NEWS RELEASE

FOR RELEASE

June 7, 2017

Contact: Andy Nielsen
515/ 281-5834

Auditor of State Mary Mosiman today released an audit report on Carroll County, Iowa.

The County had local tax revenue of \$32,596,043 for the year ended June 30, 2016, which included \$3,194,898 in tax credits from the state. The County forwarded \$25,505,114 of the local tax revenue to the townships, school districts, cities and other taxing bodies in the County.

The County retained \$7,090,929 of the local tax revenue to finance County operations, a 7% increase over the prior year. Other revenues included charges for service of \$3,394,705, operating grants and contributions of \$4,749,886, capital grants and contributions of \$3,867,156, local option sales tax of \$997,138, unrestricted investment earnings of \$91,295 and other general revenues of \$257,579.

Expenses for County operations for the year ended June 30, 2016 totaled \$17,091,350, an 8% increase over the prior year. Expenses included \$7,086,561 for roads and transportation, \$3,620,584 for public safety and legal services and \$1,584,022 for administration.

A copy of the audit report is available for review in the County Auditor's Office, in the Office of Auditor of State and on the Auditor of State's web site at <https://auditor.iowa.gov/reports/1610-0014-B00F>.

Independent Auditor's Report

To the Officials of Carroll County:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Carroll County, Iowa, as of and for the year ended June 30, 2016, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Carroll County as of June 30, 2016, and the respective changes in its financial position and, where applicable, its cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the County's Proportionate Share of the Net Pension Liability, the Schedule of County Contributions and the Schedule of Funding Progress for the Retiree Health Plan on pages 11 through 18 and 58 through 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Carroll County's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2015 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 8 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 11, 2017 on our consideration of Carroll County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Carroll County's internal control over financial reporting and compliance.

MARY MOSIMAN, CPA
Auditor of State

May 11, 2017

Carroll County

MANAGEMENT'S DISCUSSION AND ANALYSIS

Carroll County provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2016. We encourage readers to consider this information in conjunction with the County's financial statements, which follow.

2016 FINANCIAL HIGHLIGHTS

- Revenues of the County's governmental activities increased 23%, or approximately \$3,820,000, from fiscal year 2015 to fiscal year 2016. Capital grants and contributions increased approximately \$2,826,000, operating grants and contributions increased approximately \$348,000 and property and other county tax increased approximately \$310,000.
- Governmental activities expenses increased 8.4%, or approximately \$1,319,000, in fiscal year 2016 from fiscal year 2015. Roads and transportation expenses increased approximately \$1,126,000, public safety and legal services expenses increased approximately \$107,000 and county environment and education expenses increased approximately \$89,000.
- Governmental activities net position increased 8.1%, or approximately \$3,367,000, from June 30, 2015 to June 30, 2016.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the County's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Carroll County as a whole and present an overall view of the County's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Carroll County's operations in more detail than the government-wide financial statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which Carroll County acts solely as an agent or custodian for the benefit of those outside of County government (Agency Funds).

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the County's budget for the year, the County's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental, the nonmajor proprietary and the individual Agency Funds.

REPORTING THE COUNTY'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information which helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting and the economic resources measurement focus, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

The Statement of Net Position presents financial information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in the County's net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal years.

The County's governmental activities are presented in the Statement of Net Position and the Statement of Activities. Governmental activities include public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, interest on long-term debt and non-program activities. Property tax and state and federal grants finance most of these activities.

Fund Financial Statements

The County has three kinds of funds:

- 1) Governmental funds account for most of the County's basic services. These focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental funds include: 1) the General Fund, 2) the Special Revenue Funds, such as Mental Health, Rural Services and Secondary Roads, and 3) the Capital Projects Fund. These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the County's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) Proprietary funds account for the County's Enterprise, Mt. Carmel Sewer and Maple River Sewer Funds and the Internal Service, Employee Group Health Fund. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the County's various functions.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

- 3) Fiduciary funds are used to report assets held in a trust or agency capacity for others which cannot be used to support the County's own programs. These fiduciary funds include Agency Funds that account for drainage districts, emergency management services and the County Assessor, to name a few.

The required financial statement for fiduciary funds is a Statement of Fiduciary Assets and Liabilities.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of financial position. Carroll County's combined net position increased from a year ago, from approximately \$41.5 million to approximately \$44.9 million. The analysis that follows focuses on the changes in net position.

Net Position of Governmental and Business Type Activities (Expressed in Thousands)						
	Governmental Activities June 30,		Business Type Activities June 30,		Total June 30,	
	2016	2015	2016	2015	2016	2015
Current and other assets	\$ 18,932	19,651	45	47	18,977	19,698
Capital assets	36,297	32,163	903	929	37,200	33,092
Total assets	55,229	51,814	948	976	56,177	52,790
Deferred outflows of resources	795	764	-	-	795	764
Long-term liabilities	3,471	2,584	307	325	3,778	2,909
Other liabilities	405	717	-	-	405	717
Total liabilities	3,876	3,301	307	325	4,183	3,626
Deferred inflows of resources	7,293	7,789	-	-	7,293	7,789
Net position:						
Net investment in capital assets	36,162	31,983	597	606	36,759	32,589
Restricted	7,939	8,982	-	-	7,939	8,982
Unrestricted	754	523	44	45	798	568
Total net position	\$ 44,855	41,488	641	651	45,496	42,139

Net position of Carroll County's governmental activities increased 8.1% (from approximately \$41.5 million to approximately \$44.9 million). The largest portion of the County's net position is invested in capital assets (e.g., land, infrastructure, buildings and equipment). Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. Unrestricted governmental activities net position – the part of governmental activities net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased from approximately \$523,000 at June 30, 2015 to approximately \$754,000 at the end of this year, an increase of 44.2%.

Revenues by Source

Expenditures by Program

Carroll County's governmental activities net position increased approximately \$3,367,000. Revenues for governmental activities increased approximately \$3,820,000 over the prior year, with capital grants and contributions increasing approximately \$2,826,000 over the prior year. The County's operating grants and contributions increased approximately \$348,000 and property and other county tax increased approximately \$310,000. The increases are primarily the result of completion of road and bridge projects paid for by the Iowa Department of Transportation, Sauk Rail Trail paving project, an increase in road use tax and an increase in taxable property valuations.

The cost of all governmental activities this year was approximately \$17 million compared to approximately \$15.7 million last year. However, as shown in the Statement of Activities on pages 22 and 23, the amount taxpayers ultimately financed for these activities was approximately \$5.1 million because some of the cost was paid by those directly benefited from the programs (approximately \$3,347,000) or by other governments and organizations which subsidized certain programs with grants and contributions (approximately \$8,617,000). Overall, the County's governmental program revenues, including intergovernmental aid and fees for service, increased from approximately \$8,462,000 in fiscal year 2015 to approximately \$11,964,000 in fiscal year 2016, principally due to an increase in contributions for road projects from the State of Iowa. The County paid for the remaining "public benefit" portion of governmental activities with taxes (some of which could only be used for certain programs) and with other revenues, such as interest and general entitlements.

