RE: FY 2009 Affirmative Action Report

In accordance with 19B.5 of the *Code of Iowa*, I am pleased to submit the fiscal year 2009 *Diversity and Affirmative Action in Iowa* report. In this report, we measure progress we have made to balance our workforce in FY 2009, and provide updates on our diversity related plans, initiatives, and program changes for FY 2010.

The Department of Administrative Services (DAS) continues to engage the expertise of the Diversity Council, created under Executive Order Four in October of 2007, to strengthen our programs. An update of the activities and progress of the Diversity Council, DAS, and individual departments in the areas of recruitment, retention, hiring practices, and training are included in this report.

In 2009, and in collaboration with the Iowa Department of Management and Department of Natural Resources, DAS implemented a workforce planning process. DAS then determined that affirmative action would be better served by incorporating it into the overall human resource planning process. As a result, the workforce planning initiative for FY 2010 was modified to include affirmative action and diversity. I believe that this will provide the departments and DAS a more holistic approach to human resource

management, will enhance longer range planning, and will improve efficiency by eliminating the inherent redundancy between workforce planning and diversity.

DAS will continue to monitor workforce composition trends in state government and collaborate with the Diversity Council and the departments to find improved methods to recruit and retain a diverse workforce to serve the citizens of Iowa.

Thank you for your attention to this report and your support of our diversity programs.

EXECUTIVE SUMMARY

OVERVIEW

This report documents the progress of the executive branch of Iowa state government in the areas of diversity and affirmative action in employment. While the State has had an affirmative action program since 1986, the focus is shifting toward a more comprehensive view of diversity in order to create a richer and more welcoming workplace. To that end, Governor Chester J. Culver initiated Executive Order Four (EO4) in October of 2007. The goal of EO4 is to achieve and maintain a diverse workforce in state government. In FY 2009, EO4 remained an important driving force for diversity related issues.

New this year, each department's diversity and affirmative action information contained in this report was also required for the State's workforce planning process. Because of the change in the reporting process, some departments submitted full workforce plans and others submitted the required excerpts from the workforce planning template for diversity and affirmative action. We expect full workforce plans from all departments in FY 2010.

Affirmative Action is a system of measurement (workforce composition) and action (methods and activities designed to balance the workforce composition with the available labor force). For the State of Iowa as an employer, this is measured in three identified protected class categories:

- Females
- Minorities
- Persons with Disabilities

There are other protected classes under the law, such as age and sexual orientation, but the State's affirmative action program was designed to specifically address underutilization of females, minorities, and persons with disabilities.

The State's affirmative action program was designed to eliminate imbalances, or underutilization, in the specific occupational areas and departments where the imbalance reaches a significant statistical threshold. While this remains one focus, the State also desires to increase overall diversity in the workforce. Constant changes in demographics, the growth of multiracial segments of the population, and the lack of current and accurate available labor pool data create new challenges for the affirmative action approach. Therefore, the State monitors both underutilization and the overall composition of the workforce. While underutilization remains in some occupational areas and departments, the overall diversity of minorities in the state workforce continues to gradually increase. In FY 2005, the State employed 977 minorities and at the end of FY 2009, it employed 1,194 minorities, an increase of 217 in four years.

Executive Summary

A major challenge is hiring and retaining persons with disabilities. A broad range of disabilities, both in type and severity, can affect any individual and job candidates may be reluctant to self report their condition. The State continues to lose persons who have reported having a disability. In addition, it is also difficult to set goals in this area because data is lacking as to what EEO job categories might be underutilized.

ORGANIZATION OF REPORT

Section I.

Section I of this report provides an overview of the composition of the executive branch workforce in the areas discussed above, both statewide and by each agency. This is further broken down by EEO categories which provide a way of standardizing executive branch job classes into groups. These can be used to compare the executive branch with the available labor pool in Iowa.

The following chart shows the overall composition of the state workforce as of the end of FY 2009 compared to end of FY 2008, and compares the state workforce to the available labor force in Iowa:

TOTAL WORKFORCE

TOTALS	20,882	20,560	322			

Although the State's affirmative action plan does not break minorities into sub-groups, this data is presented for general information.

The State uses census data to establish the available labor force in Iowa. Due to the growth of the various minority populations in Iowa, a projection of the 2000 Census based on this growth suggests that the available labor force in Iowa may be closer to 8.5%. The following chart shows the 2000 Census data projected forward by the rate of population growth:

Executive Summary

Minority Category	2000 Census Iowa Labor Force	Projected Iowa Labor Force 2007
African American	1.60%	2.00%
Asian and Hawaiian Pacific Islander	1.20%	1.50%
Native American	0.40%	0.50%
Latino	2.30%	3.50%
Two or more Races	0.50%	1.00%
Total Minority	6.03%	8.50%

The State is making steady progress in the area of minority hiring, with an increase of 16 in FY 2009 to a total of 5.73% of the workforce. In mid-fiscal year 2009, a partial hiring freeze was implemented in the executive branch of state government. In addition, many departments voluntarily did not fill positions. Despite this, minorities in state government remain above the available labor force for Officials/Administrators and Professionals, and are approaching balance in the Technician category.

Increasing the number of persons with disabilities remains important. According to the 2000 Census, persons with disabilities are 11.8% of the available workforce in Iowa, yet they are at 5.51% of the State's workforce. One initiative for FY 2010 will be to survey the State's workforce to re-evaluate the composition of the workforce for persons with disabilities, and obtain some insight into the issues unique to this group, such as reluctance to report disability status, understanding reasonable accommodations, and perceptions of what constitutes a disability. This information will be used for ongoing planning purposes.

For females, the issues are different, because females are well represented in the overall workforce, at 51.15% compared to 47.4% in the available labor force. However, they chronically lag in specific occupational areas, such as engineering and some areas of management.

Section I also summarizes underutilization data statewide and for each department. When the workforce is out of balance with the available labor force in a job category, this is referred to as underutilization. If the imbalance meets the affirmative action plan's statistical threshold for preferential underutilization, the affected departments must put plans and goals in place to increase the representation of the identified protected classes. Non-preferential underutilization exists when the workforce is out of balance, but not to a level that requires a hiring goal be established. Departments are aware of preferential and non-preferential underutilized job classes through the quarterly underutilization class lists issued by DAS.

Section II.

Section II of this report summarizes department data, plans, and progress for each individual department.

Department Plans and Progress

FY 2009 Qualitative Plan Results Reported by the Department

Each department provided a report of their progress toward fulfilling their FY 2009 Diversity Plan as reported at the beginning of the fiscal year. The amount of detail and content varied according to their size and levels of underutilization. Some departments placed more emphasis on certain areas, such as recruitment, while others demonstrated a focus on internal process and procedure.

FY 2010 Diversity and Affirmative Action Plans

Departments also submitted their plans for increasing diversity and reducing underutilization for FY 2010. Again, those plans varied by their level of underutilization, size of the department, and their overall approach to diversity issues.

The individual departments have the responsibility for hiring and their plans must meet their individual business needs.

Section III.

Section III of this report details the plans and accomplishments of the Department of Administrative Services (DAS). DAS has special responsibilities under the Iowa Code

Executive Summary

and Executive Order Four. These responsibilities generally fall into the following categories:

- Job vacancy posting, application intake and evaluation and referral of eligible candidates to the departments
- Hiring practices reviews
- Promote diversity in the executive branch of state government.
- Affirmative action program administration
- Statewide recruitment
- Statewide diversity

Diversity Training has been a major focus for DAS. Impressive progress was made in the delivery of statewide diversity training for all executive branch employees as required by EO4. Since June 2008, over 750 training sessions for all employees have been completed to assure that they have current and consistent diversity information. A total of 86 full-day diversity training sessions for managers and supervisors also have been completed since June of 2008. A summary of all training offered and departmental participation is presented in Section III.

Another major effort mandated by EO4 has been the initiation of hiring practice reviews to assure that each department is using a fair and well-documented hiring process. EO4 required that in February 2008 the departments submit to DAS information about their hiring practices. After reviewing the written materials in September 2008, DAS began meeting with departments to ask questions about their submissions, learn about any creative best practices they may be using, and review information relating to specific vacancies sampled from the DAS applicant tracking system.

Specifically, this hands-on review is being done to clarify how reported procedures are used in practice, and to develop individual action plans for each department. To-date two action plans have been completed and eight other departments are in varying stages of review. Ultimately, the findings of these reviews will be presented to the Diversity Council, and any resulting recommendations of the Diversity Council will be submitted to the Governor. All departments covered by EO4 will be subject to this review process.

Program Plans and Challenges for FY 2010

Section III also provides DAS initiatives for FY 2010. DAS will:

- Seek alternative labor force data to establish more current and accurate sources of information about the relevant labor force.
- Continue with hiring practice reviews and identify areas of needed improvement for the departments and for DAS to develop resources to assist the departments.

Executive Summary

- Continue to provide and develop new training opportunities for managers, supervisors, and employees to strengthen organizational competency in the areas of hiring and diversity.
- Continue to work with departments to strengthen their recruitment and retention programs.
- Report regularly to departments on their hiring progress and their success in retaining employees.
- Continue to provide support for the Diversity Council and its activities. For a more complete summary of activities relating to EO4 and the Diversity Council, please go to: http://das.hre.iowa.gov/hre_diversity_council.html.

SECTION 1

FY 2009 NUMERIC MEASURES , GOALS, AND RESULTS

CHANGES IN THE STATE'S WORKFORCE

Affirmative Action is based on a comparison between Iowa state government's workforce and the available qualified labor pool in Iowa. The chart on page 8 provides an executive branch overview of the makeup of the state workforce in relation to the available labor pool based on census data from 2000.

This chart also compares specific job categories, known as EEO-4 categories, determined by the Equal Employment Opportunity Commission (EEOC). Public entities report to the EEOC on the following EEO-4 categories:

- Official/Administrator
- Professional
- Technician
- Protective Services
- Administrative Support
- Skilled Craft
- Service/Maintenance

All State of Iowa job titles are placed into one of these categories. We also have used this chart to show the net changes in the State's workforce from the end of FY 2008 to the end of FY 2009.

OVERALL RESULTS

- Females in the State's workforce increased by 306 during FY 2009, and their representation in the workforce changed from 51.15% to 51.64%. This exceeds their representation of 47.40% of the available labor force. However, areas of underutilization continue to exist. Some of the areas include Protective Services and Skilled Craft services positions.
- Minorities in the State's workforce increased by 16 during FY 2009 and their representation in the workforce changed from 5.74% to 5.73%, compared to 6.03% in the available labor force. Overall, minority underutilization exists in the Technician, Protective Service, Skilled Craft and Service Maintenance job categories. We are particularly pleased that minorities in state government remain above the available labor force for Officials/Administrators and Professionals, and are approaching balance in the Technician category.
- Persons with disabilities increased by 14 during FY 2009, going from 5.53% to 5.51% of the State's workforce. Persons with disabilities represent 11.8% of the available labor force, based on the 2000 U.S. Census.

Section I.

State Executive Branch underutilization change from FY 2008 to FY 2009

The charts beginning on page 13 summarize the changes in total underutilization (preferential and non-preferential combined) from the beginning of FY 2009 to the end of FY 2009 for females, minorities, and persons with disabilities. The fourth chart summarizes the preferential portion of total underutilization at the end of FY 2009.

Chart 1 – Female BOFY 2009 Underutilization, Net Change, and EOFY2009 Underutilization

Chart 2 – Minority BOFY 2009 Underutilization, Net Change, and EOFY2009 Underutilization

Chart 3 – Persons with Disabilities BOFY 2009 Underutilization, Net Change, and EOFY2009 Underutilization

Preferential Underutilization means that underutilization exists and meets the statistical standard necessary to set numerical hiring goals. When vacancies occur in preferentially underutilized job classes, protected class members are identified on the list of eligible candidates sent to the hiring department.

