Board History Looking Back . . .

- > In 1908, only RNs were licensed by examination and the examination fee was \$5.00.
- > The requirements for becoming an RN were to be 23 years of age, "of good moral character," have a minimum of an 8th grade education and complete a training school in good standing with the Board of Health.
- > By August 1908, 22 training schools were declared to be in good standing and the graduates were eligible for examination.
- ➤ In 1918, there were 53 approved training schools in lowa.
- > As training schools steadily increased, the 1930 lowa census reflected that one in eighteen women who were gainfully employed was a nurse.
- > The board of nursing began to function as a separate department from the board of health in 1935.
- > The Mercedian School of Practical Nursing was established in 1948 in Marshalltown and 14 students were admitted.
- > Governor Beardsley signed the law adding permissive licensure of practical nurses in 1949 and the State Board Test Pool Examination for practical nursing was used.
- ➤ Up to 1955 the annual renewal fee was \$1.00.
- > Licensed practical nurses came under mandatory licensure in 1963.

FDA RESOURCES

The lowa Board of Nursing has been notified by the Food and Drug Administration, of the availability of electronic resources for health professionals. Healthcare practitioners can now receive clinically useful safety information on medical products from FDA by:

- Subscribing to FDA's MedWatch listserve notification or RSS news feeds, at http://www.fda.gov/medwatch/elist.htm
- Bookmarking FDA's MedWatch Web site at http://www.fda.gov/medwatch/safety.htm
- Downloading audio broadcasts (podcasts)

During the past several years, the FDA indicates that they have been working to harness informatics, with the goal of achieving an electronic environment for all of their regulatory activities, including communicating timely safety information to providers and patients. For example:

- In January 2006, FDA began making update prescription drug labels available to physicians free of charge through the National Library of Medicine's DailyMed Web site at http://dailymed.nlm.nih.gov
- In March 2007, the FDA hosted a public meeting to explore opportunities for collaborations with private healthcare organizations to develop a nationwide electronic network supporting rapid access to, and analysis of, medical product adverse events and the dissemination of timely risk communications.

According to the FDA, drug and device manufacturers are also turning to electronic methods to disseminate safety information to healthcare professionals in a timely, targeted, and secure manner. The FDA supports the use of electronic methods to disseminate medical product safety information, whether it is by industry or the FDA itself. If you would like additional information about FDA activities in this area, please contact Dr. Norman Marks at safetyinformation@fda.hhs.gov or 301-827-1512.

FAILURE TO MEET THE REQUIREMENTS OF CONTINUING EDUCATION AUDITS

The board has recently reviewed an increasing number of disciplinary cases related to failure by licensees to meet the continuing education requirements that are mandated by law and spelled out in administrative rules. As a reminder, here are pertinent facts related to audits of continuing education.

The board randomly selects licensees from the pool of those who renew on time each month. The board also audits all persons who renew late, between the expiration of the license and the 15th of the following month. And the board re-audits all persons who submitted late credit in a previous audit.

Any licensee who fails to submit materials requested in a continuing education audit, or who fails to submit make-up

credit to cover any deficits found in an audit, are routed to the enforcement division. Failure to comply can result in fines of \$50 for each missing contact hour, up to a maximum of \$1000. Failure to pay the fine, and to submit additional contact hours required by the board through disciplinary action, can result in suspension of the license until these conditions

COMMUNICATING WITH THE IOWA BOARD OF NURSING

The lowa Board of Nursing requests that licensees and the public use the board web site www.state.ia.us/nursing or telephone verification system 515-281-3255 for 24-hour access to online license renewal and verification, address changes and general information.

Use the following contacts for specific questions. If you inquire about your licensure status or request written materials, provide the following information at the beginning of the call/message: lowa license number, full name, mailing address, and phone number including area code.

