

The mission of the Iowa Department on Aging is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

Strategic Plan

2013 - 2014

VISION STATEMENT

Building the best place to live healthier, longer.

MISSION STATEMENT

The mission of the Iowa Department on Aging is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

CORE FUNCTIONS

Advocacy: Advocate for changes in public policy, practices and programs that empower older Iowans, facilitate their access to services, protect their rights and prevent abuse, neglect, and exploitation. Activities may include legislative advocacy, information dissemination, outreach and referral, research and analysis and coalition building.

Planning, Development and Coordination: Conduct planning, policy development, administration, coordination, priority setting, and evaluation of all state activities related to the objectives of the Federal Older Americans Act (Federal Act).

Health: Support policies, programs, and wellness initiatives to empower older Iowans to stay active and healthy, and improve their access to affordable, high quality home and community-based services.

Internal Assessment

Agency Structure & Services: The Department on Aging (IDA) is the designated State Unit on Aging (SUA) under the Federal Act. The Federal Act, administered by the U. S. Administration on Aging (AoA) under the governance of the U. S. Department of Health and Human Services, outlines specific requirements for states to establish planning and service areas (PSAs) as well as area agencies on aging (AAAs) to carry out the Federal Act requirements. The SUA is then required to ensure compliance with federal statute and regulations as well as any state or administrative code.

IDA works to ensure a comprehensive, coordinated and cost-effective system of long term living and community support services is provided to older Iowans, their caregivers, and with increasing frequency, persons experiencing disabilities. Ten of IDA's thirty-two employees are charged with carrying out the duties of the Office of the Long Term Care Ombudsmen whose role is to ensure the rights of long term care facility and assisted living residents.

Impact of HF 45 on Iowa's Aging Network. During its 2011 session, Iowa's 84th General Assembly passed HF 45, which was signed into law by Governor Branstad on March 7, 2011 (H.J. 578). Section 20 of the bill requires IDA to develop a plan for reducing the number of AAAs from the existing 13 AAAs effective July 1, 2012. This legislative action will result in the biggest redesign in the aging network since the early 1970s. It is anticipated that full implementation of HF 45 may take an additional three to five years, which strongly suggests a two-year strategic plan is the most prudent approach to the planning process.

Review of Resources & Barriers. As of October 31, 2011, FY 2012 budgeted funding resources totaled \$28,304,891, which includes state general fund appropriations of approximately \$10,312,170 or 36.43% of the total budget; \$6,365,696 (57.82%) from the Department of Health and Human Services/Administration on Aging (Federal Act funds); \$1,144,150 (4.04%) from the Department of Labor; and approximately \$482,875 (1.71%) from other sources such as CMS, grants, conferences and transfers. IDA was appropriated no additional funds to research or design the mandated reduction process of AAAs; however, programs will be reprioritized to appropriately complete the modernization process. IDA currently employs 32 staff including 10 staff in the Office of the State Long Term Care Ombudsman. Staff time and resources are an ongoing challenge in addressing not only the modernization of AAAs but also the rapidly increasing numbers of older persons in Iowa.

Opportunities. The process to reduce the number of AAAs is an opportunity to modernize the aging network in Iowa. While this process will be ongoing and certainly present many challenges, IDA enthusiastically embraces the opportunity to engage its contracted partners, AAAs, and other executive branch departments and organizations in providing long term living and community support services to older Iowans, their caregivers, and adults experiencing disabilities with particular focus on addressing “dual eligibles” (those covered by both Medicare and Medicaid).

Strengths & Activities. IDA finds great strength in its employees and the AAAs who demonstrate a history of pulling together to get the job done for the Iowans they serve regardless of fiscal restraints. IDA also recognizes the strength of the Federal Act, which outlines a specific process to follow in reducing the number of AAAs. The process began via grassroots activities during the summer of 2011. A series of sixteen Community Conversations were held throughout the state by IDA. Three priority areas of unmet needs were identified during the conversations that will become important focal points for the newly designated AAAs. The priority issues are incorporated in IDA’s goals and strategies in the FY2013–2014 Strategic Plan and include: (1) the development of a statewide system of protections and support services for older individuals facing abuse and exploitation; (2) a focus on the lack of affordable, adequate and appropriate transportation services to allow better access to health and long term living and community support services, particularly in rural areas; and (3) increased access to behavioral health services designed and delivered to older individuals throughout the state. Please refer to goals 1, 2, and 3 in the action table that follows for further details about the strategies that will be undertaken to accomplish these activities.

