

IOWA DEPARTMENT OF NATURAL RESOURCES

# Iowa Fishing Report

## Conservation and Recreation

### [Top Iowa Fishing Spots for the Week of September 5](#)

This weekly fishing report is compiled from information gathered from local bait shops, angler creel surveys and county and state parks staff. For current information, contact the district fisheries office at the phone number listed at the end of each district report.

- [NORTHWEST](#)
- [NORTHEAST](#)
- [MISSISSIPPI RIVER](#)
- [SOUTHEAST](#)
- [SOUTHWEST](#)

## NORTHWEST

### [Black Hawk Lake](#)

Water temperature is around 70 degrees. **Walleye** - Slow: Look for the bite to pick up as water temperatures start to cool down. **Channel Catfish** - Fair: Anglers are catching catfish from the East Shore near the outlet off the inlet bridge and from shore in Town Bay; use crawlers and cut bait fished on the bottom. **Largemouth Bass** - Fair: Use traditional bass lures anywhere along shore. **Yellow Perch** - Fair: Catch perch from shore along Ice House Point from the fish house in Town Bay and the inlet bridge; use crawlers or small minnows on a jig. **Black Crappie** - Fair: Crappie are being picked up from shore in Town Bay from the fish house and from the inlet bridge.

### [North Twin Lake](#)

Water temperature is around 70 degrees. **Channel Catfish** - Fair: Use crawlers or cut bait fished on the bottom. **Walleye** - Fair: Try next to vegetation near shore in 5-8 feet of water.

### [Storm Lake \(including Little Storm Lake\)](#)

Water temperature is around 70 degrees. **White Bass** - Fair: Use crankbaits, crawlers and twisters fished from shore and near the inlet. **Walleye** - Fair: Pick walleye up in the dredge cuts on the east and west side of the lake. As water starts to cool, look for shore

fishing action to pick up along the east shore and near the inlet. **Channel Catfish** - Fair: Try crawlers or cut bait fished on the bottom from shore or rock piles near the islands.

For more information, contact the Black Hawk District office at 712-657-2638.

---

### Clear Lake

The water temperature is in the mid-70's. **Walleye** - Fair: Evening and early mornings is best. Drift live bait or troll crankbaits. Try also dock fishing at night. **Yellow Bass** - Good: Vertical jig or drift in 10 to 12 feet of water on the main basin early in the mornings. Some yellow bass have been caught fishing near vegetation beds in 4 to 6 feet of water.

### Crystal Lake

**Largemouth Bass** - Fair: Cast spinnerbaits near shore and downed trees. **Black Crappie** - Good: Drift fish or troll small crappie jigs in 5-9 feet of water.

For information on the lakes and rivers in the north central area, contact the Clear Lake Fish and Wildlife office at 641-357-3517.

---

### East Okoboji Lake

**Bluegill** - Good: Fish have moved to deeper water; fish deeper weed lines or deep rock piles. **Yellow Bass** - Good: Action has picked up. Find fish in 12 feet of water on the south end of the lake; move often to find active fish. **Channel Catfish** - Good: Action has picked up with the cooler water temperature. Use traditional baits fished after dark.

### Five Island Lake

**Yellow Bass** - Good: Anglers report good numbers of fish being caught; sorting is needed.

### Lake Pahoja

**Bluegill** - No Report: Recent surveys show good numbers of angler acceptable size and larger bluegill in the lake.

### Lost Island Lake

**Walleye** - Fair: Report of 14 – 18 inch fish being caught. **Yellow Bass** - Fair: Cast mini-jigs tipped with wigglers in shallow water during the morning and evening. **Channel Catfish** - Good: Good numbers of large angler acceptable size fish continue to be caught. Use cut bait to provide plenty of pole bending action. **Bluegill** - Good: Action continues for bluegill, black crappie and yellow perch. Use plastics on light jigs fished shallow water in the evening.

### Silver Lake (Dickinson)

**Yellow Perch** - No Report: Recent surveys show good numbers of fish approaching 11 inches. **Channel Catfish** - No Report: Recent surveys show good numbers of 16 - 23.9 inch fish in the lake.

### Spirit Lake

**Walleye** - Fair: Walleyes action has improved with the drop in water temperatures. Fish the basin; don't overlook the weed edges. Use crawlers and bottom bouncers or troll

crankbaits. **Yellow Perch** - Good: Good numbers of 8.5 inch fish are being caught. Persistence and patience will be rewarded with larger fish caught.

### West Okoboji Lake

**Bluegill** - Good: Fish the outside weed edges for larger sized bluegill; do not overlook deeper rock piles in 20 - 25 feet of water with aquatic plants.

