## CHAPTER 1 - INTRODUCTION

### Purpose of the Evaluation

A major concern of the Elementary and Secondary Education Act of 1965 is the provision of school library resources in elementary and secondary schools throughout the Nation. This program, authorized and conducted under Title II of the Act, completed its fourth fiscal year of operation on June 30, 1969. Iowa's State Plan for ESEA Title II, approved by the U. S. Office of Education on April 1, 1966, is unique in its approach for the utilization of funds. The plan provides for the development of sixteen (16) sub-agency areas encompassing the entire area of the State. Sixteen sub-agency chairmen were selected from the county superintendents within the designated geographic areas who, with their respective county boards of education, have had the responsibility for the establishment and operation of the regional educational media centers. All public and non-public elementary and secondary children and teachers in Iowa are eligible to be served by the centers within their respective areas.

Federal guidelines dictate that the Title II administrative and supervisory staff of each state periodically examine program practices to evaluate their effectiveness and to determine changes which may be needed. There were, however, reasons in addition to that of complying with Federal guidelines for conducting the evaluation at this time. As the program neared the completion of its fourth fiscal year of operation, it was felt that those individuals who have actually had access to the materials purchased under Title II and placed in the regional educational media centers should be consulted to obtain their views as to the benefits of the Title II program.

Another timely reason for conducting the study involved the reduction in federal funding of Title II of the ESEA. This Title, a 100 per cent Federal grant program, originally authorized the U. S. Commissioner of Education to make grants to States for a five-year period beginning July, 1965. However, Iowa's appropriation for the fourth fiscal year of operation, fiscal year 1969 (July 1, 1968 - June 30, 1969), was reduced approximately 50 per cent from those of previous years; and, as of the date of this writing, only State administrative funds for the first quarter of fiscal year 1970 (July 1, 1969 - September 30, 1969) have been appropriated for the present fiscal year. (See Appendix for listing of area allocations for fiscal years 1966, 1967, 1968, and 1969). In view of this drastic reduction in federal funding, some evaluation of Iowa's Title II program was necessary to determine its effectiveness and provide further justification for its continuance.

It is hoped that results of this survey may be beneficial in making future decisions involving the regional educational media centers in Iowa, particularly in regard to such factors as obtaining local and/or state funds for further support of the centers and in making any needed changes in the State Plan for ESEA Title II.

### Preparation of Evaluative Instruments

On November 19, 1968, at a special meeting of the ESEA Title II State Advisory Committee, plans for an evaluation were discussed at length. It was decided that a tentative questionnaire would be developed by the Title II staff of the Department of Public Instruction which would be studied and revised by the Advisory Committee during the statewide Title II meeting scheduled for January 22-24, 1969. A teacher questionnaire was drawn up by the staff as recommended and revised by the Committee as planned. During the discussion of the teacher questionnaire, it was decided that administrators should also be included in the sampling and thus a similar instrument was developed to be completed by administrators. These two questionnaires were presented in rough draft form to the State Advisory Committee members, sub-agency chairmen, and regional center personnel during a meeting held on ~~May~~ <sup>March</sup> 27-28, 1969, for their study and recommendations. Following this meeting, the questionnaires were revised into their final form and reproduced by the Title II staff of the Department of Public Instruction.

It should be noted that the Title II staff worked closely with the forms control specialist as well as the Data Processing Division of the Department of Public Instruction in developing the evaluative instruments.

### Sampling Procedures

In the initial planning of the evaluation it was envisioned that the sampling would include teachers and administrators from all sixteen areas encompassing the state. However, due to the lack of funds and staff for conducting this extensive of an evaluation, a decision was made to conduct a pilot evaluation in four of the sixteen areas. The sixteen areas were thus organized into four groups according to total public and non-public enrollment size and one area was selected at random (area number drawn out of a box) from each of the four groups as follows:

<u>Group A</u>	<u>Group B</u>	<u>Group C</u>	<u>Group D</u>
Area XI	Area V	*Area II	Area VI
Area X	*Area XIII	Area VIII	*Area III
*Area IX	Area XII	Area I	Area IV
Area VII	Area XV	Area XVI	Area XIV

\*Indicates area selected. (Refer to map in Appendix for location of these areas.)

It was determined that the sampling within each of the four selected areas would include the following: (1) all county superintendents; (2) all district superintendents; (3) fifteen per cent (15%) of the K-6 public and non-public teachers and principals; and (4) fifteen per cent (15%) of the secondary public and non-public teachers and principals. The public teachers and principals were selected at random from the Iowa Educational Directory, 1968-1969 School Year published by the Department of Public Instruction, State

of Iowa. The non-public teachers and principals were selected at random from lists of non-public school personnel provided to the Department of Public Instruction Title II staff by the sub-agency chairmen of the four areas involved in the evaluation. It should be emphasized that the participants in the evaluation were selected at random -- no attempt was made to select individuals on the basis of school size, subject matter areas, age groups, degrees held, number of years experience, or other factors.

More specific data regarding the makeup of the sampling is discussed in Chapter 3.

