and antlers (if any) must remain attached to the carcass until it is processed for

consumption.

Hunters in the Youth/Disabled Hunter, Bow, Early Muzzleloader, and Late Muzzleloader Seasons must shoot their own deer and tag only the deer they shoot.

Hunters in both shotgun seasons and the November and January Antlerless-only seasons may shoot deer for each other, but each deer must be tagged within 15 minutes of the time it is killed or before it is moved whichever occurs first. A deer taken in any of these seasons will be considered in the possession of the hunter whose tag is affixed to it.

Bag and Possession Limit

For Shotgun Season 1, Shotgun Season 2, the November Antlerless-only and January Antlerless-only seasons, the daily bag and possession limit is one deer for each unfilled transportation tag issued to a hunter who is present in the party.

For all other deer seasons, the daily bag and possession limit is one deer for each license and transportation tag issued to the hunter for that season.

The annual possession limit is one deer for each license and transportation tag obtained by the hunter for all seasons.

Blaze Orange Clothing Required

To hunt deer with a firearm in any season you must wear one of the following articles of external, visible, solid blaze orange clothing: vest, jacket, coat, sweatshirt, sweater, shirt or coveralls. An orange hat alone is not sufficient.

Helping Other Hunters

Resident and nonresident deer hunters with a valid deer hunting license may hunt with and assist other deer hunters only in the season specified on their license.

Tree Stands

You may not construct a permanent tree stand on state public hunting areas. You may not drive or in any other way place any nail, spike, pin, or any other metal object into a tree on state public hunting areas to construct a blind or to provide hunting access to a location above the ground.

Tree stands may be left on a state public hunting area from 7 days prior to the start of a deer season until 7 days after the final day of that season.

Prohibited Devices and Activities

You may not use dogs, domestic animals, bait, radios, handguns, rifles and crossbows except as previously described, automobiles, aircraft, electronic calls or any mechanical conveyance or device to hunt deer. Paraplegics and single- or double-leg amputees may hunt from any stationary motor-driven conveyance. “Paraplegic” means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease or injury to the spinal cord.

“**Bait**” means grain, fruit, vegetables, nuts, hay, salt, mineral blocks, or any other natural food materials, commercial products containing natural food materials, or by-products of such materials transported to or placed in an area for the purpose of attracting wildlife. Bait does not include food placed during normal agricultural activities.

Deer Classic Ad Here

Nonresident Deer Hunting Zones

Nonresidents must have a 2005 Nonresident Deer Hunting License, a 2005 Nonresident Small Game Hunting License and have paid the 2005 Habitat Fee to hunt deer in Iowa.

How Many Paid Deer

DIRECTIONS: The chart below will help you determine which combinations you may purchase and how many of each you may have. To use the chart, select your preferred Any-deer License (the license you want above all others) from the column of boxes on the far left. Read across to the right, always staying within the same horizontal lines, to determine what additional licenses you may have. If you do not want to purchase an Any-deer License, proceed to the bottom of the page to determine what antlerless licenses you may purchase.		
FIRST ANY-DEER LICENSE Valid statewide: \$27; Maximum 1 per hunter. No quota (except Early Muzzleloader). Select <u>one</u> license from any box below.	SECOND ANY-DEER LICENSE (optional) Valid statewide: \$27; Maximum 1 per hunter. No quota (except Early Muzzleloader). Select <u>one</u> license from the box or boxes next to your first Any-deer License selection.	
SHOTGUN SEASON 1	Bow Season Youth Season (if eligible)

Help Us Stop Hunger is a cooperative effort of the Iowa DNR, the Food Bank of Iowa, Iowa lockers and deer hunters in Iowa. Deer donated by hunters at HUSH lockers will go to needy Iowans and the Food Bank of Iowa will assure it gets to them.

Any hunter can donate any legally taken deer of any sex from any season. Just take the field-dressed deer to any one of the following lockers. Check www.iowahush.com for updates.

2005 FALL WILD TURKEY HUNTING INFORMATION

Nonresidents are not eligible for fall turkey hunting licenses.

