5 Reasons to Attend an ICN Cybersecurity Session

Knowledge is Power

Learn about the State of Iowa's Cybersecurity Plan and the role the ICN plays in it.

Learn From Case Studies

Walk through realistic scenarios with your peers and generate action plans.

Hear Best Practices and Solutions

Vendor agnostic discussion of best practices and solutions from a program/policy and technical perspective.

It's Three Hours + No Catch

Our goal is to educate our users on security topics. This session is meant to be informative to create a open discussion among participants.

Network with Peers

Share lessons and learn where others are having success in cybersecurity.

Register Today!

These sessions are perfect for anyone with an interest in better securing their organization and network.

Who Should Attend: executive level, management, and hands-on technical personnel.