#### Distribution of Evaluative Instruments

The questionnaires were distributed by mail from the Department of Public Instruction on April 25, 1969. A copy of the administrator questionnaire, accompanied by an explanatory memorandum, was mailed directly to each county superintendent in the four areas. The questionnaires for the public school superintendent, principal(s), and teacher(s) (elementary and secondary) of any given school district were sent to the respective superintendent. A memorandum accompanying the questionnaires requested that the superintendent distribute the forms to the principal(s) and/or teacher(s) in his district included in the sampling, the names of whom were listed on an attached sheet. The questionnaires for the non-public principal and teacher(s) (elementary and secondary) of any given school were sent to the respective principal. Again, an explanatory memorandum as well as a listing of those who were to complete the questionnaires accompanied the forms. (See Appendix for copies of the questionnaires and cover memorandums.)

The completed questionnaires were to be returned by mail to the Department of Public Instruction by no later than May 20, 1969. No return envelope was provided and no reminder letter was sent to the participants.

A detailed description of the rate of return of the questionnaires may be found in Chapter 3.

#### Procedures for Analyzing Data

As was previously mentioned, the evaluative forms were developed with the assistance of the Data Processing Division in order that the data might be keypunched and listed on computer printouts. All comments made on the questionnaires by the participants were listed according to area and distributed to the regional educational media center personnel of the area involved. Please refer to Chapter 4 for a complete analysis of the responses to the questions and a categorical analysis of comments made on the questionnaires.

## CHAPTER 2 - AREA DATA

In order that the data contained in the following chapters may be of greater significance to the reader, it is appropriate that some basic information about each of the areas involved in the pilot evaluation be presented in this chapter. It is hoped that the following facts regarding the size, facilities, personnel, and services of each of the four areas will give the reader a greater understanding in interpreting the results of the survey.

### Population and Enrollment Factors

The following table provides a brief summary and comparison of the sizes of the areas involved in the evaluation.

TABLE 1  
POPULATION AND ENROLLMENT FACTORS<sup>1</sup>

Area	General population of area	No. of part or whole counties in area	No. of public school dists. in area	No. of attendance centers in area		Total school enrollment in area (K-12)		No. of teachers & adm. in area (K-12)	
				Public	Non-Public	Public	Non-Public	Public	Non-Public
*II	141,886	9	29	110	13	33,997	2,579	1,794	105
III	88,629	5	28	62	13	20,081	2,976	1,193	128
* IX	240,002	4	19	128	37	59,180	6,692	2,818	295
XIII	189,720	8	35	142	18	46,485	3,451	2,570	176

\*It is interesting to note that within two of the areas included in the sampling there are legal mergers of county school systems. Four of the nine counties in Area II and two of the four counties in Area IX are involved in joint county systems.

<sup>1</sup>This data taken from questionnaires completed by Iowa's Regional Educational Media Centers in July, 1969. Questionnaire developed and distributed by Cooperative Services Committee, Ira Larson, Chairman.

## Assessed Valuations

The table below shows the assessed valuation for each of the four areas.

TABLE 2  
ASSESSED VALUATIONS<sup>2</sup>

Area	Total assessed valuation-1968	Assessed valuation per-enrolled child (9-15-68)
II	\$400,602,429	\$ 11,783.00
III	278,158,875	12,064.00
IX	528,685,415	8,025.95
XIII	439,547,910	8,802.22

## Location and Facilities of Centers

The regional educational media center located in Area II has as its facility a one-floor building shared with other joint county system operations. Approximately 1,216 square feet of space are occupied for Title II operations. Space is provided in the center for a conference room, preview room, processing room, an exterior loading dock, space for production facilities, and storage and office facilities. A limited amount of parking space is provided beside the building located in a suburban area.

Area III has as its facility the second floor of a building shared with other county operations. Approximately 2,251 square feet of space are occupied for Title II operations. Space is provided in the center for a combination preview and conference room, processing and work room, browsing room, and storage facilities. A limited amount of parking space is provided in front of the building located in the downtown area.

The regional center in Area IX is located in a separate one-floor facility. Approximately 10,000 square feet of space are occupied for Title II operations. Facilities provide for a conference room, preview room, processing room, an interior loading dock, browsing space, and production facilities as well as storage and office space. The center, located in the downtown area of the city, has access to some parking space.

---

<sup>2</sup>  
IBID.

Area XIII's regional center has as its facility a building which is part of a complex occupied by other county and area operations. Approximately 5,240 square feet are occupied for Title II operations. Present facilities provide for a conference room, processing room, an exterior loading dock, browsing space, production facilities, and darkroom as well as storage and office space. The center, located at the Treynor-Missile site, provides adequate parking space.

### Personnel

The following table shows the number of professional and non-professional personnel employed in each of the four regional educational media centers.

TABLE 3

CHAPTER 3 - ANALYSIS OF RESPONDENTS

Section I - Administrator Questionnaire

The table below indicates the number of questionnaires sent to administrators, the number returned, and the per cent of return for each of the four areas included in the evaluation.

