### Mission Statement

To deliver efficient and effective services to enable and support the mission and operations of our stakeholder agencies.

## Aging, Iowa Department of

### Mission Statement

The mission of the Iowa Department on Aging (IDA) is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

### Description

Iowa Department on Aging is the central point of focus in state government regarding elder Iowans under both the federal Older Americans Act and Code of Iowa Chapter 231 and works through Area Agencies on Aging and the Iowa Aging Network to increase the public awareness of issues regarding elder Iowans and availability and access to programs and services to elder Iowans. Advocacy, case

management, and a broad array of home and community based services are provided to elders and their caregivers to reduce the incidence of institutional care (nursing homes and other more costly settings) and extend independent living. In FY2015, funding was provided to reestablish the Office of Substitute Decision Maker (OSDM). The mission of the OSDM is to preserve individual independence through a person centered process by educating, providing assistance to public and private substitute decision makers, assisting in substitute decision making proceedings and providing substitute decision making services in the least restrictive manner. Additionally, long-term care ombudsman services provide advocacy for elders in nursing homes and similar health care settings; all related to health, safety, and well-being.

#### Appropriation Description

The Iowa Department for the Blind is the state agency charged with providing vocational rehabilitation, independent living, library, and other essential services to Iowans who are blind so that they can live independently and work competitively. The policies and procedures of the Department are grounded in state and federal law, including sections 216B, C and D of the Code of Iowa, the Rehabilitation Act of 1973, as Amended, and the Randolph-Sheppard Act. The Department has used these mandates and the

expressed needs of our consumers to establish a highly successful service delivery system that has been emulated both nationally and internationally.

The Department's three major service areas--vocational rehabilitation (VR), independent living (IL), and library--are provided through four organizational divisions: Field Operations, the Adult Orientation and Adjustment Center, the Business Enterprises Program (BEP), and the Library for the Blind and Physically Handicapped. The foundation that underlies all of our programs is our positive philosophy of blindness. This philosophy also underscores the Department's mission which guides the delivery of these services to our consumers.

### Civil Rights Commission

#### General Fund

#### Appropriation Description

The Iowa Civil Rights Commission (ICRC) is a law enforcement agency whose primary mission is to eliminate discrimination through enforcement of the Iowa Civil Rights Act (ICRA) through competent and timely processing of complaints received by the ICRC. Enforcement of the ICRA can only be achieved if the ICRC is staffed by a sufficient number of well trained, competent and accountable staff members or the equivalent of FY14 FTE levels.

ICRC provides a cost effective and accessible process that resolves discrimination complaints in the areas of employment, housing, public services (public accommodation), education, and credit. Complainants can file with or without an attorney; there are no costs for filing. To prevent discrimination, ICRC offers training, education, and community outreach.

An effective discrimination enforcement agency helps Iowa increase the pool of qualified workers, in turn insuring Iowa receives broad based economic contributions from all sectors of society and full benefits from a diverse, creative workforce. To attract and sustain a pool of highly skilled workers, our agency assists in the training of a culturally competent workforce. Our agency educates business and industry on discrimination laws and diversity issues to prevent problems and provide a more welcoming economic climate.

## Utilities Division

### Commerce Revolving Fund

#### Appropriation Description

This appropriation funds the operations of the Utilities Division within the Department of Commerce. The Utilities Division/Utilities Board is charged with the responsibility of establishing just and reasonable rates for consumers while maintaining the financial integrity of those utilities under its rate jurisdiction, ensuring efficient, safe, and reliable telecommunica-

tions, electric, natural gas, and water utility services, overseeing energy efficiency programs, participating in relevant federal proceedings, and overseeing "Relay Iowa" and the equipment distribution program which enable people with communication impairments to access the telecommunications system. All Iowa Utilities Board costs are assessed directly to the state's utilities. If funding for the Utilities Board were to be eliminated, the state would be unable to regulate the rates and services of Iowa's electric, natural gas, water and telephone utilities. In 2014, these utilities collected more than \$7.1 billion from Iowans.

To advance successful offender reentry to protect the public, staff and offenders from victimization.

Currently the corrections system employs about 3,800 staff, has custody over more than 8,200 offenders in prison, and supervises about 30,000 offenders in the community.

## Description

The Department of Corrections is an agency within the executive branch of state government. The department is responsible for administration of the nine institutions forming the state prison system as well as accreditation and funding of the eight district departments of correctional services to administer community-based corrections in the state. Community-based corrections encompasses pretrial, presentence investigation, probation, parole, special sentence supervision for sex offenders, and operates residential correctional facilities for offenders including work release and drunken driving treatment programs.

Institutions and districts work together to provide seamless custody and supervision of offenders including case planning and treatment to reduce offender recidivism and promote offender reentry into their communities. ## Vocational Rehabilitation DOE

### General Fund

#### Appropriation Description

To provide comprehensive vocational rehabilitation service to eligible disabled Iowans through the provision of diagnostic, evaluation, counseling, placement, training, maintenance, transportation and physical restoration services. This provision of service will result in Iowans achieving their employment, independence and economic goals.

By federal law, once an eligible client is on the case-load; he/she must receive the full range of VR services necessary to work toward his/her employment goal. While services actually used vary by individual, the services needed by each client must be provided. Consequently Case Services and Rehabilitation Services are inextricably linked in the delivery of services and goal achievement. Funds can be spent on personnel, operations, purchase of goods and services towards meeting client's employment goals, and third party cooperative arrangements with public entities to provide services for clients.

## Independent Living

### General Fund

#### Appropriation Description

The overall concept of Independent Living Rehabilitation Services (ILRS) is complementary to that of the traditional Vocational Rehabilitation program in that both are designed to assist people with disabilities to reach established goals. The major differences are that eligibility for ILRS is not contingent upon the consumer's employment potential; and the outcome of services is measured by the individual's ability to function more independently in their home, family and community rather than securing employment.

Two approaches are used to improve the capacity or enable individuals with severe physical or mental disabilities to function more independently in their family and community, or when appropriate, to secure or maintain employment. A program operated by IVRS which provides direct services, including assistive technology, to individuals to assist in independent functions. Funds can be spent on personnel, operations, and the purchase of goods and services towards meeting the client's independent living goals. Funds are also provided to Centers for Independent Living (CIL's) in local communities to build capacity for non-duplicative services and programs. Services are coordinated to assure that they are available state-wide and to avoid duplication.

## State Library

### General Fund

### Appropriation Description

The State Library's role in Iowa's library system is leadership and coordination. State Library services fall into two distinct groups, direct library services and statewide library development. Direct library services provide library services to the three branches of government, the Iowa legal community, the Iowa health care community, and the general public. In addition to a library of more than 200,000 book volumes and hundreds of magazine titles, resources found at the State Library include Iowa's only patents

and trademarks library, an extensive collection of publications produced by state government, federal publications, and Iowa's liaison to the U.S. Census Bureau for Iowa census data. The intent of the State Library's statewide library development services is to ensure all Iowans equitable access to library services. Statewide programs include SILO, Iowa's electronic library network; Enrich Iowa, Iowa's direct state aid program for public libraries; Open Access, Iowa's statewide library card program; Access Plus, Iowa's library to library loan program; library accreditation; and librarian certification. State appropriations fund all direct library services and the statewide library development services of Enrich Iowa, SILO, Open Access, and Access Plus.

## Enrich Iowa Libraries

### General Fund

### Appropriation Description

Enrich Iowa, Iowa's direct state aid program for public libraries, is designed to improve library services and to reduce inequities among communities in the delivery of library services. The impact this program is having is: 1.) A number of libraries are increasing library hours making the library accessible in the evening and on weekends; 2.) Some libraries are making the Internet available to their communities for the first time while others are adding computer stations for public use; 3.) Others are purchasing new library books, videos, books-on-tape,

large print books, etc.; and 4.) Others have formed partnerships within their communities to support reading and literacy programs, to establish learning centers, to promote reading to infants and children.

Other benefits to Iowa communities are seen in the increased interest in librarian certification and library accreditation programs, increased enrollment by librarians in continuing education classes, and an increased demand by library boards for consultation and assistance in how to evaluate to improve local library services.

### General Fund

### Appropriation Description

The purpose of this program is to provide transportation for students attending approved nonpublic schools. Public school districts are required to provide transportation to children attending an approved nonpublic school, through either the

district's buses, contracted bus services, or parental reimbursement. Districts are reimbursed for costs of this service to the extent that funds are appropriated. ## Gap Tuition Assistance Fund - SWJCF

### Iowa Skilled Worker and Job Creation Fund

#### Appropriation Description

Gap Tuition Assistance Fund program is a program designed to fill the gap where federal financial aid does not cover. These are shorter non-credit certificate programs that are not eligible for federal financial aid but help lead to employment for the students.