INDIVIDUAL MAJOR FUND ANALYSIS

As Carroll County completed the year, its governmental funds reported a combined fund balance of approximately \$10.38 million, a decrease of approximately \$866,000 over last year's total of approximately \$11.25 million. The following are the major reasons for the changes in fund balances of the major funds from the prior year:

- General Fund revenues increased approximately \$184,000 due to an increase in property values resulting in an increase in property tax. Expenditures decreased approximately \$65,000, primarily due to a reduction in Home Care Aide staff and general assistance client rent. The ending fund balance increased approximately \$157,000.
- Special Revenue, Mental Health Fund revenues decreased approximately \$94,000, due primarily to a decrease in intergovernmental revenue for case management services now being reported as part of the General Fund due to the statewide mental health redesign. Expenditures decreased approximately \$338,000 from the prior year. The Special Revenue, Mental Health Fund balance decreased approximately \$721,000 from the prior year to approximately \$753,000 at year end.
- The Special Revenue, Rural Services Fund ending fund balance increased approximately \$5,000 from the prior year to approximately \$525,000. The amount of Local Option Sales Tax (LOST) revenue allocated for rural services was approximately \$499,000, a decrease of approximately \$47,000 from the prior year. Rural Services Fund expenditures increased approximately \$23,000 compared to the prior year.
- Special Revenue, Secondary Roads Fund revenue increased approximately \$668,000. Expenditures increased approximately \$2,027,000 from the prior year, primarily due to an increase in road and bridge projects paid for by the County. The Secondary Roads Fund balance decreased approximately \$611,000 to approximately \$3,762,000 at year end.
- Special Revenue, Local Option Sales Tax Fund expenditures remained consistent from the prior year. The Local Option Sales Tax Fund balance increased approximately \$443,000 to approximately \$2,825,000.

BUDGETARY HIGHLIGHTS

Over the course of the year, Carroll County amended its budget three times. The first amendment was made in October 2015 and resulted in an increase in budgeted disbursements of approximately \$1,513,000, related primarily to Secondary Roads road projects, new equipment and capital construction.

The second amendment was made in February 2016. This amendment was made to increase budgeted disbursements approximately \$93,000, primarily due to software upgrade and courtroom remodel.

The third amendment was made in May 2016. This amendment was made to increase budgeted disbursements approximately \$151,000, primarily due to Targeted Case Management and Mental Health Advocate costs.

The County's receipts were approximately \$665,000 more than budgeted. Intergovernmental receipts were approximately \$577,000 more than budgeted, primarily due to an increase in road use tax and RISE grant proceeds.

Total disbursements were approximately \$1,440,000 less than the final amended budget. Actual disbursements for capital projects, roads and transportation, public safety and legal services, administration and physical health and social services were approximately \$434,000, \$405,000, \$162,000, \$148,000 and \$132,000, respectively, less than budgeted.

Capital projects function disbursements were approximately \$434,000 less than budgeted as some of the projects were not completed or started as anticipated in fiscal year 2016.

In the roads and transportation function, disbursements for equipment operations were \$152,037 less than budgeted due to reduced disbursements for tires and parts. Disbursements for road projects were \$204,493 less than budgeted due to expenses less than anticipated. Disbursements for new equipment were \$35,285 less than budgeted due to costs less than projected.

Public safety and legal services function disbursements were less than the amount budgeted, primarily due to juvenile court services and shelter care being less than budgeted by \$14,260 due to fewer cases and shelter visits. The jail food costs were \$4,493 less than budgeted due to a decrease in meals served. In the Ambulance Department, employee salaries and benefits were \$41,142 less than budgeted due to a decrease in part-time hours and employee health plan changes. In the Communications Department, employee health insurance was \$6,131 less than budgeted due to employee coverage change, salaries were \$15,450 less than budgeted due to personnel changes and radio equipment costs were \$6,458 less than budgeted due to fewer repairs.

Administration function disbursements were approximately \$148,000 less than budgeted, primarily due to maintenance salaries which were \$48,453 less than budgeted due to a retired employee not replaced, Building maintenance was \$8,445 less than budgeted due to fewer than anticipated repairs. Workers compensation insurance was \$20,588 less than budgeted. Treasurer employee health insurance was \$6,866 less than budgeted due to employee retirements. Data processing and equipment was \$26,803 less than budgeted due to fewer repairs and equipment purchases.

Physical health and social services function disbursements were less than budgeted, primarily because home care aides salaries were \$31,400 less than budgeted due to an employee resignation. General assistance utilities and funeral expenses were \$11,162 less than budgeted due to an overall decrease in the need for assistance. Substance abuse treatment expenses were \$6,749 less than budgeted due to a decrease in the need for treatment. Also, the County Department of Human Services Office disbursements for office expense, postage and telephone were less than budgeted.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2016, Carroll County had approximately \$36.3 million invested in a broad range of capital assets for governmental activities, including public safety equipment, buildings, park facilities, roads and bridges. This is a net increase of approximately \$4,134,000, or 12.9%, from last year.

Capital Assets of Governmental Activities at Year End (Expressed in Thousands)		
	June 30,	
	2016	2015
Land	\$ 1,829	1,829
Buildings	3,984	4,135
Improvements other than buildings	731	149
Equipment and vehicles	4,094	3,853
Infrastructure	25,041	21,224
Construction in progress	618	973
Total	\$ 36,297	32,163

The County had governmental activities depreciation expense of approximately \$2,023,000 in fiscal year 2016 and total accumulated depreciation of approximately \$33,696,000 at June 30, 2016.

More detailed information about the County's capital assets is presented in Note 5 to the financial statements.

Long-Term Debt

At June 30, 2016, Carroll County had \$134,497 in debt outstanding, compared to \$179,332 in debt outstanding at June 30, 2015.

The Constitution of the State of Iowa limits the amount of general obligation debt counties can issue to 5% of the assessed value of all taxable property within the County's corporate limits. Carroll County's constitutional debt limit is approximately \$113.7 million. Additional information about the County's long-term liabilities is presented in Note 7 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Carroll County's elected and appointed officials and citizens considered many factors when setting the fiscal year 2017 budget, tax rates and the fees charged for various County activities. One of those factors is the economy. Unemployment in the County in June 2016 was 2.8% versus 2.7% the previous year.

These indicators were taken into account when adopting the budget for fiscal year 2017. Amounts available for appropriation in the operating budget are approximately \$16.5 million, a decrease of 9.4% from the final fiscal year 2016 budget. The County added no major new programs or initiatives to the fiscal year 2017 budget.

If these estimates are realized, the County's budgetary operating balance is expected to decrease approximately \$601,000 by the close of fiscal year 2017.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of Carroll County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Carroll County Auditor's Office, 114 E 6th Street, Carroll, Iowa 51401.

Carroll County
Reconciliation of the Balance Sheet –
Governmental Funds to the Statement of Net Position
June 30, 2016

Total governmental fund balances (page 25) \$ 10,384,926

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds. The cost of assets is \$69,992,444 and the accumulated depreciation is \$33,695,871. 36,296,573

Other long-term assets are not available to pay current year expenditures and, therefore, are recognized as deferred inflows of resources in the governmental funds. 129,955

The Internal Service Fund is used by management to charge the costs of partial self funding of the County's health insurance benefit plan to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the Statement of Net Position. 1,109,494

Pension related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:

Deferred outflows of resources	\$ 794,646	
Deferred inflows of resources	(390,100)	404,546

Long-term liabilities, including installment purchase agreement payable, compensated absences payable, other postemployment benefits payable and net pension liability, are not due and payable in the current year and, therefore, are not reported in the governmental funds. (3,470,588)

Net position of governmental activities (page 21) \$ 44,854,906

Carroll County

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances –
Governmental Funds to the Statement
of Activities

Year ended June 30, 2016

Change in fund balances - Total governmental funds (page 29) \$ (866,045)

***Amounts reported for governmental activities in the Statement of
Activities are different because:***

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Capital outlay expenditures and contributed capital assets exceeded depreciation expense in the current year, as follows:

Expenditures for capital assets	\$ 2,520,243	
Capital assets contributed by other governments	3,554,945	
Depreciation expense	<u>(2,023,140)</u>	4,052,048

In the Statement of Activities, the gain on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in financial resources. 81,918

Because some revenues will not be collected for several months after the County's year end, they are not considered available revenues and are recognized as deferred inflows of resources in the governmental funds, as follows:

Property tax	1,898	
Other	<u>(77,577)</u>	(75,679)

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. 44,835

The current year County share of IPERS contributions is reported as expenditures in the governmental funds but is reported as deferred outflows of resources in the Statement of Net Position. 502,268

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Compensated absences	(167,034)	
Other postemployment benefits	(25,759)	
Pension expense	<u>(311,369)</u>	(504,162)

The Internal Service Fund is used by management to charge the costs of partial self funding of the County's health insurance benefit plan to individual funds. The change in net position of the Internal Service Fund is reported with governmental activities. 131,753

Change in net position of governmental activities (page 23) \$ 3,366,936

See notes to financial statements.

