NEWS RELEASE

FOR RELEASE

June 16, 2021

Contact: Marlys Gaston
515/281-5834

Auditor of State Rob Sand today released an audit report on Decatur County, Iowa.

FINANCIAL HIGHLIGHTS:

The County revenues totaled \$10,411,449 for the year ended June 30, 2020, a 2.7% increase over the prior year. Expenses for County operations for the year ended June 30, 2020 totaled \$9,481,803, a 4.3% decrease from the prior year. The decrease in the expenses is due primarily to reduced costs for roads and transportation due to the milder winter and spring.

AUDIT FINDINGS:

Sand reported twelve findings related to the receipt and expenditure of taxpayer funds. They are found on pages 74 through 83 of this report. The findings address issues such as lack of segregation of duties, material amounts of receivables, payables, revenues, expenditures and capital assets not properly recorded in the County's financial statements, variances between book and bank balances in the County Treasurer's bank reconciliations, bank reconciliations not prepared by the County Conservation department and lack of preparation of a delinquent property tax reconciliation. Sand provided the County with recommendations to address each of these findings.

Ten of the twelve findings discussed above are repeated from the prior year. The County Board of Supervisors and other County officials have a fiduciary responsibility to provide oversight of the County's operations and financial transactions. Oversight is typically defined as the "watchful and responsible care" a governing body exercises in its fiduciary capacity

A copy of the audit report is available for review on the Auditor of State's web site at <https://auditor.iowa.gov/reports/audit-reports/>.

Officials of Decatur County
Leon, Iowa

Dear Board Members:

I am pleased to submit to you the financial and compliance audit report for Decatur County, Iowa, for the year ended June 30, 2020. The audit was performed pursuant to Chapter 11.6 of the Code of Iowa and in accordance with U.S. auditing standards and the standards applicable to financial audits contained in Government Auditing Standards.

I appreciate the cooperation and courtesy extended by the officials and employees of Decatur County throughout the audit. If I or this office can be of any further assistance, please contact me or my staff at 515-281-5834.

Sincerely,

A handwritten signature in black ink that reads "Rob Sand". The signature is stylized and cursive.

Independent Auditor's Report

To the Officials of Decatur County:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Decatur County, Iowa, as of and for the year ended June 30, 2020, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Decatur County as of June 30, 2020 and the respective changes in its financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the County's Proportionate Share of the Net Pension Liability, the Schedule of County Contributions and the Schedule of Changes in the County's Total OPEB Liability, Related Ratios and Notes on pages 8 through 14 and 50 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

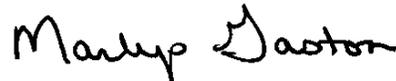

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Decatur County's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2019 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 5 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 27, 2021 on our consideration of Decatur County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Decatur County's internal control over financial reporting and compliance.

Marlys K. Gaston, CPA
Deputy Auditor of State

May 27, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Decatur County provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2020. We encourage readers to consider this information in conjunction with the County's financial statements, which follow.

2020 FINANCIAL HIGHLIGHTS

- Revenues of the County's governmental activities increased 2.7%, or approximately \$276,000, from fiscal year 2019 to fiscal year 2020. Capital grants, contributions and restricted interest decreased approximately \$589,000 and operating grants, contributions and restricted interest increased approximately \$1,018,000. In addition, property tax increased approximately \$74,000.
- Program expenses of the County's governmental activities were 4.3%, or approximately \$430,000, less in fiscal year 2020 than in fiscal year 2019. Roads and transportation expenses decreased approximately \$199,000 and mental health expenses decreased approximately \$560,000.
- The County's net position increased 3.8%, or approximately \$930,000, over the June 30, 2019 balance.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the County's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Decatur County as a whole and present an overall view of the County's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Decatur County's operations in more detail than the government-wide financial statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which Decatur County acts solely as an agent or custodian for the benefit of those outside of County government (Agency Funds).

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the County's budget for the year, the County's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Changes in the County's Total OPEB Liability, Related Ratios and Notes.

Supplementary Information provides detailed information about the nonmajor governmental and the individual Agency Funds.

REPORTING THE COUNTY'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information which helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting and the economic resources measurement focus, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

The Statement of Net Position presents financial information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as "net position". Over time, increases or decreases in the County's net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal years.

The County's governmental activities are presented in the Statement of Net Position and the Statement of Activities. Governmental activities include public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, interest on long-term debt and non-program activities. Property tax and state and federal grants finance most of these activities.

Fund Financial Statements

The County has two kinds of funds:

- 1) Governmental funds account for most of the County's basic services. These focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental funds include: 1) the General Fund, 2) the Special Revenue Funds, such as Mental Health, Rural Services and Secondary Roads and 3) the Debt Service Fund. These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the County's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs.

The required financial statements for governmental funds are a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) Fiduciary funds are used to report assets held in a trust or agency capacity for others which cannot be used to support the County's own programs. These fiduciary funds include Agency Funds that account for emergency management services, auto license and use tax and the County Assessor, to name a few.

The required financial statement for fiduciary funds is a Statement of Fiduciary Assets and Liabilities.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of financial position. The analysis that follows focuses on the changes in the net position of governmental activities.

Net Position of Governmental Activities (Expressed in Thousands)		
	June 30,	
	2020	2019
Current and other assets	\$ 9,811	9,577
Capital assets	24,813	24,812
Total assets	34,624	34,389
Deferred outflows of resources	647	764
Long-term liabilities	4,927	5,548
Other liabilities	186	419
Total liabilities	5,113	5,967
Deferred inflows of resources	4,765	723
Net position:		
Net investment in capital assets	22,344	22,012
Restricted	3,559	3,150
Unrestricted	(510)	(699)
Total net position	\$ 25,393	24,463

Net position of Decatur County's governmental activities increased 3.8% (approximately \$25.4 million compared to approximately \$24.5 million).

The largest portion of the County's net position is invested in capital assets (land, infrastructure, intangibles, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

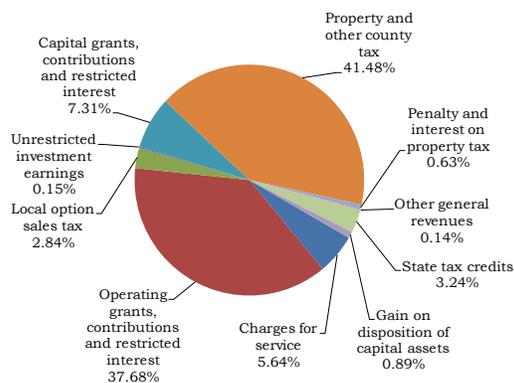

Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased from a deficit of approximately \$699,000 at June 30, 2019 to a deficit of approximately \$510,000 at the end of this year, an increase of 27.0%. The deficit is primarily due to the net pension liability and total OPEB liabilities. Net pension liability decreased approximately 11.0% from the prior year.