TABLE 5  
RESPONSE TO QUESTIONNAIRE  
(BY AREA)

Position held	Number of questionnaires sent	Number of respondents	Per cent of return
<u>Area II</u>			
County Superintendents	4	4	100%
Superintendents	29	16	55
Secondary Principals-Public	8	5	63
Elementary Principals-Public	9	6	67
Secondary Principals-Non-Public	2	2	100
Elementary Principals-Non-Public	2	2	100
Total -- Area II	54	35	65
<u>Area III</u>			
County Superintendents	4	4	100
Superintendents	28	23	82
Secondary Principals-Public	9	9	100
Elementary Principals-Public	6	4	67
Secondary Principals-Non-Public	1	1	100
Elementary Principals-Non-Public	2	2	100
Total -- Area III	50	43	86
<u>Area IX</u>			
County Superintendents	2	2	100
Superintendents	19	17	90
Secondary Principals-Public	7	7	100
Elementary Principals-Public	12	7	58
Secondary Principals-Non-Public	1	0	0
Elementary Principals-Non-Public	4	4	100
Total -- Area IX	45	37	82
<u>Area XIII</u>			
County Superintendents	6	6	100
Superintendents	35	31	89
Secondary Principals-Public	14	14	100
Elementary Principals-Public	11	7	64
Secondary Principals-Non-Public	1	0	0
Elementary Principals-Non-Public	3	2	67
Total -- Area XIII	70	60	86

The table below indicates the number of questionnaires sent to administrators, the number returned, and the per cent of response for the state-wide sampling.

TABLE 6  
RESPONSE TO QUESTIONNAIRE  
(SUMMARY OF FOUR AREAS)

Position held	Number of questionnaires sent	Number of respondents	Per cent of return
County superintendents	16	16	100%
Superintendents	111	87	78
Secondary Principals-Public	38	35	92
Elementary Principals-Public	38	24	63
Secondary Principals-Non-Public	5	3	60
Elementary Principals-Non-Public	11	10	91
Totals	219	175	80

It should be noted that a number of questionnaires were returned after the deadline date and are not included in the tables above. The following number of administrator questionnaires were returned after the deadline date:

Area II: 4  
Area III: 1  
Area IV: 1  
Area IX: 1

The tables which follow (Tables 7 and 8) show the average number of semester hours earned and the highest degrees held by the administrators responding to the questionnaires. The first table gives this data broken down by area while the second table gives a statewide summary.

TABLE 7  
AVERAGE SEMESTER HOURS EARNED AND

The average number of years of total administrative experience as well as the average numbers of years which the administrators responding to the questionnaire have held their present positions are summarized in the following two tables (Tables 9 and 10). The first table breaks this information down by area while the second shows a statewide summary.

TABLE 9  
YEARS OF EXPERIENCE

## CHAPTER 4 - ANALYSIS OF RESPONSES

### Section I - Administrator Questionnaire

In order to give as realistic a picture as possible of the results of the evaluation, the following tables are being presented. The figures shown indicate the number of yes and no responses as well as the per cent of positive responses to each question asked on the questionnaire. Two tables have been developed for each question: the first indicates the results for each area while the second table shows a summary of the results for the four areas included in the evaluation.

Question #1: Are you aware of the Regional Educational Media Center located in your area?

TABLE 20  
RESPONSE TO QUESTION #1 (BY AREA)

Position held	Number of yes responses	Number of no responses	Per cent responding yes
<u>Area II</u>			
County Superintendents	4	0	100%

Question #13: Give any comments or suggestions that you feel would be helpful for making the Regional Educational Media Center more effective.

A number of the administrators responding to the questionnaire voluntarily made comments in response to the above question. The following table shows the number and per cent of the respondents making comments on the questionnaire:

TABLE 44  
COMMENTS ON ADMINISTRATOR QUESTIONNAIRE (BY AREA)

Area	Total number of respondents	Number of comments made	Per cent of respondents making comments
II	35	15	43%
III	43	15	35
IX	37	15	41
XIII	60	27	45
Total	175	72	41

The comments from the four areas seemed to center on the following four basic topics: (1) the need for more funds in order that additional materials may be purchased; (2) suggestions for additional services and for the further development of the regional educational media centers; (3) the need for delivery service and personnel where these factors are not provided; and (4) support for the continuance of the regional centers. Examples of comments regarding these four basic topics follow.

- (1) The need for more funds in order that additional materials may be purchased.

"A continuation of federal funds is needed to keep the center up dated and a depository for the expensive materials which each individual district cannot afford."

"The Regional Educational Media Center in our area has done an excellent job for the school. If and when the center can no longer operate with federal aid, I would suggest that either the County or Schools the center serve finance the continued services of the center."

"Obtain a sufficient number of copies of the media which are used most frequently."

- (2) Suggestions for additional services and for the further development of the regional educational media centers.

"Teachers should be made aware of what the Media Center has to offer. This could be accomplished through in-service workshops."

"More Title II funds! Graphic arts personnel (at least one person). Coordinated use of video taping equipment."

"Set up curriculum centers at the Media Center for individual schools to view samples from various book companies."

"Need RESA unit to really develop center."

- (3) The need for delivery service and personnel where these factors are not provided.

"Scheduled transportation route to area schools outside the city....."

"Transportation services needed."

"Materials are too far away -- not readily available."

"The regional centers need both more staff and media of additional quantity to encourage satisfactory utilization through positive availability."

- (4) Support for the continuance of the regional centers.

"Our area has an active functional media center and my only suggestion is to continue on with the long-range planning of the organization."

"The working of our Regional Educational Media Center has been superb. More of the staff members in our local district could use this service or some of those using it could use it more extensively. However, this is our local problem."

"Our elementary library instructional materials centers have been started within the last two years. The availability of materials from the Area Center has helped tremendously, allowing us to purchase materials not available through the center, thus enlarging the number of materials available."

"The teachers in both schools under my administration,....., take advantage of the media center. The materials from the media center are 'fantastic'."