There are requirements regarding eligibility and participation and program requirements regarding what is an eligible program. All of these rules are spelled out in code. The 2 million appropriation is allocated among the 15 colleges to help subsidize the tuition costs for the students participating in the programs. Each college is responsible for how they fund the cost, whether they cover 100 percent of tuition and fees or whether it is some percentage of this.

## Disability Determination Services

### Fund Description

This account receives federal funds under an agreement with the Social Security Administration to determine if a person is eligible for social security disability benefits. Funds are spent directly from the fund and are used for personnel, operations, and medical evidence of record, and consultative examinations for disability applicants. The Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services-Department of Education is a 100% Federally funded Program with its purpose being to provide for the determination of eligibility for Social Security Disability and Supplemental Security Income Benefits to Disabled Iowans.

These Iowans have applied to the local Social Security Office for these benefits. Their application is forwarded to the Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services for the determination process as to their eligibility to receive these benefits. The Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services-Department of Education will make disability decisions on disabled Iowans applying for Social Security benefits. It is anticipated that this determination process will result in Iowa applicants receiving disability benefits. A portion of these claims will be reviews of disability recipients to determine whether disability benefits should continue.

### Pre Disaster Mitigation - Competitive

#### Fund Description

The Pre-Disaster Mitigation (PDM) program provides funds to States, Territories, federally recognized Indian Tribal governments, and communities for hazard mitigation planning and the implementation of mitigation projects prior to a disaster event. Funding these plans and projects reduces overall risks to the population and structures, while also reducing reliance on funding from actual disaster declarations.

Federal Emergency Management Agency (FEMA) will ensure that a State receives no less than \$500,000 for sub applications within the State that meet all the eligibility requirements of the program. All eligible sub applications compete nationally for the PDM funds.

The PDM program is subject to the availability of appropriation funding, as well as any directive or restriction made with respect to such funds. The PDM program is subject to the anticipated reauthorization of the program beyond each Federal fiscal year.

Mitigation planning: \$1M cap on Federal share for new plans, not to exceed 3 years;

Mitigation planning: \$500,000 cap on Federal share for updated plans.

Mitigation projects: \$3M cap on Federal share, not to exceed 3 years;

Total State cap on Federal share is 15% of total appropriation in any year;

Information dissemination activities: not to exceed 10%, must directly relate to planning or project sub application;

Applicant management costs: not to exceed 10% and must be submitted by a separate management cost application; and

Sub applicant management costs: not to exceed 5%, and must be included in overall activity costs within the sub application.

# Human Rights, Department of

## Mission Statement

The Department of Human Rights exists to ensure basic rights, freedoms, and opportunities for all by empowering under-represented Iowans and eliminating economic, social, and cultural barriers. We help individuals attain economic independence by ensuring access to government services and advancing educational achievement and entrepreneurial success consistent with their aspirations.

## Description

The Department of Human Rights was created in 1986. The department is comprised of three divisions: Central Administration, Community Advocacy; Criminal & Juvenile Justice Planning (CJJP). Both Community Advocacy and CJJP work with commissions or councils that are appointed by the Governor. They are responsible for policy and decision making, recommending legislation, adopting rules, reviewing progress of programs, and advocating for the populations that they serve. The goal is to have the commissions or councils be politically, geographically and gender balanced.

## Criminal & Juvenile Justice

### General Fund

#### Appropriation Description

CJJP also administers federal grant programs that fund local and state projects to prevent juvenile crime, provide services to juvenile offenders and otherwise improve Iowa's juvenile justice system. It carries out its duties with the oversight of the Iowa Criminal and Juvenile Justice Planning Advisory Council and the Iowa Juvenile Justice Advisory Council.

There are local offices in all 99 counties with 42 operating on a full time basis. About 94 percent of the Field Operations budget goes to staff salaries and benefits. Approximately 79 percent of staff are front line workers and their supervisors, divided between three groups: 1.) Social Worker 3 staff who complete child and dependent adult assessments when abuse is alleged. These workers address safety issues; evaluate service needs, and make recommendations

regarding protection of the child/dependent adult; 2.) Social Worker 2s work to assure the safety of children and dependent adults while working to help families stay together whenever possible. When it is not possible for a child to remain in their home, staff work to help find a safe, stable and permanent living arrangement and 3.) Income Maintenance 2s work with low income Iowans as well as the elderly, disabled individuals or pregnant women to meet their nutritional, financial, and medical needs at a basic level. For the remaining 21 percent of staff, 17 percent are staff who respond to customer calls, review and process payment, process the scanning of documents and/or other administrative functions, about two percent are management staff who oversee the service area operations and work with communities to support their needs and two percent are specialized staff who work as contract managers, hiring and IT review and support.

## Child Support Recoveries

### General Fund

#### Appropriation Description

All states participating in the FIP/TANF and IV-E foster care programs must have a child support recovery program. CSRU locates staff across the State to ensure compliance with Federal and State requirements for establishment and enforcement of child and medical support. The State's required match for operating costs of the program is 34%.

CSRU establishes paternity in out-of-wedlock births so that two parents are legally responsible for the children, as well as establishing child support and medical orders, which creates the legal authority to collect support and enforce health insurance for children. Collections for public assistance families are assigned to the State to help reimburse taxpayer costs. Customers can apply to have child and medical support orders modified. There are also limited special services to facilitate access and visitation and other parental activities to address barriers to the payment of support.

## State Supplementary Assistance

### General Fund

#### Appropriation Description

This appropriation provides funding for the State Supplementary Assistance (SSA) program. The SSA program assists individuals who meet all Supplemental Security Income (SSI) eligibility requirements and whose income is insufficient to pay for certain special needs. In Iowa, these needs are defined as

residential care, family life homes, in-home health-related care, dependent person allowance, mandatory supplement, blind allowance and supplement for Medicare and Medicaid enrollees. To meet the federal Maintenance of Effort requirement, the State Supplementary Assistance program must maintain minimum required payment levels. Failure to meet the State Supplementary Assistance Maintenance of Effort requirement jeopardizes the federal funding for the entire Medicaid program.

The Child Care Assistance appropriation provides funds to support families in achieving and maintaining self-sufficiency, to ensure children are cared for in settings that meet minimum health and safety standards, and to promote high quality child care services.

The appropriation provides funding for children of low-income parents (gross monthly income below 145% of the federal poverty level or 200% of FPL if they have a child with a special need) who are working 28 hours or more a week, or are in school

full-time, or are working and in school for a combined minimum of 28 hours per week, children needing protective child care, children who have been placed in adoptive families, the early childhood program (empowerment), and the Child Care Resource and Referral (CCR&R) system.

## MI/MR/DD State Cases

### General Fund

#### Appropriation Description

The state payment program funds mental health and disability services for adults with mental illness, intellectual disability, and/or a developmental disability. Prior to SFY13, the State Payment Program funded mental health and disability services for individuals who did not have a county of legal settlement. Beginning in SFY13, counties were relieved of the responsibility of providing the non-federal share of Medicaid mental health and disability

services. In SFY13, the General Fund appropriation for state cases was appropriated to the Medical Assistance and MHDS Redesign appropriations to pay Medicaid MHDS costs previously incurred by the counties. Beginning July 1, 2013, the legal settlement concept was replaced with county of residency so the majority of individuals served in the state payment program will have an identified county of residence. The county of residency is now responsible for funding non-Medicaid eligible services. The state payment program funds services for individuals whose county of residency is unknown using Social Services Block Grant funding.

## MHDS Equalization

### General Fund

### Appropriation Description

In SFY14, counties funded non-Medicaid mental health and disability services for adults with mental illness or intellectual disabilities. Beginning in SFY15, MHDS regions will be responsible for funding MHDS services. SF2315 established a process for equalization payments to be paid to coun-

ties in SFY14 and SFY15 for MHDS services. The code established a \$47.28 per capita base funding level. State general funds are paid to counties to equalize funding for MHDS services without increasing MHDS property tax rates in those counties below \$47.28 per capita. Counties with maximum levy amounts falling below this amount receive an equalization payment and counties above this amount are required to reduce their property tax levy down to \$47.28 per capita.

### State Housing Trust Fund

Local Housing Trust Funds (LHTF) and 40 percent awarded to specific affordable housing projects.

