INTRODUCTION

The members of the Iowa Board of Nursing conduct their business in accordance with 2011 Iowa Code chapters 17A, 21, 22, 147, 147A, 152, 152E and 272C, and the Iowa Administrative Code, Nursing Board [655]. Functions of the Board as provided by regulations include:

Promulgation of rules and regulations to carry out the mandate of the laws.

Approval of nursing education programs preparing registered nurse and licensed practical nurse candidates and approval of all advanced formal academic nursing education programs. Elevation of the standards of the schools of nursing. Promotion of educational and professional standards of nurses in the state.

Definition of nursing practice including minimum standards of practice for the registered nurse and licensed practical nurse. In addition, the Board approves additional acts or nursing specialties including the advanced registered nurse practitioner, in cooperation with the medical and nursing professions.

Oversight of continuing education for nurses for license renewal and re-entry from inactive status.

Oversight of licensure examination administration. Licensure of registered nurses, licensed practical nurses, and registration of advanced registered nurse practitioners. Renewal, reactivation, and reinstatement of licenses. Verification of licensure to and from other jurisdictions.

Enforcement of the laws and rules applicable to the practice of nursing including the use of disciplinary proceedings and disciplinary action.

Maintenance of a record system which allows for the retrieval of data regarding licensees as individuals and as a composite. Maintenance of records of all Board proceedings.

Establishment of fees based on the cost of sustaining the Board and the actual costs of licensing. Collection of fees with remittance to the Treasurer of the State of Iowa. Operation within sound fiscal management principles.

ADMINISTRATIVE RULES

- Chapter 3: Updates the requirements for foreign educated nurses to be the same for both RN and LPN candidates when applying for license by examination. The amendments will require foreign educated nurses applying for license by endorsement to have the Commission of Graduates of Foreign Nursing Schools (CGFNS) submit a credentials evaluation prior to being licensed.
- Chapter 4: Updates the license reinstatement process.
- Chapter 6: Updates and revises the current and expanded intravenous therapy scope of practice for the licensed practical nurse (LPN).

LEGISLATION

There was no specific Board of Nursing legislation during Fiscal Year 2011.

NURSING EDUCATION

Section 1--Nursing Education Programs

The Iowa Code provides that the Iowa Board of Nursing approve nursing education programs preparing registered nurse and practical nurse candidates and all advanced formal academic nursing education programs.

Between July 1, 2010, and June 30, 2011, site visits were made to 11 programs in 6 institutions.

For the purposes of this report, nursing programs are listed separately by site and type. In some instances, more than one site may share administration by a single program, a common philosophy, curriculum and faculty.

NURSING WORKFORCE

A nongovernmental group of interested parties created “The Iowa Needs Nurses Now Coalition” (INNN). In 2009 Legislation was signed into law that created an Iowa nursing workforce data clearing house in the Department of Workforce Development. The legislation provided financial aid options for nurse educators and created an infrastructure for grants for clinical simulators, laboratory facilities and health information technology. Funding is being sought from public and private sources. INNN ceased operation on June 30, 2011.

NURSING PRACTICE

Section 1--Facility Surveys

The Iowa Board of Nursing is required to enforce Iowa Code §147.2 (2011), which requires a nurse be licensed to practice nursing.

A total of 241 facilities were surveyed in FY '11. The facilities complete a spreadsheet requesting the licensee's name, license number and license expiration date. The date the licensee completed the mandatory child and/or dependent adult abuse course is also requested. Long-term care facilities specify the date the LPN, who works in a supervisory capacity, has completed the board approved "Supervising in Health Care Facilities" course. This course is required for LPN's who work in the supervisory capacity, within six months of employment, at the Long Term Care Facility.

Of the 241 facilities surveyed 214 responses have been received; 194 approved and 47 were rejected or are pending.

In FY '11 there were four (4) nurses found to be working without an active license.

Section 2--ARNP Committee

In June 2006, the Iowa Board of Nursing voted to establish a committee with the charge of recommending rules to implement the advanced practice compact, and review the feasibility of education programs to support certification in more than one nursing specialty. In June 2008, the Board amended the committee charge to include drafting rules regarding ARNP scope of practice for radiological tests.

The committee did not meet in FY '11.

Section 3--Midwife Committee

In December 2006, the Iowa Board of Nursing made appointments to a Nurse Midwife Committee. The committee's charge is to review board rules regarding scope of practice for nurse-midwives and make recommendations.

The committee did not meet in FY '11.

Section 4—Revised Expanded Intravenous Therapy Course for the LPN

At the February 26, 2009 board meeting, the Iowa Board of Nursing voted to establish a five-member committee for the Licensed Practical Nurse (LPN) Intravenous Therapy Course. The Committee's charge was to review and revise the current IBON Intravenous Therapy Course to represent current nursing practice.

