

GRANTEE Update

November 23, 2009

The Update is a bi-weekly Web newsletter published by the Iowa Department of Public Health's Bureau of Family Health. It is posted the second and fourth week of every month, and provides useful job resource information for departmental health care professionals, information on training opportunities, intradepartmental reports and meetings, and additional information pertinent to health care professionals.

One in Four Teen Girls Have STDs

As many as one in four U.S. teenage girls have had a sexually transmitted disease (STD), many infected soon after their first sexual encounter, a new government report shows.

"The high burden of STDs among teen girls reminds us that we can't ignore this," said study author Dr. Sami L. Gottlieb, from the division of sexually transmitted disease prevention at the U.S. Centers for Disease Control and Prevention.

Sexual health is an important part of the overall health and well-being of teenagers," Gottlieb added. "For too long, we as a nation have been far too squeamish about sexual health issues for teens, but we owe it to our kids to get over it."

The report was published online November 23 and in the December print issue of the journal *Pediatrics*.

For the study, Gottlieb's team collected data on 838 teen girls aged 14 to 19. Using samples provided by the teens, the researchers looked for *Neisseria gonorrhoeae*, *Chlamydia trachomatis*, *Trichomonas vaginalis*, herpes simplex virus type 2 and human papillomavirus (HPV).

The study authors found that 24.1 percent of the girls had one of these STDs and among girls who were sexually experienced, 37.7 percent had an STD. HPV was the most common infection (18.3 percent), followed by chlamydia (3.9 percent).

Moreover, in the year after having their first sexual experience and with only one sex partner, 19.2 percent of the teens developed an STD, Gottlieb's group found.

One in Four Teen Girls Have STDs

continued

To counter these problems, teens need to have early sex education, Gottlieb added. "The vast majority of people have sex for the first time during their teenage years, so we need them to be prepared," she said. In addition, Gottlieb believes that 11- and 12-year-old girls should get the HPV vaccine. "We have an effective and safe vaccine that can prevent most of the bad consequences of HPV infection -- cervical cancer," she stated.

"Teen girls and young women should also have a yearly test for chlamydia," Gottlieb said. "This can prevent some of the adverse consequences of chlamydia, such as pelvic inflammatory disease and infertility," she stressed.

Dr. David L. Katz, director of the Prevention Research Center at Yale University School of Medicine, said that "the authors make a convincing case that rates of both sexual activity and sexually transmitted infections are high in adolescent females in the U.S."

These are the facts of epidemiology, not ideology, and should be the basis for public health policy, he said.

"Adolescent girls need early access to comprehensive sex education, and barrier contraceptives," Katz said. "This will not increase sexual activity, but it will attenuate the resultant harms."

This study also makes a strong case for routine vaccination against HPV, as it is the most common sexually transmitted infection, Katz said. "Since HPV is often acquired so soon after the initiation of sexual activity, early vaccination is the way to go. I speak on this as the father of two young teenage daughters, both of whom have received the Gardasil vaccine," he added.

Another report released by the CDC last week provided more statistics.

Teen girls aged 15 to 19 accounted for the largest number (409,531) of the 1.5 million reported chlamydia and gonorrhea cases in the United States in 2008, followed by women aged 20 to 24, according to the annual federal report.

The researchers also found that black females continue to have a higher rate of STDs than any other racial or ethnic group.

Last year, there were about 1.2 million reported cases of chlamydia and nearly 337,000 reported cases of gonorrhea in the United States, according to the report.

More information on STDs, go to www.nlm.nih.gov/medlineplus/sexuallytransmitteddiseases.html or visit the Iowa Department of Public Health, Sexually Transmitted Disease Program at www.idph.state.ia.us/adper/std_control.asp.