#### Fund Description

Iowa Code requires 60 percent of available funds in the State Housing Trust Fund (SHTF) be awarded to

IFA currently administers the fund pursuant to an Annual SHTF Allocation Plan. LHTF are formal,

active and vital community-based organizations engaged in addressing impediments that cause communities to be less attractive. They collaborate and network with and receive support from local entities and leverage local resources, finances and talent from public and private sectors. Most operate county-wide or regionally. Offering a competitive state grant program encourages community leaders to organize eligible LHTF boards to apply for STHF program funds. Since July 2003 when Code 16.181 was enacted, cities, counties or regions have established nineteen IFA-certified LHTF boards.

To date, the monies have been spent for construction, rehab and preservation of single family and multi

family housing; owner-occupied rehab and repairs and emergency owner repair; repairs and maintenance of nonprofit owned units; operations and housing supportive services for nonprofit entities; down payment and closing cost assistance for first time homebuyers; funding for emergency shelters and transitional housing; housing for persons with disabilities; neighborhood-wide housing rehabilitation; gap financing for new subdivisions which offer affordable housing to working families; and, funding to provide downtown second-story affordable loft housing as a way to attract and keep young professionals in the community. At least 30 percent of funds must be used to assist extremely low-income households.

# IPERS Administration

## Mission Statement

Administer a cost-efficient retirement plan that provides lifetime pension payments to public employees and serves to attract and retain a quality workforce. IPERS is a sustainable and affordable retirement plan that is valued by all Iowans and provides members with secure income, supports self-sufficiency in retirement, and contributes to local economics.

IPERS, a state agency in the executive branch of state government, has provided a pension plan for Iowa's public employees for over 50 years. IPERS is a defined benefit plan funded through member contributions, employer contributions, and investment income.

## Description

IPERS is the largest public pension plan in Iowa with over 346,000 members, over 1,800 participating public employers, and a trust fund with a market value of over \$28.0 billion at the end of fiscal year 2015. Approximately 167,000 members are active members who are working for a public employer and contributing to IPERS. There are about 111,000 retired members. IPERS membership also includes inactive members who no longer pay into the system but still have money in the trust fund.

By law, most individuals become members of IPERS when they begin employment at any IPERS-covered public employer, which includes schools, cities, counties, state government, and other government agencies. IPERS members range in age from 16 to over 100. Members live in all 99 Iowa counties and most benefit recipients stay in Iowa when they retire.

Professionalism through training.

## Description

The Iowa Law Enforcement Academy provides the best basic, specialty, and supervisory training to Iowa peace officers, jailers, and telecommunicators. This training includes instructor certification in several areas such as firearms, defensive tactics, driving, and jail training. The training is conducted both at the Academy located on Camp Dodge in Johnston as well as across the State of Iowa. More than 3,519 law enforcement personnel were trained in fiscal year 2014.

# Legislative Branch

## Mission Statement

The legislative branch creates laws that establish policies and programs.

## Description

The legislative authority of the State is vested in a General Assembly consisting of a fifty member Senate and a one hundred member House of Repre-

sentatives. The General Assembly meets annually commencing on the second Monday in January. Each House sits upon its own adjournments; keeps a journal of its proceedings; publishes the same; determines its rules of proceedings, punishes members for disorderly behavior; and, with two thirds consent of its members, can expel a member. It has all powers necessary for a branch of the General Assembly of a free and independent state.

## Mission Statement

Lead enterprise planning and coordinate enterprise systems so Iowans receive the highest possible return on public investment.

## Description

The Department of Management provides leadership and support to the rest of state government and to local governments. Major fiscal-related responsibilities include the preparation of the Governor's recommended budget, analysis and implementation of the budget and legislation approved by the general assembly, tax and revenue estimating and analysis, overall fiscal and budget management and oversight, policy development and implementation, grants management, and participation in and staff support for the State Appeal Board, which handles tort and

other legal claims against the State. The Department also provides budget, valuation, tax levy, utility tax replacement, and other support and oversight to local governments, including schools. Major accountability functions include systems and support for planning, measures, improvement, and reporting, all emphasizing performance. The Department leads organizational transformation in state government, promoting change that moves state government beyond the traditional, bureaucratic paradigm to one that is more dynamic, effective, and results-oriented. As part of all these activities, Department staff frequently provide data and information to the Governor, Lt. Governor, legislature, other state agencies, media, stakeholders, and the public. The Department is also frequently called upon to lead or coordinate major state-government-wide projects and initiatives.

# Parole, Board of

## Mission Statement

Comprehensive and efficient consideration for parole and work release of offenders committed to the department of corrections. Expeditionary revocation of paroles of persons who violate release conditions. Careful consideration of victims opinions concerning the release decisions. Quality advice to the governor in matters relating to executive clemency. Timely research and analysis of issues critical to the performance of the board of parole.

## Description

The Board of Parole was established in 1907 by the 37th General Assembly. The Board is composed of one full-time chairperson, one full-time vice-chairperson, and three per diem members who are appointed by the Governor and confirmed by the Senate for staggered four-year terms. The Board is directly responsible to the Governor, and the chairperson serves at the pleasure of the Governor. During the 1998 legislative session, the General Assembly funded a full-time vice-chair position to assist with the administrative responsibilities of the Board. The

Board has its own support staff but receives administrative support services from the Department of Corrections.

The Iowa Board of Parole's mission is to reintegrate offenders into the community that can be released from prison without detriment to the public or themselves.

To achieve the mission, the Board:

Performs objective risk evaluations for prison inmates, reviews all eligible parole case files annually, holds hearings with eligible inmates, and selects viable candidates for conditional release on parole and work release.

Revokes the conditional release and returns to prison those offenders that fail while on parole and work release.

Notifies victims of relevant information not less than 20 days before a parole hearing, so victims' opinions may be considered when making parole and work release decisions. Advises the Governor on matters of executive clemency.

## Mission Statement

Provide units and equipment to protect life and property and come to the aid of Iowans in a time of need, to preserve peace and order, and to insure public safety for the citizens of Iowa.

## Description

The Iowa National Guard is a dynamic organization operating in an ever-changing environment. The Iowa Army and Air National Guard are organized under Departments of the Army and Air Force tables of organization and equipment, and are trained and equipped in accordance with Department of Defense policies. Our primary purpose is to train and be able to deploy combat ready organizations and units to respond to war and national emergencies. The Iowa National Guard is one of the primary organizations in state government for responding to and mitigating emergency situations in Iowa. Through the National Guard's unique peacetime status of being under the state governor's control that is provided by the U.S. Constitution, the National Guard is a primary response force for dealing with emergencies and natural and man-made disasters that may occur in the state. We have over one hundred units statewide that

are trained and equipped to perform a federal wartime mission and are available to respond to the needs of the citizens of Iowa. We collectively have a vast array of key customers. This wide variance is due to the National Guard's three missions (federal, state, and community) and the wide span of commands and jurisdictions in which we operation to accomplish our missions. Our customers include, but are not limited to:

- War fighting combatant commanders, the United States Forces Command, and the National Guard Bureau.
- The governor and citizens of Iowa, all state agencies and law enforcement agencies, civilian businesses, not-for-profit entities, media, and service organizations.
- The United States Training and Doctrine Command, National Training Center, Joint Readiness Training Center, 1st and 5th United States Armies, Air Combat Command, and military organizations and units of all services.
- The Department of Homeland Defense, Federal Emergency Management Agency, and law enforcement agencies.

The Department was created on July 1, 1939.

## DPS Fire Marshal

### General Fund

### Appropriation Description

This Division is the oldest of the five divisions within the Department of Public Safety, established in 1911. Through promotion and enforcement of fire safety regulations, training, building code provisions, and arson investigations this division helps reduce the loss of life and property by fire. Fire safety code inspections are conducted in a variety of facilities ensuring compliance with both federal and state laws and rules. Those facilities include nursing homes, child care facilities, schools, colleges, hotels, intermediate care facilities and any other building where the public congregates. Arson Investigation Bureau Special Agents are responsible for determining the cause of fires statewide. These agents investigate suspected arson fires along with bombings and other

explosive related incidents. Several agents in the division are also members of the Clandestine Lab Emergency Response Team. The Division is also charged with ensuring the safety and accessibility of buildings. This is accomplished by review and approval of factory-built structures and mobile homes. In addition to reading plans, the bureau oversees enforcement of handicapped accessibility and energy requirements of the State Building Code. The division is responsible for the preliminary review and approval of plans submitted for above ground petroleum storage tanks and L.P. gas installations.