Non-preferential underutilization means that the underutilization does not meet the statistical standard necessary to set numerical hiring goals, but that methods and activities should be used to attract protected classes to apply for vacancies in that category.

The net change column shows the increase (+) or decrease (-) of protected class members. A gain in protected class members will reduce the end of FY 2009 underutilization, while a loss in protected class members will raise the end of FY 2009 underutilization.

Persons with disabilities underutilization is calculated by comparing the percentage of persons with disabilities in the department with a goal of 11.8%, which represents the number of persons with disabilities in the Iowa available labor force. Unlike female and minority underutilization, data is not available by standardized job categories. Departments remain underutilized for persons with disabilities until they reach 11.8% of their workforce.

The end of FY 2009 preferential underutilization data is used by the departments to set hiring goals. This data is used in Section II and appears in Chart 3, broken down by EEO category.

Section I.

Seven departments have fewer than 25 employees. It is not feasible to calculate underutilization for these departments, and they are absent from the underutilization charts. The seven departments include:

- Commerce – Credit Union Division
- Office of Drug Policy
- Office of Energy Independence
- Ethics and Campaign Disclosure
- Board of Parole
- Public Employee Relations Board
- Treasurer's Office

These departments are included in the department summaries in Section II. They must establish non-numerical methods and activities (qualitative measures) to assure non-discriminatory hiring practices and create a welcoming workplace.

SECTION II.

DEPARTMENTS' FY 2009 PROGRESS AND FY 2010 PLANS

This section is devoted to reporting each department's progress and goals from the numerical perspective (quantitative), and plans to address underutilization as outlined in their FY 2009 Diversity Plans.

To better navigate the report and to assist with interpreting the tables, note the following abbreviations:

BA	Balanced
BOFY	Beginning of Fiscal Year
D	Disability
EOFY	End of Fiscal Year
F	Female
FY	Fiscal Year
Mn	Minority
NA	Not Applicable
PN	Preferential Underutilization
NP	Non-Preferential Underutilization
T	Total

Values for Persons with Disabilities are reported by department and not by EEO category to protect the identity of the individual.

Each department's charts and plans are organized as follows:

DEPARTMENT DIVERSITY STATEMENT

Each department's diversity statement is included in the state diversity plan. This statement was taken from each department's Diversity Plan for FY 2009, and was in response to the statement, "Improving diversity will help us advance our long-term strategic objectives and business goals in the following manner:"

FY 2009 WORKFORCE CHANGES

This section contains the net staffing changes that occurred during fiscal year 2009. It details the composition of each department's workforce by female, minority and disability status at the end of fiscal years 2008 and 2009. The net change is calculated by subtracting the end of FY 2008 workforce counts from FY 2009. The result shows each department's staffing changes by EEO-4 category for female, minority, and persons with disabilities during FY 2009.

Section II.

FY 2009 UNDERUTILIZATION CHANGES AND REMAINING UNDERUTILIZATION

This section summarizes the remaining underutilization at the beginning of FY 2009, the net change during FY 2009, and the remaining underutilization at the end of FY 2009 for each of the EEO job categories used by the State (Note that EEO category 5 is not used).

In the threshold columns, each EEO category will show a threshold label for females and minorities as one of the following:

- PN Preferential Underutilization
- NP Non-Preferential Underutilization
- BA Balanced
- NA Not Applicable – Job categories within that EEO category do not exist in that particular department.

For persons with disabilities, underutilization is not calculated by EEO category; it is calculated by the total department.

FY 2010 HIRING GOALS FOR TARGETED UNDERUTILIZED JOB CLASSES

This section reflects each department's plan to correct preferential underutilization (PN) based on potential hiring opportunities in FY 2010, and also lists those job classes most likely to present opportunities to hire in FY 2010. When one of the job classes listed on this chart are posted for recruitment, eligible underutilized protected class applicants who have met the minimum qualifications for the job class are identified on the list of eligible candidates that is provided to the hiring department. The hiring department is then aware of the availability (or lack of) underutilized class members eligible for hire.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

This section contains the plans presented for FY 2009 to increase diversity and eliminate underutilization and the results of those plans in one or more of the following categories:

- Hiring Practices
- Recruitment
- Retention
- Training
- General Programs to Promote Diversity

Section II.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

This section contains each department's plan for FY 2010. The main topics for the FY 2010 plan include:

- Diversity
- Affirmative Action
- Hiring and Retention

A good deal of variation will be noted in the amount of information submitted from department to department. Departments with little or no underutilization tended to be brief and policy oriented as opposed to action and process oriented. These differences are also a result in the change in format for the Workforce Plan and diversity reporting documents.

DEPARTMENT DIVERSITY STATEMENT

The Auditor of State (AOS) did not submit a diversity statement.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

While AOS is not experiencing any preferential underutilization, it has reported a number of initiatives for maintaining a diverse workforce:

- Maintains a contact at Iowa State University (ISU) for minority students in the career office, and posts vacancies on the ISU web site. AOS also attends the “Meet the Firm” night at ISU. AOS plans to expand this program to the University of Northern Iowa, the University of Iowa, and other colleges. AOS recruits at 26 colleges in and around Iowa. AOS will focus on colleges that offer a Bachelor’s or Master’s Degree in accounting.
- Has a mentoring program for beginning level auditors as they develop their skills.
- Reviews exit evaluations to assess reasons for staff separations. There has been no indication that minority separations differ from the reasons provided by other separations.
- Places an emphasis conducting non-discriminatory interviews.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

AOS plans to continue in FY 2010 with the strategies and practices detailed above.

DEPARTMENT DIVERSITY STATEMENT

Improving diversity will advance the Department's goals and objectives by modeling the capabilities of persons who are blind or fit other diversity profiles and reverse public attitudes about the ability of the Department's clients to compete equally with their sighted peers.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan: Although DOB has no underutilization for females, minorities, or persons with disabilities, the hiring strategy will be modified to include the distribution of job vacancy announcements to more diverse populations.

FY 2009 Progress: The department experienced less hiring activity than normal due to budget restrictions. DOB did utilize the DAS recruitment coordinator, Department of Human Rights, and disability-specific consumer groups when vacancies did occur. Department management also seeks input from hiring managers about the diversity of the applicant pool in order to gain information about recruitment.

2. Recruitment

FY 2009 Plan: No specific efforts are needed apart from a general effort to widen recruitment to more diverse populations. Hiring opportunities for FY 2009 may be very limited.

FY 2009 Progress: The department was recently successful in recruiting one minority class member and two persons with a disability. All three accepted job offers.

3. Retention

FY 2009 Plan: DOB conducts exit interviews. Employee turnover is reported to the members of the Commission for the Blind as a routine part of keeping commissioners informed regarding department operations.

FY 2009 Progress: In April 2009, the DOB conducted a new staff orientation seminar for recently hired employees to orient them to the mission, values, and culture of DOB. Feedback from participants has been positive.

4. Training

FY 2009 Plan: DOB will encourage employees to avail themselves of training opportunities such as DAS and related certificate programs. DOB will circulate notices of training events. DOB uses grant money when possible. Non-visual

Section II.

accessibility of technology is an absolute must at DOB for both its employees and its clients.

FY 2009 Progress: All department staff participated in diversity training efforts in FY 2009.

FY 2010 DEPARTMENT DIVERSITY AND AFFIRMATIVE ACTION PLANS

DOB is not underutilized for females, minorities, or persons with disabilities. However, the following plans are in place for FY 2010:

- Promote Diversity – All new employees will be scheduled for the DAS diversity training session.
- Monitor Workforce Composition – DOB will monitor the composition of the workforce.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

FY 2009 Plan:

The Commission has no underutilization. It is committed to affirmative action in Iowa state government. As such, it will continue to recruit proactively. In addition, it will maintain a diverse workforce by stressing factors that support retention, such as valuing diversity and respect for all employees.

- The Commission will make itself visible in protected class communities through advertising and participation in diversity and civil rights events and, as a result, build a strong foundation for recruitment and retention of protected class members.
- Continue to advertise in the Iowa Bystander and English and Spanish-language media.
- Participate at informational booths at cultural events and the Iowa State Fair.
- Continue to collaborate with the City of Des Moines on their annual symposium.

FY 2009 Progress:

- In addition to the plan items listed, the head of the ICRC education and outreach unit has developed an extensive e-mail list to interested parties and stakeholder groups.
- ICRC also participates in campus career fairs/career days.
- ICRC has built upon relationships started during internships.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

Internally, ICRC will continue with the recruitment and hiring related plan submitted for FY 2009.

In addition, the ICRC Director is a member of the Diversity Council. This unique relationship will allow the ICRC to contribute to the improvement of statewide executive branch hiring practices and plans for the State of Iowa as an employer as detailed in Executive Order Four. The ICRC Director plans to continue in this role in FY 2010.

DEPARTMENT DIVERSITY STATEMENT/POLICY

Among the Commission's 10 long term objectives are five objectives that require a diverse work team. These objectives can be met only if a diverse group of employees work together to ensure that the needs of the Commission's constituents are being met. Diversity is essential given the growing diversity of Iowa's K-12 and postsecondary student population. A diverse workforce consists of individuals of different age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion, or disability. The life experiences and viewpoints of a diverse workforce will assist the Commission in understanding the needs of Iowa's students and their families as Iowa's population becomes more diverse.

It is the policy of the Iowa College Student Aid Commission to promote and ensure equal employment opportunity for all persons regardless of race, color, gender, national origin, religion, age, disability, or sexual orientation.

Equal employment opportunity principles and the need for a diverse workforce will govern all aspects of the Iowa College Student Aid Commission's personnel policies, program practices, and operations. All phases of employment, including recruitment, hiring, evaluation, promotion, transfer, assignment, training, benefits, and separation shall be conducted in compliance with equal employment opportunity laws, regulations, and in the spirit of creating a welcoming and diverse workplace.

The result of the Commission's policy was the hiring of 8 highly diverse individuals. The Commission currently has no areas of underutilization on the "Job Class Underutilization List".

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

FY 2009 plans:

- The Commission will work closely with the Iowa Department of Administrative Services to ensure that recruitment efforts are formalized.
- The Commission has a staff member serving on the Statewide Ambassador Program planning committee. The Commission will continue to work with the Committee and volunteer to work when statewide recruiting initiatives are undertaken.
- During FY 2009, the Commission will continue to post all job announcements on the Brass Ring system and rely upon the system to collect applications from eligible candidates. To enhance postings to the Brass Ring, the Commission will place notices in local newspapers for all management and critical staff positions. Managers and key staff members also will be aware of upcoming vacancies and will actively seek out qualified candidates and discuss vacancies with them.

Section II.

- The Commission will solicit and recruit a diverse population to work with a federal grant. This grant will assist low-income/underserved students and their families. Staff will be on board on or before January 1, 2009.
- The Commissions will continue diversity training for all staff throughout FY 2009.

FY 2009 Progress:

- The Commission has worked with its assigned DAS Personnel Officer to ensure that recruitment guidelines are properly followed.
- The Commission's staff continues to work with the recruitment committee to ensure that the Commission is aware of statewide recruiting efforts and will participate in recruiting fairs as requested.
- All job announcements are posted on Brass Ring and in newspapers when appropriate. Managers and key staff are always aware of vacancies and participate in recruiting efforts.
- A diverse group was hired to work with our federal grant. However, the Commission was unable to recruit and hire an ethnically diverse group.
- All managers and supervisors have participated in diversity training. All staff is being scheduled for training provided by the DAS.