For more information throughout the week, contact the Spirit Lake Fish Hatchery at 712-336-1840.

---

## NORTHEAST

### Cedar River (above Nashua)

Water levels are low. Water clarity is improved. Use caution when boating; submerged hazards may have moved. **Channel Catfish** - Good: Use worms and cheese or stink baits fished on the river bottom. **Smallmouth Bass** - Good: Try spinnerbaits or crankbaits fished on the edge of eddies or drop-offs. **Walleye** - Good: Use a jig and twister tail or worm fished in the eddies and slack water. **Bluegill** - Good: Try a small hook tipped with piece of worm fished along the shoreline. **Black Crappie** - Good: Find crappies in side channels and backwaters. Use a hook tipped with a minnow or bladed spinner.

### **Decorah District Streams**

Regularly scheduled stocking returns in September. It's the perfect time to use terrestrial terminal tackle when fly fishing. Grasshoppers, crickets, and ants should turn a trout head. Check the [2019 trout stream stocking calendar](#) or call the stocking number at 563-927-5736 to find out when your favorite trout stream will be stocked. **Brown Trout** - Good: Brown trout are feasting on terrestrial insects; try grasshopper or cricket flies. Also try crayfish. **Rainbow Trout** - Good: A crappie or bluegill set-up works great for trout fishing. Put a piece of cheese or small piece of worm on a hook under a bobber in a good hole and wait. **Brook Trout** - Good: With dirtier water, try woolly buggers, San Juan worms or other subsurface flies and lures. For clear water, use emerging insects with a scud dropper.

### Lake Hendricks

Water temperatures are in the mid-70's. Clarity is poor with an algae bloom limiting visibility. **Black Crappie** - Good: Use a hook tipped with a minnow under a bobber. A slow troll might get one to come to a hook. **Bluegill** - Fair: Find fish on the edge of weed beds. Use a small piece of worm about a foot below a bobber. **Largemouth Bass** - Fair: Use topwater lures fished in the edge of weeds. **Channel Catfish** - Good: Channel catfish are biting. Use worms or baits. Leave your bait on the bottom until you feel a tug; set the hook.

### Lake Meyer

Water temperatures are in the low 70's. Water clarity is excellent. Anglers report hit or miss action for panfish. **Bluegill** - Fair: Use a small piece of worm under a bobber just above the submerged weeds. **Black Crappie** - Fair: A bladed spinnerbait just above the

vegetation should turn a crappie head. **Largemouth Bass** - Fair: Fish topwater lures in the evening and morning. **Channel Catfish** - Good: Catch nice sized catfish in shallow water near woody structures. Fish during low light conditions with clear water.

#### Turkey River (above Clermont)

Water levels are low. Water temperatures are in the low 70's. Flows remain high. **Walleye** - Good: Find walleye in deeper pools and brush piles. Use spinnerbaits or a jig tipped with a twister tail. **Smallmouth Bass** - Good: Use a jig tipped with a twister tail or crawfish crankbait fished near eddies, rocky outcroppings and ledges.

#### Upper Iowa River (above Decorah)

Flows remain high, but water levels are low. Use care when paddling; read the water ahead of you - get out if needed. **Smallmouth Bass** - Good: Use spinnerbaits or a jig tipped with plastic tails fished in the deeper pools and eddies. **Walleye** - Fair: Fish undercut ledges and brush piles.

#### Upper Iowa River (below Decorah)

Water clarity is good. Use caution on the water; high flows and low water levels can cause dangerous conditions for paddlers. Watch for strainers; go around log jams. **Smallmouth Bass** - Good: Use crawdad crankbaits or jigs tipped with black or white twister tails. **Walleye** - Fair: Fish the eddies and drop-offs. Jigs tipped with minnows or twister tails work well.

#### Volga Lake

Water temperatures are in the low 70's. A green algal bloom is present. **Bluegill** - Fair: Find fish at depths of 6 feet or less. Use a small piece of worm on a small hook under a bobber. **Black Crappie** - Fair: Slowly troll through the lake to find suspended fish. **Largemouth Bass** - Fair: Run a crank or jerk bait along the edge of rocky or woody structure. **Channel Catfish** - Good: Find a shallow shoreline littered with woody debris. Use cut bait or worms and wait for a whiskey tug.

Chance for rain through the weekend. Temperatures in the low 70's for highs to 50's for lows. Water clarity on area streams is good. Fish action is picking up with cooler temperatures. For current fishing information, please call the Decorah Fish Hatchery at 563-382-8324.

---

#### Brinker Lake

Anglers are still having good success catching crappie in Brinker Lake. **Black Crappie** - Good: Look for structure; fish a live minnow or jigs at various depths to find suspended fish.