Carroll County

Carroll County

Notes to Financial Statements

June 30, 2016

(1) Summary of Significant Accounting Policies

Carroll County is a political subdivision of the State of Iowa and operates under the Home Rule provisions of the Constitution of Iowa. The County operates under the Board of Supervisors form of government. Elections are on a partisan basis. Other elected officials operate independently with the Board of Supervisors. These officials are the Auditor, Treasurer, Recorder, Sheriff and Attorney. The County provides numerous services to citizens, including law enforcement, health and social services, parks and cultural activities, planning and zoning, roadway construction and maintenance and general administrative services.

The County's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Carroll County has included all funds, organizations, agencies, boards, commissions and authorities. The County has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the County.

These financial statements present Carroll County (the primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

Blended Component Units – The following component units are entities which are legally separate from the County, but are so intertwined with the County they are, in substance, the same as the County. They are reported as part of the County and blended into the appropriate funds.

Certain drainage districts have been established pursuant to Chapter 468 of the Code of Iowa for the drainage of surface waters from agricultural and other lands or the protection of such lands from overflow. Although these districts are legally separate from the County, they are controlled, managed and supervised by the Carroll County Board of Supervisors. The drainage districts are reported as a Special Revenue Fund. Financial information of the individual drainage districts can be obtained from the Carroll County Auditor's Office.

The Carroll County Conservation Foundation has been incorporated under Chapter 504A of the Code of Iowa to receive donations for the benefit of the Carroll County Conservation Board. These donations were expended to finance the Sauk Rail Trail and the Conservation Education Center and were not included in the County's budget. The financial transactions of this component unit have been reported as a Special Revenue Fund.

Jointly Governed Organizations – The County participates in several jointly governed organizations that provide goods or services to the citizenry of the County but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The County Board of Supervisors are members of or appoint representatives to the following boards and commissions: Carroll County Assessor's Conference Board, Carroll County Emergency Management Commission and County Joint E-911 Service Board. Financial transactions of these organizations are included in the County's financial statements only to the extent of the County's fiduciary relationship with the organization and, as such, are reported in the Agency Funds of the County.

In addition, the County Board of Supervisors are members of or appoint representatives to: West Central Iowa Sheltered Workshop (WESCO), Carroll Area Solid Waste Management Commission, Region XII Council of Governments, Youth Emergency Services (Y.E.S.), Ambulance, Conservation and Development.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the County and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by property tax, intergovernmental revenues and other nonexchange transactions.

The Statement of Net Position presents the County's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental and proprietary funds are aggregated and reported as nonmajor governmental and proprietary funds.

The County reports the following major governmental funds:

The General Fund is the general operating fund of the County. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs not paid from other funds.

Special Revenue:

The Mental Health Fund is used to account for property tax and other revenues to be used to fund mental health, intellectual disabilities and developmental disabilities services.

The Rural Services Fund is used to account for property tax and other revenues to provide services which are primarily intended to benefit those persons residing in the county outside of incorporated city areas.

The Secondary Roads Fund is used to account for the road use tax allocation from the State of Iowa, required transfers from the General Fund and the Special Revenue, Rural Services Fund and other revenues to be used for secondary roads construction and maintenance.

The Local Option Sales Tax Fund is used to account for local option sales tax authorized by referendum and used in accordance with the referendum.

Additionally, the County reports the following proprietary funds:

Enterprise Funds are utilized to account for the acquisition, operation and maintenance of governmental facilities and services that are supported by user charges.

An Internal Service Fund is utilized to account for the financing of goods or services purchased by one department of the County and provided to other departments or agencies on a cost reimbursement basis.

The following fiduciary funds are also reported:

Agency Funds are used to account for assets held by the County as an agency for individuals, private organizations, certain jointly governed organizations, other governmental units and/or other funds.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the County.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recorded as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the County's policy is to pay the expenditure from restricted fund balance and then from less-restricted classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's Internal Service Fund is charges to customers for sales and services. Operating expenses for the Internal Service Fund include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County maintains its financial records on the cash basis. The financial statements of the County are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Cash Equivalents and Pooled Investments – The cash balances of most County funds are pooled and invested. Interest earned on investments is recorded in the General Fund unless otherwise provided by law. Investments are stated at fair value except for the investment in the Iowa Public Agency Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at amortized cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the County Board of Supervisors. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Supervisors to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Supervisors is required to certify its budget in March of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is unearned in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2014 assessed property valuations; is for the tax accrual period July 1, 2015 through June 30, 2016 and reflects the tax asking contained in the budget certified by the County Board of Supervisors in March 2015.

Interest and Penalty on Property Tax Receivable – Interest and penalty on property tax receivable represents the amount of interest and penalty that was due and payable but has not been collected.

Due from/Advance to and Due to/Advances from Other Funds – During the course of its operations, the County has numerous transactions between funds. To the extent certain transactions between funds had not been paid or received as of June 30, 2016, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Capital Assets – Capital assets, which include property, furniture and equipment and intangibles are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair that do not add to the value of the assets are defined by the County as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Infrastructure	\$ 50,000
Intangibles	25,000
Land and buildings	25,000
Land improvements	10,000
Intangibles	50,000
Equipment and vehicles	5,000

Capital assets of the County are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated Useful lives (In Years)
Buildings	30 - 50
Land improvements	10 - 30
Infrastructure	15 - 65
Intangibles	5 - 20
Intangibles	5 - 40
Equipment	2 - 40
Vehicles	4 - 10

Deferred Outflows of Resources – Deferred outflows of resources represent a consumption of net position applicable to a future year(s) which will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the County after the measurement date but before the end of the County's reporting period.

Due to Other Governments – Due to other governments represents taxes and other revenues collected by the County and payments for services which will be remitted to other governments.

Trusts Payable – Trusts payable represents amounts due to others which are held by various County officials in fiduciary capacities until the underlying legal matters are resolved.

Compensated Absences – County employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide, proprietary fund and fiduciary fund financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2016. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and the Special Revenue, Mental Health, Rural Services and Secondary Roads Funds.

Long-Term Liabilities – In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund Statement of Net Position.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows of Resources – Deferred inflows of resources represents an acquisition of net position applicable to a future year(s) which will not be recognized as an inflow of resources (revenue) until that time. Although, certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivables that will not be recognized until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Assigned – Amounts the Board of Supervisors intend to use for specific purposes.

Unassigned – All amounts not included in the preceding classifications.