FY 2010 DEPARTMENT DIVERSITY AND AFFIRMATIVE ACTION PLANS

The Commission will continue with the plans and methods detailed in the FY 2009 plan.

DEPARTMENT DIVERSITY STATEMENT

The Iowa Alcoholic Beverages Division's stated mission is to select the most qualified employees to fill agency vacancies.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plans:

- Expand managerial staff assigned or otherwise allocated to the recruitment function to include front-line managers directly responsible for supervising the position in question.
- Centralize the recruitment and selection function within the personnel support section of the organization to ensure compliance with the Governor's Executive Order Four, the State's EEO/AA Policy and other state policies and rules governing the hiring process.

FY 2009 Progress:

- The recruitment and selection process was centralized within the Division's Support Bureau.
- Standardization was introduced into the screening, interview and selection process for high turn-over classifications, including Transport Driver and Warehouse Operations Worker.
- The Division collaborated with DAS to access a bank of interview questions designed to measure key competencies and traits for use in the standardized question list utilized in the interview process.
- The skill set derived from the DAS Diversity Training for Managers and line managers was brought into the screening and selection process, increasing buy-in at all levels of management.

2. Recruitment

FY 2009 Advertising Plan:

- Expand advertising of vacancies beyond the DAS website. Advertise vacancies in trade publications and local newspapers to reach a wider candidate pool.
- Work with DAS to participate in job fairs targeted towards industrial occupations, the work section in which the Division experiences the most employee turnover. Leverage placement resources available through the community college and higher education networks to recruit qualified candidates for vacancies requiring specific qualifications or training.

Section II.

FY 2009 Advertising Progress:

- Advertising included the statewide edition of the Des Moines Register and careerbuilder.com in order to reach a wider and more diverse pool of qualified candidates. The practice has resulted in higher volume and greater diversity in terms of experience and background among qualified candidates.
- The Division collaborated with the DAS Recruitment Coordinator, with limited success, to fill a professional-level position in FY 2009. Moving forward, the Division would like to leverage DAS recruitment resources to target industrial sectors, where the Division experiences the most turn-over.
- The Division collaborated with the community and private college network to post vacancies free of charge on alumni and student placement web sites.

FY 2009 Passive Recruitment Plan:

Enhance the diversity of the applicant pool to recruit active and passive candidates (those not actively seeking employment) by expanding recruiting efforts into print and electronic media.

FY 2009 Passive Recruitment Progress:

Recruitment efforts have been expanded into print and electronic media, increasing the diversity and volume of the qualified applicant pool for vacant positions.

FY 2009 Temporary Employment Recruitment Plan:

The Division will leverage resources available via temporary employment services to identify potential candidates for permanent vacancies.

FY 2009 Temporary Employment Recruitment Progress:

Temporary employment services are typically utilized to fill a temporary vacancy or to augment staff during peak volume season. However, in FY 2009, the Division hired several temporary employees for permanent positions when the temporary employee exhibited outstanding work performance and a permanent position was vacated during or soon after the temporary employee's tenure with the Division.

Section II.

3. Retention

FY 2009 Plan:

Identify the job classes that present the greatest retention challenge and identify turnover factors.

FY 2009 Progress:

- Overall, the Iowa Alcoholic Beverages Division experiences very low turnover, with average employee tenure of 15.5 years. However, vacancies in the Transport Driver and Warehouse Operations Worker classifications turnover at a rate of approximately 1 – 2 per year, a rate comparable with the industry standard but rather high compared to the Division's average.
- As a result, the Division's new employee orientation process has been expanded to include on-boarding elements such as more dialogue with supervisors during the probationary period, on-going interpersonal communication/conflict resolution training offered both internally and through DAS, and mentoring with designated trainers.
- Time will tell whether the new process impacts employee turnover. However, the enhanced on-boarding effort appears to have improved employee performance and satisfaction as gathered through the annual performance evaluation period.

4. Training

FY 2009 Plan:

Ensure that all Division employees receive the appropriate diversity training as mandated by the Governor's Executive Order Number Four.

FY 2009 Progress:

To date, all managers and supervisors have received the Diversity Training for Managers and Supervisors offered in FY 2009 by DAS. Employees are scheduled to attend DAS-provisioned diversity training in August and September of 2009 (FY 2010).

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

FY '10 Hiring Goal for Persons with Disabilities

Due to the physical requirements included in the essential functions of approximately 30 of the 60 full-time positions, combined with the average 15.5 year employee tenure, improving underutilization of persons with disabilities is quite difficult. As a result, the FY 2010 Goal will be to work with DAS to enhance

Section II.

recruitment efforts associated with future vacancies not limited by physical requirements of the essential functions of the position.

Programs Supporting General Diversity

Item	Activity	Desired Outcome
a.	Continue to comply with diversity training mandates promulgated by the Governor's Office for managers and supervisors.	Ensure that managers and supervisors receive annual diversity training.
b.	Continue to comply with diversity training mandates promulgated by the Governor's Office for non-managers and non-supervisory positions.	Ensure that new hires receive appropriate diversity training within the first three months of permanent state employment.

Affirmative Action

Item	Activity	Desired Outcome
a.	In the event that an Investigator 3 vacancy is filled, work with DAS to target recruitment efforts towards the underutilized population.	On-going
b.	Work with DAS to expand recruitment efforts to persons with disabilities for those positions not limited by physical requirements included in the essential functions of the position.	Given the relatively long tenure of current workforce, the aforementioned goal and strategy will be on-going in nature.

Hiring and Retention

Item	Activity	Desired Outcome
a.	Where underutilization exists, work with DAS to target recruitment efforts towards the underutilized population.	On-going
c.	Enhance communication between direct supervisors and employees within the targeted classifications, focusing on employees in the first 6 months of state employment.	On-going
d.	Training on key job competencies for new hires and incumbents with needs are identified.	On-going
e.	Expand and institutionalize mentoring process for new hires.	January 1, 2010

DEPARTMENT DIVERSITY STATEMENT

DOB's efforts to grow a more diverse work force will enhance our ability to serve a citizenry that is changing in composition. Different perspectives add richness to our ability to communicate, problem solve and regulate equitably according to the intent and spirit of our mission.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan: DOB will:

- Continue to seek female protected class applicants.
- Continue to advertise through its website, which includes a presentation about the division, information regarding career opportunities as a Bank Examiner and the responsibilities and qualifications for this job class.
- IDOB will seek to balance the four regions within the state as to female and male labor force availability.
- Continue to encourage current employees to make recommendations for future candidates for the IDOB.

FY 2009 Progress:

- Lack of turnover in both the Professional Licensing and Bank Bureaus make hiring practice goals difficult to quantify as an annual goal. When openings occur it is our intent to seek the most qualified individual and conduct our search in such a way that all candidates will be welcome.
- Professional Licensing utilized the Brass Ring system for candidates while the Bank Bureau utilized a newspaper of general circulation in the metro area to recruit candidates.
- Candidates are selected and interviewed based on qualifications and skills with interviews conducted by members of Senior Management with input from others in the work team.

2. Recruitment

The hiring of minorities and other protected classes has historically been a challenge for the Banking Division. The anti-discrimination practices in place ensure interviews and hiring practices are based solely upon qualification. Diversity in the workplace is important to the Iowa DOB and recruitment efforts will be enhanced to assure DAS and DOM that applications are welcome from all individuals who make up Iowa's population.

Section II.

Minority candidates historically have been reluctant to accept employment opportunities based in rural communities, instead they were interested only in the metropolitan area of Des Moines, where very little turnover is experienced.

Given our average current tenure of 17+ years as a whole, it is unlikely with the current economy and hiring restrictions there will be many openings this fiscal year.

FY 2009 Plan:

Improve the recruitment process.

FY 2009 Progress:

- Bank Bureau staff attended recruiting fairs during the fiscal year even though we were not currently hiring. We continue to receive unsolicited applications via our website by those that are acquainted with our work and reputation. Those applications and resumes are acknowledged and kept on file for possible future contact.
- There was only one position filled in FY 09 in the Bank Bureau. This position was vacated when a female was promoted following the retirement of another female clerical employee. Recruitment was done via a newspaper of general circulation resulting in approximately 600 resumes being submitted for the one position. All qualifying candidates interviewed were female with none listing any disabilities requiring any special accommodations.
- The Professional Licensing Bureau made only one hire in fiscal year 2009. The Bureau utilizes Brass Ring for all of its hiring needs. For this particular Executive Officer position, there were a total of 78 qualified candidates identified by DAS. After a review by two senior management members of all 78 resumes, seven candidates were interviewed. Both reviewers used the same list of desired criteria for their selections. Of these seven candidates, two were male and five were female. A female candidate was hired. The Professional Licensing Bureau currently consists of eleven females and two males.

3. Retention

FY 2009 Plans:

- Continue to conduct bi-annual pay study and update pay schedules to reflect results of pay study.
- Emphasize non-salary benefits, i.e. health insurance, flexible work schedules.

Section II.

FY 2009 Progress:

- The latest pay study was completed and reviewed but has not yet been implemented by DAS. The target date of July 1, 2009 has come and gone with no action being taken. Once the pay study is implemented the pay schedule will be updated as necessary.
- All Bureaus have offered and implemented flexible work schedules for employees in central offices. The work teams were surveyed and came to a unanimous decision regarding types and hours of flexibility, with implementation taking place during fiscal year 2009. Feedback has been positive and work teams have made adjustments to cover vacations and other absences when necessary.
- Annually, a schedule salary and benefits is provided to each employee showing the state share of all benefits. This too has been well received and we believe it has contributed to our lack of turnover in recent years. Positions vacated in the Bank Bureau in both FY 2008 and 2009 were due to employee retirements as opposed to other types of voluntary resignations.

4. Training

FY 2009 Plan:

DAS Diversity Training plans in support of Executive Order Four will be completed.

FY 2009 Progress:

All but six employees attended Diversity Training as directed by Executive Order Four by June 30, 2009. All six employees are enrolled in subsequent sessions and will have the required training completed by August 31, 2009.

5. General Programs to Support Diversity

FY 2009 Plan:

On-going diversity exercises will be scheduled.

FY 2009 Progress:

We have developed a plan for monthly training exercises to be completed going forward beginning in September, 2009, once all employees have completed the initial training session.

DEPARTMENT DIVERSITY STATEMENT

A variety of skill sets, backgrounds, expertise, and viewpoints has and will continue to provide IUB with the breadth and depth of advice relied on by the Board members to make full and fair decisions. As IUB continues to develop staff to multi-task and provide backup of essential functions, ensuring that the competency, accountability, and the professionalism of the agency is carried on when tenured staff leave, a diverse workforce will be an asset.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

IUB planned to fill three or four positions throughout the agency in FY 2009.

FY 2009 Progress:

IUB filled two vacant utilities regulation inspector positions in FY 2009. One of these vacancies was a carryover from FY 2008. There were no female applicants on the list of candidates. In more than twenty years of interviewing for inspectors, we have interviewed one female candidate for a utilities regulation inspector vacancy. The field is predominantly male.

2. Recruitment

FY 2009 Plan:

Implement a phased-in pay grade increase for the utilities regulation inspector position. Work with NARUC sub-committee of Executive Directors on a recruitment and retention tool.

FY 2009 Progress:

- IUB, with assistance from DAS, conducted a salary study for the utilities regulation inspector position. IUB wanted to phase in the increase as it was three pay grades. We did not receive DAS approval for a phase-in plan and AFSCME (union) did not review the utilities regulation inspector position. No changes in pay grade were achieved.
- IUB Executive Secretary continues work with the Executive Directors from other state regulatory agencies in compiling a best practices idea sharing resource.
- Four employees left the Iowa Utilities Board in FY 2009. Three retired and one went to another state agency. We lost one female, two minorities, and one person with disabilities. We focused recruiting for an Accounting Tech at the American Institute of Business and Des Moines Area

Section II.