Program Management

Bureau of Family Health Grantee Committee Meeting

The next Bureau of Family Health Grantee Committee Meeting is scheduled for January 21, 2010 from 9-11:30 a.m. via the ICN. If you have an agenda item you would like to have discussed at the Grantee Meeting, please contact Val Campbell at campbeVK@crstlukes.com or Heather Hobert-Hoch at hhobert@idph.state.ia.us. *This is a required meeting for Bureau of Family Health contract agencies.*

Iowa Training Project for Child Care Nurse Consultants Training

The 2010 Iowa Training Project for Child Care Nurse Consultants (ITPCCNC) will be held January 4 – March 18, 2010. The ITPCCNC consists of structured distance learning followed by four days of on-site training. The target audience are Iowa registered nurses (RN) working with early childhood care and education providers through the Title V Maternal and Child Health (MCH) agencies; public health and Community Empowerment Areas in cooperation with the MCH agencies; Head Start or Early Head Start; and local school districts. For more information, go to pages 7-8 of **The Update**.

Feeding Reports from the Newborn Metabolic Screening Reports

Do you need breastfeeding information for your year-end reports? Go to pages 9-18 of **The Update** to download newborn metabolic screening reports for state and federal fiscal years '09.

CDC Releases Report on Older Adults and Offers Online Training

The Centers for Disease Control and Prevention (CDC) recently released an expert panel report, "Improving Health Literacy for Older Adults" and an online training in health literacy for public health professionals. The course provides CE credits and is available at no charge.

Both the report and the training can be downloaded at www.cdc.gov/healthmarketing/healthliteracy.

Early Learning Webinars - Online Learning for Child Care Professionals

Webinar topics and schedule

Each 90-minute session is offered beginning at either 1:00 p.m. or 6:30 p.m. Central Time. You may choose to join us at either time on the following dates:

Science and Nature with Young Children | November 10, 2009

Children's Friendship Skills | December 8, 2009

Description: Positive behavior has often been viewed as something children should just 'know' -- without being taught. Friendship behaviors can be contagious, but they don't always come naturally. This Early Learning Webinar will help you discover some great new tools for teaching friendship skills.

Dramatic Play | January 12, 2010

Blocks | February 9, 2010

Math More than Numbers | March 9, 2010

Learning through Cooking | April 13, 2010

Sand and Water Play | May 11, 2010

For more information, go to www.extension.iastate.edu/childcare/earlylearning.

CDC Toolkit for Providers: H1N1 and Children with High Risk Conditions

The CDC recently developed a toolkit for providers on H1N1 and children with high-risk conditions. The toolkit includes an information sheet regarding access to the H1N1 vaccine, a brochure and template letters for parents and caregivers, as well as posters for the office setting.

More information can be found at www.cdc.gov/h1n1flu and www.amchp.org/H1N1.

CALENDAR OF EVENTS

*January 21, 2010

Bureau of Family Health Grantee Committee Meeting

9 a.m. - 11:30 a.m., ICN

March 30, 2010

WIC Breastfeeding Workshop

8:30 a.m. - 4 p.m., DMACC, 2006 S. Ankeny Blvd., Ankeny

Iowa Training Project for Child Care Nurse Consultants Training 2010

Winter 2010

January 4 – March 18, 2010

Sponsors:

Healthy Child Care Iowa (HCCI) through the Iowa Department of Public Health and the Iowa Department of Human Services.

Winter 2010:

The Iowa Training Project for Child Care Nurse Consultants (ITPCCNC) consists of structured distance learning followed by 4 days of onsite training.

Faculty and Planning Team:

Candace Chihak, RN; Sally Clausen, ARNP, BSN; Karen Doughan, RN, BS; Analisa Pearson, RN, BSN; Marsha Platt, RN, BSN; Cathy Renz, RN MEd; and Kim Schroeder, RN; BSN.

Target Audience:

Iowa registered nurses (RN) working with early childhood care and education providers through the Title V Maternal and Child Health (MCH) Agencies; public health and Community Empowerment Areas in cooperation with the MCH Agencies; Head Start or Early Head Start; and local school districts.