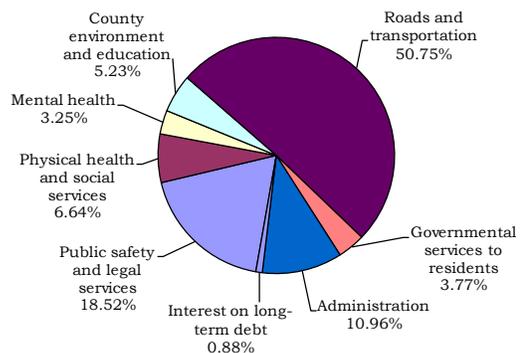

Changes in Net Position of Governmental Activities
(Expressed in Thousands)

	Year ended June 30,	
	2020	2019
Revenues:		
Program revenues:		
Charges for service	\$ 587	869
Operating grants, contributions and restricted interest	3,923	2,905
Capital grants, contributions and restricted interest	761	1,350
General revenues:		
Property and other county tax	4,317	4,243
Penalty and interest on property tax	66	97
State tax credits	337	336
Local option sales tax	296	281
Unrestricted investment earnings	16	24
Gain on disposition of capital assets	93	-
Other general revenues	15	30
Total revenues	10,411	10,135
Program expenses:		
Public safety and legal services	1,756	1,686
Physical health and social services	630	620
Mental health	308	868
County environment and education	496	494
Roads and transportation	4,812	5,011
Governmental services to residents	357	334
Administration	1,039	808
Interest on long-term debt	83	90
Total expenses	9,481	9,911
Change in net position	930	224
Net position beginning of year	24,463	24,239
Net position end of year	\$ 25,393	24,463

Revenues by Source

Expenses by Function

Decatur County's governmental activities net position increased approximately \$930,000 during the year. Revenues for governmental activities increased approximately \$276,000, or 2.7%, over the prior year, including property tax revenues which increased over the prior year approximately \$74,000, or 1.7%.

The County decreased property tax rates for fiscal year 2020 an average of 0.3%. Even with the decrease, the County's property tax revenue increased approximately \$74,000 in fiscal year 2020. Based on increases in the total assessed valuation and decreases in the property tax rates, property tax revenue is budgeted to decrease by approximately \$172,000 next year.

The cost of all governmental activities this year was approximately \$9.5 million compared to approximately \$9.9 million last year. However, as shown in the Statement of Activities on page 17, the amount taxpayers ultimately financed for these activities was approximately \$4.2 million because some of the costs were paid by those directly benefiting from the programs (approximately \$587,000) or by other governments and organizations which subsidized certain programs with grants and contributions (approximately \$4,684,000). Overall, the County's governmental program revenues, including intergovernmental aid and charges for service, increased in fiscal year 2020 from approximately \$5,124,000 to approximately \$5,271,000, principally due to receiving fewer contributions of roads paid for by the Iowa Department of Transportation while receiving additional operating grants, contributions and restricted interest for physical health and social services function.

INDIVIDUAL MAJOR FUND ANALYSIS

As Decatur County completed the year, its governmental funds reported a combined fund balance of approximately \$4.9 million, an increase of approximately \$469,000 above last year's total of approximately \$4.4 million. The following are the major reasons for the changes in fund balances of the major funds from the prior year:

- General Fund revenues decreased approximately \$45,800, or 1.1%, from the prior year. Expenditures increased approximately \$321,100, or 9.0%, over the prior year. The ending fund balance increased approximately \$323,300 over the prior year to \$1,911,377.
- Special Revenue, Mental Health Fund revenues decreased approximately \$26,300, or 7.7%. Expenditures decreased approximately \$567,300, or 65.4% from the prior year, due to a change in the fiscal agent for the mental health region and transferring most of the funds to the fiscal agent in the prior year. The ending fund balance increased approximately \$20,200 over the prior year to \$255,681.
- Special Revenue, Rural Services Fund expenditures decreased approximately \$67,900, or 19.4%, from the prior year and revenues also decreased approximately \$21,700, or 2.3%. The decrease in expenditures is primarily due to purchasing less equipment for the Sheriff's Department. The ending fund balance increased approximately \$73,500 over the prior year to approximately \$590,600.
- Special Revenue, Secondary Roads Fund expenditures decreased approximately \$247,500 from the prior year and revenues decreased approximately \$85,000. The Secondary Roads Fund balance at year end increased approximately \$51,000, or 3.0%, to approximately \$1,770,000. The increase in fund balance was primarily due to a milder Winter and Spring, decreasing purchases for rock, fuel and salt.

BUDGETARY HIGHLIGHTS

Over the course of the year, Decatur County amended its budget two times. The first amendment was made in December 2019 and resulted in an increase in budgeted disbursements of \$553,736. The primary reason for this amendment was to reflect the increased cost of roads and transportation and public safety and legal services. The second amendment was made in April 2020 and resulted in an increase in budgeted disbursements of \$391,469. The primary reason for this amendment was to reflect increases in costs for roads and transportation.

The County's receipts were \$198,735 more than budgeted, a variance of 2.2%. The most significant variance resulted from the County receiving more intergovernmental receipts than anticipated.

Total disbursements were \$678,643, or 6.8%, less than the final amended budget. County environment and education function disbursements were approximately \$139,000 less than the final budget due to Little River Lake not having as many projects as anticipated.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2020, Decatur County had approximately \$24.8 million invested in a broad range of capital assets, including public safety equipment, buildings, park facilities, roads and bridges and intangible assets. This is a net increase (including additions and deletions) of approximately \$1,000 over last year.

Capital Assets of Governmental Activities at Year End		
(Expressed in Thousands)		
	June 30,	
	2020	2019
Land	\$ 3,071	3,071
Construction in progress	63	2,127
Buildings and improvements	4,373	4,515
Equipment and vehicles	1,864	1,548
Intangibles	520	520
Infrastructure	14,922	13,032
Total	\$ 24,813	24,812

The County had depreciation expense of \$1,441,298 in fiscal year 2020 and total accumulated depreciation of \$13,725,479 at June 30, 2020. More detailed information about the County's capital assets is presented in Note 5 to the financial statements.

Long-Term Debt

At June 30, 2020, Decatur County had approximately \$2,469,000 of outstanding debt, which included approximately \$63,000 of bank loan debt, \$60,000 of general obligation note debt, \$2,290,000 of revenue bond debt and \$56,000 of capital lease debt compared to total outstanding debt of approximately \$2,800,000 at June 30, 2019.

Outstanding Debt of Governmental Activities at Year-End (Expresses in Thousands)		
	June 30,	
	2020	2019
Bank loan	\$ 63	68
General obligation note	60	120
Revenue bonds	2,290	2,465
Capital lease purchase agreement	56	147
Total	\$ 2,469	2,800

Additional information about the County's long-term liabilities is presented in Note 7 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Decatur County's elected and appointed officials and citizens considered many factors when setting the fiscal year 2021 budget, tax rates and the fees charged for various County activities. One of those factors is the economy. Unemployment in the County now stands at 6.9% versus 2.5% a year ago. This compares with the State's unemployment rate of 8.0% and the national rate of 11.1%.

Property valuations are key to what services the County can provide. The Board of Supervisors has always been mindful of the need to provide cost efficient services with the resources available. Budgeted expenditures for fiscal year 2021 are \$9,225,393, a decrease of \$678,726 from the fiscal year 2020 amended budget.

If these estimates are realized, Decatur County's operating fund balances are expected to decrease from a re-estimated amount of \$3,267,249 to \$2,603,529 by the close of fiscal year 2021.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of Decatur County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Decatur County Auditor's Office, 207 N Main Street, Leon, Iowa 50144.