## Section II - Teacher Questionnaire

The teacher questionnaire was divided into two sections as follows: Part A to be completed only by those teachers who had utilized materials from the ESEA Title II Regional Educational Media Centers located in their respective areas; and Part B to be completed only by those teachers who had not utilized materials from the ESEA Title II Regional Educational Media Centers located in their respective areas.

The following table shows the number as well as the per cent of respondents who reported that they had used materials from the regional centers.

TABLE 45

Question #8: Please indicate the appropriate reasons you or your students have not used ESEA Title II materials from the Regional Educational Media Center located in your area:

- a. I have not been informed that ESEA Title II materials are available to me.
- b. Title II materials available to me are not relevant to the subject matter that I teach.
- c. Title II materials available to me are not appropriate for pupils of the grade level I teach.
- d. I teach a "special" class, and ESEA Title II materials available to me are not appropriate for my pupils.
- e. ESEA Title II materials are available, but not from a conveniently accessible location within the school district.
- f. ESEA Title II materials are available, but the Regional Educational Media Center is not conveniently accessible.
- g. ESEA Title II materials are not available when I need them.
- h. The materials are more accessible elsewhere.
- i. I am unable to specify a reason for not using ESEA Title II materials.

Comments on Teacher Questionnaires - Parts A and B

A number of teachers responding to the questionnaire -- both users and non-users -- voluntarily made comments or suggestions which they felt would be helpful for making the Regional Educational Media Center more effective. The following table shows the number and per cent of the respondents making comments on the questionnaire:

TABLE 85  
COMMENTS ON TEACHER QUESTIONNAIRE (BY AREA)

XIII	396	191	48
Total	1,111	492	44

The comments from the four areas seemed to center on the following basic topics: (1) the need for more duplicate copies of materials; (2) the need for materials in specific subject matter areas; (3) the need for additional services; (4) suggestions for changes in center policies and procedures; (5) the need for better communications between the center and the teachers; and (6) support for the continuance of the centers.

(1) The need for more duplicate copies of materials.

"The Educational Media Center is one of my greatest teaching aids. Excellent, suitable media is on file there..... I only wish that they could duplicate some of the more popular films as the demand for them exceeds the supply."

"I have had trouble obtaining materials at the time I was studying the units. They should have more copies. There were several I had asked for that were not available because someone else had booked them at an earlier date."

(2) The need for materials in specific subject matter areas.

"Get more films in the foreign language area."

"There is very little materials at the media center in my subject area which is music."

"Have more materials for physical education."

(3) The need for additional services.

"A means of transportation is needed by which the materials would be more readily obtainable."

"Send brochures and reminders to teachers in area periodically."

"A suggestion for future possibilities might be video tape and storage of video tapes for playback of special programs we teachers may request."

"A trained certified librarian who is more familiar with the needs of the junior high school and the acquisition of print materials and methods of extending services should be employed."

(4) Suggestions for changes in center policies and procedures.

"It would seem that those schools at a distance from the media center could benefit more from the materials made available if the center could arrange for later closing hours."

"Definitely a longer film usage period is needed as the time limit was too short to allow previewing and actual showing."

"More effective scheduling of materials whereby each school would hold on to the media for a shorter period of time thus keeping them in circulation better."

"There is a need for better organization of the confirmation of materials."

(5) The need for better communications between the center and the teachers.

"I would suggest some sort of in-service training sponsored by the center. I'm sure teachers would be happy to participate in using the Center if they know what materials could be supplied and if they were convinced of the educational value of those materials."

"A more personal contact should be made possible between the teacher and media center (especially the first year teacher)."

"Making teachers more aware of the services and materials available, either through in-service training, individual pamphlets for each teacher, or through administrative guidance, would make the center much more useful."

"I feel if each school had an appointed time, say once a month, to visit the center, and were given released time from school, we could make better use of the material. Perhaps at this time the Media Center staff could make us aware of new materials available. Most teachers find it difficult to take time after school hours to visit the center."

(6) Support for the continuance of the centers.

"I feel that Area ---- does a fine job in making educational materials available to the different schools."

"Excellent progress has been made; however, continuation of this endeavor should be encouraged and urged by all means."

"I believe the Regional Educational Media Center is quite effective in this area."

"I believe that the media center as it is now set up offers many opportunities for improving instruction."

# CHAPTER 5 - SUMMARY

From the data presented in the preceding Chapter, it is evident that any number of correlations could be drawn. An attempt should be made, however, in this Chapter to present some of the correlations which are felt to be of major significance in analyzing the effectiveness of the ESEA Title II program in Iowa based on the evaluation conducted in the four areas.

One of the major correlations which can be made is a comparison of the users of the materials with those of the non-users of the materials. The following table indicated the per cent of "yes" responses to the question: "Have you ever visited the Regional Educational Media Center located in your area?" by those having used the materials and those not having used the materials.

TABLE 86  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
VISITATION TO CENTERS  
(PER CENT OF YES RESPONSES)

This chart shows that in all four areas (including those with delivery systems) a greater percentage of the users have visited the centers than non-users. Greater emphasis should be placed on encouraging the teachers within the areas to visit the centers--perhaps through in-service training and/or pre-school workshops.

The table below shows the percent of "yes" responses to the question: "Do you have access to lists or catalogs of the print materials available in the Regional Educational Media Center located in your area?" by those having used the materials and those not using the materials.