Community College. While we had a quality list of applicants for the Accounting Tech position, the Department of Management did not give approval to fill the position. Only one of the four positions – a Utilities Regulation Inspector – has been filled.

- We cannot increase our percentage of females or minorities if positions remain vacant.

3. Retention

FY 2009 Plan:

The Utilities Regulation Inspector is the most challenging job class to retain.

FY 2009 Progress:

At the end of FY 2009, all six Utilities Regulation Inspector positions were filled.

4. Training

FY 2009 Plan:

All managers attend required DAS diversity training.

FY 2009 Progress:

The entire IUB management team has taken the managerial level of diversity training. Ninety-seven percent of IUB staff has participated in the diversity training session offered by DAS. We have not yet begun working through the lessons provided in the managerial diversity training.

5. General Programs to Promote Diversity

FY 2009 Plan:

IUB exceeds the state average for minority workforce composition percentage. IUB will maintain diverse compositions of background, experiences, ethnicities, and knowledge in our staff.

FY 2009 Progress:

IUB continues to hold extra activities in which the entire agency may participate. The focus of these activities is to work together toward a common goal, e.g. – helping others with food and toy donations for those less fortunate. These large group activities allow for more staff to interact with one another than in a typical daily work setting.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

Revise Department's policy on Employee Selection (AD-PR 05) to establish consistent procedures for the selection of department employees per Executive Order Four.

FY 2009 Progress:

The revised policy was issued August 2008.

2. Recruitment

FY 2009 Plan:

Increase the diversity composition of our staff to better reflect the demographics of the offenders we have under correctional supervision.

FY 2009 Progress:

DOC needed to develop, and has developed:

- **A consistent recruitment brochure.** Each of the nine prisons around Iowa was sporadically attending job fairs with no consistent theme or brochure.

Section II.

- ***A job applicant contact card for use at job fairs.*** We needed to realize the DOC might not have a job opening when attending a job fair. A contact card was developed, so that we could enter potential job candidate information into a statewide database that all prisons could utilize when a job vacancy occurs. The contact card is voluntary for job applicants to complete.
- ***The statewide database was developed by DOC IT staff.*** Whenever our staff attend a job fair, they are responsible for coming back and entering the contact card information into the database. The database has searchable fields. For example, if we have an opening for a nurse, the database can be searched for only those candidates with an interest in the medical field.
- ***A recruitment video which provides an overview of all nine prisons and various staff performing their jobs.*** We wanted to dispel the myth that we only employ Correctional Officers – we also employ accountants, doctors, electricians, food service workers, psychologists, etc. The video will be shown at job fairs and speaking engagements, and on the DOC webpage.
- ***DOC has completed the process of getting all job vacancies posted on our Website in addition to the jobs being listed on the DAS website.***
- ***Purchased recruitment display material for use at job fairs for a consistent presentation by all institutions.*** The backdrop is picture of current DOC staff. Selling points such as loan forgiveness on Perkins Loans for Correctional Officers, loan forgiveness for Nurses in Iowa and federal loan forgiveness for working at a public agency are being included in our recruitment brochure and the DOC Webpage.
- ***Compiled listings of all job fairs/college visits with a high proportion of minority enrollment to further impact targeted recruiting.*** This list will be shared with the Director, Executive Staff and Wardens, so the DOC has a consistent recruiting plan and everyone knows where we will be attending and which staff will be in attendance. Prior to this, there was no centralized coordination of where institutions were going to recruit.
- ***Institutional EEO/AA committee members will be attending job fairs/college visits to show that we employ persons of color and to give prospective job applicants an opportunity to personally visit with an employee of color.***
- ***DOC policy has been amended to require that institutional EEO/AA committees be comprised of all job classes.*** Prior to this, DOC had a shortage of some job classes and this impacted our ability to send them to specialized job fairs such as medical career job fairs. Statewide DOC EEO/AA committee members have met with many diverse advocacy groups and individuals in order to collaborate and expand our recruitment outreach. Often, these contacts will distribute job vacancy announcements to their contacts, increasing DOC exposure. In other

Section II.

cases these contacts have provided educational or technical assistance. These contacts include:

- Department of Human Rights, various divisions
- Iowa Vocational Rehabilitation Services
- Department of Administrative Services affirmative action and recruitment contacts
- Department for the Blind
- Senator Tom Harkin's office (to obtain clarification of student loan forgiveness law)
- ***The DOC launched a paid and unpaid internship program in May 2008 in order to heighten our visibility as a career of choice at the job fairs.*** Internships are offered in all areas of the institutions and Central office except for security positions. The internship program information and application process is online on the DOC Website.
- ***The following job fairs were attended by DOC representatives during FY 2009:***

DEPARTMENT DIVERSITY STATEMENT

DOE did not submit a diversity statement.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

Hiring practices at DOE were to focus on Persons with Disabilities (PWD), due to DOE underutilization in this area only.

FY 2009 Progress:

DOE recently hired one person from the DOE Division of Vocational Rehabilitation and has worked with two other people to help train them in the work place so they may develop skills for other positions with the State or other employers.

2. Recruitment

FY 2009 Plan:

All vacancies will be posted on the EDRNetwork.org web site to make persons with disabilities more aware of our openings.

DOE will continue sending notices to the minority groups and library web sites to encourage additional minority applicants.

FY 2009 Progress:

All vacancies were posted on EDRNetwork.org.

DOE is working closely with the Department of Education Division of Vocational Rehabilitation as an employer for customized training. Through this process we have been successful in filling one position with a person with a disability.

DOE participated in the Asian Festival and the Juneteenth Celebration although no vacancies were available at the time. DOE provided information about DOE and answered questions about how to apply for teaching positions. Due to the hiring freeze and budget problems, not many vacancies have been available, especially in underutilized classes.

Section II.

3. Retention

FY 2009 Plan:

Half of DOE turnover is Education Program Consultants (EPC) who have reached their maximum pay level. There is no incentive to stay. These are non-contract positions for which there are few opportunities for these employees to be promoted.

FY 2009 Progress:

In FY 2009, nine EPCs left out of 26 total departures. However, DOE has received four resignations for FY 2010 from consultants who are concerned about losing funding for their current position, or have returned to the school districts to make more money. One person was convinced to stay by allowing her part-time status.

4. Training

FY 2009 Plan:

All managers, supervisors, and other employees will be required to attend diversity training. After 01/01/09, monthly training will be included in each division's meetings. One goal is to reduce the stigma of persons with disabilities which may, in turn, encourage self reporting.

FY 2009 Progress:

Diversity training has been completed for all current employees. New hires are being trained as they come on board. Divisions have been conducting monthly training or other diversity events. More discussion about disabilities is probably warranted.

5. General Programs to Promote Diversity

FY 2009 Plan:

Diversity training and events will be required.

FY 2009 Progress:

Divisions are using items from the "Making a Difference with Diversity" program.

One Division had DAS involved in training to help assist people to better understand each other in everyday work life with the goal to better understand differences and make teams work more effectively.

Section II.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

DOE will continue with plans and activities as detailed for FY 2009 and will also work with the DAS Recruitment Coordinator to assist the agency with targeted recruitment.

DEPARTMENT DIVERSITY STATEMENT

The recruitment and retention of a diverse, culturally competent workforce representative of the demographics of the populations served, and the provision of equitable and quality public services is a primary goal of the Department. The DHS Diversity and Affirmative Action Plan is designed to communicate and facilitate achievement of this goal and to reaffirm the commitment to the principles of equal employment opportunity, affirmative action, and diversity in the recruitment, retention, and provision of employment opportunities.

An integral part of Departmental policy and philosophy is to administer hiring, transfers, promotions, training, compensation, benefits, and any other terms and conditions of employment, without regard for protected category status. The Diversity and Affirmative Action Plan emphasizes a goal-oriented approach to diversity and affirmative action. Information in the Plan includes data regarding minorities, females and persons with disabilities in the workforce and sets specific goals to address positions that may be underutilized. The Department's intent is to reach labor market parity through hiring of diverse applicants and by providing an environment for job satisfaction and promotional growth for current employees.

Section II.

- Substantiate workforce data and format by regions to analyze labor market availability and to achieve labor market parity.
- Rebuild Diversity Committee’s within operating units to assist with conducting workplace accessibility audits from both an applicant perspective and the client perspective, and to assist with identifying localized diversity sourcing or outreach efforts to increase minority or persons with disabilities awareness of DHS career options.

A standard set of questions is currently being developed for the social work and income maintenance worker classifications.
- Workforce data has been regionalized. DHS Human Resource Bureau continues to reformat underutilization data in order to produce management reports that are accurate and relevant. DHS HR Bureau

Section II.

Section II.

DNR retains protected class employees as long as or longer than the average years of service for all employees. Data shows that DNR staff tends to work their entire career with DNR, but with shorter tenure for females and minorities.

FY 2009 Progress:

- ***Satisfaction Survey*** - DNR has been actively working on employee retention for a number of years. A satisfaction survey is conducted annually. DNR has provided more communication regarding the results of the survey and changes resulting from the survey.
- ***Mentoring Program*** – The Diversity Action Taskforce began developing this program for new employees to improve the retention rate.

FY 2009 Plan:

DNR actively supports work that promotes cultural diversity.

FY 2009 UNDERUTILIZATION

Departments with 25 or fewer employees have a workforce that is too small to conduct a meaningful assessment of their underutilization. However, workforce changes are tracked to monitor departments' efforts to enhance the diversity of their departments.

DEPARTMENT DIVERSITY STATEMENT

IPOB did not submit a diversity statement.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

Because this department has fewer than 25 employees, underutilization is not tracked; however, the department reported the following activities for FY 2009:

1. Hiring Practices

FY 2009 Plan:

BOP will collaborate with DAS to improve its hiring practices.

FY 2009 Progress:

IBOP has been working with the DAS Personnel Officer on improving its hiring practices.

2. Recruitment

FY 2009 Plan: IBOP will collaborate with DAS for assistance if needed for recruitment of qualified potential candidates for employment.

Section II.

FY 2009 Progress:

DAS has been helpful in providing various suggestions to IBOP in the recruitment area.

3. Retention

FY 2009 Plan:

IBOP is facing at least one-third of its workforce becoming eligible for retirement in the next five years. IBOP is trying to retain the valuable knowledge of those employees and transfer it to other staff that will hopefully remain after the potential retirees leave. The transfer of knowledge will include developing standard operating procedures (desk manuals, etc.) for critical position that would most likely be impacted by the retirements.

FY 2009 Progress:

The procedures are an on-going work in progress.

4. Training

FY 2009 Plan:

Research various state-sponsored training seminars and workshops offered to line staff and management that improves the daily operation of a diverse workplace.

FY 2009 Progress: When such opportunities present themselves, line staff and management are informed and encouraged to attend whenever possible.

FY 2010 DEPARTMENT DIVERSITY AND AFFIRMATIVE ACTION PLANS

Affirmative Action Plan:

The IBOP has 15 employees; 73% females, 13% minority, and no persons with disabilities. The IBOP goal is to retain its diversity and increase persons with disabilities if a vacancy is created. This will be done using state-sponsored seminars and workshops.

DEPARTMENT DIVERSITY STATEMENT

DPD did not submit a diversity statement.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

DPD implemented written procedures on hiring practices and screening methodologies. DPD also developed a Department Hiring Panel. The department screens hiring packet information and Brass Ring applications to ensure the integrity of the process is legitimate before allowing the hire to take place. DPD plans to meet with the Iowa Department of Natural Resources to observe their process and consider using it at DPD.