MANDATORY TRAINING ON ABUSE IDENTIFICATION AND REPORTING

Legislation passed during the 2001 lowa General Assembly mandates that licensing boards, including the lowa Board of Nursing, require a person (ARNP, RN, LPN), who regularly examines, attends, counsels, or treats dependent adults or children in lowa, upon renewal of licensure to accurately document compliance with training requirements on abuse education and/or dependent adult abuse. The course must have been completed within the last 5 years. A list of approved courses is available at

www.idph.state.ia.us/bhpl/abuse_ed_review.asp

AGENDAS AND MINUTES ON THE WEB

All Board and Committee agendas are on our website. Agendas are posted at least 48 hours in advance of a meeting. Previous agendas will remain posted until replaced by the current agendas. Board and Committee minutes are posted at our website approximately three (3) months following the meetings.

You can reach our Agendas and Minutes at our website, www.state.ia.us/nursing, under "Boards and Meetings."

PROCEDURES FOR INACTIVE STATUS

- >> Requests for inactive status from licensees will NOT be accepted.
- > Licensees will no longer need to request to place their lowa license on inactive status when they move out of state or are no longer practicing in the nursing field. (The license will be placed inactive 30 days after expiration.)
- > Delinquent status has been eliminated.
- ➤ Licensees who do NOT renew their lowa license within 30 days after expiration will automatically be placed on inactive status.
- ➤ For reactivation of an inactive license the licensee will be required to submit a reactivation application and the fee of \$225.00. The continuing education requirement for reactivation is 1.2 Continuing Education Units or 12 Contact Hours that were earned in the previous 12 months. Two fingerprint cards are also required, to conduct a criminal history background check.
- > Licensees who move to another compact state and are issued a license in the new compact state will have their lowa license placed inactive immediately upon issuance of the new license. The lowa license will need to be returned to the lowa Board of Nursing office.
- ➤ Licensees who inadvertently allow their license to become inactive and continue to work using the inactive license will be brought to the attention of the Enforcement Unit for Investigation. Reactivation of the license will require a reactivation application, proof of 1.2 Continuing Education Units or 12 Contact Hours, two fingerprint cards, and the fee of \$225.00.
- ➤ lowa law requires you to keep the board informed of any name or address changes, even when your license is on inactive status.

NURSE LICENSURE COMPACT

The Iowa Board of Nursing is pleased to be a member of the nurse licensure compact. This new form of licensure and regulation will better protect the public by:

Allowing competent nurses to provide care both physically and electronically wherever care is needed;

Providing the public ready access to and a choice of qualified nurses;

Protecting clients against incompetent nurses or unsafe nursing care through better communication between boards of nursing, cooperative disciplinary investigations and prompt reporting of disciplinary action;

Benefiting employers of nurses by having a more mobile workforce and a convenient centralized database for verification of licensure credentials.

Understanding the Basics

☑ The nurse licensure compact allows a nurse who resides in a compact state to hold ONE license in the nurse's primary state of residence and practice in all other states in which the compact is in effect. Primary state of residence is where the nurse holds a driver's license, pays taxes and/or votes.

The compact requires the nurse to practice according to the laws and regulations of the state in which the nurse provides care where the patient is located at the time the care is provided. The practice laws and regulations for many states are available online.

☑ A nurse who is under discipline may be in a monitoring agreement, which restricts practice across state lines.

■ If you hold a license in a COMPACT state and RESIDE in that COMPACT state, your license is a multistate license which authorizes you to practice in any other compact state.

If you hold a license in a COMPACT state, but do not RESIDE in that compact state (reside in a non-compact state), your license is a single state license and it authorizes you to practice only in that compact state. For example, if you hold an lowa nursing license, but do not live in lowa, the license is a single state license and does not grant you the privilege to practice in any other state.

☑ If you are licensed in both lowa and another compact state and RESIDE in the other compact state, your lowa nursing license will be administratively placed on inactive status immediately. Only one active license can be held by a licensee among the compact states.