External Assessment

Population Served. 621,245 Iowans 60 years of age and older lived in the state in 2010, which represents 20% of Iowa’s total population of 3,046,355, according to the the U.S. Census Bureau’s Decennial Census report. Other important findings include the fact that Iowa ranks 5th nationally in the number of residents age 65+ and 3rd in the number of residents 85 years of age and older. ¹

The report also reflects that of Iowa’s total population, 40.2% is rural and 59.8% is urban. **Gender** is reported as 50.7% female and 49.3% male. **Economic characteristics** included 11.8% of all Iowans living below the poverty level; \$48,044 as the median household income,

and \$61,156 as the median family income. Social characteristics included 11.4% of the total population age 5 or older living with a disability; 10.2% as Veterans (civilian); 90.5% as high school graduates or higher, and 25.1% earning a bachelor's degree or higher. **Race** was reported as 92.3% White; 2.5% Black or African American; 1.5% Asian; 0.4% American Indian and Alaska Native; 0.1% Native Hawaiian and Other Pacific Islander; and 1.8% as two or more races. Latinos constitute 4.3% (134,402 individuals) of Iowa's total population making people of Latino origin the state's largest race or ethnic minority.² The numeric change in the Latino population from 2000 to 2009 indicates a 63.0% increase (51,928 individuals) for the period.³

Between 2010 and 2050, the U.S. population is projected to increase 42%, from 310 million to 439 million. The nation will also become more racially and ethnically diverse, with the aggregate minority population projected to become the majority in 2042. (In this report, minority population is considered to be everyone other than non-Hispanic White.) This trend will impact how Iowa identifies and serves the ethnically diverse older population.⁴

Trends in Iowa

Trend #1: Growth of Iowa's Aging Population. The 2010 Decennial Census reported Iowa's 60+ population was 20.4% of the total state population and will grow to nearly 24.9% in 2040. The age 60-75 segment was 7.5% and will grow to about 13.6% of the total older adult population by 2040 while the age 85 and older cohort will grow to 3.1% in 2040 from 2.5% in 2010 as older Iowans live longer and the first baby boomers reach age 85.⁵

Trend #2: Access to Information. Older Iowans need to rely upon a continuum of accessible, easy-to-understand and stable programs. Of particular importance are programs that assist with adequate food, health care, transportation, shelter, and income to cover basic needs.⁶

Trend #3: Home and Community Based Services (HCBS). The need for home and community-based care can more than double an elder's expenses, significantly increasing the income needed to meet basic needs.⁷ Given Iowa's ranking as 5th in the nation in the number of residents age 65+ and 3rd in the number of residents 85 years of age or older, the importance of HCBS looms large.

Trend #4: Transportation. Transportation is the #1 unmet need of older Iowans.⁸ Transportation is a fundamental key to developing truly livable communities and promoting general consumer health and well-being for older Iowans and Iowans with disabilities of all ages.

Trend #5: Employment. In a national survey, AARP reports 70% of older workers plan to work into their retirement years.⁹ It is critical IDA and the AAAs continue to work with the private and public sector, including Iowa Workforce Development, to develop additional employment opportunities for older workers, and to advocate for the interests of older workers on statewide and local Workforce Investment Boards.

Trend #6: Nutrition. Senior centers and congregate meal services will face challenges in preparing to meet the interests and needs of aging Iowans. New business models will be required to effectively respond to this challenge.¹⁰

Trend #7: Elder Rights. Expertise in aging issues is needed to address the complexity of elder abuse, neglect and exploitation.¹¹ The number of elder abuse, neglect and financial exploitation reports continue to increase each year. Over 57% of the reports involve financial exploitation. With the current state of the economy, it is anticipated that this percentage will increase in the near future.

Trend #8: Disabilities and Limitations in Activities of Daily Living Among the Older Population. The percentage of people 65 and older with a disability is the highest of any age group (33%).¹¹

Trend #9: Poverty Rates and Income of the Older Population. Older Iowans age 65 and over continue to struggle to make ends meet. About 7% of older Iowans live at or below the federal poverty level compared to 11.8% overall in the state.¹³ Of particular importance are programs that assist with adequate food, transportation, health and long term care, shelter, and employment income to cover basic needs. These findings are amplified for older women as their incomes and assets tend to be lower, they live longer than men and they disproportionately experience costly disabilities and chronic conditions.

Trend #10: Resource Needs of the Aging Network. Future levels of federal and state funding for Aging Network services have not kept pace with the needs of older Iowans. Therefore, greater numbers of older adults are at-risk of isolation, inadequate services, increased hospitalizations, and premature or unnecessary institutionalization.