Reconciliation of the Balance Sheet –
Governmental Funds to the Statement of Net Position

June 30, 2020

Total governmental fund balances (page 19) \$ 4,893,325

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds. The cost of assets is \$38,538,289 and the accumulated depreciation is \$13,725,479. 24,812,810

Other long-term assets are not available to pay current year expenditures and, therefore, are recognized as deferred inflows of resources in the governmental funds. 544,898

Pension related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:

Deferred outflows of resources	\$ 646,879	
Deferred inflows of resources	<u>(572,227)</u>	74,652

Interest payable are not due and payable in the current year and, therefore, are not reported in the governmental funds. (5,935)

Long-term liabilities, including bank loan payable, general obligation notes payable, Jail Authority revenue bonds payable, capital lease purchase agreements payable, compensated absences payable, net pension liability and total OPEB liability are not due and payable in the current year and, therefore, are not reported in the governmental funds. (4,927,172)

Net position of governmental activities (page 16) \$ 25,392,578

Decatur County

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances –
Governmental Funds to the Statement
of Activities

Year ended June 30, 2020

Change in fund balances - Total governmental funds (page 23) \$ 468,867

***Amounts reported for governmental activities in the Statement of
Activities are different because:***

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Capital outlay expenditures and contributed capital assets exceeded depreciation expense in the current year, as follows:

Expenditures for capital assets	\$ 600,984	
Capital assets contributed by the Iowa Department of Transportation	761,019	
Depreciation expense	<u>(1,441,299)</u>	(79,296)

In the Statement of Activities, the gain on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in financial resources.

80,415

Because some revenues will not be collected for several months after the County's year end, they are not considered available revenues and are recognized as deferred inflows of resources in the governmental funds, as follows:

Property tax	59,855	
Other	<u>42,953</u>	102,808

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

331,051

The current year County share of IPERS contributions is reported as expenditures in the governmental funds but is reported as deferred outflows of resources in the Statement of Net Position.

339,790

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Compensated absences	12,924	
Interest on long-term debt	578	
OPEB expense	43,621	
Pension expense	<u>(371,112)</u>	<u>(313,989)</u>

Change in net position of governmental activities (page 17) \$ 929,646

See notes to financial statements.

Decatur County

Notes to Financial Statements

June 30, 2020

(1) Summary of Significant Accounting Policies

Decatur County is a political subdivision of the State of Iowa and operates under the Home Rule provisions of the Constitution of Iowa. The County operates under the Board of Supervisors form of government. Elections are on a partisan basis. Other elected officials operate independently with the Board of Supervisors. These officials are the Auditor, Treasurer, Recorder, Sheriff and Attorney. The County provides numerous services to citizens, including law enforcement, health and social services, parks and cultural activities, planning and zoning, roadway construction and maintenance and general administrative services.

The County's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Decatur County has included all funds, organizations, agencies, boards, commissions and authorities. The County has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the County.

Blended Component Unit – The following component unit is legally separate from the County but is so intertwined with the County it is in substance, the same as the County. It is reported as part of the County and blended into the appropriate fund.

The Decatur County Jail Authority was established to acquire, destruct, demolish, improve, enlarge, equip, furnish, repair, maintain and operate one or more public buildings and to acquire and prepare any necessary site, including demolition of any structures, for the joint use of the incorporating units. Although the Authority is legally separate from the County, it is controlled, managed and supervised by a jointly appointed Board approved by the County and the City of Leon. As discussed in Note 7 to the financial statements, the County's lease payment to pay the Jail Authority Revenue Bonds is reported in the Debt Service Fund. Financial information of the Authority can be obtained from the Decatur County Auditor's Office.

Jointly Governed Organizations – The County participates in several jointly governed organizations that provide goods or services to the citizenry of the County but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The County Board of Supervisors are members of or appoint representatives to the following boards and commissions: Decatur County Assessor's Conference Board, Decatur County Joint 911 Service Board and Decatur County Emergency Management Commission. Financial transactions of these organizations are included in the County's financial statements only to the extent of the County's fiduciary relationship with the organization and, as such, are reported in the Agency Funds of the County.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the County and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by property tax, intergovernmental revenues and other nonexchange transactions.

The Statement of Net Position presents the County's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The County reports the following major governmental funds:

The General Fund is the general operating fund of the County. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs not paid from other funds.

Special Revenue:

The Mental Health Fund is used to account for property tax and other revenues to be used to fund mental health, intellectual disabilities and developmental disabilities services.

The Rural Services Fund is used to account for property tax and other revenues to provide services which are primarily intended to benefit those persons residing in the county outside of incorporated city areas.

The Secondary Roads Fund is used to account for the road use tax allocation from the State of Iowa, transfers from the General Fund and the Special Revenue, Rural Services Fund and other revenues to be used for secondary roads construction and maintenance.

Additionally, the County reports the following funds:

Fiduciary Funds – Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, certain jointly governed organizations, other governmental units and/or other funds.

C. Measurement Focus and Basis of Accounting

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the County.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recorded as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the County's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications – committed, assigned and then unassigned fund balances.

The County maintains its financial records on the cash basis. The financial statements of the County are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Balance /Net Position

The following accounting policies are followed in preparing the financial statements:

Cash and Pooled Investments – The cash balances of most County funds are pooled and invested. Interest earned on investments is recorded in the General Fund unless otherwise provided by law. Investments are stated at fair value.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the County Board of Supervisors. Delinquent property tax and tax increment financing receivables represent unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Supervisors to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Supervisors is required to certify its budget in March of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is reported as a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2018 assessed property valuations; is for the tax accrual period July 1, 2019 through June 30, 2020 and reflects the tax asking contained in the budget certified by the County Board of Supervisors in March 2019.

Interest and Penalty on Property Tax Receivable – Interest and penalty on property tax receivable represents the amount of interest and penalty that was due and payable but has not been collected.

Special Assessments Receivable – Special assessments receivable represent the amounts due from individuals for work done which benefits their property. These assessments are payable by individuals in not more than 15 annual installments. Each annual installment with interest on the unpaid balance is due on September 30 and is subject to the same interest and penalties as other taxes. Special assessments receivable represent assessments which have been made but have not been collected.

Due From and Due to Other Funds – During the course of its operations, the County has numerous transactions between funds. To the extent certain transactions between funds had not been paid or received as of June 30, 2020, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Capital Assets – Capital assets, which include property, furniture and equipment and intangibles acquired after July 1, 1980 are reported in the governmental activities column in the government-wide Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the County as assets with initial, individual costs in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Infrastructure	\$ 65,000
Intangibles	25,000
Land, buildings and improvements	5,000
Equipment and vehicles	5,000

Capital assets of the County are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated Useful lives (In Years)
Buildings and improvements	25 - 50
Land improvements	10 - 50
Equipment	3 - 20
Vehicles	5 - 15
Infrastructure	10 - 65
Intangibles	5 - 20

Deferred Outflows of Resources – Deferred outflows of resources represent a consumption of net position that applies to a future year(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the County after the measurement date but before the end of the County’s reporting period.

Due to Other Governments – Due to other governments represents taxes and other revenues collected by the County and payments for services which will be remitted to other governments.

Trusts Payable – Trusts payable represents amounts due to others which are held by various County officials in fiduciary capacities until the underlying legal matters are resolved.

Compensated Absences – County employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2020. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and the Special Revenue, Mental Health, Rural Services and Secondary Roads Funds.

Long-Term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Iowa Public Employees’ Retirement System (IPERS) and additions to/deductions from IPERS’ fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid primarily by the General Fund and the Special Revenue, Mental Health, Rural Services and Secondary Roads Funds.

Total OPEB Liability – For purposes of measuring the total OPEB liability and OPEB expense, information has been determined based on the Decatur County’s actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund and the Special Revenue, Mental Health, Rural Services and Secondary Roads Funds.