☑ The compact does not supersede federal law. Therefore if you are employed in military service or work for the federal government, you may continue to hold a nursing license in any state you choose. If you are working as a nurse in a nongovernmental capacity, you are required to contact the state board of nursing in that state to determine if a nursing license is required.

If you **move** from one compact state to another compact state and practice nursing, you must obtain a license in your **new** home state. However, you may continue to practice under the former home state license and the multistate licensure privilege in the new home state for a period <u>not to exceed 30 days</u>.

- a. The 30-days shall begin with the date of hire/employment in the new primary state of residence.
- b. If the licensee begins employment before changing primary state of residence, the 30-days begins upon the date that the licensee establishes the new primary state of residence.

For updates on compact information or a list of compact states go to: $\underline{www.ncsbn.org/nlc/index.asp}$

VERIFICATION SYSTEM FOR EMPLOYERS

Facilities/employers can verify licenses using the last name and the last four digits of a Social Security Number. The employer logon license verification program is located at www.state.ia.us/nursing.

Access is restricted to entities that have applied to the lowa Board of Nursing for secured access. The application form is available on-line at www.state.ia.us/nursing. Submit completed and signed form by mail, or fax it to (515) 281-4825. A login ID and a password for access to the system will be sent via email to approved employers.

What information will you receive?

- 1. Licensee Name
- 2. License Type
- 3. License Status
- 4. License effective and expiration dates
- 5. Current Disciplinary Action

Questions: Contact Lynn Linder, Operations Officer, (515) 281-5535.

TELEPHONE VERIFICATION OF IOWA LICENSURE FOR NEW GRADUATES WHO PASS THE NCLEX® EXAMINATION

The lowa Board of Nursing does not release NCLEX® examination pass/fail results by telephone or Internet. Candidates for licensure by examination are notified in writing of their test result. The lowa Board of Nursing verifies lowa licensure status through the automated telephone system on the first or second Wednesday afternoon following the test date if all the following have occurred:

- the candidate has applied for licensure in lowa
- the candidate has passed the examination
- the NCLEX® result has been transmitted to the board by the test service

Telephone Verification

To verify licensure in lowa, call 515-281-3255 and press 2 for initial licensure by exam information, press 2 again for exam results information. Now you will be prompted to the automated verification system. Through the verification system you will either be notified that a license is active and provided an expiration date or the system will state "invalid selection" which means your exam results have not been processed or you did not pass the NCLEX exam. Pressing 1 transfers to the automated verification system. License numbers are not released.

Questions may be directed to 515-281-6488 or newnurs@iowa.gov

LPN SUPERVISION IN LONG TERM CARE FACILITIES

In order for an LPN to supervise in an intermediate or skilled health care facility, the LPN <u>MUST</u> satisfactorily complete the board approved LPN Supervisory Course within six (6) months of employment in the supervisory role. The course is designed specifically for the supervision role in the long term care patient setting. A board approved nursing program or an approved provider of continuing education must provide the course.

The area community colleges offer courses. It is the responsibility of the licensed practical nurse to maintain his or her certificate documenting completion of the course.

A licensed practical nurse is entitled to supervise without the educational requirement outlined above if the licensed practical nurse was performing in a supervisory role on or before October 6, 1982. Verification is required.

If licensees are unable to obtain the course within the first six months of employment, the LPN must write to the Board explaining the reason a waiver of the LPN Supervisory Course is being requested.

Licensed practical nurses who are enrolled full-time in a registered nurse program are not exempt from the course. However, an LPN who is a full-time student in an RN program and/or who is scheduled to graduate within one year, may request a waiver by writing to the board office. The request for a waiver must state the number of credit hours to be taken each semester and include the student's expected date of graduation.

Individuals who do not graduate from the RN program as scheduled or who are not successful on the RN-NCLEX® must take the next available course.