IOWA DEPARTMENT ON AGING 2013 – 2014 STRATEGIC ACTION PLAN

GOAL 1			
Educate and empower older Iowans, their families, and caregivers to make informed decisions and easily access, long-term living community support services to remain independent with a high quality of life			
Lead Leader: Assistant Director			
Team: Formed as Needed			
Strategies	Action Steps	Person(s) Responsible	Due Date
<p>1. (ADRC) Expand ADRC network statewide to ensure access and continuity of services. (Source: Community Conversations, 2011)</p> <p>Performance Measure: Increase the number of ADRC networks across the state.</p>	a. Work with local and regional partners to identify a minimum of 5 ADRC networks within each region and ongoing sustainability.	ADRC Team, IME, DHS, DPH, SILC,	Year 2
	b. Increased partnerships with organizations working with persons with behavior health, intellectual and physical disabilities, and persons who are dual eligible through the expansion and development of ADRCs. (Source: Community Forums, 2010; Thomson Reuters)	ADRC Team, IME, I/RA Steering Committees	Year 2
	c. Establish unified single-point-of-entry information, referral and access database.	ADRC Team, Partners	Year 1 & 2
	d. Educate and support the development of ADRC core pillars within each ADRC site.	ADRC Team , Partners	Years 1 & 2
	e. Utilize the developed standard evaluation process to assess effectiveness and identify efficiencies.	ADRC Team	Years 1 & 2

Strategies	Action Steps	Person(s) Responsible	Due Date
<p>2. (Transportation): Increase focus on the lack of affordable, adequate and appropriate transportation services to allow better access to health and support services, particularly in rural areas.</p> <p>Aligns with Governor Branstad’s goal to: Increase Family Incomes.</p> <p>Performance Measure: Transportation Report highlighting available services, unmet needs of older lowans and recommendations to move the project forward.</p>	<p>a. Work with local and state partners to (1) assess available transportation services; particularly in rural areas, (2) the unmet transportation needs of older lowans including the behavior health and disability communities, and (3) research best practices to identify barriers and opportunities for Iowa.</p> <p>b. Use data from DOT, INAPIS, State Program Report and UNI Study to measure effectiveness and identify efficiencies.</p> <p>c. Create IDA Transportation Resource Team to move project forward.</p>	<p>Program Coordinator, DOT, state and federal agencies, partners</p> <p>Program Coordinator, Statistical Analyst</p> <p>Management, Program coordinator</p>	<p>Year 1</p> <p>Year 1</p> <p>Year 2</p>
<p>3. (Employment) Develop an initiative on how to stimulate the employment of older workers in competitive jobs with equitable wages and benefits to assure economic security.</p> <p>Aligns with Governor Branstad’s goal to: Increase Family Incomes.</p> <p>Performance Measure: Baseline performance measure to be developed</p>	<p>a. Continue partnering with Iowa Workforce Development to ensure older job seekers maximize employment planning and assistance services.</p> <p>b. Identify methods and resources to educate employers on the value and needs of older workers and the needs of older lowans.</p> <p>c. Research and identify resources to develop a one-stop website as a resource for job seekers and employers that includes information on education, training and employment opportunities; possibly through the ADRC network.</p> <p>d. Use existing data to evaluate program activities to assess effectiveness and identify efficiencies.</p>	<p>Employment Team, Workforce Dev.</p> <p>IDA Employment Team</p> <p>IDA Employment Team, AARP, Workforce Development</p> <p>Employment Team, Statistical Analyst</p>	<p>Years 1 & 2</p> <p>Years 1 & 2</p> <p>Year 2</p> <p>Year 1 & 2</p>

Goal 2
Empower older Iowans to stay active and healthy through Older American’s Act services including evidence based diseased prevention programs and health promotion services

Lead Leader: Assistant Director
Team: Formed as Needed

Strategies	Action Steps	Person(s) Responsible	Due Date
<p>1: Expand data sharing among state agencies, aging services, health care and other strategic partners to identify high risk older adults and family caregivers (Thomson Reuters)</p> <p>Aligns with Governor Branstad’s goal to: Reduce the Cost of Government.</p> <p>Performance Measure: 1) Will have a statewide mission statement on long term living supports and services across executive branch agencies. 2) Baseline performance measure to be developed</p>	<p>a. Work to create a shared vision across state agencies regarding long term living and community support services in Iowa to include an aging goal within each agency (Thomson Reuters).</p>	<p>IDA Management Team, DHS, DIA, IDPH, Workforce Dev, DOT</p>	<p>Years 1 & 2</p>
	<p>b. Increase the use of technology to reduce cost and increase efficiencies across executive branch partnerships. Examples: merge SNAP, Farmers Markets, Smart Card using SNAP EBT card.</p>	<p>IDA Management Team, DHS, DIA, IDPH</p>	<p>Years 1 & 2</p>
<p>2. (Behavioral Health) Examine and research options for an effective and efficient mental health system.</p> <p>Aligns with Governor Branstad’s goal to: Reduce the Cost of Government.</p> <p>Performance Measure: Baseline data to be developed</p>	<p>a. Collaborate with DHS Mental Health Design Task Force to identify options and partner with DHS in educating providers in becoming aging capable</p>	<p>IDA, Mental Health Team</p>	<p>Years 1 & 2</p>
	<p>b. Continue partnership with DHS, MHDS Division, and Magellan in efforts to increase public awareness of behavioral health needs of the aging population.</p>	<p>Behavioral Health Team, DHS/MHDS, Magellan</p>	<p>Year 1</p>
	<p>c. Develop three types of public training material in collaboration with AAAs</p>	<p>IDA Behavioral Health Team, AAAs</p>	<p>Year 2</p>
	<p>d. Evaluate activities and develop best practices to make recommendations to IDA Management</p>	<p>IDA Behavioral Health Team</p>	<p>Ongoing</p>

