Apply knowledge to improve the quality of life for current and future generations.

Culture

We accomplish our mission

- through innovation, collaboration, and continuous improvement;
- with honesty, integrity, and professional ethics; and
- with sensitivity and responsiveness to the needs of our state, nation, and the world.

Core Values

We value

- land-grant ideals;
- a diversity of ideas, peoples, and cultures;
- intellectual freedom;
- leadership; and
- excellence in all we do.

Our Land-Grant Heritage

Iowa State University was founded on the ideals that higher education should be accessible to all and that the university should teach liberal and practical subjects. These ideals are integral to the land-grant university, a special class of university created by the Morrill Act, passed by Congress in 1862. Iowa was the first state to accept the law's provisions. Iowa State University subsequently pioneered the idea of Extension—extending the university's knowledge to people throughout the state.

Vision

Iowa State University will be the best at advancing the land-grant ideals and putting science and technology to work.

Students will become broadly educated, global citizens who are culturally informed, technologically adept, and ready to lead. Faculty and staff will share a passion for creating, sharing, and applying knowledge to improve lives worldwide.

Collaborations among partners both inside and outside the university community will flourish. The spirit of Iowa State University will be evident in the integration of the sciences and humanities and in the energy and creativity of its people.