LICENSE RENEWAL...ONLINE

The lowa Board of Nursing has made renewing licenses easier for many nurses in lowa through online license renewal. Although many nurses are taking advantage of this service, there are still many more nurses who could benefit from it. There are many advantages to online renewal including:

- ✓ It is easy. Just go to the website at: <u>www.iowa.gov/nursing</u>
- ✓ All you need is your license number, social security number, date of birth, MasterCard, VISA or a debit card. Answer all the questions. Pay the \$104.00 fee, which includes a \$5.00 online convenience fee.
- ✓ It is fast. Once the online renewal process is complete your license is immediately renewed and will be mailed in three to five working days.
- ✓ It is convenient. You can renew on your computer at home, at midnight or on a holiday if you choose. If you do not have a computer at home, you could renew on the computer at your local library or at your work place.
- ✓ Your information is secured/masked to protect your privacy.
- ✓ Online renewal reduces errors. The system will not let you move forward until all questions are answered.
- ✓ Online renewal is available for RNs and LPNs only.

✓ Late online renewal is also available through the 15th of the month following the expiration date on the wallet card. Fee = \$154.00.

Please note that the Board does not mail renewal forms or notices to nurses whose licenses are due for renewal. We encourage all nurses to consider going online to apply for renewal. We think you will be surprised at how easy it is. (Renewal lists and information begin on page 27.)

RENEWAL NOTICE

By law, it is the licensee's responsibility to renew their license prior to expiration. Renewal can be completed online or by requesting a paper application be mailed. Renewal is available to licensees 60 days prior to the expiration date printed on the wallet card. Renewal after the expiration date printed on the wallet card is considered a Late Renewal and an additional \$50 late fee is required. Late Renewal is also available over the Internet; the \$50 late fee is automatically added to the renewal fee.

Licensees are notified that their renewal is due, through the publication of their name in this newsletter. This is the only renewal notice that is sent out. The list of licenses that expire in March, April, and May 2008 can be found in this issue. Please use the following schedule:

Licenses that expire March 15, 2008, are due by February 15, 2008, and can be renewed any time after January 15, 2008.

Licenses that expire April 15, 2008, are due by March 15, 2008, and can be renewed any time after February 15, 2008.

Licenses that expire May 15, 2008, are due by April 15, 2008, and can be renewed any time after March 15, 2008

Licensees are encouraged to renew over the Internet at the board's Website at www.state.ia.us/nursing. Renewal over the Internet can be verified immediately in the database and at the Board's website, there are no delays. Payment of the fee must be made by using MasterCard or VISA, credit or debit card.

If you don't have a credit card, you may enter the renewal information in the on-line licensure center, print each page as you go, sign the last page and then cancel the transaction when you are asked for credit card information. Then submit all the printed pages with the renewal fee in the form of a check or money order.

If you are unable to renew over the Internet, you may contact the board office, preferably in writing, to request that a paper form be mailed to you. The mailing address is: lowa Board of Nursing, 400 SW 8th Street, Suite B, Des Moines, IA 50309-4685. You may also request a paper renewal form by sending an e-mail to ibon@bon.state.ia.us, or faxing your request to (515) 281-4825.

Inactive Status

Licenses that are not renewed will automatically be placed on inactive status on the 16th of the month following the expiration of the license. Reactivating from inactive status currently requires a paper form from the lowa Board of Nursing.

Advanced Registered Nurse Practitioner (ARNP) Renewal Notice

ARNP licensees **CANNOT** renew their license over the Internet. ARNP renewal applications are mailed to the licensee's address of record sixty (60) days before expiration. Please watch for the yellow application in the mail. If an application is not received please notify this office by sending an e-mail to newnurs@bon.state.ia.us or calling 515-281-6488.

Continuing Education

The continuing education requirement for renewal of a three-year license is 36 contact hours (or 3.6 CEUs) completed between the effective and expiration dates printed on the license. The first time a license is renewed after initially being issued, or after a reactivation, the requirement is 24 contact hours (or 2.4 CEUs) because the expiring license covered less than a full three years.
