## LIST OF ACRONYMS

AASHTO - American Association of State Highway and Transportation Officials  
APWA - American Public Works Association  
ASCE - American Society of Civil Engineers  
DOT - Department of Transportation  
FHWA - Federal Highway Administration  
GIS - Geographic Information System  
HMA - Hot Mix Asphalt  
HPC – High Performance Concrete  
IHRB - Iowa Highway Research Board  
ISU - Iowa State University  
LiDAR – Light Detection and Ranging  
LRFD - Load and Resistance Factor Design  
LTAP - Local Technical Assistance Program  
LVR - Low Volume Road  
MOVITE - Missouri Valley Section of the Institute of Transportation Engineers  
NCHRP - National Cooperative Highway Research Program  
STIC – Statewide Transportation Innovation Council  
SUDAS - Statewide Urban Designs and Specifications  
TAC - Technical Advisory Committee  
TRB - Transportation Research Board  
UHPC - Ultra High Performance Concrete  
USGS - United States Geological Survey  
WMA – Warm Mix Asphalt  
SPR - Statewide Planning and Research  
AADT - Annual Average Daily Traffic  
RFIDS – Motion Sensing Radio Transponders  
CBM – Condition-Based Maintenance  
MEMS – Micro Electra Mechanical Sensor  
LRFR – Load and Resistance Factor Rating  
RCB – Reinforced Concrete Box  
QA – Quality Assurance  
DNR – Department of Natural Resources  
FWD – Falling Weight Deflectometer  
DCP – Dynamic Cone Penetrometer  
NBIS – National Bridge Inspection Standards  
OBS – Office of Bridges and Structures  
BEC – Bridge Engineering Center  
BBR – Bending Beam Rheometer  
LOS – Level of Service  
VE – Viscoelastic  
FEA – Finite Element Analysis  
LRFR – Load and Resistance Factor Rating  
STIC – State Transportation Innovation Council

## RESEARCH AND DEVELOPMENT

The Iowa DOT's Research section is dedicated to *driving a quality research program that delivers targeted solutions for Iowa's transportation future.*

This report, entitled "Iowa Highway Research Board Research and Development Activities FY2017" is submitted in compliance with Sections 310.36 and 312.3A, Code of Iowa, which direct the submission of a report of the Secondary Road Research Fund and the Street Research Fund, respectively. It is a report of the status of research and development projects in progress on June 30, 2017. It is also a report on projects completed during the fiscal year beginning July 1, 2016 and ending June 30, 2017. Detailed information on each of the research and development projects mentioned in this report is available from the Office of Research and Analytics, Performance and Technology Division, Iowa Department of Transportation.

## THE IOWA HIGHWAY RESEARCH BOARD

In developing a progressive, continuing, and coordinated program of research and development, the Iowa DOT is assisted by the IHRB. This advisory group was established in 1949 by the Iowa State Highway Commission to respond to the research denoted in Sections 310.36 and 312.3A of the Code of Iowa.

The Research Board consists of 15 regular members: seven Iowa county engineers, four Iowa DOT engineers, one representative from Iowa State University, one from The University of Iowa, and two engineers employed by Iowa municipalities. Each regular member may have an alternate who will serve at the request of the regular member. The regular members and their alternates are appointed for a three year term. The membership of the Research Board for FY17 is listed in Table I and II.

The Research Board held several regular meetings during the period from July 1, 2016, through June 30, 2017. Suggestions for research and development were reviewed at these meetings and recommendations were made by the Board.

Members of the IHRB are serious about the future of transportation. Understanding that every research project has the potential to strengthen the infrastructure and save lives, time, and precious resources, they work hard to make sure new methods, technologies, and materials are developed efficiently and economically for application in the real world. **The IHRB has received national attention as a leader in transportation research implementation.**

## RESEARCH AND DEVELOPMENT PROJECTS

Proposals for research and development are reviewed by the Iowa Highway Research Board. Expenditure of research and development funds are then authorized on an individual project basis.

These expenditures may be charged to the Primary Road Research Fund, Secondary Road Research Fund or the Street Research Fund, or a combination and the costs are shared.

Table III is a record of expenditures for IHRB Projects made during the fiscal year ending June 30, 2017. Total expenditure was \$1,396,128.67.