TABLE 87  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
ACCESSIBILITY OF CATALOGS OF THE PRINT MATERIALS  
(PER CENT OF YES RESPONSES)

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u>											
Users											(84%)
Non-Users											(80%)
<u>Area III</u>											
Users											(72%)
Non-Users											(69%)
<u>Area IX</u>											
Users											(98%)
Non-Users											(82%)
<u>Area XIII</u>											
Users											(96%)
Non-Users											(94%)
<u>Summary</u>											
Users											(91%)
Non-Users											(83%)

Although in each area a slightly greater percentage of users reported the availability of print catalogs than non-users, no real significance is evident. It is interesting to note, however, that a number of teachers are reporting that no catalogs are available even though they are being published. Greater effort may be needed in seeing that the catalogs do reach the teachers' hands and that the teachers are made aware of the materials available to them.

The table shown below indicates the per cent of "yes" responses to the question: "Do you have access to lists or catalogs of the non-print materials available in the Regional Education Media Center located in your area?"

TABLE 88  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
ACCESSIBILITY OF CATALOGS OF THE NON-PRINT MATERIALS  
(PER CENT OF YES RESPONSES)

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u>											
Users											(84%)
Non-Users											(78%)
<u>Area III</u>											
Users											(83%)
Non-Users											(68%)
<u>Area IX</u>											
Users											(88%)
Non-Users											(69%)
<u>Area XIII</u>											
Users											(88%)
Non-Users											(86%)
<u>Summary</u>											
Users											(87%)
Non-Users											(76%)

As was true with the catalogs of print materials, only a slightly greater percentage of users reported the availability of non-print materials than non-users. Again, however, it is significant to note that a number of teachers reported that no catalogs are available of non-print materials even though all areas involved in the sampling have produced such catalogs. It does seem apparent that more follow through is needed to see that catalogs are distributed directly to the teachers.

The following table shows the per cent of "yes" responses to the following question: "Have you been involved in recommending, suggesting, or selecting materials (print or non-print) to be purchased for the Regional Educational Media Center in your area?" by both the users and non-users of the materials.

TABLE 89  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
INVOLVEMENT IN SELECTION OF MATERIALS  
(PER CENT OF YES RESPONSES)

A significantly larger percentage of users of materials reported that they had been involved in the recommending, suggesting, or selecting of materials to be purchased for the centers than non-users. Perhaps a greater effort needs to be made in involving more of the teachers in the selection of materials and in making them aware that their suggestions are needed for the purchasing of materials at the center.

The following table indicates the per cent of "yes" responses to the following question: "Do you feel a need for in-service workshops which might be sponsored by the Regional Educational Media Center serving your area?" by both the users and non-users of the materials.

TABLE 90  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
DESIRE FOR IN-SERVICE WORKSHOPS  
(PER CENT OF YES RESPONSES)

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u> Users											(72%)
Non-Users											(73%)
<u>Area III</u> Users											(74%)
Non-Users											(69%)
<u>Area IX</u> Users											(71%)
Non-Users											(62%)
<u>Area XIII</u> Users											(66%)
Non-Users											(51%)
<u>Summary</u> Users											(70%)
Non-Users											(62%)

Both the users and non-users of the materials from the regional centers show a strong need for in-service workshops which might be sponsored by the Regional Educational Media Center located in their areas. It is possible that if the non-users of the materials who are interested in this type of service were involved in such a workshop and were made aware of the services offered to them through their respective centers, they too might become utilizors of the materials.

The table shown below indicates the per cent of "yes" responses made by both the users and non-users of the materials to the following question: "Have you ever attended or participated in an in-service program sponsored by the Regional Educational Media Center in your area?"

TABLE 91  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
PARTICIPATION IN IN-SERVICE WORKSHOPS  
(PER CENT OF YES RESPONSES)

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u>											
Users											
Non-Users											
<u>Area III</u>											
Users											
Non-Users											
<u>Area IX</u>											
Users											
Non-Users											
<u>Area XIII</u>											
Users											
Non-Users											
<u>Summary</u>											
Users											
Non-Users											

In Areas IX and XIII where workshops have been planned and implemented, a greater percentage of users of the materials have participated in these workshops than those who have not used the materials. As was previously mentioned, these workshops should be of benefit in encouraging the use of the materials to teachers throughout the area once they are made aware of the services and/or materials available to them.

The table below indicates the per cent of "yes" responses made by both the users and non-users of the materials to the following question: "Have you taken a course for college credit in media (library or audiovisual) within the last five years?".

TABLE 92  
COMPARISON OF USERS AND NON-USERS OF MATERIALS  
REGARDING  
COLLEGE CREDIT COURSE IN MEDIA  
(PER CENT OF YES RESPONSES)

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u>											
Users											(26%)
Non-Users											(29%)
<u>Area III</u>											
Users											(28%)
Non-Users											(26%)
<u>Area IX</u>											
Users											(27%)
Non-Users											(22%)
<u>Area XIII</u>											
Users											(28%)
Non-Users											(27%)
<u>Summary</u>											
Users											(27%)
Non-Users											(26%)

Approximately the same percentage of users and non-users in all four areas included in the evaluation reported that they had taken a college credit course in media. Comments throughout the four areas indicated a need and desire for such courses which might be made available and/or sponsored by the regional educational media centers.