Deferred Inflows of Resources – Deferred inflows of resources represents an acquisition of net position that applies to a future year(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the fund financial statements consist of property tax receivable and other receivables not collected within sixty days after year end and succeeding year property tax receivable that will not be recognized until the year for which it is levied.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivable that will not be recognized until the year for which it is levied, unrecognized items not yet charged to pension expense and the unamortized portion of the net difference between projected and actual earnings on pension plan assets.

Fund Balance – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Assigned – Amounts the Board of Supervisors intend to use for specific purposes.

Unassigned – All amounts not included in the preceding classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) Cash and Pooled Investments

The County’s deposits in banks at June 30, 2020 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The County is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Supervisors; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The County had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

(3) Due From and Due to Other Funds

The detail of interfund receivables and payables at June 30, 2020 is as follows:

Receivable Fund	Payable Fund	Amount
Special Revenue:		
Secondary Roads	General	\$ 748
	Special Revenue:	
	Rural Services	782
Total		\$ 1,530

These balances result from the time lag between the dates interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system and payments between funds are made.

(4) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2020 is as follows:

Transfer to	Transfer from	Amount
Special Revenue:	Special Revenue:	
Secondary Roads	Rural Services	\$ 586,241

Transfers generally move resources from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(5) **Capital Assets**

Capital assets activity for the year ended June 30, 2020 was as follows:

	<u>Balance</u>			<u>Balance</u>
	<u>Beginning</u>	<u>Increases</u>	<u>Decreases</u>	<u>End</u>
	<u>of Year</u>			<u>of Year</u>
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 3,070,548	-	-	3,070,548

Total accumulated depreciation	13,039,709	1,441,299	755,529	13,725,479
Total capital assets being depreciated, net	19,094,680	2,069,511	5,086	21,159,105
Governmental activities capital assets, net	\$ 24,811,691	2,857,752	2,856,633	24,812,810

Depreciation expense was charged to the following functions:

Governmental activities:	
Public safety and legal services	\$ 139,748
Physical health and social services	11,369
Mental health	9,960
County environment and education	27,742
Roads and transportation	1,182,453
Governmental services to residents	7,920
Administration	62,107
Total depreciation expense - governmental activities	<u>\$ 1,441,299</u>

(6) Due to Other Governments

The County purchases services from other governmental units and also acts as a fee and tax collection agent for various governmental units. Tax collections are remitted to those governments in the month following collection. A summary of amounts due to other governments at June 30, 2020 is as follows:

Fund	Description	Amount
General	Services	\$ 9,142
Special Revenue:		
Mental Health	Services	90
Secondary Roads	Services	1,534
Total for governmental funds		<u>\$ 10,766</u>
Agency:		
County Offices	Collections	\$ 12,704
Ag. Extension Education		95,487
County Assessor		792,381
Schools		4,679,743
Community Colleges		283,197
Corporations		1,574,911
Townships		166,810
Auto License and Use Tax		132,362
All other		1,992,377
Total for agency funds		<u>\$ 9,729,972</u>

(7) Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2020 is as follows:

	Bank Loan	General Obligation Notes	Jail Authority Revenue Bonds	Capital Lease Purchase Agreements	Compensated Absences	Net Pension Liability	Total OPEB Liability	Total
Balance beginning of year	\$ 67,962	120,000	2,465,000	146,984	272,452	2,119,957	355,324	5,547,679
Increases	-	-	-	-	223,644	-	-	223,644
Decreases	4,933	60,000	175,000	91,118	236,568	232,911	43,621	844,151
Balance end of year	\$ 63,029	60,000	2,290,000	55,866	259,528	1,887,046	311,703	4,927,172
Due within one year	\$ 4,730	60,000	180,000	16,024	179,526	-	-	440,280

Bank Loan – Direct Borrowings

A summary of the County’s June 30, 2020 bank loan indebtedness is as follows:

Bank Loans									
Year Ending June 30,	Interest Rate	October 2011 and June 2012		Interest Rate	March 11, 2016		Total		
		Principal	Interest		Principal	Interest	Principal	Interest	Total
2021	4.85%	\$ 2,921	2,219	4.02%	\$ 1,809	439	\$ 4,730	2,658	7,388
2022	4.85	3,343	2,264	4.02	2,052	400	5,395	2,664	8,059
2023	4.85	3,512	2,096	4.02	2,137	314	5,649	2,410	8,059
2024	4.85	3,683	1,925	4.02	2,226	226	5,909	2,151	8,060
2025	4.85	3,873	1,734	4.02	2,318	133	6,191	1,867	8,058
2026-2030	4.85	22,490	5,550	4.02	2,005	38	24,495	5,588	30,083
2031-2032	4.85	10,660	555	4.02	-	-	10,660	555	11,215
Total		\$ 50,482	16,343		\$ 12,547	1,550	\$ 63,029	17,893	80,922

On October 1, 2011, the County borrowed \$60,000 from American State Bank to purchase a building for the Public Health Department. On June 11, 2012, the County borrowed an additional \$70,000 from American State Bank to remodel the Public Health building. The bank rolled the outstanding balance of the original loan of \$58,879 with the additional \$70,000 borrowed for a new loan of \$128,879. The loan requires monthly payments of \$844 from July 1, 2012 through June 1, 2032. On May 29, 2013, the remaining principal balance was amortized to lower the monthly payment to \$467 per month due to a payment of \$50,000 made in May 2013. The interest rate of 4.85% per annum and the maturity date of June 1, 2032 remain the same. During the year ended June 30, 2020, the County paid principal of \$3,036 and interest of \$2,572 on the loan.

On March 11, 2016, the County borrowed \$20,000 from American State Bank for roof repairs and building maintenance to the Public Health building. The loan bears an interest rate of 4.02% per annum and matures during the year ending June 30, 2026. During the year ended June 30, 2020 the County paid \$1,897 of principal and \$555 of interest on this loan.

General Obligation Notes

On March 1, 2016, the County issued \$300,000 of general obligation notes for the purpose of constructing improvements, acquiring furnishings and equipment for the Courthouse, Public Health Building and County Jail, in addition to the purchase of both a vehicle for the Sheriff’s Department and a geographic information system for the County. The notes bear interest at 2.82% per annum and mature during the year ending June 30, 2021. During the year ended June 30, 2020, the County paid principal of \$60,000 and interest of \$3,370 on the notes.

Year Ending June 30,	Interest Rate	Principal Interest	
		Principal	Interest
2021	2.82%	\$ 60,000	1,692

Jail Authority Revenue Bonds

On November 12, 2014, the Decatur County Jail Authority issued \$3,300,000 of Jail Facilities Revenue Bonds, Series 2014. The proceeds from the bonds have provided for financing the acquisition, construction, furnishing and equipping of jail facilities. The bonds are payable solely from future rental payments made by the County under a capital lease purchase agreement with the Jail Authority. The total principal and interest remaining to be paid on the bonds is \$2,730,945 and the bonds are payable through 2031. The bonds bear interest at rates ranging from 3.00% to 3.20% per annum. During the year ended June 30, 2020, the Authority paid principal of \$175,000 and interest of \$74,778 on the bonds.

