Information

Continued Delay of Poverty Guidelines

A June memorandum from the USDA states that when making income eligibility determinations, WIC agencies should continue to use the current 2009-2010 income eligibility guidelines until further notice. The determinations shall be effective for the certification periods set forth in the applicable WIC regulations. For this year only agencies have the option to forgo printing the income eligibility guidelines by family size on any printed materials related to the WIC program.

The state office will continue to keep you abreast of any changes that the Department of Health and Human Services makes regarding extension of the 2009 Poverty Guidelines.