The Fire Service Training Bureau's mission is to provide quality training and education for Iowa's fire and emergency services. Services are provided in Field Programs, Certification Programs, Business and Industrial Programs, Conference, and Research and Development.

#### Appropriation Description

The University of Iowa is a comprehensive research university with a particular distinction in the arts, humanities, and sciences; a world-class academic health center, and a wide array of exceptional professional programs. The University competes for the best faculty and the most talented graduate and professional students. In pursuing its mission of teaching, research, and service, the University seeks to advance scholarly and creative endeavor through leading edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education and to the Iowans, the nation, and the world; and to educate students for success and personal fulfillment.

The Higher Education Operating Appropriation Request for SUI totals \$235,423,005 and is comprised of the following components:

--Continue FY 2016 recurring state appropriation levels of \$230,923,005.

--Maintain educational excellence, promote student success, and keep tuition affordable with incremental funding of \$4,500,000.

The strategic plan identifies four complementary, mutually supporting areas in which to invest for accelerated advancement: Student Success, Knowledge and Practice, New Frontiers in the Arts, and Better Futures for Iowans.

The University of Iowa expects to serve more Iowans at all levels during FY 2017, while also improving the quality of the educational experience and career prospects. 3) provide data for research studies and educational activities for the prevention and treatment of these disorders.

The operating appropriation request for the Registry includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$38,288.

## SUI - Oakdale Campus

### General Fund

#### Appropriation Description

The Oakdale Campus budget is designed to provide a working environment to stimulate University research, economic development, outreach activities and engage with small start-up companies on the Oakdale Campus. Activities located on the campus include the State Hygienic Laboratory, the Technology Innovation Center, specialized laboratory research functions, and other public service activities.

The FY 2017 operating appropriation request for SUI's Oakdale Research campus totals \$2,532,072 and is comprised of the following components:

--Continue FY 2016 recurring state appropriation levels of \$2,186,558.

--Incremental funding of \$345,514 to more adequately fund O&M costs for the Campus.

The Oakdale Campus budget has been significantly challenged over the last several years for two reasons: declining financial support and increasing stewardship needs for both new and severely-aged facilities.

In FY 2009, the Oakdale Campus budget's primary sources of funding were state appropriations and indirect cost recoveries from research activities. Since then, appropriations have declined by \$530,000 (\$2.7M to \$2.2M) and indirect cost recoveries are projected to decrease in FY 2016 by \$700,000 (\$1.1M to \$400K). The University has invested capital in innovative and energy savings utilities for the Oakdale campus to reduce costs, but is insufficient without state investment to maintain this vital campus.

The second challenge is the rising operating costs of the campus facilities. In order for the lab to provide its essential state services, this facility requires timely operational responses along with a commitment to maintenance to avoid long-term degradation issues.

The University requests additional state support to address the recent and dramatic reduction in funding support and to provide better services to those on the campus.

## SUI - Hygienic Laboratory

### General Fund

### Appropriation Description

The State Hygienic Laboratory (SHL) statutorily provides analyses and investigations in the areas of disease detection, newborn and maternal screening, environmental quality and disaster/terrorism response, as well as other services that provide state of the art scientific and medical determination, education and discovery to maintain quality of life for Iowans. It is one of only two state public health laboratories in the nation housed by law within the state's university system. SHL performs over 570,000 tests per year which have a direct impact on the health of the citizens of Iowa and its environment.

The FY 2017 operating appropriation request for the SHL includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$4,402,615.

Public health laboratories are expected to develop and implement new analytical systems to provide state-of-the-art disease surveillance. There have been significant discoveries and growth in new detection technologies that SHL needs to adopt, particularly in the areas of bacteriology and virology. The laboratory needs new high-throughput instruments to identify bacteria, fungi and viruses. Such systems will allow the laboratory to quickly and accurately identify the causes of disease, allowing faster medical treatment, with decreased costs and increased staff productivity.

## SUI - Family Practice Program

### General Fund

#### Appropriation Description

The Family Practice Program provides financial, educational, and technical support to a network of seven community-based residencies that train physicians in the specialty of family practice. The residencies are dispersed into regions of the state to help improve the geographic distribution of family practice graduates and physicians in general. The training programs are located in Cedar Rapids, Davenport, Des Moines, Iowa City, Mason City, Sioux City, and Waterloo,

The program has an enrollment of 140 residents over the three-year residency, with approximately one-third of the trainees graduate each year. More than 30 medical colleges are represented in the trainee complement.

This program is a crucial asset to the health status of Iowans and has achieved continuous recognition for

the past 25 years. It is Iowa's principal source of new family physicians. During the past 10 years, 68% of the family practice graduates entered Iowa practices, nearly half going to communities with populations under 10,000. The program has now attracted approximately 750 graduates into Iowa communities. This highly successful program is one of the reasons the University of Iowa's College of Medicine continues to rank among the nation's top five medical schools in producing graduates who enter family practice careers.

The training sites also provide valuable educational experiences for University medical residents, the experiences for pharmacy, dental and physician assistant students. These regional training centers serve as the backbone of the University's Statewide Medical Education System.

The FY 2017 operating appropriation request for Family Practice includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$1,788,265.

## SUI - Specialized Children Health Services (SCHS)

### General Fund

#### Appropriation Description

State funding for Specialized Child Health Care Services provides the core support for three programs of crucial importance: the Iowa High Risk Infant Follow-up Program, a community-based Comprehensive Cancer Program, and a Rural Hemophilia Program. Each of these programs provides essential services to support family-centered community-based care to children with special needs. The University of Iowa Hospitals and Clinics' staff provides individualized medical evaluation and subsequent consultation to community providers to support medical care of the child within the local community. These unique relationships with the community providers are in concert with the University's strategic plan and support the public health initiatives to provide care and support to these children in their local medical homes.

The funding for these three programs creates access for especially vulnerable populations in Iowa to highly specialized pediatric services in a cost-effective manner. In addition to receiving the benefits of coordinated, comprehensive care in their local communities, patients and their families are able to benefit from improved quality of life in less time lost from work and school, and minimized travel that is necessary for long-term treatment.

The operating appropriation request for SCHS totals \$670,996 and is comprised of the following components:

--Continue FY 2015 recurring state appropriation levels of \$659,456.

--Incremental funding of \$11,540 to more adequately fund operational costs of the Lab.

## SUI - Iowa Flood Center

### General Fund

#### Appropriation Description

The Iowa Flood Center (IFC) works cooperatively with the Department of Natural Resources, the Department of Agriculture and Land Stewardship, the Water Resources Coordinating Council, and other state and federal agencies. The IFC at the SUI provides Iowans with accurate, state-of-the-art science-based information to help individuals and communities better understand their flood risks. The IFC's overarching objective is to improve flood monitoring and prediction capabilities in Iowa, while studying and developing strategies to reduce and manage floods. The IFC has the following purposes:

--Host and continue to refine and add new tools to The Iowa Flood Information System (IFIS) - an easy-to-use online application to provide real-time information on watersheds, precipitation, and stream levels around the state;

--Deployment and monitoring of additional affordable stream stage sensors across the state (in conjunction with the Iowa Department of Natural Resources (IDNR));

--Continued development of high-resolution, web-based flood inundation maps (example communities in progress for FY15 include Fort Dodge and Humboldt);

--Development of floodplain maps for most of Iowa (in conjunction with the Iowa Floodplain Mapping Project funded by the IDNR);

--Conducting watershed-scale research to understand how small-scale mitigation projects can reduce flood damage in a watershed (in conjunction with the Iowa Watersheds Project);

--Education of graduate and undergraduate students; and

--Continued organization of public outreach programs, press releases, and other activities to share IFC tools and information with the general public.

The operating appropriation request for the IFC includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$1,500,000.

## SUI - Primary Health Care

### General Fund

#### Appropriation Description

There are four programs funded by the Primary Care Initiative: the Rural Physician Support Program; the Iowa Health Professions Inventory; the Dept of Family Medicine Pre-doctoral Teaching Program; and the Regional Med Education Center Grant Program. They directly support or complement other operational programs that are educating and training future members of the health professions workforce.

The Rural Physician Support Program is Iowa's principal source of rural physician recruitment, placement and retention services and also provides temporary practice coverage for rural doctors who need leave for vacation, continuing education, or health reasons.

The Iowa Health Professions Inventory gives Iowa the only computerized health professions tracking system in the nation. The system enables the Univer-

sity to track the changing characteristics, supply, and distribution of Iowa's health care workforce.

