DEPARTMENT OF BOAT INSPECTION.

The Iowa boat inspectors are appointed by the governor to hold office for a term of two years from the first Monday in May in the even-numbered years. Each inspector is required to make an annual report to the governor on or before the first day of January, giving in detail the number and date of licenses granted pilots and engineers, number and kind of boats inspected, the fees received therefor, and other matters considered useful and of general interest.

The law provides that "any inspector, on the request of owner, agent or master of any boat other than a row boat, upon the inland waters of the state having a carrying capacity of five or more passengers, shall carefully and thoroughly inspect such boat, its appliances and machinery, and, if found in proper condition and safe for the carriage of persons or passengers, give his certificate thereof, including therein the number of persons or passengers that may be carried, and on what waters; which certificate, or a copy thereof, shall be posted in a conspicuous place on the boat, and any boat so inspected and certified shall be entitled to run for the season following the date thereof. In like manner, upon the request of any pilot or engineer for a license as such, the inspector shall forthwith investigate the competency of the applicant, his acquaintance with and experience in his business, his habits as to sobriety, and other qualifications and, if found capable of performing well his duties, and of good habits, he shall issue his certificate authorizing him to act as pilot or engineer, as the case may be, for five years from the date thereof, unless sooner revoked for cause, which revocation when made shall take effect upon the approval of the governor. The inspector may charge and require advance payment for inspection, for each sailboat, one dollar, each boat propelled by other power with a capacity of not more than twenty persons, five dollars; those of greater capacity, ten dollars, and for each applicant for license as pilot or engineer, three dollars.

The penalty for hiring or offering to hire such boat for the carriage of passengers, without first securing the certificate above mentioned, or for permitting or receiving for carriage a greater number of persons than authorized in the said certificate, is a fine of not to exceed one thousand dollars or imprisonment in the county jail not to exceed one year, or both fine and imprisonment. The same penalty applies to any person acting as a pilot or engineer without first having obtained a license, or having obtained such license, continuing to follow said avocation after his certificate has been revoked.