FY 2009 Progress:

DPD progress in developing the hiring practices has been enhanced with a change in Command Leadership and philosophies. DPD reports a 23-25% ratio of females in the Department, which is below the State of Iowa available labor pool of 51.4% female. DPD also reports an increased workforce percentage (6.3%) of minorities which is half a percentage point over last years. We did lose two persons with disabilities from retirement dropping us below the state available labor pool.

Section II.

2. Recruitment

FY 2009 Plan:

DPD reports few recruitment issues other than the level of experience required for most positions. With current economic issues in the state and country, no lack of applicants is apparent. The Iowa National Guard division of this department provides an excellent candidate pool for motivated and experienced personnel.

FY 2009 Progress:

DPD reports that while they are making progress and are able to recruit enough candidates, they are below the levels for females and minorities that would be considered a balanced workforce. They cite past inherent traditions in the military, where applicants tend to consider it a male-dominated occupation. DPD monitors the Department of Defense (National Guard) which again is a main recruitment pool. DPD reports that DOD also has difficulty maintaining a balanced workforce. DPD reports that their goal is to ensure that the DPD percentages do not fall below the DOD numbers. Currently, they are achieving about three times as many women as the DOD. The goal is to continue this trend.

DPD continues to review positions to identify those which could be made entry level and, therefore, easier for which to apply. Ten Administrative Intern positions are being created and a mentoring program is also in use to meet their recruitment responsibilities.

3. Retention

FY 2009 Plan:

DPD retention plan emphasizes using the latest training techniques as a job satisfaction retention tool. Addressing poor performance and rewarding top performance is another retention strategy reported.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

DPD will continue with the established plans and methods in FY 2010.

DEPARTMENT DIVERSITY STATEMENT

Our agency serves a diverse population and it is our belief that to the extent our agency staff can reflect this diversity, a better relationship will occur which advances the goal of the agency.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

Departments with 25 or fewer employees have a workforce that is too small to conduct a meaningful assessment of their underutilization. However, workforce changes are tracked to monitor departments' efforts to enhance the diversity of their departments.

However, PERB follows a standard practice:

- When there is a vacancy, qualifications are determined and applicants sought by ads placed in the Des Moines Register as well as through the State's own system.
- The three board members are responsible for all recruitment and/or hiring for any vacant positions within the agency.
- The Board chairman has participated in the state-sponsored Diversity Workshop

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

No plans or changes were reported for FY 2010.

DEPARTMENT DIVERSITY STATEMENT

Having a diverse workforce, helps the Iowa Department of Revenue (IDR) better understand and address the needs of a diverse, multicultural population. It will help the Department communicate with its customers, attract the most qualified candidates and meet its goal of creating an environment of collaboration and partnership in order to improve voluntary compliance with Iowa's tax system.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

Ensure that Department of Revenue employment practices are in compliance with federal and state equal opportunity laws and are nondiscriminatory.

FY 2009 Progress:

- Five Department supervisors, the management liaison and departmental resource team members meet with a DAS hiring practices review team. Whenever recommendations of the DAS review team are released, the Department anticipates implementing recommended changes.
- At the September 2008 Revenue supervisor's meeting, the management liaison reviewed with supervisors the documentation needed for each step of the hiring process. In addition, supervisors were reminded that all hiring decisions must be reviewed with the management liaison prior to an offer being extended.
- The Department responded as requested to a class action Civil Rights complaint filed against multiple state agencies.

2. Recruitment

FY 2009 Plan:

Attract a diverse applicant pool that results in hiring high quality new employees to enable the Department to attain its goals.

FY 2009 Progress:

- The Department expanded its college recruitment and relations programs:
 - Representatives attended the University of Iowa and the University of Northern Iowa career fairs as well as one sponsored by Iowa Work Force.

Section II.

- Ads were placed with Drake University Law School and the University of Iowa Law School for Technical Tax Specialist and Attorney positions.
 - Undergraduate college placement offices were contacted about Revenue Examiner 1 vacancies.
- Ads were placed with professional organizations including the Iowa CPA Association and the Iowa Bar Association.
- Representatives from the Department of Revenue worked in a State of Iowa booth at community events such as CelebrAsian, and Juneteenth.
- Most positions were advertised in the Des Moines Register along with their online posting with Career Builders to attract a more diverse applicant pool.
- IT positions were posted in newspapers in nearby states as well. Nearly \$6,000 was spent on recruitment efforts including advertisements and career fairs.

FY 2009 Progress:

Eleven of the 16 positions were filled by females, two were filled by minorities, but no persons with disabilities were hired.

Due to budgetary constraints, the Department stopped hiring any new employees in early December. As a result, all recruitment activities were put on hold since the Department was no longer filling any positions.

3. Retention

FY 2009 Plan:

Retain a well trained workforce

FY 2009 Progress:

- Exit interview forms were given to exiting employees. The management liaison reviewed returned forms to detect any trends or address specific issues mentioned by the exiting employees.
- The employee survey was again conducted. The results were discussed with administrators and supervisors and distributed to employees. The survey addressed the following categories: Department mission and goal setting, customer focus, work environment, supervision, relationships within the Department, equipment needs, and communication questions. Significant improvement over the results of last year's survey occurred in the categories under Department mission and goal setting as a result of a series of articles in the weekly newsletter highlighting goals and action plans for each division. Creation of the Professional Development I and

Section II.

Professional Development II training programs this year resulted in significant improvement in the survey response over last year's responses in the area of preparing for advancement opportunities and creating a work environment that helps employees accomplish their jobs.

Responses continued to indicate that employees are dedicated to providing excellent customer service. Responses also indicated that employees believe that supervisors give them the support they need to do their jobs, communicate their expectations of job performance and evaluate their performance fairly.

- Results: The turnover rate for the Department was 6.59% which is just slightly higher than last year's rate of 5.59%. Twenty-five employees left the Department. Ten of the employees retired; two died; five resigned; four took inter-department promotions/demotions; two were discharged; and two were not retained through their probationary period. Stated reasons for the departures were as follows: spouse accepted out of state job offer so one employee moved out of state; one employee accepted a job offer in a city much closer to her home to reduce commuting costs; one employee returned to self-employment; two employees accepted private sector employer positions. The five employees who resigned worked in different sections of the Department. Of the five who resigned, four were female; no minorities or persons with disabilities resigned. At the time of their departure, one employee had worked two months, one employee had worked five months, one employee had worked three years, one employee had worked four years and one employee had worked eight years. Three of the employees had worked in a job class in EEO-2 category and two had worked in a job class in EEO-6 category. A review of these resignations and the exit interview forms did not identify any common issues.

4. Training

FY 2009 Plan:

- Schedule diversity training for all revenue employees.
- Hold monthly diversity conversations with Revenue managers and supervisors.
- Select three employees to participate in the CPM program.
- Select 10 staff each for internal Professional Development I and Professional Development II training.
- Continue providing training opportunities, tuition reimbursement and orientation programs for new employees and supervisors.

Section II.

FY 2009 Progress:

- Due to the time commitment and cost, sending all employees to the state diversity class was major component of the FY09 Diversity/Affirmative Action plan of the Department. All supervisors and managers (51 staff) attended the all day “Diversity Training for Managers and Supervisors.” About 75% of Revenue employees have now attended the diversity training class; “Unleashing the Power of Diversity.” Employees continue to attend upcoming classes and the Department is waiting for a few additional sessions to be scheduled so that all employees will have attended classes by December.
- New employees were required to complete an initial training package during their first year of employment. They take three DAS courses on customer service, diversity, and dimensions of behavior. Also, at about three months of employment, they attend two internal classes on Information Technology Security Policies and an orientation to the Department’s mission, vision, organizational structure, and employee benefits.
- The Department Director presented and facilitated monthly diversity discussions with managers and supervisors on diversity topics from the activities guide, “Making a Difference with Diversity.” All department supervisors, managers, and administrators were invited and encouraged to attend. Average attendance at the hour long sessions was approximately 35 staff. The Director used the manual and additional resources to foster a discussion of each month’s topic. Staff was encouraged to relate their experiences, issues that presented them concern, and resolutions they found. We discussed how views have changed over time and the things we need to do to make people feel welcome in the Department from the time they apply for a position.
- Three employees completed the Certified Public Manager program in December. Their final presentations were attended by their supervisor, division administrator, and the management liaison. Three additional employees were selected to participate in the CPM program. The Department Director met monthly with the employees to discuss their CPM classes and how those topics related to their work.
- Employees were selected to participate in the Professional Development I and II programs. As employees complete the program, they are presented a certificate of completion at the Department’s monthly awards ceremony.
- The Department provided DAS, other outside training classes, and tuition reimbursement classes throughout the first six months. Due to budgetary constraints, some training and tuition reimbursement requests were denied the last few months of the fiscal year.
- Overall the Department spent nearly \$50,000.00 on DAS and other outside training opportunities.

Section II.

5. General Programs to Promote Diversity

FY 2009 Plan:

- Provide an opportunity for employees to participate in Revenue diversity art displays.
- Attend the Mosaic Diversity conference.

FY 2009 Progress:

- Two of the Department's art case themes this year were related to cultural diversity. The theme of one of the displays was "Recipes from around the World" while the other theme was "Cultural Heritage." Employees were invited to bring in photos or other objects for the displays and briefly write an explanation of their submission.
- We also invited employees to submit articles about their cultural heritage and background for our bimonthly newsletter to staff.
- A department representative attended the Mosaic Diversity Conference.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

Departments with 25 or fewer employees have a workforce that is too small to conduct a meaningful assessment of their underutilization. However, workforce changes are tracked to monitor departments' efforts to enhance the diversity of their departments.

However, the Secretary of State follows a standard practice:

- The Secretary of State's Office posted openings on the DAS website; careerbuilders.com and sent statewide notices to county auditors to attract a broader pool of persons with disabilities and professional level females.
- Employees are encouraged to attend training on special accommodations for persons with disabilities as training is made available.
- Employees are aware and respectful of special accommodations that may be needed by persons with disabilities who wish to transact business with the Office as well as co-workers.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

The Secretary of State's Office will continue to work with DAS to ensure that the females and persons with disabilities goals of the Office are met.

DEPARTMENT DIVERSITY STATEMENT

Improving diversity is in our best interests to maintain our employment levels. Our community has a large Hispanic population that needs to be engaged as a source for employment. Improving our diversity is one of the goals in the IVH Strategic Plan.

FY 2009 QUALITATIVE PLAN RESULTS REPORTED BY THE DEPARTMENT

1. Hiring Practices

FY 2009 Plan:

IVH did not propose any changes to its hiring practices that were submitted on February 1, 2008.

FY 2009 Progress:

While no changes or goals were proposed for FY 2009, some changes were made after DAS conducted an audit and issued a report in May 2009. These changes include:

- Ensuring that all hiring supervisors clearly understand whether their vacancy is underutilized and for what category.
- All hiring supervisors will review the hiring and selection manual to make sure they have a clear understanding of the hiring process.
- A checklist will be created for hiring supervisors with the steps to follow in the hiring process.
- IVH will evaluate the need for additional/refresher training on hiring practices.

2. Recruitment

FY 2009 Plan:

The IVH focus will continue to be on the health care professionals and the Resident Treatment Workers. IVH will continue to use mixed media, career fairs, and contacts with minority groups and leaders in the community.

One of the goals in the Strategic Plan is to increase diversity in the workforce. A committee was formed last year to address this. In addition to the Supervisors involved in the recruitment function, minority employees will be attending career fairs and other community activities.

Three identified classes (Pharmacist, Nurse Practitioner, and Registered Nurse) are being reviewed by DAS and AFSCME for pay grade assignment. If the pay grades are increased this will assist with the salary barrier. There is little we can do with the shortage of applicants in these classes as that is something that can

Section II.

only be addressed by the community colleges and universities. Their enrollments are limited due to the shortage of qualified instructors.

