NEWS RELEASE

FOR RELEASE

November 9, 2009

Contact: Andy Nielsen
515/281-5834

Auditor of State David A. Vaudt today released an audit report on the Perry Municipal Waterworks, Perry, Iowa.

The Waterworks' receipts totaled \$1,521,217 for the year ended June 30, 2009, a 3 percent increase over 2008. The receipts included \$1,141,602 in charges for service, miscellaneous operating receipts of \$160,009, interest on investments of \$15,285 and sewer and garbage fees of \$204,321 collected for the City of Perry.

Disbursements for the year totaled \$1,562,115, a less than one percent increase over the prior year, and included operating disbursements of \$1,165,331, debt service of \$105,848, capital outlay of \$86,615 and sewer and garbage fees of \$204,321 remitted to the City of Perry.

A copy of the audit report is available for review in the office of the Perry Municipal Waterworks, in the Office of Auditor of State and on the Auditor of State's web site at <http://auditor.iowa.gov/reports/index.html>.

Independent Auditor's Report

To the Board of Trustees of the
Perry Municipal Waterworks:

We have audited the accompanying financial statement of the Perry Municipal Waterworks, Perry, Iowa, as of and for the year ended June 30, 2009. This financial statement is the responsibility of Waterworks' officials. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

As described in note 1, this financial statement was prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. Also, as discussed in note 1, the financial statement of the Perry Municipal Waterworks is intended to present only the results of the transactions of that portion of the financial reporting entity of the City of Perry that is attributable to the transactions of the Waterworks.

In our opinion, the aforementioned financial statement presents fairly, in all material respects, the cash basis financial position of the Perry Municipal Waterworks as of June 30, 2009, and the changes in cash financial position for the year then ended in conformity with the basis of accounting described in note 1.

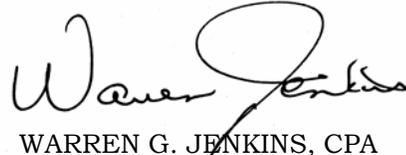

In accordance with Government Auditing Standards, we have also issued our report dated October 26, 2009 on our consideration of the Perry Municipal Waterworks' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis and budgetary comparison information on pages 7 through 9 and pages 18 through 20 are not required parts of the financial statement, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the aforementioned financial statement taken as a whole. Other supplementary information included in Schedules 1 and 2 is presented for purposes of additional analysis and is not a required part of the financial statement. Such information has been subjected to the auditing procedures applied in our audit of the aforementioned financial statement and, in our opinion, is fairly stated in all material respects in relation to the aforementioned financial statement taken as a whole.

DAVID A. VAUDT, CPA
Auditor of State

WARREN G. JENKINS, CPA

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Perry Municipal Waterworks provides this Management's Discussion and Analysis of its financial statement. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2009. We encourage readers to consider this information in conjunction with the Waterworks' financial statement, which follows.

2009 FINANCIAL HIGHLIGHTS

- The Waterworks' total receipts increased 3%, or approximately \$41,000, from fiscal 2008 to fiscal 2009.
- The Waterworks' total disbursements increased 1%, or approximately \$11,000, from fiscal 2008 to fiscal 2009.
- The Waterworks' total cash basis net assets decreased 8%, or approximately \$41,000, from June 30, 2008 to June 30, 2009.

USING THIS ANNUAL REPORT

The Perry Municipal Waterworks has elected to present its financial statement on the cash basis of accounting. The cash basis of accounting is a basis of accounting other than U.S. generally accepted accounting principles. Basis of accounting refers to when financial events are recorded, such as the timing for recognizing revenues, expenses and the related assets and liabilities. Under the Perry Municipal Waterworks' cash basis of accounting, revenues and expenses and the related assets and liabilities are recorded when they result from cash transactions.

As a result of the use of this cash basis of accounting, certain assets and their related revenues and liabilities and their related expenses are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, readers should keep in mind the limitations resulting from the use of the cash basis of accounting.

The annual report is presented in a format consistent with the presentation of Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the Perry Municipal Waterworks' cash basis of accounting.

This discussion and analysis are intended to serve as an introduction to the Perry Municipal Waterworks' financial statement. The annual report consists of the financial statement and other information, as follows:

Management's Discussion and Analysis introduces the financial statement and provides an analytical overview of the Waterworks' financial activities.

