

Week ending issue: September 26, 2014 – Issue #226

Policy

**From the WIC Services Policy and Procedure Manual – 330.50
 Breast Pumps Due Report**

Description	This report lists participants that currently have breast pumps assigned to them.
Data updated	Weekly
Parameters	Local Agency
Records reported	All breast pumps that have a Due Date and a blank Returned Date where the Due Date is in the current month or past due.
Report columns	Report columns include: <ul style="list-style-type: none"> • Local Agency / Clinic • Date Due • Date Issued • Parent / Guardian Name • Home Phone • Pump Type • Serial Number • Reason Pump Issued
Data sort order	Local Agency, Clinic, Date Due
Totals available	None
Tips	<ul style="list-style-type: none"> • Use this report to follow-up with mothers when pumps are due to be returned. • Use this report to ensure that breast pumps are available for highest priority or highest risk participants. • If the report is run during the last week of the month, the data for the following month will also be pulled into the report.

Information

Enfaport Changes

We have been notified by Mead Johnson that they are transitioning Enfaport RTU 8 oz cans to 6 oz 6-packs. They estimate that the new 6-packs will start to be seen in the market place in October 2014. Due to the difference in total ounces and cost we cannot do an “OR” statement for this change and so it will

be 2 separate check descriptions. What we are asking is that beginning October 1st when issuing checks for Enfaport that you call the vendor in which the client will be obtaining this product from and find out what product size they will be able to get. If the vendor's warehouse still has the 8oz Enfaport we ask that you select the 8 oz Enfaport check description and issue checks on a month to month basis until their warehouse is able to get the 6 oz 6-packs and then change to the 6 oz 6-pack check description. At that time multiple months of FIs may be issued again. Agencies with participants currently on this formula have already been notified of the need to do this so this is for all new clients being put on Enfaport. Please call the state office with any questions.

Periflex Junior/Periflex Junior Plus Name Change

We got word that Nutricia is "upgrading" Periflex Junior....again! They just had a name/container size change in July from 16oz Periflex Junior to 14.1 oz Periflex Junior Plus and now they are "upgrading" to 14.1oz PKU Periflex Junior Plus. Per Nutricia both products are available now and they anticipate this to be the case through January 2015 (at least). In talking with our vendors and their warehouses/suppliers it seems they still have quite a bit of the old product but depending on the vendor it may be the 14.1 oz size or the 16oz size so we have had to create an "OR" statement with 3 products. "Conts Pwdr 16 oz or 14.1 oz Periflex Jr OR 14.1oz PKU Periflex Jr Plus". Agencies with participants currently on this product have been notified but please explain this to any new participants who begin to receive this product and let them know if the pharmacy has any issues or questions they can call us.

Gerber Good Start Nourish

We have been notified that Gerber is discontinuing Gerber Good Start Nourish for reasons related to production improvements. This formula has been deactivated in IWIN.

New WIC Learning Online Course

WICworks is pleased to announce a new one hour online course titled, *WIC Baby Behavior Basics*, available through WIC Learning Online. The course can be accessed via the following link: <http://wicworks.nal.usda.gov/wic-learning-online>. One of the purposes of the WIC program is to help caregivers and parents of infants to properly care for and to meet the needs of the infants in their care. The goal of this course is to introduce WIC staff to Baby Behavior concepts and techniques. Using this knowledge, the staff can in turn educate and support caregivers and parents on how to appropriately respond to the behaviors and cues of infants.

WICworks has also expanded their resources page <http://wicworks.nal.usda.gov/infants/baby-behavior> on this topic (this link is available at the end of the course and is also listed under Topics A-Z).

WIC Shout Outs

WIC SHOUT OUTS on Facebook

We need your help! We want to get back to weekly SHOUT OUT posts on Facebook to celebrate and highlight success and attract new clients! You can help! The next time you receive positive feedback, a success story from a client about making a positive change, or even just a sincere thank you from a client saying WIC really helps, then type it up and email it to me at nikki.davenport@idph.iowa.gov I only need the clinic that they go to, not their name. I'd love to see my mailbox fill up with these SHOUT OUTS! Thanks!

Participant Centered Services

WIC's Role

Our role in WIC is a Behavior Change Agent. We are here to inspire people to change, to guide them and support them, make suggestions and help them find solutions for a problem in their life and then celebrate their successes. We are not here to simply transfer our knowledge or tell people what they need to do. What sounds more enjoyable to you- going to a place that will help you figure out the best way for you to handle your picky eater under your specific circumstances or going to a place that is going to tell you what you need to do and everything else you're doing wrong or should change?

WIC 40th Anniversary Trivia

WIC 40th Anniversary Trivia Week #14

Note: Last call for local agencies to submit questions and be eligible for a prize drawing at the October 9 training, see details below.

Week #13 questions with answers in bold:

- Fresh cilantro is an allowable item to be bought with Cash Value Vouchers? **False**
- What past State WIC Health Consultant in Iowa is now the Executive Director for the Center for Nutrition Policy and Promotion within USDA? **Angie Tagtow**
- What minimum percent of each local agency budget must be spent on nutrition education and breastfeeding promotion and support activities? **Twenty percent must be spent**
 - 15%
 - 30%
 - 40% or
 - 20%

Week #14 questions(These question submitted by MATURA)

- Before IWIN, what was the name of the form that had to be filled out daily, recording every client that was seen and mailed to the state?
- What had to be done to every check prior to being issued?
- How often were checks mailed to agencies prior to IWIN?

Join the fun with Trivia,

Consider writing up a few trivia questions that would pertain to WIC in general or would be appropriate state wide and send them to Holly at holly.szcodronski@idph.iowa.gov or fax to 515-281-4913. For each question submitted and used in the Friday Facts, your agency will be put in a drawing with the winner to be announced at the WIC training on October 9th.
