ICSW Adopts Proposals for Governor and General Assembly

As a state agency, the Iowa Commission on the Status of Women (ICSW) works to eliminate inequities for women by advocating for changes in state laws, by supporting studies in important areas, and by championing gender-specific changes within state government.

To do that, the ICSW annually submits proposals to the Governor and General Assembly. Following are the 2006 Legislative, Administrative, and Study Proposals. During the 2006 Session, the ICSW will support or oppose legislative action that relates to any of the proposals. Please note that proposals are not in order of importance.

LEGISLATIVE PROPOSALS

Aging Issues and Long-Term Care

In 2004, Iowa ranked first in the percentage of population over 85 years of age and fifth in the percentage of

population over 65 years of age and older. Additionally in 2004, 57 percent of persons over 65 in Iowa were women. As the baby boom generation gets older, the need for both paid and unpaid caregivers will increase. A 2004 ICSW study on CNA wages and benefits found that 82 percent earn under \$12 per hour with few benefits and high turnover. A typical family caregiver in today's society is an educated, working, married woman in her mid-forties that spends about twenty hours per week providing unpaid care to her mother. To address the needs of the aging, and of paid and unpaid caregivers for dependent adults, the ICSW supports:

1. Allocation of a percentage of Civil Money Penalties annually to be used for direct care worker recruitment and retention initiatives. (2006 Priority)
2. Amendment of state tax policy in the Code of Iowa Chapter 422.9(2)(e) regarding tax deduction to include spouse, brother, and sister for whom in-home care is given.

The event will include a panel discussion on issues and a question and answer period.

Moderating the panel will be Charlotte Nelson, ICSW.

For more information or for special accommodations, please contact the ICSW, 515/281-4461, 800/558-4427, or <ahr.icsw@iowa.gov>.

3. More standardized education, continuing education, and opportunities for advancement for direct care workers (nurse aides/home care aides) in order to ensure equitable pay.
4. Maintaining Iowa CareGivers Association funding through Elder Affairs.
5. Appropriation to support the maintenance and expansion of the Iowa Nurse Aide Registry/Direct Care Worker Registry.

Child Care

The percent of Iowa mothers with children under age six in the labor force is 78.8, and 84.8 percent of mothers with children ages six to seventeen only are in the labor force. According to the 2004 American Community Survey, Iowa has the highest percentage of women in the workforce with children under six. Child care is an economic and social infrastructure issue that affects the bottom line for business, the standard of living for families, and the future competitiveness of the state. To insure quality affordable child care, in particular for women seeking training and/or employment, the ICSW supports:

1. Maintaining matching funds to allow Iowa Department of Human Services to draw down from the Child Care Development Fund. (2006 Priority)
2. An increase in funding levels for the Iowa Community Empowerment school-ready and early childhood programs for zero to five.
3. A child care and/or preschool subsidy for every Iowa family below 85% of the state median income.
4. Adequate compensation, including benefits, for childcare workers.
5. A professional development system for child care/preschool workers of prerequisite and on-going training, and a process for credentialing workers.
6. Requirement that all child care/preschool settings be licensed and adhere to standards that ensure quality care and experiences.
7. Additional quality early childhood programs through:

- a.provision of resources for the TEACH education and compensation program;
 - b.increasing the funding for monitoring and support of child care centers and Child Development Homes; and
 - c.increasing the child care provider reimbursement payments to child care programs to meet the most recent market rate.
8. State investments in Head Start and Early Head Start.
 9. Instituting an At-Home Infant Care (AHIC) program.

Economics

In 2004, 64 percent of Iowa women age 16 and older were in the workforce, which represented 47 percent of the total workforce. The 2004 American Community Survey found that Iowa women earned 73.7% of what Iowa men earn. According to the Iowa wage study released in 2000, 64 percent of female respondents reported annual wages of \$25,000 or less while 66 percent of males reported wages over \$25,000. To address the economic needs of Iowa women, the ICSW supports:

1. Increase in the minimum wage. (2006 Priority)
2. Legislative proposals addressing predatory lending, including predatory home mortgage lending, payday loans, tax refund anticipation loans and car title loans. (2006 Priority)
3. Development of a plan for extending a comparable worth policy to all public employees in Iowa, with state assistance to local government entities in conducting comparable worth studies and a plan for making state revenue-sharing monies at future dates contingent upon adopting comparable worth pay schedules for local government employees.
4. Increased funding for Iowans in Transition program grants through the ICSW at the FY01 level of \$185,000 providing pre-employment services to an additional 900 displaced homemakers, single parents or female offenders.