In FY 2009, we plan to attend the following career fairs, networking events, and community events:

- Schools - Grand View College, Marshalltown Community College, and Marshalltown High School, Hawkeye Community College and the University of Iowa School of Nursing
- Iowa Nurses Association Annual Convention
- IVH will approach area high schools to talk about careers in long term care.
- IVH will tap sources suggested by minority employees.
- IVH will work with English as a second language programs the high school and community college.

FY 2009 Progress:

IVH did attend career fairs at Marshalltown Community College, Marshalltown High School, the University of Iowa School of Nursing and attended the Iowa Nurses Association Annual Convention. IVH was scheduled to attend the career fair at Grand View University but it was cancelled. We have made contact with the school of Nursing at Hawkeye. We have had an initial contact with the ESL program at Marshalltown Community College.

We continue to use nationwide recruitment through the internet for Pharmacists and Registered Nurses. We did receive an application from a minority for Pharmacist who will begin employment in FY 2010.

3. Retention

FY 2009 Plan:

Orientation and On-boarding – IVH has a successful formal orientation program for all new employees. Nursing staff attend four days and all other staff attend two days. Each new employee also receives, within their department, orientation to the department and their job. One of the goals of our Strategic Plan is to develop an on-boarding program to augment the orientation program. Currently, each department has their own process to welcome new employees and familiarize them to the facility. We believe that a department wide on-boarding program will ensure that all employees receive the same information they need to be an employee and to prevent any employee from dropping through the cracks. We believe that making entry into our workforce a satisfying experience will assist with retention.

Training and educational opportunities to support business needs and employee competencies to enhance promotional potential – All of our

Section II.

licensed and certified staff have continuing education requirements that we support through time off to attend and in many cases payment of the training. We maintain a training budget that is available to each department for their employees. This year we allotted \$60,000 for training. We have a grant that pays for Resident Treatment Workers to become a Licensed Practical Nurse and Licensed Practical Nurses to become a Registered Nurse.

Workplace accessibility (visual, physical) – Because we are a health care facility with many Residents with physical disabilities our physical plant is ADA compliant. Whenever a problem with accessibility surfaces it is addressed. For example, a wheelchair lift is being installed to ease movement between two buildings connected by an ADA compliant ramp.

Mentoring – IVH is establishing a Mentoring program is also a part of its Strategic Plan. The turnover rate for Resident Treatment Workers and Licensed Practical Nurses, while low for the nursing care industry, needs to be reduced. Many of our employees come from community nursing homes which are a fraction of the size of IVH. They are often overwhelmed by the physical size and the complexity of services provided. Having a mentor will help guide them through the first year and we believe will increase retention.

Awards and Recognition – Each month the Commandant presents a certificate, of recognition began four years ago and has been well received by employees. Beginning this year employees with 25, 30, 35, and 40 years of service will get a designated parking spot for a month. Additionally, there is an employee committee called the REAL Committee that hosts fundraisers, cook-outs, etc. for employee morale.

FY 2009 Progress:

We had a Kaizen Design Event in February 2009 to develop an on-boarding and mentor program. This will be implemented in FY 2010. All new employees, regardless of work unit, will be treated in the same manner and made to feel welcome. They will have a mentor assigned to them during their first year of employment.

We continue to provide opportunities to Resident Treatment Workers and Licensed Practical Nurses to receive tuition reimbursement to attend college to eventually become Licensed Practical Nurses or Registered Nurses. The money for this was originally a Charter Agency grant and we have been able to retain the unspent portion for this purpose.

We are maintaining a status quo training budget so we will be able to provide training for employees at the same level.

Section II.

4. Training

FY 2009 Plan:

During new employee orientation all employees receive an in-service on preventing discriminatory harassment and all employees will attend the mandatory diversity training.

FY 2009 Progress:

Approximately 95% of our employees attended the mandatory diversity training. All new employees received the in-service on preventing discriminatory harassment. All employees during their annual in-service BLITZ receiving training on Resident Rights which included a discussion on recognizing differences.

5. General Programs to Promote Diversity

FY 2009 Plan:

Describe how the success of your diversity efforts advances your department's long-term strategic objectives and business goals: As stated earlier, our community has a large Hispanic population that has not been tapped for employment primarily because of the language barrier. All of nursing staff and dietary staff must be able to communicate with the residents in English. The community has provided resources so that the language barrier is being lowered. This will provide a valuable source of employees to enter the health care field that is already short of applicants.

Describe how your managers and supervisors will be involved in diversity: All are aware of EO 4 and the requirement for a diversity plan. All understand the importance of diversity and will be receiving the required training this fall.

Executive Order 4 establishes the goal to be inclusive of employees with differences in age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion, and disability. Describe the methods and activities you plan to initiate in FY 2009 to broaden inclusiveness for all these groups: To be inclusive the attitudinal environment in the workplace must be accepting of all differences and not be exclusive. Such an environment exists at the Iowa Veterans Home. Caring for a very diverse veteran population is part of our culture. This will represent an ever increasing need in the future for health care facilities. The Iowa Veterans Home, between staff and residents, represents each of the above identified differences. For example, we have two gender identity residents who are provided a safe and caring environment by staff. We cannot broaden something we already have. What we can do is increase the numbers of employees with differences and we have described throughout this plan how we will attempt to accomplish that.

Section II.

FY 2009 Progress:

During this past year, we began our participation with the Marshalltown Education Partnership. This is a program administered by Marshalltown Community College that provides mentors to students in grades 9 -12 who would become the first in their family to attend college. If successful, the student can attend Marshalltown Community College tuition free. Over 70% of the participants are minorities. A dozen of our Registered Nurses and Nurse Supervisors are mentors. This is a long term commitment with the goal of getting students to consider health care occupations. We have also made presentations to occupational focused classes at Marshalltown High School on employment opportunities in health care. These classes have a significant number of minority students.

FY 2010 DIVERSITY AND AFFIRMATIVE ACTION PLANS

Diversity – Increase qualified minority applicants by 10%. Measure: Establish baseline as of 7/1/09 and trend progress quarterly

Item	Plan	Timeframe
a.	Establish relationships with local high schools	7/1/09

FY 2009 Plan

FY 2009 Progress

Data from BrassRing was used to select requisitions for the DAS review of department hiring practices and obtain information about departments' use of the system.

FY 2010 Plan

DAS will continue to integrate the use of data into our systems, so that departments will have useful information with which to make decisions.

2. DAS RESPONSIBILITY: Hiring Practices Reviews

In accordance with EO4, the DAS Employment Services Bureau and Program Delivery Services Bureau are charged with reviewing and reporting on each department's hiring processes.

Section III.

FY 2009 Plan

DAS will establish a system for reviewing each department's hiring practices using a standard process.

FY 2009 Progress

- Standard templates to review hiring files and summary reports have been developed, revised, and are in use.

FY 2010 Plan

The affirmative action program will be reviewed in a more comprehensive manner in FY 2010. The program has been in place since 1986. Census data that is used to calculate underutilization (quantitative measures) is not current (2000), and an improved method may be indicated.

However, the process aspects (qualitative) of affirmative action, including review of hiring practices, recruitment and retention, and cultural diversity will continue to be important as tools of diversity.

- 5. DAS RESPONSIBILITY: Statewide Recruitment – DAS will provide leadership, technical assistance and special programs to the departments to encourage commitment and action on recruitment.**

FY 2009 Plan

Coordinate a statewide recruitment committee.

FY 2009 Progress

Methods to enhance diversity in recruitment and retention of state workers was a frequent topic. FY 2009 Progress

DAS participated in the following committees in FY 2009:

Olmstead Consumer Task Force

This task force functions within the Department of Human Services, Mental Health and Disability Services Division. It exists because of the 1999 Olmstead Supreme Court Decision that mandates the reduction in the levels of institutional care, supports peoples' return to their home communities, eliminates disparities in employment opportunities and pay, improves care delivery, and promotes research. The Director of DAS appointed a DAS employee from the Employment Services Bureau to this task force.

During FY 2010, appointed representatives of state departments will be expected, at the request of this Task Force, to take on a greater role by serving on sub-committees, assisting with and participating in sponsored events, and providing feedback on legislative initiatives.

Governor's Task Force on Dependent Adults with Mental Retardation

Governor Culver issued Executive Order Number Eleven on February 17, 2009 creating a Task Force to examine and to report on the issues related to dependent adults with mental retardation as an effective method to better understand the magnitude of current practices and to effectuate cooperative solutions to the enforcement of applicable laws. The Task Force was required to submit a final report outlining its activities and recommendations for corrective action to the Governor's Office no later than April 1, 2009. Included in the final report was the creation of a new Task Force to further investigate issues, if needed, and to implement recommendations of the original Task Force.

A DAS representative will attend Task Force meetings to discuss the on-going implementation of changes in Iowa laws, regulations, policies and procedures related to the care and *employment* of dependent adults with mental retardation.

Employer's Disability Resource Network (EDRN)

EDRN is a collaborative group of state, federal and private partners working together to identify, develop and mobilize resources, supports and services that add value to Iowa businesses hiring persons with disabilities. Their services are free and their mission is to provide businesses and industries throughout Iowa with top-level support, information, and resources through their web portal. A DAS representative participated in the development of their website.

DAS will develop and deliver non-mandatory diversity and related training courses for statewide delivery.

FY2009 Progress

The following new diversity courses were offered during FY 2009 and 2010:

2. Review the state's policies, procedures and practices related to the hiring of a diverse workforce and recommend methods to insure these are implemented and followed throughout state government. The Council shall include this information in the annual report required in paragraph (5), below.
3. Develop a plan, including suggestions and a timeline for implementation and estimated costs, for training all state employees with respect to diversity. The plan shall be submitted to the Governor no later than March 31, 2008.
4. Develop a state-government referral system, whereby candidates who interview with one agency and are not hired, but may be a good candidate for another agency are referred to that agency for consideration. The system should be in place no later than December 1, 2008.
5. Submit a written report outlining its activities and progress to the Governor's Office no later than June 30 of each year. The first report is due no later than June 30, 2008.

III. **Key Charges (as Outlined in Executive Order Four) with Activities and Progress from July 1, 2008, to the Present**

A. *Engage with private businesses and other governmental entities to recommend and actively promote best practices for optimizing diversity throughout state government.*

The Best Practices Subcommittee organized two best practices presentations: one on August 14, 2008, by Renee Hardman, Senior Vice-President – Human Resources of Bankers Trust, and one on October 16, 2009, by Jacquie Easley, Director of Diversity Services at Mercy Medical Center. Renee Hardman stressed that the President and CEO of Bankers Trust believes that commitment to diversity starts at the top and works down throughout the organization. With this in mind, he developed many strategies to increase diversity at Bankers Trust. The Council discussed the possibility of implementing three of these strategies in state government:

- Require directors and division administrators to attend a certain number of diverse events each year, such as an NAACP banquet or a Hispanic festival.
- Place the requirement of “increasing diversity in your agency” as a performance standard for all directors.
- Require hiring managers to state in writing why the minority candidate was not hired for each underutilized class. (See recommendations.)

Just as the CEO at Bankers Trust believed that the commitment to diversity must start with him, Jacquie Easley stated that the CEO of Mercy Medical Center set the tone for diversity at Mercy. The Mercy CEO created a strong mission statement, describing the hospital’s values and diversity goals. He also created two diversity councils: one for executive leadership to set the tone and one for employees to plan a diversity awareness event each month. The Council discussed:

- Having a diversity mission statement for state government, possibly originating from the Governor’s Office.
- Creating a diversity council made up of state employees – or perhaps one diversity council for each state agency.