The Statement of Cash Receipts, Disbursements and Changes in Cash Basis Net Assets presents information on the Perry Municipal Waterworks' receipts and disbursements and whether the Waterworks' cash basis financial position has improved or deteriorated as a result of the year's activities.

The Notes to Financial Statement provide additional information essential to a full understanding of the data provided in the financial statement.

Required Supplementary Information further explains and supports the financial statement with a comparison of the Waterworks' budget for the year.

Other Supplementary Information provides detailed information about the individual Enterprise Funds. In addition, the Schedule of Indebtedness provides details of the Waterworks' debt at June 30, 2009.

FINANCIAL ANALYSIS OF THE PERRY MUNICIPAL WATERWORKS

Statement of Cash Receipts, Disbursements and Changes in Cash Basis Net Assets

The purpose of the statement is to present the receipts received by the Perry Municipal Waterworks and the disbursements paid by the Waterworks, both operating and non-operating. The statement also presents a fiscal snapshot of the Waterworks' cash balances at year end. Over time, readers of the financial statement are able to determine the Perry Municipal Waterworks' financial position by analyzing the increase and decrease in cash basis net assets.

Receipts include metered and bulk water sales, fees for upkeep and/or upgrade of individual service lines, water turn on/off fees, rent for space on the water tower, taps and miscellaneous fees. The City of Perry pays the Perry Municipal Waterworks contract fees to include sewer and garbage charges on the water bill and costs involved in preparing the billing, i.e. meter reading for sewer, data entry of meter reads, sales tax return preparation and payment. The City of Perry also pays a consultant fee for the City Administrative position. A summary of cash receipts, disbursements and changes in cash basis net assets for the years ended June 30, 2009 and June 30, 2008 is presented below:

	Changes in Cash Basis Net Assets	
	Year ended June 30	
	2009	2008
Receipts:		
Use of money and property	\$ 15,285	25,430
Charges for service	1,141,602	1,115,126
Sewer and garbage fees collected for City	204,321	185,627
Miscellaneous	160,009	154,241
Total receipts	<u>1,521,217</u>	<u>1,480,424</u>
Disbursements:		
Plant operation and maintenance	604,331	559,141
Distribution operation and maintenance	201,383	182,365
Administration	359,617	328,347
Sewer and garbage fees remitted to City	204,321	185,627
Debt service:		
Principal redeemed	69,000	68,000
Interest paid	36,259	38,447
Service fees	589	604
Capital outlay	86,615	188,270
Total disbursements	<u>1,562,115</u>	<u>1,550,801</u>
Net change in cash basis net assets	(40,898)	(70,377)
Cash basis net assets beginning of year	498,295	568,672
Cash basis net assets end of year	<u>\$ 457,397</u>	<u>498,295</u>

The largest portion of the Waterworks' net assets (73%) are restricted funds for the repayment of the revenue bonds issued in 1999, the revenue notes issued in 2004 and customer water deposits. The remaining net assets (27%) are unrestricted assets available for use in the routine operations of the plant, distribution and administrative areas of the Waterworks and for capital improvements to the plant and distribution areas. State and federal laws and regulations require the Perry Municipal Waterworks to perform specific maintenance and monitoring functions in the collection and treatment of water sources before final distribution.

DEBT ADMINISTRATION

At June 30, 2009, the Perry Municipal Waterworks had a total of \$865,000 of revenue bond/note debt outstanding. The revenue bonds were issued June 1, 1999 and the revenue notes were issued September 1, 2004.

ECONOMIC FACTORS

The Perry Municipal Waterworks raised water rates in October 2008 and water deposit fees in March 2009 to improve its financial position. Current economic conditions beyond the Perry Municipal Waterworks' Trustees control play a significant role in the daily operations of the water plant and distribution services. These conditions include, but are not limited to:

- The need to constantly maintain facilities, wells, vehicles and machinery.
- The need to comply with federal and state regulations for the production of water and well-head protection.
- The need to maintain up-to-date technology at a reasonable cost.
- The fluctuation of the cost of the chemicals and energy used to produce quality water.

CONTACTING THE WATERWORKS' FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the Perry Municipal Waterworks' finances and to show the Waterworks' accountability for the money it receives. If you have questions about this report or need additional financial information, contact Perry Municipal Waterworks, 1101 W 3rd Street, PO Box 604, Perry, Iowa 50220.

See notes to financial statement.