The County entered into a capital lease purchase agreement dated November 1, 2014 with the Decatur County Jail Authority (Authority) for the purpose of leasing the jail facility with payment terms which correspond in timing and amount with the revenue bond debt service obligations. The County has an annual debt service levy for which collections have been pledged to the Authority for the purpose of paying the Authority's bond principal and interest amounts when due. The lease term continues until all bonds are retired or a purchase option is exercised by the County, which requires a payment from the County to the Authority sufficient to retire all remaining outstanding bond principal and interest. At the end of the lease term, the Authority surrenders ownership rights in the property to the County. Since the Jail Authority is reported as a part of the County, the liability is reported as revenue bonds rather than a capital lease purchase agreement.

Details of the Jail Authority revenue bonds outstanding at June 30, 2020 are as follows:

Year	Interest	Principal	Interest	Total
Ending	Rates			
June 30,				
2021	3.00%	\$ 180,000	69,528	249,528
2022	3.00	185,000	64,128	249,128
2023	3.00	190,000	58,578	248,578
2024	3.00	195,000	52,878	247,878
2025	3.00	200,000	47,028	247,028
2026-2030	3.00-3.10	1,100,000	141,125	1,241,125
2031	3.20	240,000	7,680	247,680
Total		\$ 2,290,000	440,945	2,730,945

Capital Lease Purchase Agreements

During the year ended June 30, 2018, the County entered into a capital lease purchase agreement for a mower tractor for \$49,158. The agreement bears no interest per annum and is payable in annual installments of \$8,232, with the final payment due on March 30, 2023.

During the year ended June 30, 2019, the County entered into a capital lease purchase agreement for a utility tractor for \$38,963. The agreement bears no interest per annum and is payable in annual installments of \$7,793, with the final payment due on August 8, 2023.

The following is a schedule of the future minimum lease payments and the present value of net minimum lease payments under the agreements in effect at June 30, 2020:

Year Ending June 30,	Mower Tractor	Utility Tractor	Total
2021	\$ 7,792	8,232	16,024
2022	7,793	8,232	16,025
2023	7,792	8,232	16,024
2024	7,793	-	7,793
Total minimum lease payments	31,170	24,696	55,866
Less amount representing interest	-	-	-
Present value of net minimum lease payments	\$ 31,170	24,696	55,866

Payments under the capital lease purchase agreements totaled \$91,618 for the year ended June 30, 2020.

(8) Pension Plan

Plan Description – IPERS membership is mandatory for employees of the County, except for those covered by another retirement system. Employees of the County are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees’ Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at PO Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment or when the member’s years of service plus the member’s age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member’s first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member’s monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member’s highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

Sheriffs, deputies and protection occupation members may retire at normal retirement age, which is generally age 55. Sheriffs, deputies and protection occupation members may retire any time after reaching age 50 with 22 or more years of covered employment.

The formula used to calculate a sheriff's, deputy's and protection occupation member's monthly IPERS benefit includes:

- 60% of average salary after completion of 22 years of service, plus an additional 1.5% of average salary for more than 22 years of service but not more than 30 years of service.
- The member's highest three-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2020, pursuant to the required rate, Regular members contributed 6.29% of covered payroll and the County contributed 9.44% of covered payroll, for a total rate of 15.73%. The Sheriff, deputies and the County each contributed 9.51% of covered payroll, for a total rate of 19.02%. Protection occupation members contributed 6.61% of covered payroll and the County contributed 9.91% of covered payroll, for a total rate of 16.52%.

The County's contributions to IPERS for the year ended June 30, 2020 were \$339,790.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2020, the County reported a liability of \$1,887,046 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County’s proportion of the net pension liability was based on the County’s share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2019, the County’s proportion was 0.032588%, which was a decrease of 0.000912% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the County recognized pension expense of \$371,112. At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 12,892	80,215
Changes of assumptions	277,897	49,726
Net difference between projected and actual earnings on IPERS' investments	-	314,077
Changes in proportion and differences between County contributions and the County's proportionate share of contributions	16,300	128,209
County contributions subsequent to the measurement date	339,790	-
Total	<u>\$ 646,879</u>	<u>572,227</u>

\$339,790 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount
2021	\$ (33,508)
2022	(117,691)
2023	(62,512)
2023	(48,354)
2024	(3,073)
Total	<u>\$ (265,138)</u>

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2017)	2.60% per annum.
Rates of salary increase (effective June 30, 2017)	3.25 to 16.25% average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 2017)	7.00% compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 2017)	3.25% per annum, based on 2.60% inflation and 0.65% real wage inflation.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018.

Mortality rates used in the 2018 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	22.0%	5.60%
International equity	15.0	6.08
Global smart beta equity	3.0	5.82
Core plus fixed income	27.0	1.71
Public credit	3.5	3.32
Public real assets	7.0	2.81
Cash	1.0	(0.21)
Private equity	11.0	10.13
Private real assets	7.5	4.76
Private credit	3.0	3.01
Total	<u>100.0%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and contributions from the County will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
County's proportionate share of the net pension liability:	\$ 3,977,226	1,887,046	134,430

IPERS' Fiduciary Net Position – Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to IPERS – All legally required County contributions and legally required employee contributions which had been withheld from employee wages were remitted by the County to IPERS by June 30, 2020.

(9) Other Postemployment Benefits (OPEB)

Plan Description – The County administers a single-employer benefit plan which provides medical, prescription drug and dental benefits for employees, retirees and their spouses. Group insurance benefits are established under Iowa Code Chapter 509A.13. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

OPEB Benefits – Individuals who are employed by Decatur County and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical, prescription drug and dental benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Retired participants must be age 55 or older at retirement. At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	-
Active employees	<u>70</u>
Total	<u><u>70</u></u>

Total OPEB Liability – The County's total OPEB liability of \$311,703 was measured as of June 30, 2020 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions – The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and the entry age normal actuarial cost method, applied to all periods included in the measurement.

Rate of inflation (effective June 30, 2020)	2.60% per annum.
Rates of salary increase (effective June 30, 2020)	3.25% per annum, including inflation.
Discount rate (effective June 30, 2020)	2.66% compounded annually, including inflation.
Healthcare cost trend rate (effective June 30, 2020)	8.00% initial rate decreasing by .5% annually to an ultimate rate of 4.5%.

Discount Rate – The discount rate used to measure the total OPEB liability was 2.66% which reflects the index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

Mortality rates are from the SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using Scale MP-2019. Annual retirement probabilities are based on varying rates by age and turnover probabilities mirror those used by IPERS.

Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>
Total OPEB liability beginning of year	<u>\$ 355,324</u>
Changes for the year:	
Service cost	33,849
Interest	13,660
Differences between expected and actual experiences	11,128
Changes in assumptions	(102,258)
Benefit payments	<u>-</u>
Net changes	<u>(43,621)</u>
Total OPEB liability end of year	<u><u>\$ 311,703</u></u>

Changes of assumptions reflect a change in the discount rate from 3.51% in fiscal year 2019 to 2.66% in fiscal year 2020.

Sensitivity of the County's Total OPEB Liability to Changes in the Discount Rate – The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1% lower (1.66%) or 1% higher (3.66%) than the current discount rate.

	1% Decrease (1.66%)	Discount Rate (2.66%)	1% Increase (3.66%)
Total OPEB liability	\$ 333,564	311,703	291,462

Sensitivity of the County's Total OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower (7.00%) or 1% higher (9.00%) than the current healthcare cost trend rates.

	1% Decrease (7.00%)	Healthcare Cost Trend Rate (8.00%)	1% Increase (9.00%)
Total OPEB liability	\$ 282,492	311,703	346,443

OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – For the year ended June 30, 2020, the County recognized OPEB expense of \$43,621. Under the alternative measurement method, all deferred outflows and inflows of resources related to OPEB are fully recognized immediately.