**TABLE III**  
**FINANCIAL SUMMARY OF RESEARCH AND DEVELOPMENT PROJECT EXPENDITURES**

July 1, 2016 to June 30, 2017  
*(Active projects with no current fiscal year expenditures are not included)*

Project #	Project Title	Primary Road Research Fund Expenditures	Secondary Road Research Fund Expenditures	Street Research Fund Expenditures	Total Expenditures
HR140	Collection & Analysis of Streamflow Data	155,670.00	-	26,034.00	181,704.00
HR296	ISU Local Technical Assistance Program (LTAP)	62,460.54	78,075.70	15,615.13	156,151.37
TR637	Development of a Wireless MEMS Multifunction Sensor System and Field Demonstration of Embedded Sensors for Monitoring Concrete Pavements	25,951.06	-	-	25,951.06
TR655	Updating the Iowa Culvert Hydraulics and Iowa Bridge Backwater Software	-	9,279.00	-	9,279.00
TR665	Mitigation of Sedimentation at Multi-Box Culverts	14,526.74	41,816.50	8,363.30	64,706.54
TR673	Design and Performance Verification of a Bridge Column/Footing/Pile System for Accelerated Bridge Construction (ABC)	-	43,368.35	522.62	43,890.97
TR674	Evaluation of Otta Seal Surfacing for Low-Volume Roads in Iowa	-	3,014.49	-	3,014.49
TR676	Impacts of Internally Cured Concrete Paving on Contraction Joint Spacing	-	26,627.84	-	26,627.84
TR679	Upgrading Bridge Rails on Low Volume Roads in Iowa	-	-	1,717.49	1,717.49
TR682	Standard for Single Span Prefabricated Bridges-Phase III	-	25,642.13	36,117.67	61,759.80
TR683	Bridge Workshop - Use of Ultra-High Performance Concrete for Bridges	1,637.19	2,657.07	-	4,294.26
TR684	Laboratory and Field Evaluation of an Alternative UHPC Mix and an Associated UHPC Bridge	-	22,522.10	-	22,522.10
TR685	Feasibility of Gravel Road and Shoulder Recycling	14,419.32	45,345.32	-	59,764.64
TR686	Guidance on Traffic Sign Effectiveness, Installation, and removal	-	20,651.04	7,500.00	28,151.04
TR691	Cost-Competitive Timber Bridge Designs for Long Term Performance	50.70	-	-	50.70

TR692	Investigation of Stream-Channel and Watershed Delineations and Basin-Characteristic Measurements using LiDAR Data for Small Drainage Basins in Iowa Located Within the Des Moines Lobe Landform Region	-	42,415.37	6,203.51	48,618.88
TR695	Evaluation of Rural Intersection Treatments	32,000.00	40,000.00	2,037.69	74,037.69
TR696	Installation Guidance for Centerline and Edgeline Rumble Strips in Narrow Pavements		-	5,674.06	5,674.06
TR697	Prevention and Restoration of Early Joint Deterioration	15,138.95	37,276.00	5,311.22	57,726.17
TR698	Concrete Overlay Performance on Iowa's Roadways	40,758.49	25,307.55	-	66,066.04
TR699	Real-time Flood Forecasting and Monitoring Systems for Highway Overtopping in Iowa	10,617.14	90,717.99	-	101,335.13
TR700	Prevention of Longitudinal Cracking in Iowa Widened Concrete Pavement	9,926.29	-	-	9,926.29
TR701	Evaluation of the Use of Link Slabs in Bridge Projects	6,512.34	-	-	6,512.34
TR702	Transportation Research Board Education for City Engineers	-	-	1,632.79	1,632.79
TR703	Update Depth of Cover Tables for Concrete and Corrugated Pipe	9,193.64	26,811.00	3,062.79	39,067.43
TR704	Performance Based Evaluation of cost Effective Aggregate Options for Granular Roadways	59,948.86	1,618.94	-	61,567.80
TR709	Effectiveness of Pavement Preservation Techniques	26,104.70	-	-	26,104.70
TR710	Partially Grouted Revetment for Low Volume Road Bridges	13,198.59	-	-	13,198.59
TR711	Investigation of Exterior Girder Rotation and the Effect of Skew during Deck Placement	10,964.56	-	-	10,964.56
TR712	Evaluate, Modify and Adapt the Concrete Works Software for Iowa's Use	51,710.73	-	-	51,710.73
TR713	Load Rating of Standard Bridges for Special Hauling Vehicles (SHV)	36,378.00	45,472.00	8,502.00	90,352.00
TR714	Guide to Life-Cycle Data and Information Sharing Workflow for Transportation Assets	8,322.82	-		8,322.82
TR715	Beam End Repair for Pre-Stressed Concrete Beams	8,642.51	-		8,642.51
TR717	Use of Polymer Overlays or Sealers on New Bridges	10,000.00	2,715.00		12,715.00
TR718	Evaluation of Alternative Abutment Piling for Low Volume Road Bridges	4,141.96	-		4,141.96
TR721	Low-cost Rural Surface Alternatives Phase III	4,294.08	-		4,294.08
TR725	Low-Cost Rural Surface Alternatives Phase IV: Forst Depth Monitoring and Prediction	3,931.80	-		3,931.80
Project Total		636,501.01	631,333.39	128,294.27	1,396,128.67