Perry Municipal Waterworks

Notes to Financial Statement

June 30, 2009

(1) Summary of Significant Accounting Policies

A. Reporting Entity

The Perry Municipal Waterworks is a component unit of the City of Perry, Iowa, as determined by criteria specified by the Governmental Accounting Standards Board. The Waterworks is governed by a three-member Board of Trustees appointed by the City Council, which exercises oversight responsibility under this criteria.

B. Basis of Presentation

The accounts of the Waterworks are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its receipts, disbursements and balances. The various funds are classified as Enterprise Funds in the financial statement. Enterprise Funds are utilized to finance and account for the acquisition, operation and maintenance of governmental facilities and services supported by user charges.

C. Basis of Accounting

The Perry Municipal Waterworks maintains its financial records on the basis of cash receipts and disbursements and the financial statement of the Waterworks is prepared on that basis. The cash basis of accounting does not give effect to accounts receivable, accounts payable and accrued items. Accordingly, the financial statement does not present financial position and results of operations of the funds in accordance with U.S. generally accepted accounting principles.

D. Restricted Assets and Net Assets

Funds set aside for bond principal and interest payments and customer water deposits are classified as restricted.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) Cash and Pooled Investments

The Waterworks' deposits at June 30, 2009 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The Waterworks is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Trustees; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The Waterworks had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 3, as amended by Statement No. 40.

(3) Revenue Bonds and Notes Payable

Annual debt service requirements to maturity for revenue bonds and notes are as follows:

Year Ending June 30,	Water Revenue Bonds Issued Jun 1, 1999			Water Revenue Notes Issued Sep 1, 2004			Total	
	Interest Rates	Principal	Interest	Interest Rates	Principal	Interest	Principal	Interest
2010	3.53%	\$ 30,000	12,355	3.40%	\$ 40,000	21,600	70,000	33,955
2011	3.53	31,000	11,296	3.60	45,000	20,240	76,000	31,536
2012	3.53	32,000	10,202	3.80	45,000	18,620	77,000	28,822
2013	3.53	33,000	9,072	4.00	45,000	16,910	78,000	25,982
2014	3.53	34,000	7,908	4.10	50,000	15,110	84,000	23,018
2015-2019	3.53	190,000	20,615	4.25-4.70	290,000	41,380	480,000	61,995
Total		<u>\$350,000</u>	<u>71,448</u>		<u>\$ 515,000</u>	<u>133,860</u>	<u>865,000</u>	<u>205,308</u>

The Waterworks has pledged future water customer receipts, net of specified operating disbursements, to repay \$600,000 of water revenue bonds issued in June 1999 and \$700,000 of water revenue notes issued in September 2004. Proceeds from the bonds and notes provided financing for constructing improvements and extensions to the water utility. The bonds and notes are payable solely from the water customer net receipts and are payable through 2019. Annual principal and interest on the notes are expected to require less than 81 percent of net receipts. The total principal and interest remaining to be paid on the notes and bonds is \$1,070,308. For the current year, principal and interest paid and total customer net receipts were \$105,259 and \$129,990, respectively.

The resolutions providing for the issuance of the revenue bonds and notes include the following provisions:

- (a) The bonds and notes will only be redeemed from the future earnings of the enterprise activity and the bond and note holders hold a lien on the future earnings of the funds.
- (b) Sufficient monthly transfers shall be made to a sinking account for the purpose of making the bond and note principal and interest payments when due.
- (c) A reserve fund shall be established and maintained in the amount of \$110,739.
- (d) The Board will provide for the establishment of rates to produce gross revenues at least sufficient to pay the expenses of operation and maintenance of the Waterworks and to have a balance of net revenues equal to at least 110% of the average annual payments of principal and interest on the bonds and notes.

(4) Pension and Retirement Benefits

The Waterworks contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.10% of their annual covered salary and the Waterworks is required to contribute 6.35% of annual covered salary. Contribution requirements are established by state statute. The Waterworks' contribution to IPERS for the years ended June 30, 2009, 2008 and 2007 were \$31,985, \$26,907 and \$25,003, respectively, equal to the required contributions for each year.

(5) Compensated Absences

Waterworks' employees accumulate a limited amount of earned but unused vacation hours for subsequent use or for payment upon termination, retirement or death. These accumulations are not recognized as disbursements by the Waterworks until used or paid. The Waterworks' approximate liability for earned compensated absences payable to employees at June 30, 2009 is \$41,400. This liability has been computed based on rates of pay in effect at June 30, 2009.