(10) Operating Leases

The County entered into leases for a phone system during the year ended June 30, 2016 and copiers during the year ended June 30, 2019. The following is a schedule of future minimum lease payments required under the operating lease agreements:

Year ending June 30,	Copiers	Phone System	Amount
2021	\$ 23,675	2,469	26,144
2022	23,675	-	23,675
2023	23,675	-	23,675
2024	23,675	-	23,675
	<u>\$ 94,700</u>	<u>2,469</u>	<u>97,169</u>

Lease expense for these leases for the year ended June 30, 2020 totaled \$33,551.

(11) Risk Management

The County is a member of the Heartland Insurance Risk Pool, as allowed by Chapter 331.301 of the Code of Iowa. The Heartland Insurance Risk Pool (Pool) is a local government risk-sharing pool whose membership includes ten counties throughout the State of Iowa. The Pool was formed in July 1987 to provide workers' compensation and property/casualty insurance for its members. The risk pool was created for the purposes of providing and maintaining self-insurance benefits on a group basis substantially at cost.

Each member county is responsible for the payment of member contributions to the Pool on an annual basis. Member contributions to the Pool are recorded as expenditures from the operating funds at the time of payment to the Pool. In the event of payment of any loss by the Pool, the Pool is subrogated to the extent of such payment to all the rights of the member County against any person or other entity legally responsible for damages for said loss, and in such event, the member County is responsible for rendering all reasonable assistance, other than pecuniary assistance, to affect recovery. The Pool is responsible for paying the reinsurance premiums on the insurance policies when due, to pay claims in accordance with the various coverages and to make other payments as required by applicable law, to establish and accumulate a reserve or reserves in amounts which are deemed advisable or required by law to carry out the purposes of the Pool, and to pay all reasonable and necessary expenses for administering the Pool and fund.

Initial risk of loss for the self-insured coverages is retained by the Pool. The Pool obtained a reinsurance policy for the year ended June 30, 2020, which covers exposures of specific losses in excess of \$750,000, with a \$250,000 corridor deductible, per occurrence up to the statutory limits for workers compensation, and in excess of \$400,000 per occurrence, up to a maximum of \$5,000,000 per occurrence, including the retention of the pool, for general liability, police professional, errors and omissions and automobile liability. The Pool records a liability for unpaid claims based on estimates of reported and incurred but not reported claims and related loss adjustments expenses. At June 30, 2020, 2019 and 2018, the Pool reported a surplus of assets over liabilities.

Each member retains the risk of claims, if any, exceeding maximum reinsurance coverages and the amount of surplus maintained in the Pool by means of an assessment that would be charged to the member County in addition to the premium contributions. At June 30, 2020, settled claims have not exceeded the Pool or reinsurance coverage since commencement of the Pool.

The County's property and casualty contributions to the Pool are recorded as expenditures from its operating funds at the time of payment to the Pool. The County's contributions to the Pool for the year ended June 30, 2020 were \$288,465.

Initial membership into the Pool is for a mandatory three year period. Subsequent to the initial term, a member County may withdraw at the end of any given fiscal year. The initial membership period for Decatur County commenced July 1, 1987 and is subject to renewal every three years. The County also carries commercial insurance purchased by the Pool from other insurers for coverages associated with the employee blanket bond. The County assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(12) Higher Education Notes

In December 2013, the County issued \$9,158,000 of refunding notes for Graceland University under the provisions of Chapter 419 of the Code of Iowa. The balance outstanding on the refunding notes at June 30, 2020 is \$8,544,622. The notes and related interest are payable solely from and are secured by a pledge of revenues to be received from Graceland University and the note principal and interest do not constitute liabilities of the County.

(13) Decatur County Financial Information Included in the County Rural Offices of Social Services Mental Health Region

County Rural Offices of Social Services (CROSS) Mental Health Region, a jointly governed organization formed pursuant to the provisions of Chapter 28E of the Code of Iowa includes the following member counties: Clarke County, Decatur County, Lucas County, Monroe County, Ringgold County and Wayne County. The financial activity of Decatur County's Special Revenue, Mental Health Fund is included in the County Rural Offices of Social Services (CROSS) Mental Health Region for the year ended June 30, 2020, as follows:

Revenues:		
Property and other county tax		\$ 287,027
Intergovernmental:		
State tax credits	\$ 23,533	
MH-DD reimbursement from other governments	<u>2,309</u>	25,842
Miscellaneous		<u>4,436</u>
Total revenues		<u>317,305</u>
Expenditures:		
Services to persons with:		
Mental illness		61,433
General administration:		
Direct administration	12,766	
Distribution to regional fiscal agent	<u>226,067</u>	<u>238,833</u>
Total expenditures		<u>300,266</u>
Excess of revenues over expenditures		17,039
Other financing sources		3,150
Fund balance beginning of year		<u>235,492</u>
Fund balance end of year		<u>\$ 255,681</u>

(14) Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Property tax revenues of the County were reduced by the following amounts for the year ended June 30, 2020 under agreements entered into by the following entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Lamoni	Urban renewal and economic development projects	\$ 3,894

(15) COVID-19

In March 2020, the COVID-19 outbreak was declared a global pandemic. The disruption to businesses across a range of industries in the United States continues to evolve. The full impact to local, regional and national economies, including Decatur County, remains uncertain.

To date, the outbreak has not created material disruption to the operations of Decatur County. However, the extent of the financial impact of COVID-19 will depend on future developments, including the spread of the virus, duration and timing of the economic recovery. Due to these uncertainties, management cannot reasonably estimate the potential impact to Decatur County’s operations and finances.

(16) Prospective Accounting Change

Governmental Accounting Standards Board has issued Statement No. 84, Fiduciary Activities. This statement will be implemented for the fiscal year ending June 30, 2021. The revised requirements of this statement will enhance the consistency and comparability of fiduciary activity reporting by state and local governments by establishing specific criteria for identifying fiduciary activities and clarifying whether and how business-type activities should report their fiduciary activities.

Decatur County

Notes to Required Supplementary Information – Budgetary Reporting

June 30, 2020

The budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the County Board of Supervisors annually adopts a budget on the cash basis following required public notice and hearing for all funds except the blended component unit and Agency Funds, and appropriates the amount deemed necessary for each of the different County offices and departments. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon ten major classes of expenditures known as functions, not by fund. These ten functions are: public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, non-program, debt service and capital projects. Function disbursements required to be budgeted include disbursements for the General Fund, the Special Revenue Funds and the Debt Service Fund. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. Legal budgetary control is also based upon the appropriation to each office or department. During the year, two budget amendments increased budgeted disbursements by \$945,205. The budget amendments are reflected in the final budgeted amounts.

In addition, annual budgets are similarly adopted in accordance with the Code of Iowa by the appropriate governing body as indicated: for the County Assessor by the County Conference Board, for the 911 System by the Joint 911 Service Board and for Emergency Management Services by the County Emergency Management Commission.

During the year ended June 30, 2020, disbursements did not exceed the amounts budgeted.