Background of Child Care Nurse Consultants and Statement of Purpose:

Child care nurse consultants (CCNC) are RNs who provide on-site consultation, training, and technical assistance to early childhood care and education providers. The ITPCCNC is the required initial didactic training program for CCNCs and the purpose of the course is to expand the RN's knowledge and skills to work with early childhood care and education providers.

Educational Objectives:

Each course module contains learning objectives specific to the module topic. Overall course objectives are below.

Registered Nurses will be able to:

- Identify the components for best practices in health and safety in early childhood care and education environments and programs
- Assess the quality of health and safety policy and practices in early childhood care and education
- Consult with early childhood care and education providers to improve health and safety in their businesses
- Identify community partners and resources to assist in improving the quality in early childhood care and education
- Identify the role of public health principles and practices in child care

Training Topics:

Introduction to Early Childhood Care and Education in Iowa
Building Curriculum Development & Training Skills
Building Consultations Skills
Child Development

(continued on next page)

Training Topics (continued)

Nutrition and Physical Activity in Early Childhood Care
Injury Prevention in Early Childhood Care and Education
Environmental Health in Early Childhood Care and Education
Infectious Disease in Early Childhood Care and Education
Quality in Child Care
Mental Health in Early Childhood Care and Education
Care for Children who are Mildly Ill and Temporarily Disabled
Caring for Children with Special Needs
Oral Health in Early Childhood Care and Education
Health and Safety of Early Childhood Care and Education Staff

NOTE TO PARTICIPANTS AND THEIR EMPLOYERS:

1. Electronic Communication: The course relies **heavily** on electronic communication using email and retrieval of documents from the internet. The participant's employer shall assure each participant has an individual computer with business-related email address where the course coordinator may send correspondence and the computer skills necessary to complete the course. Participants will need to be able to access the internet to successfully participate in and complete the course.

2. Course Reading and Written Assignment Expectations: Participants receive most of the course materials through electronic communication. Participants will study various topics weekly, with written assignments, and required activities including online discussions, on-site practicum, and conference calls throughout. Participants are expected to fully participate in all activities and complete all designated assignments thoroughly and on time to successfully complete the course. **A minimum of 10-15 hours of work time per week** will be required to complete the 9 weeks of distance learning.

The course will conclude with 4 days of onsite training in the Des Moines area.

Nursing CEUs: The Iowa Department of Human Services is an Iowa Board of Nursing approved provider, Number 94. CEUs are being applied for, and # CEUs will be awarded to individuals successfully completing the course, partial credit will not be awarded.

Application Process: Interested applicants must complete an online survey to determine eligibility. [Online Application](#). **Applications will be accepted through December 3, 2009.** Applicants are notified by email regarding acceptance. Applicants and the applicant's employer may need to complete an interview with course coordinator and/or faculty prior to acceptance. Approved applicants receive an enrollment agreement to complete and return to Healthy Child Care Iowa. The applicant, the applicants' employer and the Title V Child Health Director must sign the enrollment agreement and return to the HCCI state office **prior** to training. For questions regarding application completion or enrollment, contact Analisa Pearson.

Registration Fee: The registration fee is \$200 to cover course logistics, speakers, and materials. Fee is due no later than January 11, 2009. Checks made out to the Iowa Department of Public Health may be mailed to the attention of Healthy Child Care Iowa. IDPH has a limited number of scholarships available, contact Analisa Pearson for more details if the cost of the training is prohibitive.

Refund Policy: No refund of the registration fee will be given after the course has begun.

Cancellation Policy: Participants will be informed if the course is cancelled for any reason, including low enrollment.

Course Coordinator Contact Information:

Please contact the course coordinator, Analisa Pearson, RN, BSN, with your questions. Iowa Department of Public Health, 321 East 12th Street, Lucas Building, Des Moines, Iowa 50319-0075. Tel: 515-281-7519 or 800-383-3826. Fax: 515-242-6013 Email: apearson@idph.state.ia.us