The Dept of Family Med has used the Primary Care Initiative to expand the number of faculty positions devoted to the Dept's Pre-doctoral Teaching Program. This program has led to an increase in student instruction in family practice settings and to national awards recognizing the number and percent of medical graduates choosing careers in Family Practice.

The Regional Med Education Center Grant Program helps cover the administrative and logistical costs of having learners in community-based clinical settings. Med, pharmacy, physician assistant, and other students are continuously rotating to community locations for part of their required clinical experience.

The FY 2017 operating appropriation request for Primary Health Care includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$648,930.

## SUI - Iowa Online Advanced Placement Academy

### General Fund

### Appropriation Description

The Iowa Online AP Academy (IOAPA) bring Advanced Placement and learning opportunities to all accredited schools in Iowa, but especially to rural and small schools, so that geography will not determine educational opportunity. IOAPA is best known for offering online, College Board-audited AP courses to

Iowa's high school students to give students an opportunity to take college-level courses while in high school. IOAPA also provides professional development grants for teachers to participate in the College Board-approved Advanced Placement Teacher Training Institute at the SUI.

The operating appropriation request for the IOAPA includes no incremental funding and continues FY 2016 recurring state appropriation levels of \$481,849.

## SUI - 21st Century IT Workforce

### General Fund

#### Appropriation Description

The 2014 Battelle economic development report noted Iowa's current economic potential is being held back by shortages of qualified workforce. Employers in the Synchronist surveys commonly identify the following middle- and high-skilled occupations in high demand with talent shortages in the state: IT professionals, particularly in software engineering, web development, and programming..." To address this widespread need for skilled IT workers, UI will create the Iowa Industry Information Technology Partnership (I3TP), a collaborative partnership to train IT workers and expand the IT pipeline.

The UI requests initial state support (\$1 million/year for three years, \$3M in total) to address the state shortfall of trained IT and computing professionals through a phased, hands-on approach involving the UI, Iowa companies, community colleges and K-12 institutions. This partnership would connect applied industry problems with university and community

college education and training, as well as secondary school STEM education.

The I3TP would operate as a partnership among the Technology Association of Iowa (TAI), the Iowa Economic Development Authority (IEDA), the UI Office of Research and Economic Development, the Departments of Computer Science and Electrical and Computer Engineering), the Kirkwood Regional Center at the UI, Iowa Western Community College, Western Iowa Tech Community College, the Governor's STEM Advisory Council, the Iowa City Area Development (ICAD) Group, the Cedar Rapids Metro Economic Alliance (CRMEA), and other economic development groups across the state.

Creating a talented and experienced IT workforce that meets industry's need at many different levels is challenging yet essential, not only to build, but also to advance the Iowa knowledge-based economy. The I3TP embodies necessary and quantifiable changes in how we deliver content and, most importantly, how we link the needs of industry to the educational process.

## ISU - General University

### General Fund

#### Appropriation Description

ISU has a long history of providing a superb experience for its students and graduating students who are creative, technologically adept, and culturally informed for success in the future. Overall enrollments have been strong, and the science-based curricula in engineering, agriculture and life sciences, and human sciences have been especially appealing to incoming students and their families.

Funding from an increase to the state appropriation that supports the general university will be used to address critical capacity needs associated with increasing student growth while maintaining and advancing the quality of academic programs.

Over the past 15 years, the University's student-to-faculty ratio has increased from 13.7 to 19, and continuing to invest in hiring faculty will ensure that the university provides students with a high quality education. The need continues to hire more high quality faculty to meet student demand in all disciplines, and particularly in the University's signature

areas in biosciences, value added agriculture, engineering, health, and information technology.

Additional resources are targeted to support the professional development of advisers and assist advisers as they serve an increasingly diverse and complex student population. ISU is in need of funding to hire additional academic advisers in programs with increased growth, to simplify advising paperwork processes through on-line systems, and to enhance the knowledge and skill base of both faculty and professional advisers through new professional development opportunities.

The Higher Education Operating Appropriation Request for ISU totals \$190,371,852 and is comprised of the following components:

--Continue FY 2016 recurring state appropriation levels of \$182,181,852.

--Maintain educational excellence, promote student success, and keep tuition affordable with incremental funding of \$8,190,000.

## ISU - Veterinary Diagnostic Laboratory

### General Fund

#### Appropriation Description

Iowa State's Veterinary Diagnostic Laboratory (VDL) processes over 70,000 cases from livestock and poultry producers in Iowa and from across the country, and conducts about 1.5 million tests each year. The timely, comprehensive, high-quality diagnosis of diseases and toxicoses is critical to serving the state's \$14 billion animal agriculture industry. The laboratory is essential in providing the diagnostic testing and information to continue current exports and develop new export markets for Iowa livestock and animal protein products.

As one of the 12 core labs for the National Animal Health Laboratory Network, the VDL continues to be at the forefront in the nation's response to emerging diseases such as High-Path Avian Influenza Virus, Canine Influenza Virus, and Porcine Epidemic Diarrhea virus. VDL faculty and staff were the first to diagnose cases of Porcine Epidemic Diarrhea in 2013

and led national efforts to develop and deploy diagnostic testing, and develop and test new vaccines to control the condition. The VDL was also at the forefront during the recent High-Path Avian Influenza Virus outbreak in Iowa which demanded that the laboratory run in multiple shifts 7 days per week to assure timely testing.

The operating appropriation request for ISU's Veterinary Diagnostic Laboratory totals \$4,108,000 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$4,000,000.

--Incremental funding of \$108,000.

Additional funding is needed to purchase equipment and technologies to advance diagnostic testing capabilities for Iowa livestock producers, add staff to conduct testing in the laboratory, upgrade information technology to report results to clients, and improve the defensive response to disease introduction.

## ISU - Agricultural Experiment Station

### General Fund

#### Appropriation Description

The Experiment Station's advances in biological, physical and social sciences have contributed greatly to Iowa. Experiment Station research and ISU Extension not only help Iowa remain a world leader in food production, they address societal issues linked to agriculture, economic development, life-science frontiers, the environment, public policy, and communities. Experiment Station research makes up a significant portion of ISU's annual patent disclosures.

Incremental funds are requested to support the ongoing efforts of the Agriculture Experiment Station. Agricultural science and technology help prepare Iowa's animal and crop systems for the future and ensure progress in environmental stewardship. Science-based knowledge is essential to continue agriculture's significant contributions to the state economy and job creation. Science is also the key to: more sustainably produce food, energy and everyday

materials; protect plant, animal and human health; and care for the environment.

State funding for the Agriculture Experiment Station leverages success in competitive funding; over the past six years, ISU agricultural researchers have brought in more than \$300 million in external funding. Additional state funding for the Agriculture Experiment Station would help address critical needs in Iowa agriculture such as improved soil and water conservation technologies; adding economic value to meats and grains; alleviating seasonal environmental impacts on livestock; and enhancing animal health and disease resistance.

The operating appropriation request for ISU's Ag Experiment Station totals \$30,693,823 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$29,886,877.

--Incremental funding of \$806,946 to deliver new levels of odor management and animal care.

## ISU - Cooperative Extension

### General Fund

### Appropriation Description

ISU Extension works across Iowa State University colleges, throughout the 99 counties, and with external partners to improve quality of life in the state. Extension and Outreach is seeing an increasing demand for its programs. Particularly programs that serve small business owners, grow existing industry, and enhance rural communities. In addition, Iowans want clean water, a healthy environment, and a safe, sustainable, and affordable food supply. Extension and Outreach programs align with the Governor's Healthiest State Initiative to help Iowa become the healthiest state in the nation. K-12 youth outreach develops Iowa's future workforce and helps fight the "brain drain" by connecting youth with opportunities here in Iowa.

The operating appropriation request for ISU's Coop Extension Service totals \$18,759,923 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$18,266,722.

--New incremental funding of \$493,201 to leverage with matching funds

Incremental funds are requested to support a variety of Extension and Outreach initiatives, especially those critical issues such as Avian Influenza outbreaks, nutrient reduction strategy, drought, floods, widespread plant and animal diseases, insects (emerald ash borer), and policy changes. Additional resources would ensure that ISU can provide immediate response and education to address these challenges, and support practical research, surveillance, and programs to help communities and individuals plan for the future.

## ISU - Leopold Center

### General Fund

#### Appropriation Description

The Leopold Center is a research and education center with statewide programs to develop sustainable agricultural practices that are both profitable and conserve natural resources. It was established under the Groundwater Protection Act of 1987 to conduct research into the negative impacts of agricultural practices; to assist in developing alternative practices; and to work with ISU Extension to inform the public of Leopold Center findings.