The committee met seven times in FY '10. The committee revised the current course and developed two courses.

Course One is all inclusive for the Licensed Practical Nurse taking the course for the first time. Course One incorporates content covering intravenous therapy via a peripheral intravenous catheter, midline catheter and a peripherally inserted central catheter (PICC) line.

Course Two is designed to update the Licensed Practical Nurse who has already taken the initial board-approved course, but needs the knowledge and skills for the revised expanded scope of intravenous therapy. Course Two incorporates content covering intravenous therapy via a midline catheter and PICC line.

Chapter 6 rules, which allow for the limited and expanded scope of practice of intravenous therapy for the Licensed Practical Nurse, were revised.

At the June 9, 2010 board meeting the board voted to file under Notice of Intended Action amendments to Chapter 6 regarding the limited and expanded scope of practice of intravenous therapy for the Licensed Practical Nurse.

The board also voted to approved Course One – Expanded Intravenous Therapy for the Licensed Practical Nurse and Course Two – Update to the Expanded Intravenous Therapy for the Licensed Practical Nurse.

At the December 1, 2010, board meeting the Board voted to adopt ARC 8930B, amendments to Chapter 6 regarding the limited and expanded scope of practice of intravenous therapy for the Licensed Practical Nurse.

On February 16, 2011 the amendments to Chapter 6 became effective.

CONTINUING EDUCATION

Section 1--Approved Providers

Eleven (11) provider applications were received during FY '11 and three (3) applicants were awarded Iowa Board of Nursing provider approval. Approval was denied to five (5) applicants who did not meet provider criteria within three (3) committee reviews or within the 12-month deadline of filing the initial application. (One provider application was withdrawn per the applicant's request.) The number of providers approved since continuing education became mandatory for nurses is now 364. The total number of approved providers as of June 30, 2011, was 145 (117 in state and 28 out of state).

Three (3) providers voluntarily relinquished provider approval during FY '11. The total number of approved providers who have voluntarily relinquished or withdrawn their approved provider status since continuing education became mandatory is now 213.

During the year, 24 providers were reevaluated and all were reapproved for five years. No re-evaluations remain pending.

The Board of Nursing did not review any complaints specific to an approved provider in this fiscal year.

Section 2--Audits

Routine random audits were performed for this fiscal year. There were 1200 licensees randomly selected by the license tracking computer program during FY '11. Of the 1200 random audits selected, 1,165 have been received and approved, 26 remain pending and 9 were directed to the Enforcement Division for noncompliance.

Late renewals are automatically audited. The total number of late renewal audits for FY '11 was 504. Of the 504 late audits, 448 have been received and approved, 16 remain pending and 40 were directed to the Enforcement Division for noncompliance.

During FY '11 there were 213 audits scheduled to be re-audited. Of the 213 re-audits, 204 have been received and approved, 2 remain pending and 7 were directed to the Enforcement Division for noncompliance.

A total of 56 audits were directed to the Enforcement Division for noncompliance with continuing education requirements this fiscal year.

Section 3--Rulings

1. Approved four (4) requests to recognize the clock hours for programs attended outside of Iowa for nursing continuing education credit.
2. Approved seven (7) requests to accept make-up credit for self-reported errors of the continuing education credit required for license renewal.
3. Approved one (1) request for a rule waiver of 655 IAC 5.3(4)"a," which specifies the materials are required to be submitted for provider approval no later than 3 months prior to the expiration of the current approval. The provider was approved retroactive to its expiration date.

Section 4--Newsletter

The Nursing Newsletter is the official publication of the Iowa Board of Nursing for the dissemination of all information, including board action, rule revision, procedural requirements and disciplinary action.

Four issues of the newsletter were published in FY '11, with a total distribution of 228,189.

Section 5--Revision of the board-approved course "Supervising in Health Care Facilities for Licensed Practical Nurses" Committee

In September 2007, the Iowa Board of Nursing made appointments to a committee for revision of the course "Supervising in Health Care Facilities for Licensed Practical Nurses." The committee charge was to review and revise the current board-approved curriculum. Also, the revision was to include a combination of face-to-face components and e-learning, where applicable, in order to ensure the appropriate technology will be used to meet student learning outcomes.

On June 8, 2010, the curriculum revision for "Supervising in Health Care Facilities for Licensed Practical Nurses" was accepted by the board. The revised course will be sent to the community colleges for implementation in the fall of FY '12. The community colleges will develop the components of the curriculum that were designated for online content using their individual e-learning platforms.

The committee held two (2) conference call meetings during FY '11.