11. Legislative changes for clarification and cost savings for the Child Support Recovery Unit's operations.

Equality

The 2004 Status of Iowa Women Report documents the need for continuing to improve the quality of life for women in this state. To achieve equality while improving the status of women, the ICSW recommends:

1. Enactment of a bill requiring all school districts to adopt anti-discrimination, anti-harassment, and anti-bullying policies to protect all students. (2006 Priority)
2. State funding to provide staff and support for the provision of technical assistance on educational equity for school districts and to monitor implementation of Iowa's multicultural, gender-fair curriculum requirement as well as Title IX.
3. Incentives for males and minorities to enroll in programs for training elementary education teachers and secondary family and consumer science teachers, and for females and minorities to enroll in programs of training for secondary industrial technology, mathematics, and science

teachers.

4. Gender balance on boards and commissions of political subdivisions of the state.
5. Amending the Iowa Civil Rights Act to prohibit discrimination on the basis of sexual orientation and identity.
6. Increased funding for the Iowa Civil Rights Commission.

Health

Good health is essential to leading a productive and fulfilling life and to participating fully in the economic, social, and political life of the state. It requires safe and healthful physical and social environments, sufficient incomes, safe and adequate housing, proper nutrition, preventive treatment, and education on maintaining healthful behaviors. It is an irony that many health care workers do not earn enough to afford their own health care coverage. To increase the quality of health in women, the ICSW supports:

1. \$1 tobacco fee increase. (2006 Priority)
2. Focusing on health care reform until health care coverage is accessible to all Iowans.

20. Increased provider rates for Medicaid services.

Insurance

In recognition of the needs of all persons to insure against the risks related to illness, disability, retirement and death, and in particular noting the needs of persons following divorce or disability or death of a spouse, the ICSW supports:

1. Equality for substance abuse treatment coverage.
2. Elimination of discriminatory practices on the basis of gender or marital status in the issuance or operation of any type of insurance policy, plan, program, or coverage, including but not limited to rates, payments, or benefits; for example,

exclusion of obstetrical care for unwed dependents.

4. Expansion of relationship definition for family coverage health insurance to include members in the same household.

6. Tax credits for long-term care insurance.

Justice

Women in Iowa have unique needs relative to the administration of justice in all areas, including legal assistance. The female prison population in Iowa is on the rise, climbing from fewer than 100 in 1985 to 558 at midyear 2005. The ICSW supports:

1. State legislation to a) provide a penalty; b) provide protections for victims of trafficking, and immunity from illegal activities related to human trafficking; and c) establish training standards for state and local law enforcement agencies on human trafficking. (2006 Priority)
2. Continuation of stable funding for Legal Aid.

Violence Against Women

Since 1995, 92 Iowa women and 14 Iowa men have been killed by their partners. In fiscal year 2005, 22,331 victims of domestic violence were served by programs receiving state dollars. That same year, 5,304 adult, teenage, and child survivors of sexual assault sought services from Iowa's sexual assault crisis centers. In light of the number and degree of violent incidents committed against women, the ICSW supports:

1. Restoration of stable funding for domestic violence and sexual assault programs in the state budget to a minimum of \$2.25 million dollars. (2006 Priority)

2. Amending *Code of Iowa* Chapter 724.26, so that state law is the same

as the federal law that prohibits persons who have committed domestic violence or who are subject to a no-contact order from possessing firearms.

3. Amending the *Code of Iowa* Chapter 562A.36 to ensure that victims of domestic violence can call the police or emergency assistance without facing eviction, and provide a civil penalty for violations of this right.

4. Repeal of or change in *Code of Iowa* Chapter 708.2A(5)a that limits the time frame for counting previous domestic violence convictions.

8. Mandate sexual harassment prevention training of supervisors for private employers with 50 or more employees.

Welfare

To endorse Iowa's efforts to reform the welfare system, particularly to make services available that promote economic self-sufficiency, the ICSW supports:

Investment Program (FIP) participants through the maintenance of effort requirement for Temporary Assistance for Needy Families (TANF).