The Leopold Center has awarded more than 500 competitive grants since 1988. Leopold Center competitive grants are available to researchers and educators at all Iowa colleges and universities, and to investigators at private, nonprofit agencies and foundations in the state. These awards often act as seed money to initiate work for which other larger sources of funding then become available. The Center collaborates with ISU Extension and other university, state,

and local organizations to communicate research findings.

The Leopold Center will use additional funds for research and extension to enhance the sustainability of Iowa's agriculture and the agricultural economy. Specifically, additional funds would be targeted to research related to nutrient management, water conservation, water quality, soil conservation and in marketing and food systems that meet Iowa-grown food aims in the Iowa Local Food and Farm Initiative.

The operating appropriation request for ISU's Leopold Center totals \$408,147 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$397,417.

--Incremental funding of \$10,730.

## UNI - Math and Science Collaborative

### General Fund

#### Appropriation Description

Since FY 2009, the universities have worked as a team to implement the STEM initiative. This effort has grown to become the Governor's STEM Advisory Council as managed by the Iowa Mathematics and Science Education Partnership (IMSEP). The request is for continued funding at the current level.

STEM workers drive our nation's innovation and competitiveness by generating new ideas, new companies and new industries. Over the past 10 years, STEM jobs grew three times as fast as growth in non-STEM jobs. The STEM workforce will remain central to our economic vitality well into the future, contributing to innovation, technological growth, and economic development. Maintaining U.S. scientific and technological leadership is essential to the future of our country. However, the United States is facing a critical talent gap in science, tech-

nology, engineering and math, and is not keeping pace with foreign competition.

STEM jobs require post-secondary training, but Iowa ranks below the national average in percent of community college and university enrollees majoring in STEM (12% vs a national average of 15%).

Governor Branstad's Executive Order 74 created the Governor's STEM Advisory Council. The council's overarching goal is to boost student interest and achievement in science, technology, engineering and math (STEM), so our young people have more career opportunities and our state's economy is more robust.

The operating appropriation "flat-funded" request for UNI's Math & Science Collaborative totals \$5,200,000 and is comprised of the following component:

--Continue FY 2016 recurring state appropriation levels of \$5,200,000.

### General Fund

--Continue FY 2016 recurring state appropriation levels of \$175,256.

### Appropriation Description

The RRTC assists Iowa manufacturers in the research and development of products containing recycled content materials through the Materials Innovation Service, a program developed in cooperation with Recycle Iowa. Iowa companies that are replacing mainstream materials with new and innovative composites such as cast metal, plastics, and biomaterials have affordable access to the latest in mechanical, physical, and chemical properties testing for the purpose of by-product reutilization. ## BOR - Board Office

### General Fund

### Appropriation Description

Created by the Iowa General Assembly in 1909, the Board of Regents, State of Iowa, is a group of nine citizens who govern five public educational institutions in the state through policy making, coordination, and oversight, as provided by law. The Board enhances the quality of life for Iowans by maintaining the educational quality, accessibility, and public service activities of Iowa's three public universities -- the University of Iowa, Iowa State University, and the University of Northern Iowa; and two special preschool/K-12th grade schools -- the Iowa School for the Deaf and the Iowa Braille and Sight Saving School.

Incremental funds are requested for the operation of the Board of Regents Office at a projected inflation rate of 2.7%. The Board Office provides support to the Board of Regents and formulates policy recommendations for operations, administration, and legislative relations related to academic affairs, legal affairs, and business and finance operations.

Since FY 2009, State appropriations for the Board Office have been cut \$230,000.

Currently, the Office is undergoing a reorganization recommended by the TIER project and has redefined job functions to better serve the needs of the Regents, institutions, state and public. Additional funding is needed to attract and retain qualified staff and to provide technology support.

The operating appropriation request for the Board of Regents Office totals \$1,124,271 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$1,094,714

--Incremental funding of \$29,557 to support cost increases.

## ISU - Livestock Disease Research

### General Fund

#### Appropriation Description

Livestock Disease Research is conducted through the College of Veterinary Medicine on diseases of Iowa livestock in order to prevent the high financial losses to Iowa livestock producers that occur each year due to infectious livestock diseases. These funds are leveraged to receive additional funds from external sources for livestock disease research.

The operating appropriation request for ISU's Livestock Disease Research totals \$177,511 and is comprised of the following:

--Continue FY 2016 recurring state appropriation levels of \$172,844.

--Incremental funding of \$4,667.

Incremental funds are requested for the Iowa Livestock Health Advisory Council (ILHAC) which was created to strengthen Iowa's animal agriculture by strengthening the livestock disease research program in the state. Funds from this special appropriation provide seed money for research projects, with priority given to those projects with significant potential for economic benefit for the livestock industry. Recently funded projects include: studying porcine reproductive and respiratory syndrome and influenza in pigs, E. coli and Clostridium spp. in poultry, lameness in beef and dairy cattle, mastitis in dairy cattle, pinkeye in cattle and viruses causing reproductive problems in sheep. This seed money has recently resulted in development of effective vaccines for porcine circovirus and laying hen peritonitis. Additional funding will allow more animal disease research projects to be funded in areas of highest importance to livestock producers.

## UIHC - Appropriations

### General Fund

#### Appropriation Description

The UIHC request is comprised of the following components & total \$20.8M for FY 2017:

--Disproportionate Share Hospitals-\$4,500,000

--Pilot Program Linking Psychiatry and Primary Care Practices-\$300,000

--Prisoner Care-\$6,000,000

--Graduate Medical Education Payments-\$10,000,000

The Health & Human Services Appropriations Act reduced funds for UI Health Care's appropriation for DSH by \$4.5 million in FY 2016 and FY 2017. UI Health Care requests restoration of the \$4.5 million in FY 2017. These funds are the only state appropriations for the Center for Disabilities and Development (CDD) & are a primary funding stream for the program that serves Iowans with disabilities. With the closure of two of the state's Mental Health Institutes, support for remaining inpatient services is all the more important going forward.

The new pilot program linking psychiatry & primary care practices was funded in FY 2016 at \$156,619 with one-time funds. The purpose is to improve outcomes for mental health treatment in primary care settings. The program will provide additional training to medical residency students about mental health & psychiatric prescriptions & will track data & outcomes.

Per current Iowa Code, UIHC continues to provide unreimbursed health care services to inmates of the Department of Corrections (DOC) & Department of Human Services (DHS) facilities. The state-required adequate medical treatment is delivered at the UIHC, but is unreimbursed & valued at approximately \$5M - \$7M annually.

Concerns exist about the adequacy of the number of physicians being trained to serve future generations. Training more medical students is of limited value, however, given constraints on available residency positions - new and existing residency programs face significant financial challenges. This means that UI Health Care must attempt to find other sources of support or self-fund residency positions above the cap in the amount of approximately \$21M annually.

## UNI - Statewide Bystander Education Training & Violence Prev

### General Fund

#### Appropriation Description

The UNI Center for Violence Prevention (CVP) was established in 2011 as a result of Department of Justice funding. From 2000-2004, UNI received two Department of Justice Campus Grants to Combat Violence Crimes Against Women on Campuses in the amount of approximately \$850,000. These grants focused on establishing prevention programming, victim services, policy revisions and law enforcement/campus security to be responsive to sexual and domestic violence and stalking that college women may experience. As a result of these efforts, in 2007 UNI was able to pursue and secure funding through the Department of Justice Office of Violence Against Women's Flagship Initiative. As a result of the flagship grant, UNI was able to work with the Regent

Campuses to: (1) implement mandatory new student education programs, (2) enhance training of judicial affairs officers, (3) enhance training of campus police and other points of first victim contact, (4) disseminate best practices in working with men in gender violence prevention efforts, (5) develop university courses and curricula in educating students in victim services and gender violence prevention, and (6) assess and revise sexual misconduct policies. In 2010, the Flagship grant and associated initiatives received continuation of funding through the Department of Justice. Through this funding, in partnership with foundation support from Verizon and the Waitt Institute of Violence Prevention, the UNI Center for Violence Prevention was established.

In order to continue the good work of this Center, the University is requesting a permanent funding source of \$250,000 to maintain and enhance the current program, which has been funded by the aforementioned grants.

## UNI - Innovative & Transformative Teacher Education

### General Fund

### Appropriation Description

UNI participated in an Iowa Department of Education grant to evaluate yearlong student teaching as part of the preparation and education for future PK-12 teachers. The outcomes of this grant indicated there is merit for some students to have an enhanced experience.