B. *Review the State’s policies, procedures and practices related to the hiring of a diverse workforce and recommend methods to ensure these are implemented and followed throughout state government. The Council shall include information in the annual report....*

The Department of Administrative Services (DAS) established a series of questions for each department to answer regarding its hiring practices. Those materials were

Appendix B.

submitted to DAS in February of 2008. After reviewing the materials, DAS staff had several questions regarding the answers provided by departments; therefore, DAS decided to interview each department about its hiring practices. When completed, DAS will meet with the Hiring Practices Subcommittee, which will report the findings to the Council and work to determine next steps.

- C. *Develop a plan, including suggestions and a timeline for implementation and estimated costs, for training all state employees with respect to diversity.*

The Council implemented diversity training, divided into two levels, for all employees in the Executive Branch of state government. The Council's Diversity Training Subcommittee reviewed the proposals of eight firms, each submitting a competitive bid during the RFP process, and chose Rizzo and Associates to conduct the first section of the training for managers and supervisors. Rizzo and Associates facilitated eight-hour training seminars for approximately 2,000 managers and supervisors. This training, which was provided at no cost to departments, began on June 23, 2008, and continued through December 2009. The Department of Administrative Services – Human Resources Enterprise (DAS-HRE) absorbed the cost of this training in its budget in the amount of \$165,000.

The second level of diversity training for all state employees – management and staff – began on March 9, 2009, and will continue through the end of the year. The Diversity Training Subcommittee and DAS hired nine trainers as temporary state employees to conduct diversity training courses for the entire state workforce, including managers and supervisors, at a cost to departments of \$9.85 per employee. Five internal DAS-HRE employees were also chosen to conduct training courses. Rizzo and Associates held train-the-trainer sessions on February 27 and March 3. Sessions began on March 9 for DAS employees and Diversity Council members, who provided feedback and comments on the training. The following week, diversity training was rolled out to all state agencies. By the end of the year, 750 individual 3.5-hour sessions will be completed.

The intent of the training is to build the business case, based on everything we know today and predict for tomorrow, that Iowa – and specifically state government – must realize the value of creating a diverse workforce and foster an inclusive environment. The design of the program is purposeful. The introductory exercises are important to build trust and rapport within the group. As an interactive, engaging learning experience, the program leads participants to understand a shared language, subconscious and learned biases, and real-life application case studies. Participants leave the training course with tools to help them address stereotypes in the workplace. The Council believes that real learning takes place when people connect with each other and understand why valuing diversity has a personal impact.

The Council also identified areas for on-going diversity training for state employees. First, a *Diversity Resource Guide*, with activities for managers, was distributed to every attendee of the managers and supervisors training. Second, DAS will be offering more diversity courses to compliment the four currently offered. Lastly, the DAS customer newsletter will continue to include a "Diversity Corner" section.

- D. *Develop a state-government referral system, whereby candidates who interview with one agency and are not hired, but may be a good candidate for another agency, are*

Appendix B.

referred to that agency for consideration. The system should be in place no later than December 1, 2008.

The Referral System Subcommittee proposed to the entire Council that recruitment coordinators at the agency level recommend applicants to DAS, which would then use the BrassRing applicant tracking system to manage the list within DAS. After input from the Council, DAS implemented this program on June 24, 2009.

- E. *Submit a written report outlining its activities and progress to the Governor's Office no later than June 30 of each year.*

This document constitutes fulfillment of this charge.

- F. *Executive Order Four stipulates that all Executive Branch agencies will submit a Diversity Plan to the Diversity Council...annually no later than July 31, with the initial plan due on July 31, 2008. These plans shall be used by DAS to develop the State's Affirmative Action Plan and Report, as required by Iowa Code section 19B.5(2).*

Each Executive Branch department submitted a Diversity Plan to DAS by July 31, 2008. The Diversity Plan from each department was then used by DAS to write the State's annual Affirmative Action Plan and Report (Chapter 19B of the Code of Iowa requires that an annual state Affirmative Action Plan be completed by September 30 of each year). Again this year, departments will be submitting their Diversity Plans to DAS by July 31 and DAS will use them to write the 2009 Affirmative Action Plan and Report by September 30.

The Diversity Plans Subcommittee, along with a group of diversity-minded individuals selected from the community, reviewed the 2008 Diversity Plans. The Subcommittee wanted to learn what departments were doing with diversity and recruitment in order to get a baseline and some direction on how to proceed. Having reviewed all of the agency submissions, the Subcommittee is now compiling a list of best practices and formulating recommendations.

- G. *Executive Order Four stipulates that all Executive Branch agencies will work with Iowa Vocational Rehabilitation Services to determine ways to increase employment of persons with disabilities.*

On July 10, 2008, the Council formed the Persons with Disabilities Subcommittee to address this issue. The Subcommittee, which is using the work of Iowa Vocational Rehabilitation Services (IVRS) as a foundation upon which to build, also hopes to work with the Department for the Blind. Currently, IVRS is working with DAS on referrals of qualified candidates and retention of state employees with disabilities.

IVRS is also customizing training opportunities and internships for persons with disabilities. IVRS and the Department of Natural Resources (DNR) have partnered to employ lowans with disabilities. The benefits are threefold: trainees at DNR may learn job skills to help them attain employment; DNR may develop a potential pool of qualified applicants; and IVRS counselors may assess the trainees' job performance.

Moving forward, the Subcommittee would like to work with DAS to create training courses and resources to specifically address hiring and retaining persons with disabilities. The Subcommittee is also working with IVRS on a survey, which will be

Appendix B.

anonymous and voluntary, to determine how many persons with disabilities are currently working in state government.

IV. Other Activities of the Diversity Council

- A. The Council oversees a website, located at http://das.hre.iowa.gov/hre_diversity_council.html, for the public to view:
 - 1. Biographical information on Council Members
 - 2. Meeting Dates
 - 3. Agendas
 - 4. Minutes
 - 5. Meeting Materials
 - 6. Activities and Progress
 - 7. Diversity Plans
 - 8. Affirmative Action Reports
 - 9. Diversity-Related Current Events
- B. The Council addresses public concerns during the “Public Comment” portion of each meeting (see addendum).
- C. The Council is planning a public forum to inform the general public and state employees about Executive Order Four and the Diversity Council’s goals, accomplishments and current projects.

V. Recommendations

- A. Hiring processes across state government must be standardized for greater efficiency; therefore, the recruitment and selection process must be consistent with the DAS “Applicant Screening Manual.”
- B. Departments should strive to have a hiring pool of applicants of diverse background, i.e. disability, ethnicity, gender, and age. Justification must be made to the Director when a qualified candidate in an underutilized category is not hired.
- C. DAS must ensure next year’s Diversity Plans are specific in identifying methods that departments will use in expanding, when applicable, the diversity of their workforce.
- D. Department Directors’ performance evaluations should include a diversity component, which would reflect specific achievements in the areas of diversity recruitment, hiring, training, and retention.
- E. The Governor should commission DAS to review, evaluate, and make necessary changes to the current Affirmative Action Process within state government; including, refining the data used in the Affirmative Action Report.
- F. The Governor should consider hiring a Diversity Inclusion Officer – whose job description would be developed by DAS – or expand the role of the Affirmative Action Officer to include diversity initiatives.

Appendix B.

- G. The Governor should lead by example to build a strong statewide commitment to diversity and strengthen diversity efforts in all three branches of government. In so doing, the Governor should consider inviting a person from the Regents, the Judicial Branch, and the Legislative Branch to join the Diversity Council.
- H. Diversity training should be mandatory for employees in all three branches of government.
- I. DAS must provide a plan for ongoing training and methods for leadership, recruitment, and hiring to use in integrating diversity into their workplace; specifically:
 - 1. Provide a core of orientation courses for new managers.
 - 2. Provide follow-up training/reviews for new managers.
- J. DAS should establish a training curriculum directed toward improving interview skills for current state employees, who are seeking professional development, promotions, or new positions within the State.
- K. DAS should establish a training curriculum for hiring managers on how to be mindful of cultural differences when conducting interviews.

Appendix B.

ADDENDUM

SUGGESTIONS FROM PUBLIC COMMENT PORTION OF DIVERSITY COUNCIL MEETINGS JULY 10, 2008 – APRIL 9, 2009

1. Employees should be allowed to attend Diversity Council meetings on state time.
(Currently, state employees who are not directly involved with the Diversity Council must use vacation time to attend the meetings.)
2. Currently, performance evaluations are “top-down,” meaning supervisors evaluate staff; staff should have the opportunity to evaluate supervisors.
3. Retention is not a good indicator of progress, because the State can have a “bad” employee for many years.
4. The State should institute a formal, standardized internship/mentoring program.
5. In matters of racial diversity, it matters *where* employees work; are people of color in important decision-making roles?
6. The State needs to focus on how it responds to gender issues.
7. Due to a potential state hiring freeze, the Council should focus on retention.
8. The Council should devise a way to add interns to the Referral System.
9. The Governor should meet with Directors personally to discuss diversity goals.
10. The Council should examine “at-will” positions, as they lend themselves to discrimination.

Appendix C.

AFFIRMATIVE ACTION PLANNING AND METHODOLOGY

Overview

Iowa Code section 19B.5 (2) requires each state agency to annually prepare an affirmative action plan and to submit those plans to the Iowa Department of Administrative Services (DAS). DAS is authorized to oversee the attainment of affirmative action goals and timetables by all state agencies and submit a report on the condition of Affirmative Action, diversity, and multicultural programs in state agencies by September 30 of each year to the Governor and the General Assembly.

Additionally, Iowa Code section 19B.7(1) authorizes the Iowa Department of Management to impose appropriate sanctions on individual state agencies in order to ensure compliance with state programs, emphasizing equal opportunity through Affirmative Action, contract compliance policies, and requirements for procurement goals for targeted small businesses.

The annual Affirmative Action Report includes a compilation of the individual departments' workforce change, fiscal year numerical and qualitative goals' achievement, and the new fiscal year underutilization and goals. The report also summarizes the State's overall affirmative action program, citing strengths and areas needing improvement. The basic requirements for departmental affirmative action plans and annual reports are found in the DAS administrative rules at the following website: http://www.legis.state.ia.us/ACO/IAChtml/011.htm#chapter_11_68.

These requirements follow the general standards outlined in the Equal Employment Opportunity Commission's (EEOC) "Guidelines on Affirmative Action Appropriate Under Title VII of the Civil Rights Act of 1964," as amended, 44 CFR 4422 (November 21, 1991), 29 CFR 1608.

Calculating Underutilization

Affirmative Action is defined in Iowa Code Section 19B.1 as "action appropriate to overcome the effects of past or present practices, policies, or other barriers to equal employment opportunity." The U.S. Supreme Court recognizes at least two permissible situations for employers to implement voluntary Affirmative Action: (1) to remedy a clear and convincing history of past discrimination by the employer or union, and (2) to cure a manifest imbalance in the employer's workforce.

Because employers must substantiate compelling conditions of disparity in their workplace to justify the use of race and sex as factors in the selection process, the State of Iowa Affirmative Action Program differentiates between the degrees of underutilization in its workplace. It does so by utilizing two types of affirmative action measures. The first is preferential (remedial) Affirmative Action or numerical goals. Preferential Affirmative Action permits numerical goals to be set that consider race and sex as factors in the selection process. The second is non-preferential Affirmative Action. This refers to actions taken by an employer to prevent and eliminate

Appendix C.

discrimination by concerted proactive programs such as recruitment, training, and other activities that will create a more welcoming work place. Non-preferential methods result in system improvements that are more enduring than isolated affirmative action hires.