LICENSURE

Section 1--Examinations

The Iowa Board of Nursing, in cooperation with other state boards of nursing, contracts to use national examinations (NCLEX[®]) for registered nurse licensure and practical nurse licensure. The licensing examinations are owned by the National Council of State Boards of Nursing and are prepared by item writers and content experts recommended by boards of nursing and the National Council.

The single purpose of the licensure examination is to determine minimal competence to practice nursing as defined by legally constituted authorities. The most recent passing standard was adopted for the licensure examination for registered nurses in April 2010, and for licensed practical nurses in April 2011. Results of the NCLEX[®] examination are reported to candidates as pass-fail.

There are three types of nursing programs leading to licensure as a registered nurse in the State of Iowa. Graduates of associate degree, baccalaureate and prelicensure master's degree programs are eligible to take the national examination for registered nurse licensure. In Iowa, all nursing programs that prepare registered nurse candidates maintain current approval by the Iowa Board of Nursing.

Graduates of a licensed practical nurse program are eligible to take the national examination for practical nurse licensure. In Iowa, all nursing programs that prepare practical nurse candidates maintain current approval by the Iowa Board of Nursing.

The rules and regulations of the Iowa Board of Nursing require nurses educated and licensed in a foreign country to take the NCLEX[®] for registered nurse licensure or practical nurse licensure. A prerequisite for taking the registered nurse or practical nurse licensing examination is completion of the Professional Report application of the Commission on Graduates of Foreign Nursing Schools Credentials Evaluation Service (CES). The countries and non-member board territories that currently administer the NCLEX Examinations are Australia, Canada, England, Germany (temporarily not testing at this location), Hong Kong, India, Japan, Mexico, Philippines, Puerto Rico and Taiwan.

The NCLEX[®] examinations are provided using computerized adaptive testing. NCS Pearson VUE serves as the vendor to provide testing and administration services for NCLEX[®]. Computerized adaptive testing is conducted at four (4) sites in Iowa: Coralville, Davenport, Des Moines and Sioux City on a year-round basis. Candidates may self-schedule the time and site of choice for the examination when qualifications for licensure and test registration are complete.

There is no provision for temporary licensure of candidates for licensure by examination in Iowa.

License status information may be accessed through the Iowa Board of Nursing automated telephone or online license verification systems.

Table III--NCLEX Results and Program Institutional Plans

Pursuant to 655 IAC 2.10(152), Nursing Programs shall notify the board when the program's NCLEX passing percent, for all first-time applicants within six months of graduation, is lower than 95 percent of the national percentage for two consecutive calendar years. Those programs shall submit to the board an institutional plan for assessment and improvement of NCLEX results.

The following data gives the number of programs which have submitted institutional plans by fiscal year.

Table V--**NCLEX Testing Accommodations and Results**

Pursuant to IAC 655 IAC 3.4(5), individuals with diagnosed disabilities as defined in the Americans with Disabilities Act shall be provided modifications/accommodations during administration of the NCLEX. During FY '11 a total of eleven (11) candidates were approved for testing accommodations. The following chart indicates the specific type of accommodation granted and the number of candidates who passed and failed by fiscal year.

Fiscal Year	Separate Room	Additional Testing Time	Separate Room and Reader	Separate Room & Additional Testing Time	Separate Room, Reader & Additional Testing Time	Number Passed	Number Failed

A license is automatically placed on inactive status 30 days after expiration. Requests for inactive status are only accepted when the licensee has changed primary state of residence to another compact state.

The number of renewals that were processed online for FY '11 was 14,790.
The number of renewals that were processed manually for FY '11 was 392.
The average monthly percent of online renewals for FY '11 was 97%.
The percentage of online renewals remained the same as FY '10.

Section 5--Verifications

The 2011 Iowa Code provides that the Iowa Board of Nursing may verify licensure of registered nurses or licensed practical nurses in this state to another state, territory, or foreign country. The Iowa Board of Nursing verified 326 licenses for other states, employers, territories or foreign countries during FY '11.

The Iowa Board of Nursing implemented participation in the National Council of State Boards of Nursing NURSYS verification of licensure system in January 2001. NURSYS processes license verification requests sent to the National Council of State Boards of Nursing by nurses. The implementation of the NURSYS verification system has affected the Iowa Board of Nursing as follows:

*These totals may include deceased licensees, for whom the board has received no notification.

**The National Council of State Boards of Nursing (NCSBN) provided a Social Security Death Index Audit Report in FY '10. The report matched Iowa licensees with Social Security numbers who are deceased. By placing a licensee in deceased status the number of inactive nurses decreased and the number of deceased nurses increased this fiscal year.

Adjustments to the database based on the information provided by NCSBN continued in FY '11.