Net Position – The net position of the Internal Service, Employee Group Health Fund is designated for anticipated future catastrophic losses of the County.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) Cash, Cash Equivalents and Pooled Investments

The County's deposits in banks at June 30, 2016 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The County is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Supervisors; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The County had an investment in the Iowa Public Agency Investment Trust which is valued at an amortized cost of \$185,064 pursuant to Rule 2a-7 under the Investment Company Act of 1940. There were no limitations or restrictions on withdrawals for the IPAIT investments. The County's investment in IPAIT is unrated.

The County had no other investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

(3) Due From/Advances to and Due to/Advances from Other Funds

The detail of interfund receivables and payables at June 30, 2016 is as follows:

Receivable Fund	Payable Fund	Amount
Special Revenue: Secondary Roads	General	\$ 2,396
	Special Revenue: Rural Services	1,462
		<u>3,858</u>
Local Option Sales Tax	Enterprise: Mt. Carmel Sewer	7,147
	Maple River Sewer	10,367
		<u>17,514</u>
Total		<u>\$ 21,372</u>

These balances result from the time lag between the dates interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system and payments between funds are made.

Not included above, and not expected to be repaid within one year, are interfund advances of \$167,836 and \$121,146 due from the Enterprise, Mt. Carmel Sewer and Maple River Sewer Funds, respectively, to the Special Revenue, Local Option Sales Tax Fund for repayment of long term interfund loans. The interfund advances will be repaid from user fees.

Also not included above, and not expected to be repaid within one year, is an interfund advance of \$701,769 due from the Special Revenue, Tax Increment Financing Fund to the Special Revenue, Local Option Sales Tax Fund for repayment of an interfund advance to the General Fund for tax increment financing purposes. The interfund advance will be repaid with tax increment financing collections.

(4) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2016 is as follows:

Transfer to	Transfer from	Amount
Special Revenue: Secondary Roads	General	\$ 216,649
	Special Revenue: Rural Services	1,900,105
		<u>2,116,754</u>
Special Revenue: Local Option Sales Tax	Special Revenue: Tax Increment Financing	25,063
	Enterprise: Mt. Carmel Sewer	1,788
	Maple River Sewer	1,371
		<u>28,222</u>
Capital Projects	General	95,000
	Special Revenue: Local Option Sales Tax	75,000
		<u>170,000</u>
Total		<u>\$ 2,314,976</u>

Transfers generally move resources from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(5) Capital Assets

Governmental activities capital assets activity for the year ended June 30, 2016 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 1,828,881	-	-	1,828,881
Construction in progress	972,928	5,301,664	(5,656,760)	617,832
Total capital assets not being depreciated	2,801,809	5,301,664	(5,656,760)	2,446,713
Capital assets being depreciated:				
Buildings	7,034,714	-	-	7,034,714
Improvements other than buildings	171,976	588,248	-	760,224
Equipment and vehicles	9,709,725	857,774	(255,616)	10,311,883
Infrastructure, road network	42,732,161	5,068,512	-	47,800,673
Infrastructure, other	1,638,237	-	-	1,638,237
Total capital assets being depreciated	61,286,813	6,514,534	(255,616)	67,545,731
Less accumulated depreciation for:				
Buildings	2,899,776	150,735	-	3,050,511
Improvements other than buildings	23,008	6,569	-	29,577
Equipment and vehicles	5,856,733	614,424	(253,284)	6,217,873
Infrastructure, road network	22,964,472	1,215,007	-	24,179,479
Infrastructure, other	182,026	36,405	-	218,431
Total accumulated depreciation	31,926,015	2,023,140	(253,284)	33,695,871
Total capital assets being depreciated, net	29,360,798	4,491,394	(2,332)	33,849,860
Governmental activities capital assets, net	32,162,607	9,793,058	(5,659,092)	36,296,573

Depreciation expense was charged to the following functions:

Governmental activities:	
Public safety and legal services	\$ 144,480
Physical health and social services	3,700
County environment and education	109,983
Roads and transportation	1,650,252
Governmental services to residents	37,320
Administration	77,405
Total depreciation expense - governmental activities	<u>\$ 2,023,140</u>

Business type activities capital assets activity for the year ended June 30, 2016 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Business type activities:				
Capital assets not being depreciated:				
Land	\$ 25,500	-	-	25,500
Capital assets being depreciated:				
Infrastructure	1,044,140	-	-	1,044,140
Less accumulated depreciation for:				
Infrastructure	140,182	26,160	-	166,342
Total capital assets being depreciated, net	903,958	(26,160)	-	877,798
Business type activities capital assets, net	\$ 929,458	(26,160)	-	903,298
Total depreciation expense - business type activities				<u>\$ 26,160</u>

(6) Due to Other Governments

The County purchases services from other governmental units and also acts as a fee and tax collection agent for various governmental units. Tax collections are remitted to those governments in the month following collection. A summary of amounts due to other governments at June 30, 2016 is as follows:

Fund	Description	Amount
General	Services	\$ 12,944
Special Revenue:		
Mental Health	Services	3
Secondary Roads	Services	1,525
		1,528
Total for governmental funds		\$ 14,472
Agency:		
Agricultural Extension Education	Collections	\$ 232,384
County Assessor		777,289
Schools		12,386,501
Community Colleges		958,453
Corporations		9,121,980
Townships		288,883
Auto License and Use Tax		678,521
E-911 Service Commission		274,273
All other		293,188
Total for agency funds		\$ 25,011,472

(7) Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2016 is as follows:

	Installment Purchase Agreement	Compen- sated Absences	Net Pension Liability	Net OPEB Liability	Total
Governmental activities:					
Balance beginning of year	\$ 179,332	177,070	1,923,443	303,814	2,583,659
Increases	-	319,240	738,971	129,449	1,187,660
Decreases	44,835	152,206	-	103,690	300,731
Balance end of year	\$ 134,497	344,104	2,662,414	329,573	3,470,588
Due within one year	\$ 46,064	293,462	-	-	339,526

Installment Purchase Agreement

In February 2014, the Carroll County Conservation Board entered into an installment purchase agreement with the Iowa Natural Heritage Foundation (Foundation) to purchase 11 acres, including the house and outbuildings, from the Foundation to be used for the Park Ranger's home. Under the terms of the agreement, the County will make annual payments of \$50,583, which includes interest at 3.25% per annum, for 5 years.

A summary of the installment purchase agreement is as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
2017	3.25%	\$ 46,064	4,519	50,583
2018	3.25	47,709	2,874	50,583
2019	3.25	40,724	1,323	42,047
Total		\$ 134,497	8,716	143,213

(8) Pension Plan

Plan Description – IPERS membership is mandatory for employees of the County, except for those covered by another retirement system. Employees of the County are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, PO Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

Sheriffs, deputies and protection occupation members may retire at normal retirement age, which is generally at age 55. Sheriffs, deputies and protection occupation members may retire any time after reaching age 50 with 22 or more years of covered employment.

The formula used to calculate a sheriff's, deputy's and protection occupation member's monthly IPERS benefit includes:

- 60% of average salary after completion of 22 years of service, plus an additional 1.5% of average salary for years of service greater than 22 but not more than 30 years of service.
- The member's highest three-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member’s beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member’s accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS’ Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the “entry age normal” actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2016, pursuant to the required rate, Regular members contributed 5.95% of covered payroll and the County contributed 8.93% of covered payroll, for a total rate of 14.88%. The Sheriff, deputies and the County each contributed 9.88% of covered payroll, for a total rate of 19.76%. Protection occupation members contributed 6.56% of covered payroll and the County contributed 9.84% of covered payroll, for a total rate of 16.40%.

