NEWS RELEASE

FOR RELEASE

March 26, 2021

Contact: Marlys Gaston
515/281-5834

Auditor of State Rob Sand today released an audit report on the Delaware County Solid Waste Disposal Commission.

The Commission had total receipts of \$70,124 during the year ended June 30, 2020, a 15.4% increase over the prior year. Disbursements for the year ended June 30, 2020 totaled \$61,731, a 21.1% decrease from the prior year. The significant increase in receipts was due primarily to an increase in waste hauled by private haulers to the Dubuque Metropolitan Area Solid Waste Agency and the decrease in disbursements was due primarily to a decrease in engineering services.

Sand reported one finding related to the receipt and disbursement of taxpayer funds. It is found on pages 16 and 17 of this report. The finding addresses a lack of segregation of duties. Sand provided the Commission with a recommendation to address the finding.

The finding discussed above is repeated from the prior year. The Commission has a fiduciary responsibility to provide oversight of the Commission's operations and financial transactions. Oversight is typically defined as the "watchful and responsible care" a governing body exercises in its fiduciary capacity.

A copy of the audit report is available for review on the Auditor of State's web site at <https://auditor.iowa.gov/reports/audit-reports/>.

Officials of the Delaware County Solid Waste Disposal Commission
Cascade, Iowa

Dear Commission Members:

I am pleased to submit to you the financial and compliance audit report for the Delaware County Solid Waste Disposal Commission for the year ended June 30, 2020. The audit was performed pursuant to Chapter 11.6 of the Code of Iowa, and in accordance with U.S. auditing standards and the standards applicable to financial audits contained in Government Auditing Standards.

I appreciate the cooperation and courtesy extended by the officials and employees of the Delaware County Solid Waste Disposal Commission throughout the audit. If I or this office can be of any further assistance, please contact me or my staff at 515-281-5834.

Sincerely,

A handwritten signature in black ink that reads "Rob Sand". The signature is stylized and cursive.

Independent Auditor's Report

To the Members of the Delaware County Solid Waste Disposal Commission:

Report on the Financial Statement

We have audited the accompanying basic financial statement of the Delaware County Solid Waste Disposal Commission as of and for the year ended June 30, 2020, and the related Notes to Financial Statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the cash basis of accounting described in Note 1. This includes determining the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Commission's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the cash basis financial position of the Delaware County Solid Waste Disposal Commission as of June 30, 2020, and the changes in its cash basis financial position for the year then ended in accordance with the basis of accounting described in Note 1.

Basis of Accounting

As discussed in Note 1, the financial statement was prepared on the basis of cash receipts and disbursements, which is a basis of accounting other than U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 15, 2021 on our consideration of the Delaware County Solid Waste Disposal Commission's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Delaware County Solid Waste Disposal Commission's internal control over financial reporting and compliance.

See notes to financial statement.

Delaware County Solid Waste Disposal Commission

Notes to Financial Statement

June 30, 2020

(1) Summary of Significant Accounting Policies

The Delaware County Solid Waste Disposal Commission was formed in 1989 pursuant to the provisions of Chapter 28E of the Code of Iowa. The Commission is a joint sanitary waste disposal project for all persons and property within the boundaries of the political subdivisions represented.

The Commission is composed of one representative from participating cities and three representatives from Delaware County. The representative of a city shall be a member of the City Council of that city, appointed and certified to the Commission by the Mayor with the approval of the City Council. The representatives of the County shall be the members of the Board of Supervisors.

The member cities are Manchester, Dundee, Masonville, Ryan, Earlville, Edgewood, Greeley, Colesburg, Hopkinton, Delhi, Delaware and Strawberry Point.

The landfill operated by the Commission closed December 31, 2000 and private haulers now take waste to the Dubuque Metropolitan Area Solid Waste Agency for disposal.