(6) Risk Management

The Waterworks is included under the insurance for the City of Perry. The City of Perry is a member in the Iowa Communities Assurance Pool, as allowed by Chapter 670.7 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 577 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained to equal 200 percent of the total current members' basis rates or to comply with the requirements of any applicable regulatory authority having jurisdiction over the Pool.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses and reinsurance premiums, all of which are due and payable in the current year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The Waterworks' property and casualty contributions to the risk pool are recorded as disbursements from its operating funds at the time of payment to the risk pool. The Waterworks' contributions to the Pool for the year ended June 30, 2009 were \$15,497.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured in an amount not to exceed \$2,650,000 per claim and \$10,000,000 in aggregate per year. For members requiring specific coverage from \$3,000,000 to \$10,000,000, such excess coverage is also reinsured. Property and automobile physical damage risks are retained by the Pool up to \$100,000 each occurrence, each location, with excess coverage reinsured on an individual member basis.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim or series of claims exceeds the amount of risk-sharing protection provided by the member's risk-sharing certificate, or in the event a series of casualty claims exhausts total members' equity plus any reinsurance and any excess risk-sharing recoveries, then payment of such claims shall be the obligation of the respective individual member. As of June 30, 2009, settled claims have not exceeded the risk pool or reinsurance coverage since the pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days prior written notice may withdraw from the Pool. Upon withdrawal, payments for all claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Members withdrawing within the first six years of membership may receive a partial refund of their capital contributions. If a member withdraws after the sixth year, the member is refunded 100 percent of its capital contributions. However, the refund is reduced by an amount equal to the annual operating contribution which the withdrawing member would have made for the one-year period following withdrawal.

The Waterworks is also included under the City of Perry's commercial insurance purchased from other insurers for coverage associated with workman's compensation. The City assumes liability for any deductibles, and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(7) Water Tank Maintenance Contract

In December 2008, the Waterworks entered into an agreement with Utility Service Co. for maintenance of the water tower, including annual inspections of the tank, repairs and the cleaning and repainting of the interior and exterior of the tank. The Waterworks will make an annual payment of \$35,134 for the first six contract years and \$19,098 per year thereafter. The contract is for an indefinite period of time. Beginning in contract year ten and each third anniversary thereafter, the annual fee can be adjusted to reflect the current cost of service with a maximum change of 5% per annum. The Waterworks made the first payment of \$35,134 in August 2009.

Perry Municipal Waterworks

Notes to Required Supplementary Information – Budgetary Reporting

June 30, 2009

The Perry Municipal Waterworks prepares a budget on the cash basis of accounting and submits it to the City Council. In accordance with the Code of Iowa, the City Council annually adopts a budget on the cash basis following required public notice and hearing for all funds. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control is based upon classes of disbursements known as functions, not by fund. The Waterworks' disbursements are budgeted in the business type activities function. There were no budget amendments for the Waterworks during the year ended June 30, 2009.

During the year ended June 30, 2009, disbursements did not exceed the amount budgeted.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of a Financial Statement Performed in Accordance with
Government Auditing Standards

To the Board of Trustees of the
Perry Municipal Waterworks:

We have audited the financial statement of the Perry Municipal Waterworks, Perry, Iowa, as of and for the year ended June 30, 2009, and have issued our report thereon dated October 26, 2009. Our report expressed an unqualified opinion on the financial statement which was prepared in conformity with an other comprehensive basis of accounting. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Perry Municipal Waterworks' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing our opinion on the effectiveness of the Perry Municipal Waterworks' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Perry Municipal Waterworks' internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified deficiencies in internal control over financial reporting that we consider to be significant deficiencies, including a material weakness.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Perry Municipal Waterworks' ability to initiate, authorize, record, process or report financial data reliably in accordance with an other comprehensive basis of accounting such that there is more than a remote likelihood a misstatement of the Perry Municipal Waterworks' financial statement that is more than inconsequential will not be prevented or detected by the Perry Municipal Waterworks' internal control. We consider the deficiencies in internal control described in the accompanying Schedule of Findings to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood a material misstatement of the financial statement will not be prevented or detected by the Perry Municipal Waterworks' internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we believe item (A) is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Perry Municipal Waterworks' financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and other matters, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted an immaterial instance of non-compliance or other matters that is described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the Waterworks' operations for the year ended June 30, 2009 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statement of the Waterworks. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Perry Municipal Waterworks' responses to the findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the Waterworks' responses, we did not audit the Perry Municipal Waterworks' responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and customers of the Perry Municipal Waterworks and other parties to whom the Perry Municipal Waterworks may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Perry Municipal Waterworks during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