Fall Turkey License Purchase Deadlines and Season Dates

License Types	Purchase Dates	Season Dates
Combination Gun/Bow ¹		Oct. 10 - Dec. 2
1 or 2 Licenses	Aug. 15 - Dec. 2	
3 rd Gun/Bow License	Nov. 1 - Dec. 2	
Archery Only ²		Oct. 1 - Dec. 2
1 or 2 Licenses	Aug. 15 - Jan. 10, 2006	AND
3 rd License (Gun/Bow)	Nov. 1 - Dec. 2	Dec. 19 - Jan. 10, 2006
1 Combination Gun/Bow	Aug. 15 - Dec. 2	
And 1 Archery-only	Aug. 15 - Jan. 10, 2006	
3 rd License (Gun/Bow) ¹	Nov. 1 - Dec. 2	

¹ Sold until quotas are filled.

² Sold until last day of the season. No quota.

2005 FALL TURKEY ZONES

ZONE 1 is all units of Stephens State Forest west of U.S. Highway 65 in Lucas and Clarke counties.

ZONE 2 is all units of Shimek State Forest in Lee and Van Buren counties.

ZONE 3 is units of Yellow River State Forest in Allamakee County.

NEW FOR 2005

- Hunters may purchase up to 2 licenses in any combination of gun/bow and Archery-only license.
- A third license (gun/bow) may be purchased after November 1, if quotas do not fill.
- A new zone is opened to fall turkey hunting in northwest Iowa (see map).
- Dogs may be used in fall turkey hunting.

License Requirements and Fees

See p. 6 for eligibility requirements for resident Hunting Licenses.

See p. 6 for required licenses.

See p. 5 for license fees.

Fall Turkey Combination Gun/Bow Zones and License Quotas

<u>Zone</u>	<u>Quota</u>
Zone 1	50
Zone 2	50
Zone 3	50
Zone 4	4,500
Zone 5	500
Zone 6	3,000
Zone 7	400
Zone 8	150
Zone 9	200

License Types

Combination Gun/Bow licenses are valid only in the zone selected by the hunter when the license is purchased. Paid gun/bow licenses are sold first come first served until the zone quotas are filled or the end of the season, whichever comes first.

Archery-only licenses are valid statewide. There are no quotas and licenses are sold until the end of the season.

Landowner-Tenant gun/bow and Landowner-Tenant archery-only licenses for eligible landowners and tenants or their family members are sold without quota until the end of the respective season. However, only one Landowner-Tenant Turkey License may be obtained per landowner family and one per tenant family. Landowner-Tenant licenses are valid only on the farm unit of the landowner or tenant. See page 7 to determine who is eligible for Landowner-Tenant fall turkey licenses.

How Many Turkey Licenses May I Have?

Before November 1: A resident hunter may obtain a maximum of two fall turkey hunting licenses: Two combination gun/bow licenses, or two archery-only licenses, or one combination gun/bow license and one archery-only license. One of these licenses may be a Landowner-Tenant license to eligible landowners and tenants or their family members.

Beginning November 1: A third license (combination gun/bow) may be obtained in any zone where combination gun/bow quotas are not filled.

Special Regulations That Apply to Fall Turkey Hunting

See p. 12 - 14 for general hunting regulations that may also apply to fall turkey hunters.

Shooting Hours

Archery-only license: One-half hour before sunrise to one-half hour after sunset.

Combination gun/bow license: One-half hour before sunrise to sunset.

Legal Weapons

Archery-only license: Longbows, recurve bows, and compound bows are permitted. No explosive or chemical devices may be attached to the arrow or broadhead. Blunthead arrows with a minimum diameter of 9/16 inch may also be used.

Crossbows are not legal, except that a physically disabled person incapable of shooting a bow,

as defined on p. 12, may obtain a permit from the DNR to use a crossbow. Applications are available at www.iowadnr.com under Licenses or by calling the DNR at 1-515-281-5918.