## SECONDARY ROAD RESEARCH FUND

Section 310.34 of the Iowa Code authorizes the Iowa Department of Transportation to set aside each year an amount not to exceed 1½% of the receipts to the Farm-to-Market Fund in a fund to be known as the Secondary Road Research Fund. This authorization was first made in 1949; it was repealed in 1963, and reinstated in 1965. When the fund was reinstated, the fund was designated to finance engineering studies and research projects. The Iowa Department of Transportation accounting procedure for the Secondary Road Research Fund is based on obligations for expenditures on research projects and not the actual expenditures.

The fiscal year 2017 financial summary is:

Beginning Balance 7-1-16		\$ 1,707,519.34
Receipts		
State Road Use Tax Fund (1½% of receipts)	\$ 1,634,497.97	
Federal Aid Secondary (1½% of receipts)	0.00	
Research Income	<u>\$ 0.00</u>	
Sub-Total		<u>\$1,634,497.97</u>
Total Funds Available		\$3,342,017.31
Obligation for Expenditures		
Obligated for		
Contract Research	\$1,630,728.09	
Non-Contract		
Engineering Studies	<u>\$ 0.00</u>	
Total Expenditures		\$1,630,728.09
Ending Balance 6-30-17		\$1,711,289.22

## STREET RESEARCH FUND

The Street Research Fund was established in 1989 under Section 312.3A of the Iowa Code. Each year \$200,000 is set aside from the street construction fund for the sole purpose of financing engineering studies and research projects. The objective of these projects is more efficient use of funds and materials available for construction and maintenance of city streets. The Iowa Department of Transportation accounting procedure for the Street Research Fund is based on obligations for expenditures on research projects and not the actual expenditures. The fiscal year 2017 financial summary is:

Beginning Balance (7-1-16)	\$121,413
De-obligated (Unused) Funds from Previous Projects	\$10,540
FY17 Street Research Funding	<u>\$200,000</u>
Total Funds Available for Street Research	\$331,953
Total Obligated for Expenditure FY17	<u>(\$310,432)</u>
Ending Unobligated Balance 6-30-17	\$13,511

## PRIMARY ROAD RESEARCH FUND

The Primary Road Research Fund is sourced from non-obligated funds of the Primary Road Fund. These funds can only be expended on projects for which the funds were reserved, such as contracted research and project-specific research supplies or equipment. An estimate of Primary Road Research Fund expenditures is made prior to the beginning of each fiscal year. The amount expended for contract research from the Primary Road Research Fund for FY17 was \$636,501.01 and the estimate for obligations for FY17 is \$750,000.

## PROJECTS INITIATED DURING FY 2017

The following projects were initiated in FY 17.

TR-702, “Transportation Research Board Education for City Engineers”

TR-714, “Life-Cycle Data for Transportation Assets”

TR-715, “Beam End Repair for Pre-Stressed Concrete Beams”

TR-716, “Construction of New Substructure Beneath Existing Bridges”

TR-717, “Use of Polymer Overlays or Sealers on New Bridges”

TR-718, “Evaluation of Alternative Abutment Piling for Low Volume Road Bridges”

TR-719, “Development of Self Cleaning Box Culvert Phase III”

TR-720, “Development of Bio-Based Polymers for use in Asphalt Phase III”

TR-721, “Low Cost Surface Alt. Phase III”

TR-722, “Increase Service Life at Bridge Ends through improved Abutment/Approach Slab Details & Water Management Practices”

TR-723, “Implementation of Negative Moment Reinforcement Detail Recommendations”

TR-724, “Self-Heated Electrically Conductive Concrete Demo Project”

TR-725, “Low-Cost Rural Surface Alt. Phase IV: Frost Depth Monitoring & Prediction”

TR-726, “Iowa TPMS (Modernization of Iowa Transportation Program Management System)”