DAVID A. VAUDT, CPA
Auditor of State

WARREN G. JENKINS, CPA
Chief Deputy Auditor of State

Perry Municipal Waterworks

Schedule of Findings

Year ended June 30, 2009

Findings Related to the Financial Statement:

SIGNIFICANT DEFICIENCIES:

- (A) Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Water utility billings, collections, deposits, posting to customer accounts and cash receipts journal and reconciliation of billings to collections and delinquent accounts are all done by the same person. Also, bank accounts are not reconciled by an individual who does not sign checks, handle or record cash.

Recommendation – We realize segregation of duties is difficult with a limited number of office employees. However, the Perry Municipal Waterworks should review its operating procedures to obtain the maximum internal control possible under the circumstances.

Response – The Perry Waterworks will continue to monitor and revise operating procedures to ensure the Waterworks is, to the best of our abilities, using the practice of the segregation of duties.

Conclusion – Response accepted.

- (B) Countersigning Checks – The Trustee's signature stamp is controlled by the Clerk who prepares, signs and applies the countersignature stamp on certain checks.

Recommendation - Checks should only be countersigned when the supporting documentation is reviewed by an independent person. Also, the Trustee's signature stamp should be under the control of an independent person if not under the control of the Trustee.

Response – Trustee signature stamps are kept in the vault when not in use. Due to the number of office staff, the water clerk and deputy water clerk do continue to rotate financial operations. All claims are available for review and must be signed off by the water board of trustees at each monthly meeting. The waterworks does have long term history with most of its vendors where most of the expenses are incurred and all invoices are attached to the claims. For financial issues and compliance, all three members of the water board, the water clerk and deputy water clerk are authorized signers of Perry Waterworks depository accounts.

Conclusion – Response acknowledged. However, checks should be countersigned by an independent person after review of the supporting documentation and the signature stamp should be controlled by an independent person.

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

Perry Municipal Waterworks

Schedule of Findings

Year ended June 30, 2009

Other Findings Related to Required Statutory Reporting:

- (1) Certified Budget – The budget certified by the City of Perry includes amounts budgeted for the Perry Municipal Waterworks. Disbursements during the year ended June 30, 2009 did not exceed the amount budgeted.
- (2) Questionable Disbursements – No disbursements we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.
- (3) Travel Expense – No disbursements of Waterworks’ money for travel expenses of spouses of Waterworks’ officials or employees were noted.
- (4) Business Transactions – Business transactions between the Perry Municipal Waterworks and Waterworks officials or employees are detailed as follows:

Name, Title, and Business Connection	Transaction Description	Amount
Jeffrey Stewart, Road Tech, father-in-law of owner of Baxter Underground and Accu Jet	Repair of residential stop boxes	\$ 3,750
Marcus Carris, Board of Trustees, Father of Benjamin Carris	Hydrant painting	1,776
Lonnie Ostransky, Board of Trustees, Father of Samuel Ostransky	Hydrant painting	1,696

In accordance with Chapter 362.5(10) of the Code of Iowa, the transactions for repair of residential stop boxes and hydrant painting may represent a conflict of interest since the transactions exceeded \$1,500 per individual during the fiscal year.

Recommendation – The Perry Municipal Waterworks should consult legal counsel to determine the disposition of this matter.

Response – We will consult with legal counsel on the matter. During fiscal 2009, the Waterworks contracted with other contractors besides Baxter Underground and Accu Jet. The Waterworks must consider the cost, urgency of the repair and the availability of the contractor. We will refrain from using relatives for future hydrant painting work.

Conclusion – Response accepted.

Perry Municipal Waterworks

Schedule of Findings

Year ended June 30, 2009

- (5) Bond Coverage – Surety bond coverage of Waterworks’ officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure coverage is adequate for current operations.
- (6) Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- (7) Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the Waterworks’ investment policy were noted.
- (8) Revenue Bonds and Notes – No instances of non-compliance with the revenue bond and note requirements for the year ended June 30, 2009 were noted.
