The Honorable Thomas J. Vilsack Governor State Capitol Building Des Moines, IA 50319

The Honorable Members lowa General Assembly State Capitol Building Des Moines, IA 50319

Dear Governor Vilsack and Members of the Iowa General Assembly:

On behalf of my colleagues at the Department of Revenue, I am pleased to submit to you the department's Fiscal Year 2004 Annual Report. Our agency's mission is to serve Iowans and provide value for their money. I believe this report confirms that mission was accomplished.

While our staff takes pride in receiving several national awards, in achieving past objectives, and in again leading the United States in electronic filing of income tax returns, we are even more excited about the future. New initiatives related to business e-filing, participation in national projects, and even greater attention to serving lowa taxpayers will be hallmarks of the year ahead. Thank you for the opportunity to pursue that agenda and to serve our state.

Sincerely,

Michael Ralston

Director

FY 04 Property Tax Levied By Type of Taxing Authority

### LOCAL GOVERNMENT SERVICES FISCAL YEAR 2004 **ASSISTANCE PROGRAMS**

### **Iowa Ag Land Credit**

FY 04 Payment: \$24,536,948.00

**Description:** Credit established to partially offset the school tax burden borne by agricultural real estate. Current law allows a credit for any general school fund tax in excess of \$5.40 per \$1,000 of assessed value.

Eligibility: All land used for agricultural or horticultural purposes in tracts of 10 acres or more and land of less than 10 acres if contiguous to qualifying land of 10 acres or more.

Filing Requirements: Land owners are not required to file a claim. The county auditor determines the amount of credit applicable to each tract of land.

## **Iowa Computers and Industrial Machinery and Equipment Special Valuation**

FY 04 Payment: \$11,027,842.00

**Description:** Computers and industrial machinery and equipment acquired after 12/31/93 are exempt from tax. If acquired prior to 1/1/94 assessed at 14% of acquisition cost in 2000, 6% in 2001, and 0% in 2002 and thereafter.

Eligibility: Special valuation applies to all computers but only machinery and equipment classified as industrial real estate.

Filing Requirements: Owners of industrial machinery and equipment are required to file a report with the assessor by February 15 of each year; computer owners by April 15.

### SUPPLEMENTAL REPORTS FISCAL YEAR 2004

Published in accordance with Iowa Code section 422.75(28)

### Tax Gap Program

The Tax Gap Program is a department initiative to improve tax compliance through advanced utilization of technology. The Tax Gap Program consists of four major components: Enterprise Data Warehouse (EDW), Business Intelligence, Web-based Audit Component application, and a number of automated interface programs.

During FY04, additional internal and external source system data files were loaded to the EDW to support and enhance match programs and provide the business users with needed information to assist and improve compliance processes. The EDW model contains over 3,800 data elements from 15 distinct source systems.

Through the implementation of Business Intelligence tools, more than 80 unique reports have been created and published. Value-added reports were deployed to the business users to provide them with the data they need to support audit activities and improve administrative processes. A number of management and analysis reports were also deployed to support a variety of measurements and answer key business questions.

The department continues development and enhancement on the Web-based Audit Component application. This application supports the tracking, performance, and reporting of all audit and examination activities and results. Additional interface programs were implemented to further automate the movement of audit results into our Integrated Revenue Information System.

The Tax Gap Program successfully recognized collections totally \$10.7 million during FY04, with total program revenues to date amounting to \$40.3 million.

## Report on Information System Activity

Integrated Revenue Information System (IRIS)

The department continued to enhance the capabilities of its integrated information system for tax return processing and registration activities. Improvements have occurred in the registration functions to automate the interface between the department's Web-based tax registration module and the centralized registration component.

In addition, the department completed the design and initiated development of the withholding tax component, which will be the final major tax application for the integrated system. Integration of withholding tax into IRIS will provide increased efficiency in tax processing and enhance the effectiveness of the department's Business eFile applications to be deployed in 2005.