TR-727, “Optimizing Maintenance Equipment Life Cycle for Local Agencies”

TR-728, “Role of Coarse Aggregate Porosity on Chloride Intrusion in HPC Bridge Decks”

TR-729, “Development of Granular Roads Asset Management System”

TR-730, “Advanced Testing & Characterization of Iowa Soils and Geometrics”

TR-731, “Improving Concrete Patching Practices in Iowa Roadways”

TR-732, “Develop Safety Improvements at Public Highway Railroad Grade Crossings”

**20 Projects Initiated**

## PROJECTS COMPLETED DURING FY 2017

The following projects were presented to the Iowa Highway Research board during FY 2017 and project Final Reports were approved. Links to the available final reports are provided.

TR-637, “Development of a Wireless MEMS Multifunction Sensor System and Field Demonstration of Embedded Sensors for Monitoring Concrete Pavements” <http://publications.iowa.gov/22658/>

TR-644, “Development and Integration of Advanced Development of Cost-Effective Timber Bridge Repair Techniques for Minnesota Project” <https://www.lrrb.org/media/reports/201545A.pdf>

TR-655, “Updating the Iowa Culvert Hydraulics and Iowa Bridge Backwater Software”

TR-667, “Validation of Gyrotory Mix Design in Iowa” <http://publications.iowa.gov/22605/>

TR-668, “Impact of Curling and Warping on Concrete Pavement” <http://publications.iowa.gov/22611/>

TR-679, “Upgrading Bridge Rails on Low-Volume Roads in Iowa” <http://publications.iowa.gov/22592/>

TR-681, “Context Sensitive Designs: Testing of Multi-Performance Level Box Beam Standards” <http://publications.iowa.gov/25797/>

TR-682, “Standard for Single Span Prefabricated Bridges-Phase III”

TR-686, “Guidance on Traffic Sign Effectiveness, Installation, and Removal” <http://publications.iowa.gov/25795/>

TR-697, “Prevention and Restoration of Early Joint Deterioration in Concrete Pavements” <http://publications.iowa.gov/25794/>

TR-703, “Update Depth of Cover Tables for Concrete and Corrugated Pipe” <http://publications.iowa.gov/25791/>

TR-713, “Load Ratings for Standard Bridges” <http://publications.iowa.gov/25790/>

**12 Projects Completed and Approved**

## STATE TRANSPORTATION INNOVATION COUNCIL

Since 2015, the Iowa Highway Research Board serves as the *State Transportation Innovation Council* for the State of Iowa. The Federal Highway Administration (FHWA) *State Transportation Innovation Council* (STIC) Incentive program provides resources to help STICs foster a culture for innovation and make innovations standard practice. Through the program, funding up to \$100,000 of STIC Incentive Federal Funding is awarded to the State per Federal fiscal year. This funding is

available to support or offset the costs of standardizing innovative practices for Iowa's transportation agencies. STIC Incentive funding may be used to conduct internal assessments; build capacity; develop guidance, standards, and specifications; implement system process changes; organize peer exchanges; offset implementation costs; or conduct other activities the STIC identifies to address innovation implementation goals and to foster a culture for innovation or to make an innovation a standard practice in the state. The requirements for eligibility of a project or activity are:

- The project must have a statewide impact in fostering a culture for innovation or in making an innovation a standard practice.
- The project/activity for which incentive funding is requested must align with innovation goals.
- The project/activity must be eligible for Federal-aid assistance and adhere to applicable federal requirements.
- The proposed project/activity must be started as soon as practical (preferably within 6 months, but no later than 1 year) after notification of approval for STIC Incentive funding and the funds must be expended within 2 years.

The following projects have been initiated through the STIC Incentive Fund program for the State of Iowa:

2014, "Design and performance verification of a bridge column/footing/pile system for accelerated bridge construction"

2014, "Develop an implementation plan for using 3D tools for structural detailing"

2015, "Development and delivery of technical guidance and training on the implementation of a self-cleaning culvert technology"

2015, "Expand the use of mobile devices for e-Construction in field inspection applications"

2016, "Expand the use of mobile devices for e-Construction in field inspection applications"

2016, "Support for the "Innovations in Transportation Conference"

2016, "Deployment of Iowa DOT Traffic Operations Open Data Service"

2017, "In Situ Modulus Measurement Using Automated Plate Load Testing (APLT) to Support The Implementation of Pavement Mechanistic-Empirical (ME) Design"