Notes to Required Supplementary Information – Pension Liability

Year ended June 30, 2020

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL (unfunded actuarial liability) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Officials of Decatur County:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Decatur County, Iowa, as of and for the year ended June 30, 2020, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated May 27, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Decatur County's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Decatur County's internal control. Accordingly, we do not express an opinion on the effectiveness of Decatur County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the County's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings as items (A) through (D) to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings as items (E) through (K) to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Decatur County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters which are required to be reported under Government Auditing Standards. However, we noted an immaterial instance of non-compliance or other matter which is described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the County's operations for the year ended June 30, 2020 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the County. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

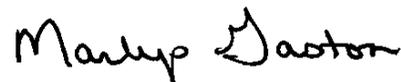

Decatur County's Responses to the Findings

Decatur County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. Decatur County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Decatur County during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Marlys K. Gaston, CPA
Deputy Auditor of State

May 27, 2021

Decatur County
 Schedule of Findings
 Year ended June 30, 2020

Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

(A) Segregation of Duties

Criteria – Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the County’s financial statements.

Condition – Generally, one or two individuals in the offices identified may have control over the following areas for which no compensating controls exist:

	<u>Applicable Offices</u>
(1) Receipts – opening mail, collecting, depositing, posting, daily reconciling and handling cash.	Treasurer, Sheriff Recorder, Conservation, Secondary Roads, Public Health
(2) The responsibility for the change fund is not assigned to only one person.	Treasurer, Recorder
(3) The person who signs checks is not independent of the person preparing the checks, approving disbursements, recording cash disbursements and handling cash.	Recorder
(4) Accounts receivable – collecting, posting and reconciling.	Public Health
(5) Individuals reconcile the ARTS (DOT system) activity daily. No independent review of the reconciliation is performed or documented.	Treasurer

Cause – The County offices noted above have a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Effect – Inadequate segregation of duties could adversely affect each County Office’s ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Decatur County

Schedule of Findings

Year ended June 30, 2020

Recommendation – We realize that with a limited number of office employees, segregation of duties is difficult. However, each official should review their operating procedures of their office to obtain the maximum internal control possible under the circumstances. The official should utilize current personnel, including elected officials, to provide additional control through review of financial transactions, reconciliations and reports. Such reviews should be performed by independent persons and should be evidenced by initials or signatures of the reviewer and the date of the review.

Responses

Treasurer – With such a small office, it is difficult to segregate the collection and recording of receipts. We do the best we can with only four total staff members.

Recorder – We will segregate duties of the Recorder’s office to the best of our ability.

Sheriff – We will segregate dues with independent persons as best we can.

Secondary Roads – To help obtain maximum internal control the Office Manager and Engineer have set up a process for reviewing incoming receipts to receipt book and ledger. The Office Manager will get a copy of all receipts that come into the office and also print off the ledger for items receipted in at Treasurer’s Office. The Engineer will check both lists and sign off to ensure all items are accounted for.

Conservation – This is not easily accomplished with the few employees of the conservation board. We will try to do a better job with receipts.

Public Health – We will continue to look for ways to segregate duties to the best of our ability.

Conclusions – Responses accepted.

(B) Financial Reporting

Criteria – A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements of the financial statements on a timely basis. Properly designed policies and procedures and implementation of the policies and procedures are an integral part of ensuring the reliability and accuracy of the County’s financial statements.

Condition – Material amounts of receivables, payables, revenues, expenditures and capital assets were not properly recorded in the County’s financial statements. Adjustments were subsequently made by the County to properly include these amounts in the financial statements.

Cause – County policies do not require, and procedures have not been established to require independent review of year end cut-off transactions and revenues to ensure the County’s financial statements are accurate and reliable.

Decatur County

Schedule of Findings

Year ended June 30, 2020

Effect – Lack of policies and procedures resulted in County employees not detecting the errors in the normal course of performing their assigned functions. As a result, material adjustments to the County’s financial statements were necessary.

Recommendation – The County should establish procedures to ensure all receivables, payables, revenues, expenditures and capital assets are identified and properly reported in the County’s financial statements.

Response – The County will work to establish additional procedures to ensure all receivables, payables and capital assets/infrastructure additions and deletions are identified and properly reported.

Conclusion – Response accepted.

(C) Bank Reconciliation – Maintenance of Financial Records

Criteria – An effective internal control system provides for internal controls related to ensuring proper accounting for all funds by maintaining appropriate accounting records and reconciling bank and book balances.

Condition – During the year ended June 30, 2020, significant unresolved variances existed between the bank balance and the general ledger (book balance). At June 30, 2020, the bank balance exceeded the book balance by \$4,597.

Cause – The variances between the bank balance and the general ledger were due, in part, to certain records not being maintained on a current basis and not being maintained in a manner to ensure all collections were properly recorded in the County’s financial system. County policies have not been established to reconcile recorded receipts in computer system with daily balancing sheets.

Effect – Unresolved variances between bank and book balances can result in undetected errors and opportunity for misappropriation. Lack of policies and procedures resulted in County employees not detecting the errors in the normal course of performing their assigned functions.

Recommendation – The County Treasurer should investigate and resolve variances between the bank balance and the general ledger monthly. In addition, records should be maintained on a current basis and in a way to ensure all collections are recorded.

Response – We are aware that the bank and general ledger do not agree. We will continue to work with the County Auditor and our software vendor to look for reasons why we are not reconciling.

Conclusion – Response accepted.

Decatur County

Schedule of Findings

Year ended June 30, 2020

(D) Bank Reconciliations

Criteria – An effective internal control system provides for internal controls related to ensuring proper accounting for all funds by maintaining appropriate accounting records and reconciling bank and book balances.

Condition – Bank reconciliations were not prepared for the County Conservation office.

Cause – Procedures have not been designed and implemented to ensure all accounts are reconciled and the amounts recorded in the books and bank balances are complete and accurate to ensure proper accounting for all funds.

Effect – A lack of bank to book reconciliations can result in unrecorded transactions, undetected errors and opportunity for misappropriation.

Recommendation – The offices should prepare bank reconciliations and have an independent person review the reconciliations for propriety. The reviews should be documented by the signature or initials of the reviewer and the date of the review.

Response – Bank reconciliations will be prepared. The bank reconciliations will be reviewed by an independent person.

Conclusion – Responses accepted.

(E) Delinquent Property Tax Reconciliations

Criteria – An effective internal control system provides for internal controls related to reconciling current and delinquent property tax collections to tax billings and amounts becoming or remaining delinquent to ensure the accuracy of current and delinquent property tax collections and receivables.

Condition – Delinquent tax reconciliations were not prepared.

Cause – Policies have not been established and procedures have not been implemented to reconcile current and delinquent property taxes to ensure the accuracy of property tax collections and receivables.

Effect – This condition could result in unrecorded or misstated property tax revenues, improper or unauthorized adjustments and write-offs and/or misstated tax receivables.

Recommendation – Delinquent property tax reconciliations should be prepared and reviewed. Variances, if any, should be investigated and resolved in a timely manner.

Response – We will work with our software vendor to run reports and information needed to provide this information for our auditors. The new tax system we are on should help make this available.

Conclusion – Response accepted.

Decatur County

Schedule of Findings

Year ended June 30, 2020

(F) Conservation Receipts

Criteria – Internal controls over safeguarding assets constitute a process, effected by an entity’s governing body, management and other personnel designed to provide reasonable assurance regarding prevention or timely detection of unauthorized transactions and safeguarding assets from error or misappropriation. Such processes include establish polices regarding initial transaction recording.

Condition – Receipts for conservation purposes were only generated for credit card purchases.

Cause – Policies and procedures have not been implemented to require prenumbered receipts for all collections.

Effect – A lack of issuing prenumbered receipts for all collections can result in unrecorded transactions, undetected errors and opportunity for misappropriation.