Numerical (Quantitative) Underutilization Analysis

A key element of the planning and reporting process involves the comparison of the composition of the workforce to the availability of females, minorities and persons with disabilities within the qualified and relevant labor market pool. The affirmative action planning process involves the following steps:

- a) The quantitative underutilization analysis compares the State's end-of-fiscal-year workforce composition to the relevant labor force data, i.e., the 2000 Census labor force for Iowa. Relevant labor force data narrowly tailors the analysis of the workforce to census labor force data by occupational area, EEO-4 categories, and statewide or local labor force.

The groupings used to categorize the workforce into EEO-4 job categories are based on recommendations from the Equal Employment Opportunity Commission (EEOC). These categories were revised with the release of the 2000 Census and are as follows:

01 Official/Administrator	02 Professional
03 Technician	04 Protective Service: Sworn
05 Protective Service: Non-Sworn	06 Administrative Support
07 Skilled Craft	08 Service/Maintenance

Note: the State does not use category five. All Protective Service job classes of the State are in category four, as advised by the EEOC.

Each state job title is assigned to an Occupational Code that links to the census counts for that occupational area by race, sex and geographic area. The Occupational Codes are in turn assigned by the EEOC to the broader EEO-4 Categories that are seen in our reports.

- b) Underutilization exists when females, minorities and persons with disabilities are less than the relevant labor force representation for these groups. For example, a department with 100 employees in its Professional EEO category that also includes 4 minorities would have a representation of 4% minorities. If the labor force showed a representation for that category of 6%, the difference of 2% (6%-4%) or 2 minorities is referred to as underutilization.
- c) Following this determination of general underutilization, a second calculation is undertaken to assess whether the amount of underutilization is significant enough to require numeric goals (manifest imbalance). Where the underutilization varies by more than one standard deviation from the norm, numerical goals to correct the underutilization are deemed legally appropriate. Numeric hiring goals will be required where manifest imbalance has been

Appendix C.

identified by this method. For underutilization that does not meet these standards, qualitative methods will be used to correct the imbalance.

- d) Hiring goals are determined by first projecting the number of hires that will occur during the plan period. The hiring goal should then be set so that the goal-to-hire projection ratio is at least equivalent to the labor market representation of the underutilized groups. The projected hires are multiplied by the rate of the underutilized group in the labor force. For example, 10 hires are projected and the labor force availability in the female underutilized group is 50%. A hiring goal of at least 5 females would be expected (50% of 10 hires).

For FY 2010, the departments are asked to review their remaining total underutilization at the end of FY 2009 and determine which job classes present likely hiring opportunities in FY 2010. This will help the department to anticipate the recruitment strategy for those job classes.

- e) For persons with disabilities, the labor force availability rate is 11.8% and is calculated based on the 2000 statewide labor force Census, ages 16-64. Unlike racial and gender groups, persons with disabilities are not divided into EEO-4 categories and goals are set based on the total workforce of each department.

Numerical (Quantitative) Analysis by Geographic Area

Once remedial underutilization is identified, a strategy is required to narrowly apply this information to targeted underutilization throughout the state. Census tables divide the state into 34 County Sets. Each County Set represents a geographic cluster of counties for which U.S. labor force census data is available.

The State uses focused geographical census data to calculate underutilization for localized labor markets below pay grade 21. At pay grades below 21, it is more likely that the local labor force will be represented in the application pool.

Pay grade 21 and above is generally recognized in state employment as the entry point for professional level job classes. It is more likely that the applicant pool will come from beyond the available local labor force.

Policy, Practice, and Procedure (Qualitative) Analysis and Goals

This program requires that departments conduct a qualitative analysis that identifies the policies, practices or procedures that contribute to the numerical imbalances. This analysis is designed to improve recruitment, selection, retention and training factors affecting equal employment opportunity and to set goals for how these actions will be implemented. DAS requires that the agencies review and report the results and adjustments to these measures each year in their individual reports.

Affirmative Action Calendar

The following Affirmative Action calendar is followed by the State of Iowa:

Appendix C.

- At the end of the fiscal year workforce composition data is summarized to document the annual progress for the annual report.
- June – July The Diversity and Affirmative Action Plan and previous year progress report request is sent to the departments as part of the Workforce Plan with a July 31st due date. The departments are asked to review the fourth quarter of previous fiscal year underutilization tracking report and job class underutilization list to complete the request and establish goals.
- September – The annual Diversity/Affirmative Action Summary is published and distributed to the Governor and General Assembly. It details the progress the departments made in the previous fiscal year, and their plans for the current fiscal year.
- October - End of First Quarter DAS Affirmative Action Progress Report is issued to the agencies to help them monitor their progress throughout the year.
- January - End of Second Quarter DAS Affirmative Action Progress Report is issued.
- April - End of Third Quarter DAS Affirmative Action Progress Report is issued.

GLOSSARY

Accessibility

Accessibility for persons with disabilities requires a barrier-free environment in which the mobility of physically disabled persons is not inhibited by external barriers such as architectural design. This includes entrances into buildings, elevators, restrooms, water fountains, cafeterias, and conference rooms and office equipment.

Affirmative Action

Actions appropriate to overcome the effects of past or present practices, policies, or other barriers to equal employment opportunity (Iowa Code Section 19B.1).

Availability

The availability of minorities or females for a job group means the percentage of minorities or females among persons in the relevant labor area having the requisite qualifications to perform the positions included in the job group. The availability of persons with disabilities means the percentage of persons with disabilities among persons the statewide labor area (11.8%). Availability figures are used in determining whether underutilization exists, and where a goal is established, in determining the level of the goal. *(Adapted from the Glossary of Equal Opportunity/ Affirmative Action Terms, Mary Jane Sinclair, and SPHR. SHRM White Paper.)*

Balanced Workforce

A workforce that has women, racial/ethnic minorities and persons with disabilities represented in all job groups and salary ranges at approximately the same rate as their representation in the wider labor force, as reflected by availability.

Disability

A Disability is a physical or mental impairment, which substantially limits one or more major life activities, a record of having such an impairment, or being perceived as having such impairment.

Diversity

Diversity refers to any perceived difference among people. According to Roosevelt Thomas, Executive Director of the Institute for Managing, managing diversity is a complex process for developing an environment that works for all employees. Ann Morrison in *New Leaders: Guidelines on Leadership Diversity in America* has defined diversity on four levels:

- Diversity as racial/ethnic and gender balance
- Diversity as understanding of other cultures
- Diversity as culturally divergent values
- Diversity as broadly inclusive

Appendix D.

The key to an organization initiating diversity as a managerial process is to clarify the organization's diversity objectives and to incorporate the objectives into its strategic plan.

Equal Employment Opportunity

A system of practices that guarantees, by law, the same employment opportunity to all individuals regardless of their gender, creed, race, color, religion, national origin, age or physical or mental disabilities.

Goal

An annual target for the placement of protected class members in job groups underutilized for that class. Goals are not rigid and inflexible quotas. They must be targets reasonably attainable through good faith effort and must not cause any group of applicants to be excluded from the hiring process.

Manifest Imbalance

Manifest imbalance occurs when the representation of protected groups in specific occupational groupings in the workforce is substantially below its representation in the relevant labor market. Numerical Goals can only be used as an affirmative action remedy for those job groupings that are identified as substantially underutilized.

Olmstead Plan

The Governor's Executive Order 27 directs state agencies to undertake steps to identify and address barriers to community-living for individuals with disabilities and long-term illness in Iowa. The Executive Order identified DAS (including the former Department of General Services) among state agencies to participate in the initiative to identify barriers to community-living in state government for persons with disabilities. The "Olmstead decision" resulted from the U.S. Supreme Court decision, *Olmstead v. L.C.*, 527 U.S. 581 (1999), and interpreted Title II of the ADA to require "States to place qualified individuals with disabilities in community settings, rather than in institutions, whenever treatment professionals determine that such placement is appropriate, the affected persons do not oppose such placement, and the State can reasonably accommodate the placement...."

Preferential and Non-preferential

Preferential (remedial) Affirmative Action permits numerical hiring goals that consider race and gender as factors in the selection process. Non-preferential (non-remedial) Affirmative Action results in active efforts by an employer to prevent discrimination by concerted proactive programs but not by setting numerical goals. Non-preferential policies, practices, and procedures result in system improvements and are more enduring than isolated affirmative action hires.

Protected Groups (or Classes)

All employees regardless of racial/ethnic, gender, disability status or age groups are regarded as "protected groups" under equal employment opportunity laws. Those groups for which Affirmative Action remedies or EEO compliance are appropriate are

Appendix D.

those groups of employees, former employees or applicants who have experienced and/or continue to experience the loss of employment opportunities or benefits due to discriminatory practices or policies of the employer.

Racial/Ethnic Categories

Black, (not of Hispanic Origin): A person having origins in any of the Black racial groups of Africa.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Asian or Pacific Islander: A person having origins in any of the original people of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands.

American Indian or Alaskan Native: A person having origins in any of the original people of North America who maintain cultural identification through tribal affiliation or community recognition.

White, Not of Hispanic Origin: A person having origins in any of the original people of Europe, North Africa, or the Middle East.

Multiple Races: Two or more races; persons who identify with more than one of the above five races.

Source: EEOC Form 164, State and Local Government Information, (EEO-4)

Reasonable Accommodation

The ADA does not define “reasonable accommodation.” Equal Employment Opportunity Commission (EEOC) regulations define “reasonable accommodations” as modifications or adjustments to the application process, work environment, or manner or circumstances under which the position held or desired is customarily performed, that enable a qualified individual with a disability to be considered for a desired position, perform the essential functions of a position, or enjoy equal benefits and privileges of employment to other similarly-situated employees without disabilities [29 C.F.R. § 1630.2(o)(1) (1999)]. EEOC interpretive guidelines define “reasonable accommodation” as any change in the work environment or in the way things are usually done that results in equal employment opportunities for an individual with a disability [29 C.F.R. Pt. 1630, App. §1630.2(o) (1999)].

Relevant Labor Force or Market

The relevant labor force or labor market is the geographic area from which an employer obtains a large portion of its workforce for a given occupational group.

Remedial and Non-remedial Underutilization

Executive branch departments are required to participate in the State’s Affirmative Action Plan and address all areas of underutilization with appropriate goals. Underutilized areas of manifest imbalance require both remedial (numeric) goals for balancing the State’s workforce within that department and non-remedial goals, i.e., any methods in addition to affirmative action hires designed to balance the department’s workforce.

Appendix D.

Qualitative Utilization Analysis

A qualitative utilization analysis shows whether and where an agency's employment policies and practices do or tend to exclude, disadvantage, restrict or adversely affect employees based on their age, sex, disability, and racial/ethnic status. It should also show whether and where effects of prior illegal discrimination are left uncorrected. The analysis may include, but is not be limited to, the following areas:

- Recruitment efforts and methods.
- Applicant flow characteristics study.
- Interview, selection, appointment, and placement policies and practices.
- Policies and practices affecting transfers, promotions, and reallocations.
- Selection of employees for training.
- Policies and practices in demotion, discipline, termination, and reduction in force.
- Laws, policies, and practices external to the agency that discourage effective results in Affirmative Action.

Quantitative Utilization Analysis

A quantitative utilization analysis compares the employer's workforce with the relevant labor force in order to calculate the numerical and percentile of under representation in the agency's workforce, if any, by racial/ethnic minorities, gender and disability.

[Adapted from IAC 11—68.3(2) (19B)]

A quantitative analysis determines the appropriate numerical hiring goals to set for preferential underutilization, i.e., underutilization that is statistically significant and indicative of manifest imbalance in the workforce.

Underutilization

The condition that results when there are fewer women, racial/ethnic minorities, or persons with disabilities with requisite skills in a particular job category/group than would reasonably be expected by their availability in the relevant labor market for which an organization recruits.