The administrators completing the administrator questionnaire were asked to respond to the following question: "Have you encouraged the teachers in your school to utilize the materials available from the Regional Educational Media Center in your area?". The teachers not using the materials responding to Part B of the teacher questionnaire were asked to respond to the following question: "Have you been encouraged by your local administrators to utilize the materials available in the Regional Educational Media Center located in your area?". An interesting comparison can be made of their responses.

TABLE 93  
COMPARISON OF ADMINISTRATOR AND TEACHER RESPONSES  
REGARDING  
ENCOURAGEMENT TO UTILIZE REGIONAL EDUCATIONAL MEDIA CENTER  
(PER CENT OF YES RESPONSES)

A significantly smaller percentage of the teachers felt that the administrators had encouraged them to use the centers than did the administrators themselves. Of course, the term "encourage" might be interpreted differently by the people involved. It does seem apparent, however, that the administrators must be aware of the potential benefits of the program if they are to encourage their teachers to utilize the materials effectively.

Teachers reporting that they had utilized the materials from the Regional Educational Media Centers were asked to rate various characteristics of the materials on a 1-5 scale (poor - excellent ratings). The following table shows the per cent of teachers from all four areas responding to each step of the scale.

TABLE 94  
CHARACTERISTICS OF MATERIALS  
(PER CENT OF RESPONSES TO RATING SCALE)

Characteristic	Poor <span style="display: inline-block; width: 100px; border-bottom: 1px solid black;"></span> Excellent				
	1	2	3	4	5
a. Relevance	2%	5%	26%	37%	30%
b. Timeliness	2%	6%	24%	36%	32%
c. Quality of content	1%	3%	21%	41%	34%
d. Physical condition	1%	1%	15%	37%	46%
e. Sufficiency	11%	16%	31%	26%	16%
f. Variety	8%	13%	30%	31%	18%

As is noted in the table above, the majority of the respondents rated the various characteristics of the materials above average except "sufficiency" which the greatest percentage of the respondents rated #3. It does seem apparent that more funds are needed to purchase duplicate copies of materials in order to meet the demand of the users. The other characteristics were rated as #4 by the majority of the respondents. It would appear, therefore, that the users of the materials are for the most part pleased with the materials if more copies were available to them.

Respondents to Part A of the teacher questionnaire -- utilizers of the materials -- were asked to respond to a check list showing the rate of use they had made of the various types of materials which are available from their Regional Educational Media Centers. The table below shows the per cent of teachers from all areas responding to each step of the rating scale for the types of materials included in the collections of the areas involved in the evaluation.

TABLE 95  
USAGE OF MATERIALS  
(PER CENT OF RESPONSES TO RATING SCALE)

Materials	Little <span style="font-size: small;">—————&gt;</span> Extensive				
	1	2	3	4	5
Books	24%	13%	28%	17%	18%
Film loops (8 mm)	70	9	12	6	3
Films (16 mm)	9	10	27	26	28
Filmstrips	41	18	21	12	8
Slides	87	6	4	2	1
Transparencies	70	11	11	5	3
Disc recordings	72	11	9	4	4
Tape recordings	70	12	8	6	4
Art prints	75	7	12	3	3
Study prints	81	6	9	1	3
Professional materials	66	10	15	5	4
Other	76	5	6	6	7

Books and films (16 mm), which are available in all four of the centers included in the evaluation, are the most extensively used items. Comments indicated that many of the teachers were interested in materials listed on this question which are not presently available from their centers.

Respondents to Part B of the teacher questionnaire -- non-users of the materials -- were asked to respond to a check list indicating the reasons they had not used ESEA Title II materials from the Regional Educational Media Centers located in their respective areas. The table below shows the per cent of responses from all four areas to each of the possible explanations.

TABLE 96  
REASONS FOR NOT UTILIZING MATERIALS  
(PER CENT OF RESPONSES)

- a. Have not been informed
- b. Materials not relevant to subject matter
- c. Materials not appropriate for grade level
- d. Materials not appropriate for "special" class
- e. Materials not available from a conveniently accessible location within school district

- f. Regional Educational Media Center is not conveniently accessible
- g. Materials not available when needed
- h. Materials are more accessible elsewhere
- i. Unable to specify reason for not using materials

As shown on the previous page, the most commonly expressed reason for not utilizing the materials from the regional center was that the materials are not relevant to the subject matter being taught. This reason was also often expressed in the comments written on the questionnaires. Perhaps a greater effort needs to be made to broaden the selection of the materials of the centers to include materials from all subject matter areas, especially those where materials are rare and difficult to locate. It is interesting to note that "f -- media center is not conveniently accessible" was not as commonly listed as a reason for not utilizing the materials as some of the other reasons even though this has been an often-heard objection to Iowa's State Plan for ESEA Title II.

## Summary

It should be emphasized, in closing, that this report should not be interpreted as an individual evaluation of any one of the four areas involved in the study. It is rather a pilot evaluation of the total ESEA Title II program in Iowa based on four areas of the various population sizes.

As is shown in the following table, the majority of teachers sampled in the four areas are utilizing the materials to some degree.