Section 11--Nurse Licensure Compact

Legislation enacting the Nurse Licensure Compact became effective on July 1, 2000. The compact provides for a state-based nursing license that is mutually recognized among all party states. This facilitates the ability to protect the public health, safety, and welfare of Iowa citizens. The following states have implemented the compact: Arizona, Arkansas, Colorado, Delaware, Idaho, Iowa, Kentucky, Maine, Maryland, Mississippi, Missouri, Nebraska, New Hampshire, New Mexico, North Carolina, North Dakota, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia and Wisconsin.

Section 13—Criminal History Background Checks

Administrative rules implementing a national criminal history background check be conducted for all new graduates, endorsements, reactivations and reinstatements became effective on October 1, 2005.

A total of 5,280 inquires were submitted from July 1, 2010, through June 30, 2011. Criminal activity was reported in 298 of those inquires, which resulted in 122 enforcement cases being opened. Fifty three (53) cases were opened for falsification of license application.

ENFORCEMENT

The investigators logged some 20,050 miles on the agency-owned vehicles while traveling the state in the course of conducting investigations.

At the end of FY '11 there were a total of 122 licensees who are being actively monitored.

Sanctions and other discipline related board actions are reported to the National Council of State Boards of Nursing (NCSBN). Acting as the board's agent, the NCSBN then disseminates the information to the National Practitioner Data Bank and Healthcare Integrity and Protection Data Bank as required by law.

Quarterly reports were prepared after each board meeting that outline disciplinary actions taken by the Board. These statistics are published in the Board's newsletter and were submitted to the licensing authorities of the other states through the Disciplinary Report of the National Council of State Boards of Nursing.

ADMINISTRATION

Section 1—Staffing

Kathy Cornwell, Secretary 2, was hired. Donna Brown, Clerk Specialist, resigned. David Brunk, Clerk Advanced, transferred from the Iowa Department of Public Health. David Cruse returned to active military duty.

Section 2--Presentations

The professional staff continued its efforts to acquaint nurses with the laws affecting nursing practice, education, and licensee/licensure regulations. During FY '11 the staff made presentations to a variety of nursing education programs, continuing education programs, facilities, and professional groups regarding legal rights and responsibilities, impaired practice of chemically dependent nurses, workforce and licensing issues.

Section 3--Committee Representation

A former board member served on the Direct Care Worker Taskforce committee. Professional staff also represented the board with the Iowa Association of Colleges of Nursing, Iowa Community College Nurse Educator Directors' Association, Iowa Association of Nursing Continuing Education, Iowa Organization of Nurse Leaders, Iowa Nurses' Association, Iowa Council of Nurses and Iowa Needs Nurses Now Coalition.

Board members and staff participated in National Council of State Boards of Nursing, Inc. activities. Participation included attendance at the Annual Delegate Assembly, Mid-Year Meeting, Information Technology Conference, APRN Summit for Consensus and the NURSYS License Push Notification User Group. Board staff served as members of the NCLEX Examination Committee, Model Acts and Rules Committee, Nurse Licensure Compact Administrators, and the Nurse Licensure Compact Administrators Executive Committee.

Section 4--Web Site

Staff continues updating the board website, which provides current information to licensees and the public. The home page also serves as the primary access site for online licensing and verification.

Section 5--Audit

In accordance with generally accepted accounting principles and Chapter 11 of the Iowa Code, the accounting records of the Iowa Board of Nursing were audited for FY '11, in conjunction with the Department of Public Health and were in order.

Section 6--Fees

Fees are collected based upon the cost of sustaining the board's mission to protect the public health, safety and welfare. The renewal fee covers a three-year period.

Following are the licensing fees that have been approved to support regulatory activities of the Iowa Board of Nursing for the previous six fiscal years.

Beginning FY '04, the Iowa Board of Nursing received approval from the Legislature to retain 90% of any fee increase. On August 1, 2003 a fee increase was implemented in the amount of \$6.00 per year for renewal, endorsement and exam applicants.

*On October 1, 2005, rule amendments were approved to implement a national criminal history background check for new licensees, endorsements, reactivations and disciplined licensees. An additional fee of \$50.00 was added to the application fee for evaluation of the fingerprint packet and the criminal history background check by the DCI and the FBI. No additional licensing fee was assessed at this time.

On July 1, 2007 Iowa Code—Chapter 147 allowed board retention of fees.

The Iowa Board of Nursing has not increased licensing fees in the past eight (8) years.

Appropriation

The Board's expense budget for FY11 was based on its revenue, that is, no funds were appropriated to the Board by the Legislature. The Board of Nursing's FY 2011 budget, both on the revenue and expenditure side, was \$3,180,000. On the revenue side, the Board exceeded its anticipated revenue by \$22,674. On the expenditure side, the Board spent \$2,114,454, which was \$1,065,546 less than budgeted. Both of these amounts carried forward to FY12, for a total rollover of \$1,088,219.