Combination gun/bow license: Archery equipment as defined above, and 10-, 12-, 16-, and 20-gauge shotguns or muzzleloading shotguns shooting number 4, 5, 6, 7 1/2 or 8 lead or nontoxic shot. Number 2 or 3 nontoxic shot may also be used. Hunters may not have shot sizes other than those listed above on their person while hunting turkeys. **Muzzleloading rifles may not be used to hunt turkeys.**

Tagging Requirements

Immediately upon killing a turkey, the date of kill must be filled out on the transportation tag issued with the license. The transportation tag must be attached to one leg of the turkey in such a manner that it cannot be removed without mutilating or destroying the tag. The tag must be attached before the carcass can be moved in any manner from the place of kill and must remain attached to the leg until the turkey is processed for consumption. The leg that bears the transportation tag must be attached to the carcass when the turkey is being transported within the state during any wild turkey hunting season. The tag shall be proof of possession of the carcass by the licensee.

Bag and Possession Limit

The daily bag and seasonal possession limit is one wild turkey of either sex for each valid license and unfilled transportation tag issued to the hunter.

Prohibited Devices and Activities

You may not use live decoys, horses, radios, motorized vehicles, aircraft, bait, recorded or electronically amplified turkey calls or electronically amplified imitations of turkey calls or sounds when hunting turkeys. Paraplegics and single- or double-leg amputees may hunt from any stationary motor-driven conveyance. "Paraplegic" means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease or injury to the spinal cord.

"Bait" means grain, fruit, vegetables, nuts,

hay, salt, mineral blocks, or any other natural food materials, commercial products containing natural food materials, or by-products of such materials transported to or placed in an area for the purpose of attracting wildlife. Bait does not include food placed during normal agricultural activities.

Dogs may be used to locate, flush and retrieve wild turkeys during the fall season as long as the hunter has a valid fall turkey hunting license with an unfilled transportation tag in his or her possession.

Tree Stands

You may not construct a permanent tree stand on state public hunting areas. You may not drive or in any other way place any nail, spike, pin, or any other metal object into a tree on state public hunting areas to construct a blind or to provide hunting access to a location above the ground.

Tree stands may be left on a state public hunting area from 7 days prior to the start of fall turkey season until 7 days after the final day of the season.

Special Savings!

When ordering online, use the following discount coupon code to save \$10 on a purchase of \$50 or more: “Hunt Iowa 10”

www.iowanaturestore.com

Season 1	April 10 - 13
Season 2 (Residents Only)	April 14 - 18
Season 3	April 19 - 25
Season 4	April 26 - May 14

Resident Archery-only Licenses:

April 10 - May 14

Resident Licenses and Quotas - Gun/Bow

	Zone 1	Zone 2	Zone 3	Zone 4
Season 1	65	125	80	No Quota
Season 2	65	125	80	No Quota
Season 3	65	125	80	No Quota
Season 4	65	125	80	No Quota
Archery-only and Youth Season licenses: No Quota				

2006 Spring Turkey Zones

ZONE 1: All units of Stephens State Forest in Lucas and Clarke counties west of U.S. Hwy. 65.

ZONE 2: All units of Shimek State Forest.

ZONE 3: Units of Yellow River State Forest in Allamakee County only.

ZONE 4: All areas of the state excluding zones 1, 2 and 3.

NEW FOR 2006

- Hunters may purchase both combination gun/bow and archery-only licenses.
- The minimum age and hunter education requirements were eliminated for Youth Season hunters.

RESIDENT LICENSE TYPES

Paid Combination Gun/Bow licenses are valid only in the zone and season selected by the hunter at the time of purchase. Paid gun/bow licenses are sold first come first served until the zone quotas, if any, are filled or the end of the season, whichever comes first.

Paid Archery-only licenses are valid statewide for all 4 seasons. There are no quotas and licenses are sold until the end of the 4th season.

Landowner-Tenant Gun/bow licenses and Landowner-Tenant Archery-only licenses for eligible landowners and tenants or their family members are sold without quota until the end of the respective season. The following restrictions apply: Landowner-Tenant Gun/bow licenses are valid in the season selected by the hunter at the time of purchase. Landowner-Tenant Archery-only licenses are valid in all 4 seasons. Landowner-Tenant licenses are valid only on the farm unit of the landowner or tenant. One Landowner-Tenant Turkey License may be obtained per landowner family and one per tenant family. See p. 7 to

determine who is eligible for Landowner-Tenant spring turkey licenses.