The County’s contributions to IPERS for the year ended June 30, 2016 were \$502,268.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2016, the County reported a liability of \$2,662,414 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County’s proportion of the net pension liability was based on the County’s share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2015, the County’s collective proportion was 0.0538890%, which was a decrease of 0.005391% from its collective proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the County recognized pension expense of \$311,369. At June 30, 2016, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 41,206	40,107
Changes of assumptions	75,090	18,258
Net difference between projected and actual earnings on IPERS' investments	-	327,884
Changes in proportion and differences between County contributions and the County's proportionate share of contributions	176,082	3,851
County contributions subsequent to the measurement date	502,268	-
Total	<u>\$ 794,646</u>	<u>390,100</u>

\$502,268 reported as deferred outflows of resources related to pensions resulting from the County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount
2017	\$ (94,217)
2018	(94,217)
2019	(94,217)
2020	180,828
2021	4,101
Total	<u>\$ (97,722)</u>

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2014)	3.00% per annum.
Rates of salary increase (effective June 30, 2010)	4.00 to 17.00% average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 1996)	7.50% compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 1990)	4.00% per annum, based on 3.00% inflation and 1.00% real wage inflation.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core plus fixed income	28%	2.04%
Domestic equity	24	6.29
International equity	16	6.75
Private equity/debt	11	11.32
Real estate	8	3.48
Credit opportunities	5	3.63
U.S. TIPS	5	1.91
Other real assets	2	6.24
Cash	1	(0.71)
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and contributions from the County will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.50%) or 1% higher (8.50%) than the current rate.

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
County's proportionate share of the net pension liability	\$ 5,600,809	2,662,414	184,676

IPERS' Fiduciary Net Position – Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to IPERS – All legally required County contributions and legally required employee contributions which had been withheld from employee wages were remitted to IPERS by the County by June 30, 2016.

(9) Other Postemployment Benefits (OPEB)

Plan Description – The County operates a single-employer health benefit plan which provides medical/prescription drug benefits for employees, retirees and their spouses. There are 106 active and 14 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a partially self-funded medical plan administered by Wellmark. Retirees under 65 may convert unused sick days to health insurance at retirement. Ten days of sick leave equals one month of single coverage up to a 12 month maximum. Otherwise, retirees under age 65 pay the same premium for the medical/ month prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the County. The County currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The County's annual OPEB cost is calculated based on the annual required contribution (ARC) of the County, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the County's annual OPEB cost for the year ended June 30, 2016, the amount actually contributed to the plan and changes in the County's net OPEB obligation:

Annual required contribution	\$ 129,370
Interest on net OPEB obligation	12,153
Adjustment to annual required contribution	(12,074)
Annual OPEB cost	129,449
Contributions made	(103,690)
Increase in net OPEB obligation	25,759
Net OPEB obligation beginning of year	303,814
Net OPEB obligation end of year	\$ 329,573

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2016.

For the year ended June 30, 2016, the County contributed \$103,690 to the medical plan. Plan members eligible for benefits contributed \$136,436, or 56.8% of the premium costs.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

Year Ended June 30,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2014	\$ 89,605	73.15%	\$ 278,062
2015	129,442	80.11	303,814
2016	129,449	80.10	329,573

Funded Status and Funding Progress – As of July 1, 2014, the most recent actuarial valuation date for the period July 1, 2015 through June 30, 2016, the actuarial accrued liability was \$1,183,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,183,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$4,666,000 and the ratio of the UAAL to covered payroll was 25.4%. As of June 30, 2016, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2014 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 4% discount rate based on the County's funding policy. The projected annual medical trend rate is 9.5%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the SOA RPH-2014 Total Dataset Mortality Table fully generational using scale AA. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2014 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2014.

Projected claim costs of the medical plan are \$576 per month for retirees and \$1,179 for retirees and spouse less than age 65. The salary increase rate was assumed to be 3% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(10) Risk Management

The County is a member of the Iowa Communities Assurance Pool, as allowed by Chapter 331.301 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 746 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual casualty operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses estimated for the fiscal year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300% of basis rate.

The Pool also provides property coverage. Members who elect such coverage make annual property operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses, reinsurance premiums, losses and loss expenses for property risks estimated for the fiscal year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The County's property and casualty contributions to the Pool are recorded as expenditures from its operating funds at the time of payment to the Pool. The County's contributions to the Pool for the year ended June 30, 2016 were \$147,441.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the County's risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location. Property risks exceeding \$250,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the County's risk-sharing certificate.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim, property loss or series of claims or losses exceeds the amount of risk-sharing protection provided by the County's risk-sharing certificate, or in the event a casualty claim, property loss or series of claims or losses exhausts the Pool's funds and any excess risk-sharing recoveries, then payment of such claims or losses shall be the obligation of the respective individual member against whom the claim was made or the loss was incurred.

The County does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable such losses have occurred and the amount of such loss can be reasonably estimated. Accordingly, at June 30, 2016, no liability has been recorded in the County's financial statements. As of June 30, 2016, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Upon withdrawal, a formula set forth in the Pool's intergovernmental contract with its members is applied to determine the amount (if any) to be refunded to the withdrawing member.

The County also carries commercial insurance purchased from other insurers for coverage associated with workers compensation and employee blanket bond in the amount of \$1,000,000 and \$100,000, respectively. The County assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(11) Employee Health Insurance Plan

The Internal Service, Employee Group Health Fund was established to account for the partial self-funding of the County's health insurance benefit plan. The plan is funded by both employee and County contributions and is administered through a service agreement with Wellmark. The agreement is subject to automatic renewal provisions. The County assumes liability for claims up to the individual stop loss limitation of \$50,000. Claims in excess of coverage are insured through purchase of stop loss insurance.

Monthly payments of service fees and plan contributions to the Employee Group Health Fund are recorded as expenditures from the operating funds. Under the administrative services agreement, monthly payments of service fees and claims processed are paid to Wellmark from the Employee Group Health Fund. The County's contribution for the year ended June 30, 2016 was \$1,087,113.

Amounts payable from the Internal Service Fund at June 30, 2016 total \$193,916, which is for incurred but not reported (IBNR) and reported but not paid claims. The amounts are based on actuarial estimates of the amounts necessary to pay prior-year and current-year claims and to establish a reserve for catastrophic losses. That reserve was \$1,109,494 at June 30, 2016 and is reported as a designation of the Internal Service, Employee Group Health Fund net position. A liability has been established based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires a liability for claims be reported if information prior to the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Settlements have not exceeded the stop-loss coverage in any of the past three years. A reconciliation of changes in the aggregate liability for claims for the current year is as follows:

Unpaid claims beginning of year	\$ 245,564
Incurred claims (including claims incurred but not reported at June 30, 2016)	1,758,158
Payments on claims during the fiscal year	<u>1,809,806</u>
Unpaid claims end of year	<u>\$ 193,916</u>

(12) Revenue Bonds

On September 29, 2003, the County issued \$10,000,000 of Hospital Revenue Bonds in accordance with Chapter 419 of the Code of Iowa on behalf of Saint Anthony Regional Hospital to renovate the existing third floor and other areas of the hospital and to construct and equip an addition. The bonds are not a general obligation of the County, but are payable solely from the net revenues of Saint Anthony Regional Hospital. No other resources of the County shall be required to be used, nor is the general credit of the County pledged, for the payment of bonds.

On November 22, 2006, the County issued \$6,575,000 of Hospital Revenue Bonds in accordance with Chapter 419 of the Code of Iowa on behalf of Saint Anthony Regional Hospital to finance a portion of the cost of the construction of a four-story addition to the hospital, to equip the addition and to add parking structures and a new surgery center. The bonds are not a general obligation of the County, but are payable solely from the net revenues of Saint Anthony Regional Hospital. No other resources of the County shall be required to be used, nor is the general credit of the County pledged, for the payment of the bonds.