A. Reporting Entity

For financial reporting purposes, the Delaware County Solid Waste Disposal Commission has included all funds, organizations, agencies, boards, commissions and authorities. The Commission has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the Commission are such that exclusion would cause the Commission's financial statement to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Commission to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the Commission. The Commission has no component units which meet the Governmental Accounting Standards Board criteria.

B. Basis of Presentation

The accounts of the Commission are organized as an Enterprise Fund. Enterprise Funds are utilized to finance and account for the acquisition, operation and maintenance of governmental facilities and services supported by user charges.

Enterprise Funds distinguish operating receipts and disbursements from non-operating items. Operating receipts and disbursements generally result from providing services and producing and delivering goods in connection with an Enterprise fund's principal ongoing operations. All receipts and disbursements not meeting this definition are reported as non-operating receipts and disbursements.

C. Basis of Accounting

The Commission maintains its financial records on the basis of cash receipts and disbursements and the financial statement of the Commission is prepared on that basis. The cash basis of accounting does not give effect to accounts receivable, accounts payable and accrued items, including the estimated payable for postclosure care. Accordingly, the financial statement does not present the financial position and results of operations of the Commission in accordance with U.S. generally accepted accounting principles.

D. Cash Basis Fund Balance

Funds set aside for payment of postclosure care and solid waste tonnage fees are classified as restricted.

(2) Cash and Investments

The Commission's deposits in banks at June 30, 2020 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The Commission is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Commission; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The Commission had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

(3) Closure and Postclosure Care Costs

To comply with federal and state regulations, the Commission is required to complete a monitoring system plan and a closure/postclosure care plan and to provide funding necessary to effect closure and postclosure care, including the proper monitoring and care of the landfill after closure. Environmental Protection Agency (EPA) requirements have established closure and thirty-year care requirements for all municipal solid waste landfills which receive waste after October 9, 1993. State governments are primarily responsible for implementation and enforcement of those requirements and have been given flexibility to tailor requirements to accommodate local conditions that exist. The effect of the EPA requirement is to commit landfill owners to perform certain closing functions and postclosure monitoring functions as a condition for the right to operate the landfill in the current period. The EPA requirements provide when a landfill stops accepting waste, it must be covered with a minimum of twenty-four inches of earth to keep liquid away from the buried waste. Once the landfill is closed, the owner is responsible for maintaining the final cover, monitoring ground water and methane gas, and collecting and treating leachate (the liquid that drains out of waste) for thirty years.

Governmental Accounting Standards Board Statement No. 18 requires landfill owners to estimate total landfill closure and postclosure care costs and recognize a portion of these costs each year based on the percentage of estimated total landfill capacity used that year. Estimated total costs consist of four components: (1) the cost of equipment and facilities used in postclosure monitoring and care, (2) the cost of final cover (material and labor), (3) the cost of monitoring the landfill during the postclosure period and (4) the cost of any environmental cleanup required after closure. Estimated total cost is based on the cost to purchase those services and equipment currently and is required to be updated annually due to the potential changes due to inflation or deflation, technology, or applicable laws or regulations.

The total costs for the Commission as of June 30, 2020 have been estimated at \$515,200 for post closure care. The Commission has restricted \$821,323 of certificates of deposit as of June 30, 2020 for such purposes.

(4) Solid Waste Tonnage Fees Retained

The Commission has established an account for restricting and using solid waste tonnage fees retained by the Commission in accordance with Chapter 455B.310 of the Code of Iowa. At June 30, 2020, the unspent amount retained by the Commission and restricted for the required specific purposes totaled \$90,174.

(5) Risk Management

The Commission is exposed to various risks of loss related to torts; theft, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The Commission assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(6) COVID-19

In March 2020, the COVID-19 outbreak was declared a global pandemic. The disruption to businesses across a range of industries in the United States continues to evolve. The full impact to local, regional and national economies, including that of the Delaware County Solid Waste Disposal Commission, remains uncertain.