How Many Turkey Licenses May I Have?

A resident hunter may obtain a maximum of two spring turkey hunting licenses: Two combination gun/bow licenses, or two archery-only licenses, or one combination gun/bow license and one archery-only license. One of these licenses may be a Landowner-Tenant License. See the chart on p. 35 for allowable license combinations.

Youth Turkey Hunting Season (Residents Only)

Hunters age 15 and younger on the day they purchase a license may participate in the Youth Turkey Season. The Youth Wild Turkey License will cost \$23 and will be a combination gun/bow license valid statewide (including Zones 1, 2 and 3). The youth does not have to have a Hunting License or have completed a hunter education course in order to participate. Hunters with a Youth Season License may also purchase one statewide Archery-only License or one Gun/bow License for Season 4 in any zone.

Youth hunters must be under the direct supervision of an adult mentor while hunting during the Youth Season. The mentor must have a valid Wild Turkey License for one of the spring seasons, a

2006 Resident Spring Turkey License Options

(For Hunters Wanting More Than One License)

If Your First License Is: ↓	You May Also Purchase <u>One</u> of These Licenses

Landowner-Tenant Archery-only	Yes ²	Yes	No	No

¹ At least one Paid Gun/Bow must be for Season 4, any zone
² Paid Gun/Bow must be for Season 4, any zone; or Youth Season
³ Paid Gun/Bow must be for Season 4, any zone or the Landowner-Tenant Gun/Bow must be for Season 4
⁴ Landowner-Tenant Gun/Bow must be for Season 4; or Youth Season

valid Hunting License, and have paid the Habitat Fee, if the adult is normally required to have them to hunt. The mentor must not carry a bow or firearm and must be in the direct company of the youth at all times. There may be no more than one youth with each properly licensed adult mentor. The youth and mentor must comply with all spring turkey hunting regulations.

A youth who resides with and is a member of a family of a landowner or tenant who is eligible for a Landowner-Tenant Wild Turkey Hunting License may obtain a Landowner-Tenant License for the Youth Season. The Landowner-Tenant Youth License will count as the one Landowner-Tenant Wild Turkey Hunting License the landowner or tenant family is entitled to for the spring turkey seasons.

Hunters that are eligible for the Youth Season, but choose not to participate, may obtain two licenses for the regular spring turkey seasons, like any other hunter.

How to Purchase Resident Licenses

All resident spring turkey hunting licenses may be purchased at your local ELSI agent, can be ordered online at www.iowadnr.com or through the telephone ordering system at 1-800-367-1188. Licenses go on sale Dec. 15, 2005 and are sold through the last day of each season or until license quotas fill.

Online and telephone sales are available 24 hours a day, 7 days a week when turkey licenses are on sale. Online and telephone orders will end 10 days before the start of each season to allow time for delivery of licenses. Hunters may not go turkey hunting until the license and transportation tag is in their possession.

License fees may be charged to a MasterCard or Visa or paid by electronic check (the electronic check process will be explained when you purchase your license). ATM cards are not accepted. A nonrefundable convenience fee will be added to all telephone and online orders. All sales are final, no refunds are allowed.

Callers should be prepared to provide name, address, phone number, season and zone choice, credit card number or blank check, and either social security number (see social security statement on the bottom of p. 5), Iowa driver's license or non-operator's identification number, or IDNR number from a previous ELSI license purchase. Hunters required to have hunter education certification and who have not previously purchased through ELSI may be asked to FAX a copy of their hunter safety card or letter to the telephone order center before calling the toll free number to purchase a license. The FAX number is 615-263-4271.

NONRESIDENT SPRING TURKEY HUNTING INFORMATION

Muzzleloading Shotgun-only licenses: 150 statewide

NEW FOR 2006

- A new zone was opened in northwest Iowa for nonresident turkey hunters.

