Policy

From the WIC State Operations – 410.05 Accountability for Formula Rebate Funds

The Iowa WIC Program receives approximately \$18.0 million per year in rebates through an infant formula rebate contract. These funds are identified separately in the state's accounting system as a credit against the food costs.

A monthly report shows the number of cans of formula purchased with WIC food checks paid during the previous month. This report identifies the number of cans purchased by formulation (concentrate, powder, or ready-to-feed). The report also identifies the month that the checks were issued, so that rebate funds may be credited against the correct fiscal year.

The state WIC office presents a monthly invoice showing the total number of cans the formula manufacturer is to pay a rebate on, and the manufacturer issues rebate payment.

IWIN Updates

IWIN Preferred Language List

A while back we sent out a survey on the IWIN Preferred Language List. We have tallied the results and have added more languages in the Preferred Language drop down box for you. They are in IWIN Train if you would like to see what we have added. We would like to thank Mary Winders for requesting changes.

Don't forget...

Policy 215.95 states to make sure all staff members are aware that they must give participants the option of reading the Rights and Responsibilities before signing, even if that participant is not new to the program. What is your agency process??

Dates to Remember