TABLE 97  
PER CENT OF USERS AND NON-USERS OF MATERIALS IN EACH AREA

Area	0	10	20	30	40	50	60	70	80	90	100
<u>Area II</u>											
Users											(72%)
Non-Users											(28%)
<u>Area III</u>											
Users											(60%)
Non-Users											(40%)
<u>Area IX</u>											
Users											(68%)
Non-Users											(32%)
<u>Area XIII</u>											
Users											(72%)
Non-Users											(28%)
<u>Summary</u>											
Users											(69%)
Non-Users											(31%)

However, in order that the materials be used more extensively and that those who are not utilizing the materials might be reached, it seems apparent that more effective communications must exist among center personnel, teachers, and administrators. For example, Tables 87 and 88 in this Chapter indicate that even though catalogs of materials are in existence, a number of teachers report that they do not have access to such catalogs. In addition, Tables 82 and 83 in Chapter 4 indicate that many teachers who are not utilizing the materials feel that they have not been given encouragement from their administrators and/or center personnel to take advantage of the materials and services available to them from the regional educational media centers.

It is encouraging to note from comments given on the questionnaires as well as responses to various questions that many of the teachers and administrators are taking advantage of the services and materials offered through the centers

and support the program's continuance. It is interesting to note in Table 72 of Chapter 4 that many teachers feel that the use of materials from the regional centers has enabled them to cover their subject matter in greater depth. It is likewise encouraging to note that Tables 42 and 43 of Chapter 4 indicate that a number of administrators do feel that the Title II program is encouraging the expansion or initiation of instructional materials centers within their local schools.