Nonresident License Types

Nonresidents may obtain one Spring Turkey License. Two types of licenses are issued:

Combination Gun/bow Licenses are issued by zone and season and are valid only in the zone and season selected by the hunter at the time of purchase. A maximum of 2,148 licenses is available for 2006. Licenses are issued by a random drawing from a pool of applicants for each zone and season. Shotguns, muzzleloading shotguns, and bows may be used.

Muzzleloading Shotgun-only Licenses are issued by zone and season from a statewide pool of 150 licenses. Hunters may select any zone and season open to nonresidents at the time of purchase, but must hunt only in that zone and season. Only muzzleloading shotguns may be used.

HOW TO PURCHASE NONRESIDENT LICENSES

Telephone and Internet Orders Only

Applications for nonresident Spring Wild Turkey Hunting Licenses must be purchased online at www.iowadnr.com or through the ELSI telephone ordering system at 800-367-1188. Applications may be purchased 24 hours a day, 7 days a week from **Dec. 15, 2005**, through **Jan. 29, 2006**. A nonrefundable application fee will be added to all telephone and online orders. The application and license fees may be charged to a MasterCard, Visa, Discover or paid by electronic check (the electronic check process will be explained when you apply). ATM cards are not accepted.

If applications are sold in excess of the license quota for any zone and season, a drawing will be held to determine which applicants receive licenses. Licenses or license fee refunds will be mailed to unsuccessful applicants 6 to 8 weeks after the drawing is complete. License agent writing fees, department administrative fees, and Internet and telephone application fees will not be refunded.

If any license quota has not been filled, the

excess licenses will be sold online or through the telephone ordering system beginning 6 a.m. Feb. 11, 2006, until the quotas are filled or the last day of the respective season, whichever comes first. Hunters may determine their drawing status through the DNR's website at www.iowadnr.com/wildlife/. Please do not call the DNR. Your drawing status will not be provided over the phone.

Individual or Group Applications

Hunters may apply individually or as a group of up to 15 applicants, with one member identified as the group leader. Members of a group must apply separately. The group leader should apply first and obtain a DNR customer identification number (ID#). Then each member of the group must submit the group leader's ID# when applying.

If there is a drawing, all members of the group will be assigned the preference point (s) of the member with the fewest points. All members of a group will be accepted or rejected together in the drawing. Members of a group that are rejected may purchase excess licenses individually if any are available.

Preference Points

If you are unsuccessful in the drawing, you will be assigned one preference point. An additional preference point will be assigned each year you apply but are denied a license. Preference points will not accrue in a year in which you fail to apply, but you will retain all preference points earned in previous years. Once you receive a Spring Turkey Hunting License, either through the drawing or by purchasing an excess license, your preference points will be removed. Preference points will apply to any zone or season for which you apply. The first license drawing each year will be made from the pool of applicants with the greatest number of preference points.

To Expedite Your Application...

Fill out the applicant information on p. 38, select your zone and season, and have your personal identification number (social security number or IDNR ID# from a previous ELSI purchase) and your credit card or blank check ready when you call. Hunters required to have hunter education

certification and who have not previously bought a license through ELSI may be required to FAX a copy of their hunter education certification card or letter to the telephone order center before calling the toll free number to apply. The FAX number is 615-263-4271. The license ordering number is 800-367-1188.

Include the **Applicant Information** on bottom of opposite page.

SPECIAL HUNTING REGULATIONS THAT APPLY TO ALL SPRING TURKEY HUNTING

See p. 12 - 14 for general hunting regulations that may also apply to spring turkey hunters.

Shooting Hours - All Seasons

One-half hour before sunrise to sunset.

Legal Weapons

■ **Resident Archery-only License:** Longbows, recurve bows, and compound bows are permitted. No explosive or chemical devices may be attached to the arrow or broadhead. Blunthead arrows with a minimum diameter of 9/16 inch may also be used. Arrows must be at least 18 inches long.

Crossbows are not legal, except that a physically disabled person incapable of shooting a bow, as defined on p. 12, may obtain a permit from the DNR to use a crossbow. Applications are available at www.iowadnr.com under the "Special Licenses" section or by calling the DNR at 515-281-5918.