On December 1, 2008, the County issued \$1,400,000 of Facility Revenue Bonds in accordance with Chapter 419 of the Code of Iowa on behalf of New Opportunities Inc. for the purchase of land and a building and to equip the building to be used as a Head Start/Outreach facility. The bonds are not a general obligation of the County, but are payable solely from the net revenues of New Opportunities, Inc. No other resources of the County shall be required to be used, nor is the general credit of the County pledged, for the payment of the bonds.

(13) Deficit Balance

The Special Revenue, Tax Increment Financing Fund had a deficit balance of \$701,769 at June 30, 2016. The deficit balance was a result of costs incurred prior to the availability of funds. The deficit will be eliminated with future tax increment financing collections.

(14) County Care Facility

On July 1, 1990, the management and operation of the Carroll County Care Facility was assumed by Mallard View, Inc. The agreement requires the operator to make monthly rental payments to the County and for the County to pay the operator for services rendered. This agreement was renewed for the period commencing July 1, 2011 and ending June 30, 2016.

(15) Carroll County Financial Information Included in the Rolling Hills Community Services Mental Health Region

Rolling Hills Community Services Mental Health Region, a jointly governed organization formed pursuant to the provisions of Chapter 28E of the Code of Iowa which became effective July 2, 2015, includes the following member counties: Buena Vista, Calhoun, Cherokee, Crawford, Sac, Ida and Carroll County. The financial activity of Carroll County's Special Revenue, Mental Health Fund is included in the Rolling Hills Community Services Mental Health Region for the year ended June 30, 2016 as follows:

Revenues:		
Intergovernmental revenues:		
Payments from regional fiscal agent		\$ 40,595
Miscellaneous		1,685
Total revenues		<u>42,280</u>
Expenditures:		
Services to persons with:		
Mental illness		14,833
General administration:		
Direct administration	27,197	
Distribution to regional fiscal agent	<u>720,930</u>	<u>748,127</u>
Total expenditures		<u>762,960</u>
Excess of expenditures over revenues		(720,680)
Fund balance beginning of year		<u>1,473,894</u>
Fund balance end of year		<u>\$ 753,214</u>

(16) New Accounting Pronouncement

The County adopted fair value guidance as set forth in Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application. The Statement sets forth guidance for determining and disclosing the fair value of assets and liabilities reported in the financial statements. Adoption of the guidance did not have a significant impact on amounts reported or disclosed in the financial statements.

Notes to Required Supplementary Information – Budgetary Reporting

June 30, 2016

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the County Board of Supervisors annually adopts a budget on the cash basis following required public notice and hearing for all funds except blended component units, Enterprise Funds, Internal Service Funds and Agency Funds, and appropriates the amount deemed necessary for each of the different County offices and departments. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon ten major classes of expenditures known as functions, not by fund. These ten functions are: public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, non-program, debt service and capital projects. Function disbursements required to be budgeted include disbursements for the General Fund, the Special Revenue Funds and the Capital Projects Fund. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. Legal budgetary control is also based upon the appropriation to each office or department. During the year, three budget amendments increased budgeted disbursements by \$1,757,515. The budget amendments are reflected in the final budgeted amounts.

In addition, annual budgets are similarly adopted in accordance with the Code of Iowa by the appropriate governing body as indicated: for the County Extension Office by the County Agricultural Extension Council, for the County Assessor by the County Conference Board, for the E-911 System by the Joint E-911 Service Board and for Emergency Management Services by the County Emergency Management Commission.

During the year ended June 30, 2016, disbursements did not exceed the amounts budgeted. However, certain departments exceeded the amounts appropriated.

Notes to Required Supplementary Information – Pension Liability

Year ended June 30, 2016

Changes of benefit terms:

Legislation enacted in 2010 modified benefit terms for Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

Legislative action in 2008 transferred four groups – emergency medical service providers, county jailers, county attorney investigators and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in future years. It also included the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate in the calculation of the UAL amortization payments.

**Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards**

To the Officials of Carroll County:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Carroll County, Iowa, as of and for the year ended June 30, 2016, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated May 11, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Carroll County's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Carroll County's internal control. Accordingly, we do not express an opinion on the effectiveness of Carroll County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the County's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings as items (A) and (B) to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings as items (C) through (J) to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Carroll County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters which are described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the County's operations for the year ended June 30, 2016 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the County. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Carroll County's Responses to the Findings

Carroll County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. Carroll County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Carroll County during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

MARY MOSIMAN, CPA
Auditor of State

May 11, 2017

Carroll County

Schedule of Findings

Year ended June 30, 2016

Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

(A) Carroll County Ambulance Department

Criteria – An effective internal control system provides for internal controls related to reconciling ambulance service billings, collections, and receivables to ensure the accuracy of ambulance service collections and receivables. Also, effective internal control systems provide for written documentation of the independent approval of accounts receivable written off as uncollectable.

Condition – The Ambulance Department bills for services provided. The majority of collections for those services are remitted directly to the County Treasurer's Office. The County Treasurer's Office prepares a receipt for accounting and sends a copy of each receipt to the Ambulance Department. The Ambulance Department records each receipt in its computer system. During the year, the Ambulance Department attempted to reconcile the collections recorded in its accounts receivable system with the actual collections recorded by the County Treasurer in total each month, but unexplained variances existed.

In addition, written documentation of the independent approval of accounts receivable written off as uncollectable is not maintained. Also, accounts receivable balances and receipts from the collection agency are not reconciled by the Ambulance Department.

Cause – Policies have not been established and procedures have not been implemented to reconcile ambulance service billings, collections and receivables.

Effect – This condition could result in unrecorded or misstated ambulance service revenues and receivables.

Recommendation – A reconciliation of ambulance service billings, collections and receivables should be prepared monthly and compared to county treasurer's records. Variances should be researched and explanations of variances should be included for the reconciling items. An independent person should review the reconciliations and monitor receivables. The review should be documented by the signature or initials of the reviewer and the date of the review. The Ambulance Department should maintain written documentation of the independent approval of accounts receivable which are written off. Also, collection agency receipts should be recorded and accounts receivable balances reconciled by the Ambulance Department.

Response – After reviewing the recommendations from the State Auditor, we will work with the Treasurer's office to meet their recommendations to the best of our ability.

Conclusion – Response accepted.

Carroll County

Schedule of Findings

Year ended June 30, 2016

(B) Financial Reporting

Criteria – A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements of the financial statements on a timely basis. Properly designed policies and procedures and implementation of the policies and procedures are an integral part of ensuring the reliability and accuracy of the County's financial statements.

Condition - Material amounts of receivables were not properly recorded in the County's financial statements. Adjustments were made by the County to properly include these amounts in the financial statements.

Cause – County policies do not require and procedures have not been established to require independent review of year end cut-off transactions to ensure the County's financial statements are accurate and reliable.

Effect – Lack of policies and procedures resulted in County employees not detecting the errors in the normal course of performing their assigned functions. As a result, material adjustments to the County's financial statements were necessary.

Recommendation – The County should establish procedures to ensure all receivables are identified and properly reported in the County's financial statements.

Response – The County will continue to implement procedures already in place to properly identify and classify all financial transactions. Due to new software, some transactions required assistance and resulted in a longer processing time.

Conclusion – Response accepted.

(C) Board of Health

Criteria – Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the County's financial statements.

In addition, an effective internal control system provides for internal controls related to reconciling Medicaid and nursing service billings, collections and receivables to ensure the accuracy of Medicaid and nursing service collections and receivables.