This funding will provide for implementation of strategic initiatives in the College of Education, including the Year-long Student Teaching Program that would align the college with emerging best practices and move towards elevating the college to national distinction.

The plan will include such things as:

--revising curriculum;

--considering organizational structure;

--enhancing relationships with PK-12 partners across the State of Iowa;

--enhancing student teaching practices; and

--evaluating student assessment.

These initiatives will prepare the College of Education for accreditation and reassert its status as a national leader in teacher preparation. This funding would also leverage previous appropriations and millions of dollars in gifts which are renovating the Schindler Education Center on campus, home to the College of Education.

## SUI - Geological Survey

### General Fund

#### Appropriation Description

The Iowa Department of Natural Resources and the University of Iowa request the Iowa Geological Survey (IGS) and the position of State Geologist be transferred from IDNR to IIHR-Hydroscience and Engineering (IIHR), a unit of the UI College of Engineering. Both IGS and IIHR have a long, productive history of research and service to the state. Similari-

ties in program missions, as well as synergies between IGS activities and IIHR research centers, such as the Iowa Flood Center and the Iowa Nutrient Research Center, enhance effectiveness, create growth opportunities for both organizations and will broaden their positive impacts on Iowa's economy.

Currently, the University of Iowa enters into a contractual agreement with the DNR to provide this service. This request is to transfer the \$1.2M appropriation from the DNR to the University and is a cost neutral transaction for the State's General Fund.

In 2013, Small Business Development Centers served 2,552 clients, spent 10,900 hours counseling clients, offered 140 training sessions with 1,779 attendees, and helped launch 209 new businesses.

The SBDCs have been operating on a very lean budget as a result of real declines in state and federal funding over the last 10 years. A recent SBA accreditation review found the SBDCs are poised for making substantial impacts on the state economy if additional funding is obtained. The review noted that with recent budget cuts at the state/federal levels left the program extremely lean and will have difficulty maintaining current service levels. The additional funding for the SBDCs will reverse the real decline in funding in 15 regional centers throughout the state.

## BOR - Tuition Replacement - Bonding

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The 1969 General Assembly passed legislation (Iowa Code 262A) permitting the issuance of Academic Building Revenue bonds to fund capital projects at the Regent universities. The bonding program has enabled the Regents to finance critical academic constructions needs at Iowa's public universities through the public sale of long-term bonds. The issuance of these bonds requires approval of the General Assembly and the Governor. Tuition replacement appropriations represent an ongoing commitment of the state to meet the debt service cost of Academic Building Revenue bonds.

The 2009 General Assembly authorized the Board to issue \$100 million in project proceeds of Academic Building Revenue Bonds to finance the repair, restoration, replacement, and mitigation of flood damaged buildings and facilities at the University of Iowa. In addition to the \$100 million authorization, the 2009 General Assembly redirected \$13 million originally authorized in 2007 for Pentecrest renewal projects to flood recovery and mitigation. The October 2014 bond issue was the fourth series of bonds issued for flood recovery and mitigation. The final "flood" series is expected to be issued in October 2015.

It was understood that this authorization would increase the tuition replacement request. The tuition replacement request for FY 2017 is \$32,447,187, an increase of \$2,209,638 from FY 2016 to cover the debt service due on the bonds. In addition, the current projected request for FY 2018 is \$33,323,334 and is based upon the anticipated future issue and interest rates.

#### General Fund

#### Appropriation Description

This appropriation funds the majority of the operations of the Department of Revenue. Additional funding is received from Motor Vehicle Fuel, collection receipts, tobacco settlement funds and miscellaneous smaller funds. The general fund appropriation accounts for 77% of the budget of the Department.

The Department of Revenue is responsible for tax compliance so the correct amounts of taxes are paid, but no more, through taxpayer services, examination,

audit and policy development. The Department seeks to process incoming payments in an accurate and timely manner so questions and adjustments are resolved; and, to resolve outstanding debt owed to the Department and other contracting agencies. Through Property Tax programs, local property tax officials receive training, service and enforcement programs that result in fair and equitable assessment. The Department provides economic, research and statistical reporting support to the Department of Management, the Governor and the Legislative Service Agency. To support the core functions, the Department provides administrative and technology services to meet program goals and provide services to internal and external customers.

## Ag Land Tax Credit

### General Fund

### Appropriation Description

A standing limited appropriation to provide funds for the "Agricultural Land Tax Credit Fund" created under Section 426.1 of the Code. The fund was created to give credit against the tax on each tract of

agricultural land within the several school districts of the state in which the levy for the general school funds exceeds five dollars and forty cents per thousand dollars of assessed value. The funds are prorated if the appropriation cannot cover all credits in full. Beginning in FY'94, an appropriation of \$39,100,000 was made. Section 425A stipulates that the first \$10,000,000 be transferred to the Family Farm Tax Credit Fund.

## Printing Cigarette Stamps

### General Fund

#### Appropriation Description

A standing "limited" appropriation of \$115,000 for the purpose of printing cigarette stamps. The appropriation has been reduced by past across-the-board reductions. This Code language is somewhat contradictory to the Code requirement that all cigarettes sold in the State must have a cigarette stamp affixed. The Department does not believe that the Legislature ever intended for the Department to stop providing

cigarette stamps due to the lack of funding to print and pay for cigarette stamps. As a result of this underfunding, the Director is forced to either hold claims until a new fiscal year begins and a new appropriation is available or request a transfer of funds be made from another appropriation into this appropriation. Therefore, the Department is suggesting that Section 453A.7, Code 2001, be amended to read as follows: "There is appropriated annually from funds in the state treasury not otherwise appropriated, sufficient funds to carry out the provisions of this section." (453A.7)

## TraCS/MACH

### Road Use Tax Fund

#### Appropriation Description

Funding for the TraCS and MACH programs to expand the support to all agencies in the state and support new technology as it is developed.

The TraCS program is an initiative by the Iowa Department of Transportation to collect data from law enforcement at the scene of a motor vehicle collision and send that data electronically to the Iowa DOT. TraCS software and support is provided by the

Iowa DOT at no charge to qualifying Iowa public safety agencies.

The MACH program was initially developed and piloted in Iowa. MACH is an Internet based communications tool that allows public safety agencies to share information, enhancing cooperation and organization during every day activities and emergency situations. MACH uses the Internet and a sophisticated, scalable, and secure Web-services messaging foundation to offer job enhancing features that have, until now, been impractical to provide to the public safety official in the field. The MACH software is also provided and supported by the Iowa DOT to qualifying public safety agencies at no charge.

# Veterans Affairs, Department of

## Mission Statement

To provide a continuum of care to Iowa's veterans and their spouses in an environment focusing on individualized services to enhance their quality of life.

## Description

Veteran Affairs is the department in state government that provides services to veterans and works to increase the public's awareness of veteran's issues. These services encompass two divisions (advocacy services and long-term health care). One division is the Iowa Department of Veterans Affairs administration office located at Camp Dodge. It provides services and support to veterans including education regarding their entitlements under state and federal laws and enhancing their awareness of outreach programs available to them. This division conducts two service schools of instruction each year for the Commissioners and County Directors of Veterans Affairs to update them on benefits for veterans. It also files all reports of separation (Form DD 214),

maintains 4 million records of Iowa veterans from the past four wars, maintains a database of veterans in nursing homes and determines if they have applied for federal Veteran's benefits, and processes and maintains all registration documents for Veterans buried in Iowa. A state aid program for War Orphans paid to a school of higher learning is provided. The second division located in Marshalltown is the Iowa Veterans Home. It delivers long-term health care services for eligible veterans and/or their spouses/widows. The Iowa Veterans Home has 575 operating beds comprised of three levels of care (nursing, domiciliary and infirmary) and offers 24 hour medical coverage. A full range of services is available including: Food and Nutrition Services; Pharmacy; Recreation Therapy; Transportation to medical appointments at the V.A. Hospitals and Clinics; Contract Services (dentist; optometrist; dermatologist); Speech Therapy; Audiology; Physical Therapy; Occupational Therapy; Wheelchair Services; Activity Centers (ceramics, woodworking, arts and crafts, and library); Social Work Services; Pastoral Care; Psychology Services; and Psychiatry Services.

## Appropriations Detail

### Facility/Armory Maintenance (RIIF)

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Iowa National Guard consists of approximately 9,750 soldiers and airmen organized in over 100 organizations, units, and activities statewide. Several of our armories and facilities are aged beyond the point of supporting adequate training for our soldiers. The maintenance backlog to bring these facilities to an acceptable state of operations is beyond our budget expectations. New facilities that will support our units well into the 21st century are the most cost effective alternative to dealing without outdated facilities.