■ **Resident and Nonresident Gun/bow License:** Archery equipment as defined above, and 10-, 12-, 16-, and 20-gauge shotguns or muzzleloading shotguns shooting number 4, 5, 6, 7 1/2 or 8 lead or nontoxic shot. Number 2 or 3 nontoxic shot may also be used. Hunters may not have shot sizes other than those listed above on their person while hunting turkeys. **Muzzleloading rifles may not be used to hunt turkeys.**

■ **Nonresident Muzzleloading Shotgun-only License:** Muzzleloading shotguns shooting number 4, 5, 6, 7 1/2 or 8 lead or nontoxic shot. Number 2 or 3 nontoxic shot may also be used. Hunters may not have shot sizes other than those listed above on their person while hunting turkeys. **Muzzleloading rifles may not be used to hunt Turkeys.**

Tagging Requirements

Turkey hunters must shoot and tag their own turkey and may not tag a turkey shot by another hunter.

Immediately upon killing a turkey the date of kill must be filled out on the transportation tag issued with the license. The transportation tag must be attached to one leg of the turkey in such a manner that it cannot be removed without mutilating or destroying the tag. The tag must be attached before the carcass can be moved in any manner from the place of kill. The leg that bears the tag must be attached to the carcass when the turkey is being transported within the state during any wild turkey hunting season. The tag shall be proof of possession of the carcass by the licensee. The transportation tag must remain attached to the leg until the turkey is processed for consumption.

Daily Bag and Season Possession Limit

The daily bag limit is one bearded or male wild turkey. The season possession limit is one bearded or male wild turkey per license.

Prohibited Devices and Activities

You may not use live decoys, dogs, horses, radios, motorized vehicles, aircraft, bait, recorded or electronically amplified turkey calls or electronically amplified imitations of turkey calls or sounds when hunting turkeys. Paraplegics and single- or double-leg amputees may hunt from any stationary motor-driven conveyance. "Paraplegic" means an indi-

vidual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease or injury to the spinal cord.

"Bait" means grain, fruit, vegetables, nuts, hay, salt, mineral blocks, or any other natural food materials, commercial products containing natural food materials, or by-products of such materials transported to or placed in an area for the purpose of attracting wildlife. Bait does not include food placed during normal agricultural activities.

Helping Other Hunters

A **resident** hunter with a valid spring turkey hunting license for any zone and season may assist other hunters in any zone or season. A **nonresident** may assist other hunters only in the zone and season indicated on their license. The hunter doing the assisting may not carry a shotgun or bow or shoot a turkey unless he or she has a valid license and an unfilled transportation tag for that zone and season.

Tree Stands

You may not construct a permanent tree stand on state public hunting areas. You may not drive or in any other way place any nail, spike, pin, or any other metal object into a tree on state public hunting areas to construct a blind or to provide hunting access to a location above the ground.

Tree stands may be left on a state public hunting area from 7 days prior to the start of fall turkey season until 7 days after the final day of the season.

+20 min +16 min +12 min +8 min +4 min In Table

■ The sunrise-sunset schedule above represents Zone 1 in eastern Iowa (See map at left).

■ Add four minutes for each zone west of Zone 1 (see map).

■ Each schedule is based on Central Standard Time.

■ Add one hour for Daylight Savings Time when in effect, from the first Sunday in April to the last Sunday in October.

EQUAL OPPORTUNITY

Equal opportunity to participate in, and benefit from, the programs and activities of the Iowa Department of Natural Resources is available to all individuals regardless of race, color, national origin, disability or age. If you believe you have been discriminated against in any program, activity or facility as described above, or if you desire additional information, write to: Director, Iowa Department of Natural Resources, Wallace State Office Building, 502 E. 9th, Des Moines, Iowa 50319-0034.

ALTERNATIVE FORMATS

This information is available in alternative formats upon request by contacting the DNR at (515) 281-5918 (TDD number - (515) 242-5967) or by writing DNR at the address listed above.

NOTICE:

This booklet is not a complete set of hunting laws. It contains basic information needed during the hunting and trapping seasons. For specific questions not covered in this booklet, contact your local conservation officer or the DNR at (515) 281-5918. Any changes to game laws will be reflected in supplemental publications.