Condition – One individual has custody of receipts and performs all record keeping duties. In addition, a reconciliation of Medicaid and nursing service billings, collections and receivables was not prepared each month.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Cause – The Board has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes. In addition, policies have not been established and procedures have not been implemented to reconcile Medicaid and nursing service billings to ensure the accuracy of Medicaid and nursing service collections and receivables.

Effect – Inadequate segregation of duties could adversely affect the County's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions. Also, a lack of reconciliations could result in unrecorded or misstated Medicaid and nursing service collections and/or receivables.

Recommendation – The Board should review the control activities of the office to obtain the maximum internal control possible under the circumstances and consider using other County employees or officials to provide additional control. In addition, a reconciliation of Medicaid and nursing service billings, collections and receivables should be prepared monthly. An independent person should review the reconciliation and monitor receivables. The review should be documented by the signature or initials of the reviewer and the date of the review.

Response – Due to a limited number of employees, it's hard to segregate billing duties. A monthly reconciliation sheet has been started for the Medicaid billings, Elderbridge grant billings, skilled nursing billings and local public health grant billing. This shows what is billed each month and the amount which is received. Each deposit made is reviewed and signed by either the Home Care Supervisor or Assistant Supervisor.

Conclusion – Response accepted.

(D) County Sheriff

Criteria – Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the County's financial statements.

Condition – Two employees collect cash, record deposits and reconcile daily cash receipts. There is no evidence of independent review of the bank reconciliations. Also, activity of the Commissary account is not segregated and there is no evidence of an independent review.

Cause – The Sheriff's Office has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Effect – Inadequate segregation of duties could adversely affect the County’s ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions

Recommendation – The Sheriff’s Office should review its operating procedures to obtain the maximum internal control possible under the circumstances. The Office should utilize current personnel, including elected officials, to provide additional control through review of financial transactions, reconciliations and reports.

Response – This being a small office with a limited number of employees, makes it difficult, if not almost impossible, to segregate duties. I am open to any and all suggestions the auditors may have. I will also be speaking with our County Auditor to see what suggestions she may have.

Conclusion – Response acknowledged. Duties should be segregated to the extent possible under the circumstances. The Office should consider using other County employees or officials to provide additional control.

(E) County Recorder

Criteria – Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the County’s financial statements.

Condition – All three individuals in the Recorder’s Office collect cash, prepare the deposit and prepare the monthly bank reconciliations.

Cause – The Recorder’s Office has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Effect – Inadequate segregation of duties could adversely affect the County’s ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation – The Recorder’s Office should review its operating procedures to obtain the maximum internal control possible under the circumstances. The Office should utilize current personnel, including elected officials, to provide additional control through review of financial transactions, reconciliations and reports.

Response – The Recorder’s office is a two full time and one part time clerk office. The Recorder, deputy and part time clerk cross check deposits, monthly bank statements and daily spreadsheets.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Conclusion – Response acknowledged. Duties should be segregated to the extent possible under the circumstances. The Office should consider using other County employees or officials to provide additional control.

(F) County Conservation

Criteria– Management is responsible for establishing and maintaining internal control. A good system of internal control provides for adequate segregation of duties so no one individual handles a transaction from its inception to completion. In order to maintain proper internal control, duties should be segregated so the authorization, custody and recording of transactions are not under the control of the same employee. This segregation of duties helps prevent losses from employee error or dishonesty and maximizes the accuracy of the County's financial statements.

Condition - One individual in the Conservation Department records receipts, prepares the deposit and prepares the monthly bank reconciliations.

Cause – The Conservation Department has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes

Effect – Inadequate segregation of duties could adversely affect the County's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation – The Conservation Department should review its operating procedures to obtain the maximum internal control possible under the circumstances and consider using other County employees or officials to provide additional control through review of financial transactions, reconciliations and reports.

Response – As a small department with limited staff, we will continue to try to segregate duties as much as possible. The Conservation Board Director will continue to review receipts, deposits and reconciliations prepared by the office manager to help mitigate any potential risk.

Conclusion – Response accepted.

(G) Approval of Payroll

Criteria – An effective internal control system provides for internal controls related to preparation of timesheets by all employees. Timesheets support all hours worked and taken as vacation, sick leave, compensatory time, holiday hours and personal days and provide an accurate record of hours worked. Supervisory review of timesheets can help ensure the accuracy of recorded hours worked.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Condition – Department Heads approve timesheets at the end of each pay period. However, there is no formal documentation of their approval. Also, there is no evidence of an immediate supervisor's approval for leave time prior to taking leave.

The Conservation and Secondary Roads Departments' electronic timesheets have no evidence of an employee signature or supervisor approval. Also, two employees in the Sheriff's Office and employees of the County Attorney's Office do not submit time reports to the Auditor's Office.

In addition, the Secondary Roads Department pays employees based on estimated hours. Adjustments are then made to amounts paid after actual hours are known. There is no independent review for the adjustments made for actual hours worked.

Cause – Policies have not been established and procedures have not been implemented to require all employees and departments, including salaried employees, to prepare timesheets or to require timesheets be reviewed and approved by supervisory personnel.

Effect – The lack of a documented supervisory review process increases the probability staff errors in recording hours or leave will go undetected.

When an employee retires or otherwise leaves employment and claims a payout, the County needs support to provide assurance the claim is proper. Without maintaining detailed records, the County may not have the ability to support the claim. In addition, without detailed records, the County may not have the support necessary to ensure compliance with the Fair Labor Standards Act.

Recommendation – Timesheets should be submitted to the County Auditor's office prior to the processing of payroll each pay period. Timesheets should be signed by the employee and supervisor prior to submission. Timesheets should support all hours worked and taken as vacation, sick leave, compensatory time, holiday hours and personal days. Also, leave time should be approved prior to taking leave. Adjustments made to Secondary Roads Department employee's pay should be independently reviewed and documented.

Response – We currently have a system in place which addresses these concerns. We will address individual department heads as to this requirement.

Conclusion – Response accepted.

(H) Secondary Roads Inventory

Criteria – An effective internal control system provides for internal controls related to ensuring proper accounting for all inventory items and for periodic review of those records by someone independent of other duties related to inventory.

Condition – Inventory counts are not verified by a person independent of the inventory records.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Cause – The Secondary Roads Department has a limited number of employees and procedures have not been designed to adequately segregate duties or provide compensating controls through additional oversight of transactions and processes.

Effect – Inadequate segregation of duties could adversely affect the County's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis by employees in the normal course of performing their assigned functions.

Recommendation – Inventory counts should be verified by a person independent of the inventory records.

Response – Inventory counts will be verified or taken by a separate disinterested party.

Conclusion – Response accepted.

(I) Prepaid Gift Cards for Sheriff

Criteria – An effective internal control system provides for internal controls related to ensuring proper accounting for all purchases and ensuring all purchases are properly supported, reviewed and approved.

Condition – The County Jail used gift cards to pay for daily jail supplies. The Board of Supervisors approved the purchase of the gift cards. However, individual items purchased were not reviewed and approved by the Board.

Cause – Procedures have not been designed and implemented to regulate the use of gift cards.

Effect – Lack of written policies and procedures to regulate the use of gift cards could result in unauthorized and unsupported transactions and the opportunity for misappropriation of funds.

Recommendation – Prepaid gift cards should not be used for the purchase of County jail supplies. All expenditures for the County Sheriff's Office should be paid through claims approved by the Board of Supervisors and reflected in the County's accounting system, County budget and annual financial reports. Also, invoices should be on file to support all expenditures.