To date, the outbreak has not created a material disruption to the operations of the Commission. However, the extent of the financial impact of COVID-19 will depend on future developments, including the spread of the virus, duration and timing of the economic recovery. Due to these uncertainties, managements cannot reasonably estimate the potential impact to the Delaware County Solid Waste Disposal Commission's operations and finances.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of a Financial Statement Performed in Accordance with
Government Auditing Standards

To the Members of the Delaware County Solid Waste Disposal Commission:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statement of the Delaware County Solid Waste Disposal Commission as of and for the year ended June 30, 2020, and the related Notes to Financial Statement, and have issued our report thereon dated March 15, 2021. Our report expressed an unmodified opinion on the financial statement which was prepared on the basis of cash receipts and disbursements, a basis of accounting other than U.S. generally accepted accounting principles.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statement, we considered the Delaware County Solid Waste Disposal Commission's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Delaware County Solid Waste Disposal Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Delaware County Solid Waste Disposal Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the Delaware County Solid Waste Disposal Commission's financial statement will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We consider the deficiency described in the accompanying Schedule of Findings as item (A) to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Delaware County Solid Waste Disposal Commission's financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards.

Comments involving statutory and other legal matters about the Commission's operations for the year ended June 30, 2020 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statement of the Commission. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

The Delaware County Solid Waste Disposal Commission's Response to the Finding

The Delaware County Solid Waste Disposal Commission's response to the finding identified in our audit is described in the accompanying Schedule of Findings. The Delaware County Solid Waste Disposal Commission's response was not subjected to the auditing procedures applied in the audit of the financial statement and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Delaware County Solid Waste Disposal Commission during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Marlys K. Gaston, CPA
Deputy Auditor of State

March 15, 2021

Delaware County Solid Waste Disposal Commission

Schedule of Findings

Year ended June 30, 2020

Finding Related to the Financial Statement:

INTERNAL CONTROL DEFICIENCY:

(A) Segregation of Duties

Criteria – Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the Commission's financial statements.

Condition – One individual has control over the following areas for which no compensating controls exist:

- (1) Incoming mail is not opened by an employee who is not authorized to make entries to the accounting records.
- (2) Responsibilities for collection, deposit preparation and reconciliation functions are not segregated from those for recording and accounting for cash.

Cause – The Commission has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Effect – Inadequate segregation of duties could adversely affect the Commission's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation – The Commission should review the control activities to obtain the maximum internal control possible under the circumstances. The Commission should utilize current personnel, including Commission Members, to provide additional control through review of financial transactions, reconciliations and reports. Independent reviews should be documented by the signature or initials of the reviewer and the date of the review.

Response – We will continue dual signatures on all checks. The Chairman will continue to sign off on bank statements and invoices. Dual signatures needed for CDs and transfers of funds will continue. We will update our accounting policy to reflect these procedures.

Conclusion – Response acknowledged. The Commission should continue to review operating procedures to obtain the maximum internal control possible.

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

Delaware County Solid Waste Disposal Commission

Schedule of Findings

Year ended June 30, 2020

Findings Related to Required Statutory Reporting:

- (1) Questionable Disbursements – No disbursements we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25,1979 were noted.
- (2) Travel Expense – No disbursements of Commission money for travel expenses of spouses of Commission officials or employees were noted.
- (3) Restricted Donor Activity – No transactions were noted between the Commission, Commission officials and restricted donors in compliance with Chapter 68B of the Code of Iowa.
- (4) Commission Minutes – No transactions were found that we believe should have been approved in the Commission minutes but were not.
- (5) Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the Commission’s investment policy were noted.
- (6) Solid Waste Tonnage Fees Retained – No instances of non-compliance with the solid waste tonnage fees used or retained in accordance with Chapter 455B.310 of the Code of Iowa were noted.
- (7) Financial Assurance – The Commission has chosen to designate a portion of its balance to demonstrate financial assurance for postclosure care as provided in Chapter 567-111.6(8) of the Iowa Administrative Code.

Total estimated costs for postclosure care	<u>\$ 515,200</u>
Amount Commission has restricted and reserved for postclosure care	<u>\$ 821,323</u>
