DES MOINES, Iowa -- The Iowa Department of Natural Resources recommends that people with respiratory or heart disease, the elderly, and children limit prolonged outdoor activity on Sunday.

Regional snow melt and sublimation on Sunday are expected to generate fog and reduce visibility. The boundary layer inversion, leading to elevated fine particulate levels.

Iowans can keep track of evolving air quality conditions by checking EPA's national air quality index map at www.airnow.gov.

DNR's Air Quality News listserve is targeted to the regulated public and consultants to deliver timely regulatory news, program updates, and technical guidance to your email. If you have difficulty, please contact DNR's Wendy Walker at 515-725-9570.