Strategies	Action Steps	Person(s) Responsible	Due Date
<p>3. (Nutrition) Promote policies and planning with pragmatic methods to create a balance with innovative and creative ideas on the local level.</p> <p>Performance Measure: Baseline measure to be developed</p>	<p>a. Work with Care Transition Teams to educate and ensure nutrition is component in patient discharge planning and partnering with AAA's for future follow up.</p> <p>b. Use data from IAFRS, INAPIS, State Program Report and UNI Study to evaluate program and to make recommendations to IDA Management for future planning.</p> <p>c. Promote and support the increase of Chef Charles statewide and coordinate with community Blue Zones.</p>	<p>Nutrition Team, ADRC Team</p> <p>Program Director, Statistical Analyst</p> <p>Program Director</p>	<p>Year 1</p> <p>Years 1 & 2</p> <p>Year 2</p>

Goal 3			
Ensure the rights of older Iowans and prevent their abuse, neglect and exploitation			
Lead Leader: State LTC Ombudsman			
Team: Formed as Needed			
Strategies	Action Steps	Person(s) Responsible	Due Date
<p>1. Design the infrastructure and begin initial implementation of a statewide elder protection system. (Source: Community Conversations, 2011)</p> <p>Aligns with Governor Branstad’s goal to: Reduce the Cost of Government.</p> <p>Performance Measure: Develop baseline measures.</p>	a. Create an Office of Elder Rights & Protection to align all OAA Title VII programs.	Elder Rights Team	Year 1
	b. Develop and make recommendations for an elder protection system by researching champion states and provide community education and public awareness.	Elder Rights Team, State Agency Partners	Years 1 & 2
	c. Research and work toward implementation of an Iowa elder abuse prevalence study replicated after New York’s experience and identify resources.	Elder Rights Team	Year 1
	d. Design an evaluation method for analyzing data on Title VII programs to assess effectiveness and identify efficiencies.	Elder Rights Team, Statistical Analyst	Years 1 & 2
<p>2. (LTCO) Expand and strengthen the capacity of Long-Term Care Ombudsmen.</p> <p>Aligns with Governor Branstad’s goal to: Reduce the Cost of Government.</p> <p>Performance Measure: Increase visits to facilities and Assisted Living Programs to quarterly visits.</p>	a. Explore redesigning methods to closer resemble OAA’s volunteer ombudsman program or RAC.	LTCO Team	Year 1
	b. Strengthen Family & Resident Councils.	LTCO Team	Year 1
	c. Use data from ombudsman data collection program to evaluate progress and make recommendations to IDA management.	State LTCO, Admin Asst, Statistical Analyst	Year 1 & 2
	d. Increase collaboration between AAA, local ombudsman, and partners in aging network.	LTCO Team, AAA, Aging Network Partners	Year 1 & 2

Goal 4			
Continued system adjustment to align responsibility and to accommodate new process designs and innovations			
Lead Leader: Assistant Director			
Team: Formed as Needed			
Strategies	Action Steps	Person(s) Responsible	Due Date
1. Redesign and align the Department on Aging Performance Measure: Update and modernize a minimum of 3 Iowa Code chapters and accompanying administrative rules per year.	a. Align process from OAA & Iowa Code to Individual Employee Performance Plans.	IDA Mgmt Team	Year 1
	b. Become known as the primary resource on aging issues; create framework for awareness campaign; and provide technical assistance, education & training to the aging network.	IDA Team	Year 1 & 2
	c. Further develop partnerships with universities for research and innovation.	IDA Team	Year 1 & 2
	d. Provide strategic plan update to Commission on Aging quarterly	Strategic Planning Team	Quarterly
2. Modernize the Department on Aging infrastructure. Performance Measure:	a. Design required Area Plan to include a strong regional strategic plan for each Planning and Service Area that aligns with IDA's strategic plan.	IDA Mgmt Team, AAAs, AG	Year 1
	b. Develop standardized data reporting criteria for newly established AAAs.	IDA Mgmt Team, AAAs, AG	Years 1