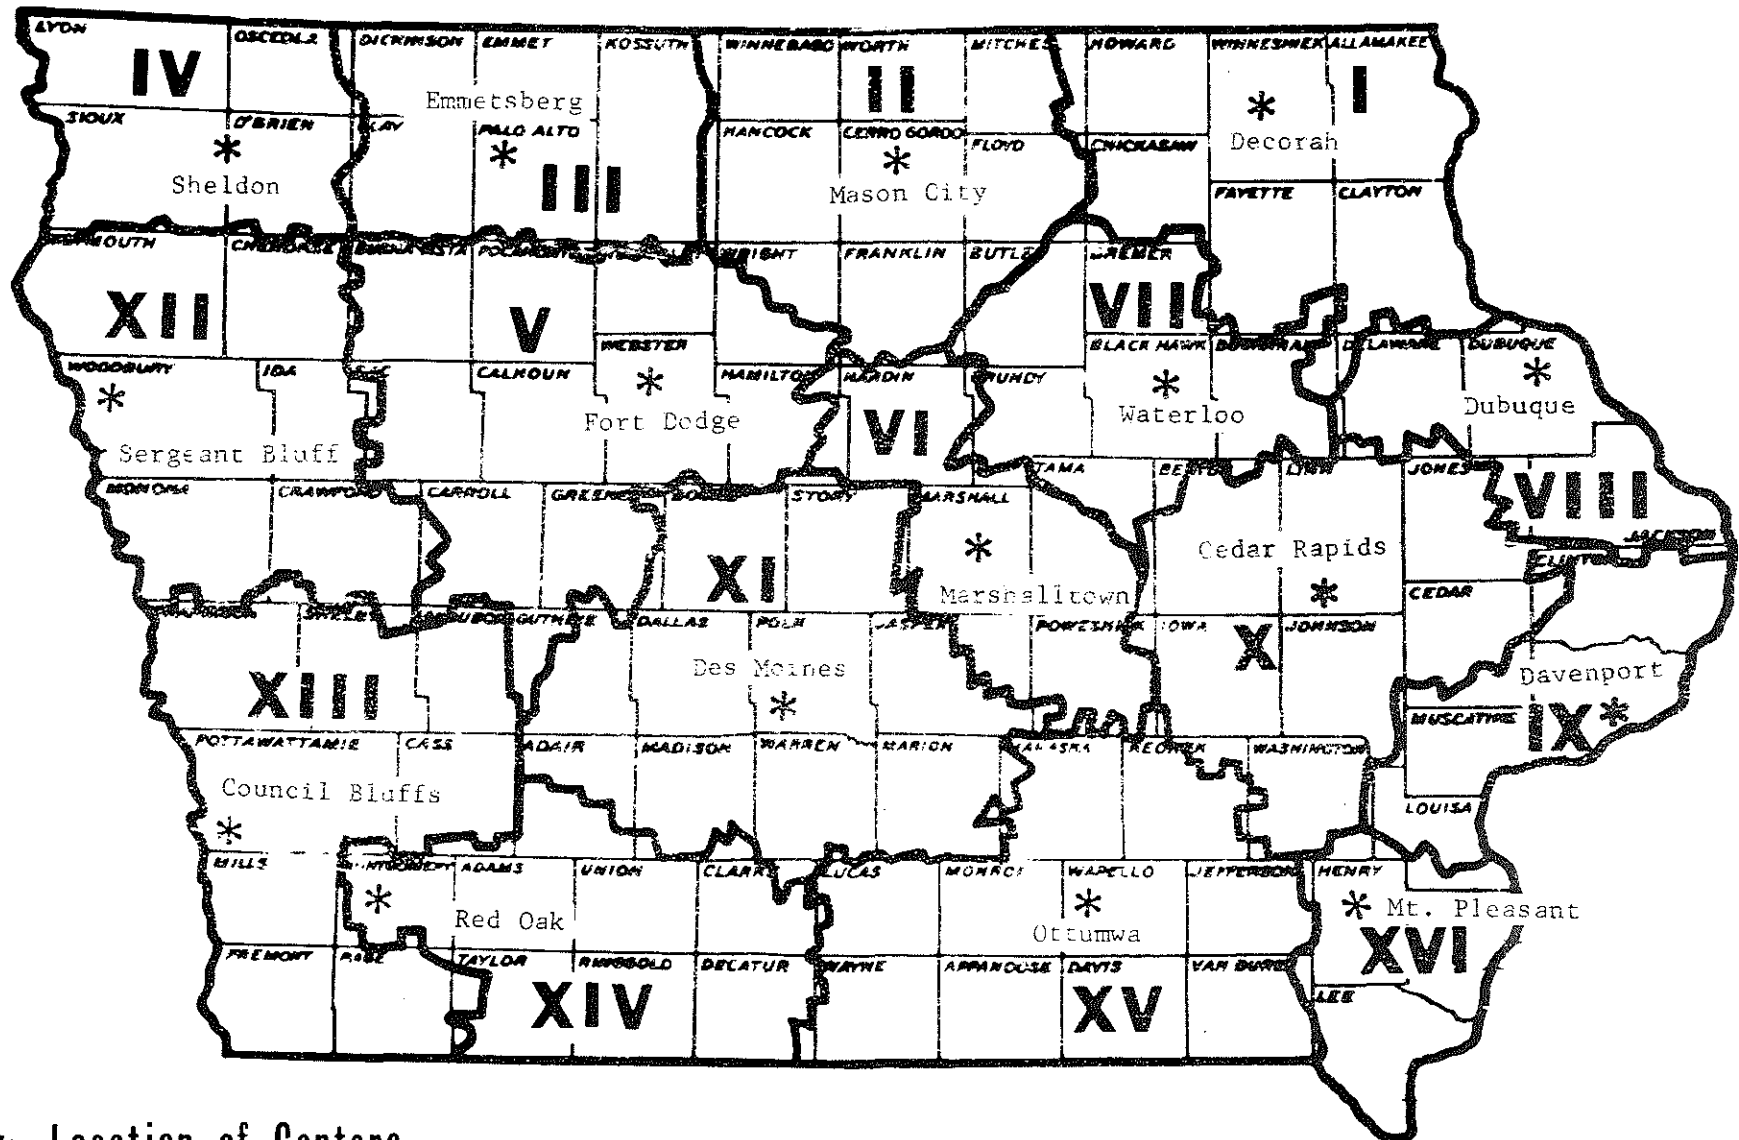

It is hoped that this pilot evaluation will provide a motivation for each of the sixteen ESEA Title II areas to analyze its own regional educational media center program in order that each area may provide the most effective program possible for the teachers and children of Iowa.

DATE: April 25, 1969  
TO: County School Superintendents of Areas II, III, IX, and XIII  
FROM: Paul L. Spurlock  
SUBJECT: ESEA Title II Pilot Evaluation

Your county is located in one of the geographic areas served by ESEA Title II which has been selected at random to participate in the ESEA Title II pilot evaluation. Fifteen per cent of the elementary (K-6) public and non-public teachers and principals; fifteen per cent of the secondary (7-12) public and non-public teachers and principals; all local school superintendents, and all county superintendents in your area are being requested to complete this evaluation.

Enclosed you will find the ESEA Title II Survey -- Administrator Questionnaire for your completion. We feel that this evaluation is vitally important in order to study the effectiveness of the ESEA Title II program in Iowa, and to provide concrete information for making decisions regarding the future of the program. Please complete the enclosed questionnaire and return to the following address by no later than May 20, 1969: Paul L. Spurlock, Administrator, ESEA Title II, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319. Your cooperation in participating in this survey will be very much appreciated.

Sincerely yours,

Paul L. Spurlock  
Chief, Educational Media Section  
Administrator, ESEA Title II

DATE: April 25, 1969  
TO: Public School Superintendents and Non-Public School Principals  
of Areas II, III, IX, and XIII  
FROM: Paul L. Spurlock  
SUBJECT: ESEA Title II Pilot Evaluation

Your school district is located in one of the geographic areas served by ESEA Title II which has been selected at random to participate in the ESEA Title II pilot evaluation. Fifteen per cent of the elementary (K-6) public and non-public teachers and principals; fifteen per cent of the secondary (7-12) public and non-public teachers and principals; all local school superintendents, and all county superintendents in your area are being requested to complete this evaluation.

The superintendent, teachers, and principal(s) in your school district which have been selected, at random, to participate in this survey are listed on the attached sheet. Enclosed you will find two types of questionnaires: (1) the ESEA Title II Survey -- Teacher Questionnaire which is to be completed by the teachers listed; and (2) the ESEA Title II Survey -- Administrator Questionnaire which is to be completed by you and the principal(s) listed.

We feel that this evaluation is vitally important in order to study the effectiveness of the ESEA Title II program in Iowa, and to provide concrete information for making decisions regarding the future of the program. Please distribute the questionnaires to the individuals listed on the attached sheet and return to the following address by no later than May 20, 1969: Paul L. Spurlock, Administrator, ESEA Title II, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319. Your cooperation in participating in this survey will be very much appreciated.

Sincerely yours,

Paul L. Spurlock  
Chief, Educational Media Section  
Administrator, ESEA Title II