Recommendation – Prenumbered receipts should be issued for all collections.

Response – Receipts are being given for canoe rentals. Everything else a receipt is being given. These are not prenumbered receipts.

Conclusion – Response acknowledge. Prenumbered receipts should be issued for all collections.

(G) Accounting Procedures Manuals

Criteria – Accounting policies and procedures manuals provide the following benefits:

- (1) Aid in training additional or replacement staff.
- (2) Help achieve uniformity in accounting and in the application of policies and procedures.
- (3) Save supervisory time by recording decisions so they will not have to be made each time the same, or a similar, situation arises.

Condition – The Treasurer’s Office and the Sheriff’s Office have not developed accounting policies and procedures manuals.

Cause – The development of accounting policies and procedures manuals has not been prioritized by the County Treasurer’s Office and the Sheriff’s Office.

Effect – Lack of an accounting policies and procedures manual could result in the County Treasurer’s Office and Sheriff’s Office lack of ability to continue operating effectively and efficiently in the event there is accounting staff turnover.

Recommendation – Office procedures and accounting manuals should be prepared for the Treasurer’s Office and Sheriff’s Office.

Decatur County
Schedule of Findings
Year ended June 30, 2020

Responses –

(a) Treasurer – We have a manual created by our software vendor. We will work to prepare a manual for specific modifications or specific procedures we do within the office.

(b) Sheriff – We will look into making procedural manuals.

Conclusion – Response accepted.

(H) Computer System

Criteria – Properly designed policies and procedures pertaining to control activities over the County's computer system and implementation of the policies and procedures help provide reasonable assurance financial information is safeguarded and reliable and helps ensure compliance with applicable laws and regulations.

Condition – The County does not have a written policy for maintaining security upon termination of employment.

Cause – Management has not required written policies for maintaining security upon termination of employment.

Effect – Lack of written policies for maintaining security upon termination of employment could result in unauthorized access, a loss of data or compromised data, resulting in unreliable financial information.

Recommendation – The County should develop a written policy addressing maintaining security upon termination of employment in order to improve the County's control over its computer system.

Response – We will work to develop a written policy addressing this item.

Conclusion – Response accepted.

(I) Employee Evaluations

Criteria – An effective method to improve employee performance and address areas of improvement is through the annual performance evaluations in accordance with the County's personnel policies. The evaluation would document the employee's progress and work quality.

Condition – Annual employee performance evaluations are not performed.

Cause – Procedures have not been implemented to ensure timely employee performance evaluations.

Effect – Specific strengths and weaknesses to improve employee performance are not communicated to employees in a manner in which they can take action to improve their job performance.

Decatur County

Schedule of Findings

Year ended June 30, 2020

Recommendation – The County should perform annual employee performance evaluations as required by the County’s personnel policy.

Response – The County’s policy encourages department heads to evaluate the performance of each employee and provides a procedure for doing so. The Board will make a more concerted effort with the department heads.

Conclusion – Response accepted.

(J) Credit Cards

Criteria – Internal controls over safeguarding assets constitute a process, effective by an entity’s governing body, management and other personnel designed to provide reasonable assurance regarding prevention or timely detection of unauthorized transactions and safeguarding assets from error or misappropriation. Such processes include establishing policies addressing proper asset use and proper supporting documentation.

Condition – The County has credit cards for use by various employees while on County business. Per the County’s credit card policy, original receipts documenting charges are required for all purchases. For three Sheriff’s Office transactions of fifteen total transactions tested, an original itemized receipt was not submitted. In addition, sales tax was paid for four Sheriff’s Office, one Public Health Department, and one Conservation Board credit card transaction tested.

Cause – County staff are not consistently following the credit card policy.

Effect – The use of credit cards and lack of original, itemized receipts to support all charges could result in unauthorized and unsupported transactions and the opportunity for misappropriation. The County paid sales tax on certain goods and services purchased by the County.

Recommendation – The County’s credit card policy should be followed which requires original itemized receipts be received and maintained for all credit card charges. The County should ensure sales tax is not paid on purchases.

Response – The County will remind departments of the importance of providing the original itemized receipts for all credit card purchases and encourage them to establish a tax-exempt account with the vendor whenever possible.

Sheriff – We will receive and maintain receipts and ensure sales tax isn’t paid whenever possible.

Conclusion – Response accepted.

Decatur County

Schedule of Findings

Year ended June 30, 2020

(K) County Engineer Inventory

Criteria – An effective internal control system provides for internal controls related to ensuring proper accounting for all consumable inventory items by maintaining appropriate accounting records and ensuring the records are reviewed by an independent person.

Condition – The County Engineer is not maintaining complete and accurate inventory listings. In addition, a count of all inventory on hand at year end was not performed.

Cause – Procedures have not been designed and implemented to ensure inventory listings are maintained to allow for independent review of the inventory.

Effect – When inventory is not adequately monitored and inadequate segregation of duties exist, the opportunity for misappropriation and undetected errors can result.

Recommendation – The County Engineer should establish procedures to ensure accurate and up to date inventory listings are maintained and reviewed by an independent person timely.

Response – Procedures have been put in place for all items to be counted and costs figured accurately. These will be in an appropriate amount of time prior to inventory audit taking place.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

Decatur County
 Schedule of Findings
 Year ended June 30, 2020

Other Findings Related to Required Statutory Reporting:

- (1) Certified Budget – Disbursements during the year ended June 30, 2020 did not exceed the amounts budgeted by function.
- (2) Questionable Expenditures – No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.
- (3) Travel Expense – No expenditures of County money for travel expenses of spouses of County officials or employees were noted.
- (4) Business Transactions – Business transactions between the County and County officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Justin Cornett, County Assessor, Brother owns Carquest of Lamoni	Auto parts and supplies	\$ 4,968
Mike Jensen, Secondary Roads Employee, Brother owns AK Garage	Tires/repairs for Secondary Roads	1,627
Jim Fulton, County Supervisor, Owns Fulton Electric	Electric work	1,101
Jared Jackson, Secondary Roads Employee, Father owns Bob Jackson Trucking	Rock hauling for Conservation Department	772

The transactions do not appear to represent conflicts of interest in accordance with Chapter 331.342(2)(j) of the Code of Iowa since total transactions with each individual did not exceed \$6,000 during the fiscal year.

- (5) Restricted Donor Activity – No transactions were noted between the County, County officials, County employees and restricted donors in compliance with Chapter 68B of the Code of Iowa.
- (6) Bond Coverage – Surety bond coverage of County officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.
- (7) Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- (8) Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the County’s investment policy were noted.
- (9) Revenue Bonds – No instances of non-compliance with the revenue bond resolutions were noted.

Decatur County

Schedule of Findings

Year ended June 30, 2020

- (10) Resource Enhancement and Protection Certification – The County properly dedicated property tax revenue to conservation purposes as required by Chapter 455A.19(1)(b) of the Code of Iowa in order to receive the additional REAP funds allocated in accordance with subsections (b)(2) and (b)(3).
- (11) Electronic Check Retention – Chapter 554D.114 of the Code of Iowa allows the County to retain cancelled checks in an electronic format and requires retention in this manner to include an image of both the front and back of each cancelled check. The image of the back of each cancelled check was not obtained by the County Sheriff.

Recommendation – The County Sheriff should obtain and retain an image of the front and back of each cancelled check from the bank, as required.

Response – We will obtain and retain the front and back image of each cancelled check.

Conclusion – Response accepted.