Response – We are no longer using the prepaid gift cards. All purchases will be on a department credit card.

Conclusion – Response accepted.

Carroll County

Schedule of Findings

Year ended June 30, 2016

(J) Drug and Alcohol Buy Funds

Criteria – Internal controls over safeguarding assets constitute a process, affected by an entity's governing body, management and other personnel designed to provide reasonable assurance regarding prevention or timely detection of unauthorized transactions and safeguarding assets from error or misappropriation. Such processes include establishing policies addressing proper asset use and proper supporting documentation.

Condition – The Sheriff's Office maintains drug and alcohol buy funds. The funds are not being appropriately recorded and maintained. The balance on hand at the time of a count did not reconcile to the hand written log being maintained by the Sheriff's Office.

Cause – Adoption of a formal policy to appropriately record the funds and maintain these records has not been prioritized by the Sheriff's department. Lack of supporting documentation is the result of a lack of policies and procedures requiring proper support for these funds.

Effect – Lack of written policies and procedures to regulate the use of drug and alcohol buy funds result in unrecorded transactions and the opportunity for misappropriation.

Recommendation – The Sheriff's Office should develop a system to track usage of drug and alcohol buy funds and reconcile amounts on hand to the log maintained.

Response – This issue is currently being addressed and a policy concerning this will be in place in time for the next audit. The old system of keeping notes in a ledger has been replaced with a computer spreadsheet, but work does remain to make this a more adequate system.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

Carroll County

Schedule of Findings

Year ended June 30, 2016

Other Findings Related to Required Statutory Reporting:

- (1) Certified Budget – Disbursements during the year ended June 30, 2016 did not exceed the amounts budgeted by function. Disbursements in certain departments exceeded the amounts appropriated prior to amendment.

Recommendation – Chapter 331.434(6) of the Code of Iowa authorizes the Board of Supervisors, by resolution, to increase or decrease appropriations of one office or department by increasing or decreasing the appropriation of another office or department as long as the function budget is not increased. Such increase or decreases should be made before disbursements are allowed to exceed the appropriation.

Response – There will be additional review of all Department budgets in the future.

Conclusion – Response accepted.

- (2) Questionable Expenditures – No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- (3) Travel Expense – No expenditures of County money for travel expenses of spouses of County officials or employees were noted.
- (4) Business Transactions – Business transactions between the County and County officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Louie Grote, Veterans Affairs Director, owner of LNC Computers	IT services	\$ 38,457
Mark Beardmore, Board of Supervisors, manager at Wittrock Motors	Auto services and repair	7,785
Joann Martin, Auditor's Office, wife of Steve Hoogestraat, independent contractor	Sanitarian contract labor	4,335
Pat Gray, Ambulance Director, death investigator	Medical exam investigations	2,100
Alan Brinks, Secondary Roads employee, independent contractor	Mowing	1,395
Jean Seidl, Treasurer's Office, wife of Mike Seidl, owner of Seidl Construction	Mowing/spraying	670
Dan Heiman, Conservation, father of Justin Heiman, self-employed Farmer	Hay bales	200
Emily Loew, Auditor's Office, wife of Mike Loew, owner of M.J. Loew Floor Covering	Carpet installation	4,478
Roseanna Schulte, Treasurer's Office, wife of LeRoy Schulte, employee at Computer Repair and Service	Internet repair	172
Brooke Bruning, Treasurer's Office, daughter-in-law of owners of Bruning Oil	Tire repair/auto repair	15,774
Zach Niehaus, maintenance employee, independent contractor	Snow removal	263

Carroll County

Schedule of Findings

Year ended June 30, 2016

In accordance with Chapter 331.342(2)(c) of the Code of Iowa, the transactions with Wittrock Motors, LNC Computers and M.J. Loew Floor Covering do not represent a conflict of interest since the services were competitively bid.

In accordance with Chapter 331.342(2)(d) of the Code of Iowa, the transactions with Steve Hoogestraat, Pat Gray and Bruning Oil do not appear to represent conflicts of interest since the Auditor's Office, Ambulance Department and Treasurer's Office employees' employment is not directly affected as a result of the contract.

In accordance with Chapter 331.342(2)(j) of the Code of Iowa, the transactions with Alan Brincks, Seidl Construction, Justin Heiman, Computer Repair and Service and Zach Niehaus do not appear to represent conflicts of interest since total transactions with each did not exceed \$1,500 during the year.

- (5) Bond Coverage – Surety bond coverage of County officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.
- (6) Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- (7) Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the County's investment policy were noted.
- (8) Resource Enhancement and Protection Certification – The County properly dedicated property tax revenue to conservation purposes as required by Chapter 455A.19(1)(b) of the Code of Iowa in order to receive the additional REAP funds allocated in accordance with subsections (b)(2) and (b)(3).
- (9) Annual Urban Renewal Report – The Annual Urban Renewal Report was approved and certified to the Iowa Department of Management on or before December 1.
- (10) Financial Condition – The Special Revenue, Tax Increment Financing Fund had a deficit fund balance of \$701,769 at June 30, 2016.

Recommendation – The County should investigate alternatives to eliminate the deficit fund balance to return the fund to a sound financial position.

Response – The deficit balance will be reduced beginning in fiscal year 2017 with tax increment financing collections from the County urban renewal area.

Conclusion – Response accepted.

Carroll County

Schedule of Findings

Year ended June 30, 2016

- (11) GAAP Basis Annual Financial Report – The County is required to submit the annual financial report to the Department of Management on an accrual basis each year. The report filed did not include the County Attorney Collection and Forfeiture Fund as part of the General Fund activity.

Recommendation – The County should properly include all county activity in the report filed with the Department of Management.

Response – The County will include the County Attorney Collection and Forfeiture Fund in future reporting.

Conclusion – Response accepted.

- (12) County Extension Office – The County Extension Office is operated under the authority of Chapter 176A of the Code of Iowa and serves as an agency of the State of Iowa. This fund is administered by an Extension Council separate and distinct from County operations and, consequently, is not included in Exhibits A or B.

Disbursements during the year ended June 30, 2016 for the County Extension Office did not exceed the amount budgeted.

- (13) County Extension Office Segregation of Duties – During our review of internal control, the existing control activities are evaluated in order to determine incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and, therefore, maximizes the accuracy of the County's financial statements. Generally, one or two individuals in the County Extension Office may have control over collecting, depositing and reconciling receipts.

Recommendation – We realize segregation of duties is difficult with a limited number of office employees. However, the control activities should be reviewed to obtain the maximum internal control possible under the circumstances. The Office should utilize current personnel or other County employees or officials to provide additional control through review of financial transactions, reconciliations and reports.

Response – We are aware segregation of duties is very important and have developed the following strategy to help mitigate any losses in regards to the bank reconciliation preparation. As it is not feasible with the amount of staff available to have an independent person prepare the bank reconciliations, we will implement a review process.

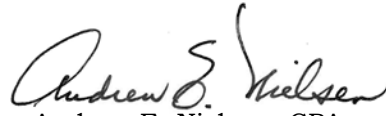

Conclusion – Response accepted.

Carroll County

Staff

This audit was performed by:

Jennifer L. Wall, CPA, Manager
Karen L. Brustkern, CPA, Senior Auditor II
Marcus B. Johnson, Staff Auditor
Carolina M. Chavez, Staff Auditor
Malika Moutiq, Assistant Auditor

A handwritten signature in black ink, reading "Andrew E. Nielsen". The signature is fluid and cursive, with the first name "Andrew" and last name "Nielsen" clearly legible.

Andrew E. Nielsen, CPA
Deputy Auditor of State