#### Tax Gap

The department continued to dedicate significant technical resources to the support of the Tax Gap Program with additional data extracts to send and receive data from the department data warehouse. In addition, critical components of the Tax Gap technology platform were upgraded.

#### E-Service Delivery

Electronic delivery of services continues to be a cornerstone of the department's success. During the tax year 2003 filing season, completed in FY04, Iowa once again led the nation in the percentage of income tax returns filed electronically. The 60 percent participation in the income tax e-file program reflects an 8 percent growth in participation.

The department committed to initiate the Business Tax eFile program and began planning and development. A business partner was identified and planning began for the applications which will allow withholding agents, and sales, use and motor vehicle tax filers to file and pay their taxes electronically in FY05.

#### **Compliance Report**

Fiscal Year 2004 was the first year in many years where additional resources were provided to improve our compliance efforts. Through an additional appropriation, 10 auditors were hired, trained and assigned field audits throughout the state. In FY04, these auditors produced almost \$600,000 in additional collections, even though much of the year was spent in training. Goals for future years include more than \$2 million in collections per year.

The department was granted Charter Agency status, which allowed the hiring of five additional examiners. Corporate refunds were processed faster, thereby saving the payment of interest to taxpayers. In addition, the examiners worked additional examination programs for individual income tax. For FY04, the goal was to generate \$1 million in revenue and interest savings. Actual collections and interest savings totaled more than \$1.3 million for FY04.

Our primary focus for compliance still lies with educating and providing service to the taxpayers of Iowa. It is our belief that Iowans will voluntarily comply if they are equipped with the proper knowledge and information to accurately determine their tax obligations.

Customers have more access to information through 24/7 self-help options, which ultimately free employees to be more responsive to customers with more difficult questions or issues.

In Taxpayer Services, department personnel responded to 110,000 phone calls, a 19 percent decrease from last year. The busy signal rate was eliminated by adding a queue option. More than 9,000 people attended educational presentations by department staff. In addition, staff responded to 20,000 e-mails, compared to 18,000 from last year, a 13 percent increase.

With the development and implementation of an enterprise data warehousing system, the department has been able to improve its detection of noncompliance in all tax areas. Compliance programs range from discovering non-filers for individual and corporate income tax to auditing large multi-state corporations doing business in Iowa for corporate income and sales and use taxes. Our primary emphasis has been detecting non-filers.

These programs generated a total of \$81.8 million in collections and refund reductions. Of this, office examination programs generated \$30.6 million in collections. In-state field auditing of Iowa businesses generated \$4.9 million in collections, and out-of-state auditing of multi-state businesses generated \$4.5 million in collections. The department's Tax Gap project generated \$10.7 million in collections from data warehousing technology. The balance is a reduction in refunds claimed as a result of an office exam or field audit.

#### Individual Income Tax Abatements — Calendar 2003

The director of the Department of Revenue is provided with the statutory authority "to abate any portion of tax, interest or penalties which he determines are excessive in amount, or erroneously or illegally assessed." Abatements apply to those cases in which the initial protest occurs after the 60-day appeal period has expired and in which the taxpayer produces records substantiating the claim to reduced tax liability.

The table below summarizes the individual income tax abatements allowed in calendar 2003:

Number of Returns	Тах	Penalty (includes fees)	Interest	Total Amounts
2,479	\$6,620,363.61	\$587,613.65	\$2,038,117.75	\$9,426,095.01

#### HISTORY OF IOWA TAX RATES

The first major state tax in Iowa was created in 1921 when the state passed a 2¢ per package tax on cigarettes. In 1934 the sales and income taxes were created as property tax relief measures. Since that time several significant changes have occurred, both in the tax base and in the tax rates of Iowa's major revenue sources.

While certain changes in a particular tax base may be of equal or greater importance than changes in the tax rate, the history of the key developments in a particular tax may often be identified through an examination of tax rate changes. Additional information regarding these changes may be obtained by contacting the Tax Research and Program Analysis Section of the Director's Office.