Heavy reliance is placed on the Iowa National Guard to provide trained and ready units to mobilize to support national emergencies and disaster relief requirements as well as provide support when disasters and emergencies occur in the State of Iowa.

Federal funding for these major maintenance projects is available at approximately 50%/50% federal/state funding. State of Iowa funding is required to complete these necessary repair and replacement requirements. The projects may include but are not limited to armory renovations, restroom upgrades, repair of boilers and furnaces, repair of roofs, parking lot repair, and door and window repair and replacement.

## ISU - Biorenewables Cmplx-Agricultural&BiosystemsEngineering

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Agricultural and Biosystems Engineering (ABE) facility is one component of the Biorenewables Complex which also includes the Biorenewables Research Laboratory, for which funds were appropriated in 2007. The Department of ABE is a major contributor of expertise in the bioeconomy program areas.

The Department of Agricultural and Biosystems Engineering is one of the University's strong programs and has the potential to be rated the top department of its kind in the country. This project, which will consolidate the Department's space in a single location from the current four locations, will replace outdated laboratories, classrooms and offices.

The Department plays a key role in serving several of the agricultural and bioeconomy industries of Iowa:

1. the farm machinery and power equipment business,
2. manufacturing, robotics, automation, and industrial hygiene and safety,
3. biofuels, biomaterials, and bioproducts,
4. natural resource management, including water resources and water quality management,
5. food processing and safety,
6. buildings with effective environmental and odor controls for livestock and poultry production, and
7. biological systems control and management.

The lack of quality space is limiting the Department's potential. During the last ABET accreditation visit, the Review Team commented, "Facilities have shown significant improvement since the last visit. However, concern exists that the program may not be positioned to meet the needs of the future without a significant facility renovation or expansion."

## UNI - Bartlett Hall Renovation/ Baker Hall Demolition

### Rebuild Iowa Infrastructure Fund

Philosophy and Religion, Modern Languages, Psychology, and Sociology and Anthropology) currently located in Baker Hall, which would subsequently be demolished.

### Appropriation Description

This project will provide for the renovation of Bartlett Hall (104,437 gross square feet), which was built in 1917 and 1924. The facility was designed as a residence facility; in 1986 a portion of the building was renovated to accommodate faculty and staff offices. The portion of Bartlett Hall which serves as a residence hall no longer provides a housing environment that meets student needs. The project will renovate the remainder of the building to house the departments (English Language and Literature,

The renovation of Bartlett Hall for academic departments and demolition of Baker Hall will allow the University to decrease overall University building square footage and the associated utility expenses. This option will also bring the historically important building up to current standards and provide convenient and appropriate space for faculty and staff.

## SUI - Dental Science Building Renovation

### Rebuild Iowa Infrastructure Fund

### Appropriation Description

The University of Iowa College of Dentistry educates more than 80% of the dentists who serve the state of Iowa; it is thus imperative that the College remain up-to-date with respect to its teaching and laboratory facilities.

While numerous small scale renovations have allowed the College to remain at the forefront of

modern dental education, developments in the teaching, research, and practice of dentistry require a more significant and encompassing update to the facility. Modernization and enlargement of treatment, teaching, and research space to meet today's equipment and practice requirements call for critical changes to the way the building serves the needs of the College and State.

To remain an outstanding program in producing dental professionals and providing large scale clinical care, the aging facility must be updated to today's standards, thus eliminating long standing deferred maintenance.

## SUI - Pharmacy Building Replacement/Improvements

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The College of Pharmacy is the fourth oldest college of pharmacy in a state-supported university in the country and has educated pharmacists since 1885. The College has developed nationally and internationally recognized programs of research and patient care delivery. Admission to the program is extremely competitive; graduates are well prepared and in high demand following graduation. For the past ten years the College has had a 100% placement rate. Graduates of the College are in 95 of Iowa's 99 counties, providing needed services every day; in some instances, they are the only point of access to medical care. College of Pharmacy students must complete 1,600 hours of pharmacy practice experience to earn their PharmD degree; the economic impact of the work of these students is estimated at \$2.3 million annually.

The services College of Pharmacy graduates provide have changed dramatically since the construction of the original Pharmacy Building in 1961. The age, condition, configuration and outdated mechanical and electrical systems of the original building are constant strains on the quality and productivity of the College's faculty and students. (The facility consumes more energy than any other building on campus on a square footage basis.) To perfect clinical skills, small collaborative spaces are required for critical thinking, modeling and practice. This type of space does not exist in the current facility. As a professionally accredited program, the College is periodically reviewed for reaccreditation. A component of the accreditation review is the quality of its educational facilities.

The University proposes to replace the 1961 building as modernization of it cannot serve the intensive educational space needs of the College. In combination with new construction, the University intends to modernize the 1996 facility to meet current standards and expectations. The project would address approximately \$12.0 million of deferred maintenance.

## UNI - Schindler Education Center Renovation

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Schindler Renovation project is a key element in the University's vision of being known for innovative education and preparing students for success in a rapidly changing, globally competitive and culturally diverse world. The project is directly related to the University's Strategic Plan Goal 3, Lead the state and nation in pre K-12 education, including objectives, Focus educator-preparation programs on developing 21st century leader practitioners at all levels, and Re-examine and adapt educator-preparation programs, formal and non-formal, focusing on 21st century skills and knowledge and the use of technology.

The College hopes that all graduates of the College are technology savvy since more than 100 districts in the state are providing 1:1 technology devices for K-12 students. The renovated space would also create classroom simulation spaces in which teacher candidates can model practice in learning environments similar to those found in K-12 settings. (The 40 year old classrooms are not conducive to this type of instruction.) Interior modifications will be made to classroom and office areas to accommodate new instructional methods. The reconfiguration of space will allow innovative teaching methods and flexibility for changing learning processes.

In addition to the programmatic changes, the building's electrical and mechanical systems would be updated and exterior repairs made. The University estimates that \$8.9 million in deferred maintenance would be corrected through the renovation.

## ISU - Biosciences Facilities

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The biosciences are central to the core mission of Iowa State University and biosciences-based industries are a primary economic driver for the state of Iowa. More than 450 faculty members from twenty-five departments and five colleges are actively involved in the area of biosciences. More than 6,000 students are studying biosciences disciplines; this 27% increase over the past 5 years has been driven by both student interest and employer demand. A critical shortage of space, both in terms of capacity and functional capabilities, in addition to antiquated, functionally obsolete facilities (some of which are more than 40 years old, substandard and should be demolished), present significant programmatic challenges and limitations to providing an advanced, high quality learning and research environment for the biosciences.

This project will include a new Biosciences Building, renovate existing space, and consider additions to

existing buildings as part of a holistic, comprehensive plan to address the space needs of the biosciences programs.

To engage students in meaningful learning and to support new teaching practices, classroom and teaching laboratories need to be expanded and transformed to include current educational technology and instructional laboratory capabilities. Existing buildings do not provide the types of collaborative space for team learning and student engagement that support a high-quality educational experience.

The biosciences programs also have a critical need for multi-disciplinary, high quality research labs that include computational, biological, wet, and specialized instrumentation laboratory space. Existing buildings, which were not designed and constructed with laboratory flexibility and modularity as a program element, cannot accommodate increased collaboration across multiple disciplines along with flexible research space that responds to changes in research activity.

## ISU - Student Innovation Center

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

One of the University's great strengths is student-centered learning, found in both the classroom and through interdisciplinary student organizations. Project-based, student leadership experiences differentiate the University from other collegiate programs; interdisciplinary student organizations also provide value-added educational and personal development experiences.

The proposed 175,000 gross square foot facility would support fabrication, large-scale, student interaction, hands-on and discovery-based learning, and co-curricular activities for the Colleges of Engineering and Design, while providing for potential collaboration with multiple other disciplines. This Center would be a highly flexible, technology-rich, dynamic space with extended access, technical

support and centralized equipment facilities. It would encourage experimentation, innovation and interdisciplinary investigation. Cooperative, problem-driven teams would communicate and collaborate with peers and colleagues; this would occur both formally and informally, face-to-face and virtually. The physical environment would allow students to develop a depth of knowledge in a specific area, as well as the breadth of skills in different, but related areas. The experiences could be translated into real-world opportunities for economic development and practical application in the workplace.

The Center would also be a focal point for industrial collaborations through student organizations, capstone design courses, and industry-sponsored projects and design competitions.

The \$40 million ask from the state (over four fiscal years) would be combined with \$40 million in private funds for an \$80 million total project.
