CATTLE ON FEED REVISIONS

Revision Policy: Revisions to previous estimates are made to improve month to month relationships. Estimates for the previous month are subject to revision in all States each month when current estimates are made. In February, all monthly estimates for the previous twelve months are reviewed and subject to revisions. The reviews are primarily based on slaughter data, state check-off and any other data that may have been received after the original estimate was made. Estimates will also be reviewed after data from the Census of Agriculture are available.