#### Casey Lake (aka Hickory Hills Lake)

Bluegill - Fair: Find structure or fish from jetties or off of dam to find bluegill. Cast and retrieve small jigs or use a piece of nightcrawler under a bobber. **Channel Catfish** - Fair: Use dead cut baits or stink baits fished after dark.

#### Cedar River (Nashua to La Porte City)

**Channel Catfish** - Fair: Look for log jams or snags to find channel catfish on the rivers. Use chicken liver, stink baits and cut baits. **Walleye** - Fair: Cast and retrieve a half a

crawler on a jig or cast a crankbait. Look for woody structure or drop-offs of downstream sandbars to find walleye.

### Harold Getty Lake

Anglers are catching crappie in Harold Getty Lake. **Black Crappie** - Good: Look for structure; use a live minnow or jigs at various depths to find suspended fish.

### Lake Delhi

Lake Delhi has been producing bluegill and largemouth bass. Boat traffic should lessen after the holiday weekend. **Bluegill** - Fair: Find structure or fish from docks to find bluegill. Cast and retrieve small jigs or use a piece of nightcrawler under a bobber. **Largemouth Bass** - Fair: Cast and retrieve spinnerbaits, crankbaits or plastics along area docks and shorelines.

### Shell Rock River (Greene to Shell Rock)

A few good reports of walleye from the Shell Rock River. **Walleye** - Good: Cast and retrieve a half of a crawler on a jig or cast a crankbait. Look for woody structure or drop-offs of downstream sandbars to find walleye.

Interior rivers remain at an all-time summer low and are in excellent condition for angling opportunities. Lakes in and around Black Hawk County have been hit and miss but, anglers are catching crappie on some area lakes. Trout streams remain in excellent condition as stocking season continues through September. Call the N.E. Iowa district office at 563-927-3276 for more information.

## MISSISSIPPI RIVER

### Mississippi River Pool 9

River level at Lansing remains steady at 8.3 feet. Water temperature is 71 degrees. New Albin ramp has opened; use caution as the road may be rough. Use caution exiting to the channel at Lansing Village Creek; the channel is very shallow. **Largemouth Bass** - Good: Largemouth are scattered, but hungry. Bass may move to deeper water and wing dams as water levels drop. **Smallmouth Bass** - Good: Use crankbaits fished on rocky areas along main channel shoreline. **Bluegill** - Excellent: Fish fallen trees in 5-6 feet of water in side channels with slight current. **Channel Catfish** - Excellent: Use crawlers or stink bait fished in side channel current. **Freshwater Drum** - Excellent: Drum are biting. Use worms on the bottom or crayfish to target larger fish. **Walleye** - Fair: Expect the walleye bite to improve as they move on the wing dams, but so far the bite is slow. **Yellow Perch** - Fair: Use crawlers fished just off the bottom in about 6-8 feet of water. **Black Crappie** - Fair: Try a minnow in the fallen trees in slight current of backwater sloughs.

### Mississippi River Pool 10

River level at Lynxville has fallen to 15.64 feet and should remain steady this week. Water temperature is 73 degrees at Lock & Dam 9. Sny Magill road repair and flood clean-up is completed and has reopened. **Largemouth Bass** - Good: Largemouth are scattered, but hungry. Bass may move to deeper water and wing dams as water levels drop. **Bluegill** -Excellent: Fish fallen trees in 5-6 feet of water in side channels with slight

current. **Channel Catfish** - Excellent: Catfish are biting on crawlers or stink bait fished in side channel current. **Freshwater Drum** - Excellent: Drum are biting. Use worms on the bottom or crayfish to target larger fish. **Walleye** - Slow: Expect the walleye bite to improve as they move on the wing dams, but so far the bite is slow. **Yellow Perch** - Good: Use crawlers fished just off the bottom in about 6-8 feet of water. **Black Crappie** - Fair: Use a minnow in the flooded trees in slight current of backwater sloughs. **Smallmouth Bass** - Good: Try crankbaits fished on rocky areas along main channel shoreline.

### Mississippi River Pool 11

River level at Guttenberg has bumped up slightly to 7.4 feet and is expected to fall under 7 feet this week. The Guttenberg city ramps are open. Turkey River boat ramp is still closed for flood repair work. Water temperature is near 65 degrees at Lock & Dam 10. **Largemouth Bass** - Fair: Largemouth are scattered, but hungry. Bass may move to deeper water and wing dams as water levels drop. **Bluegill** - Excellent: Fish fallen trees in 5-6 feet of water in side channels with slight current. **Channel Catfish** - Excellent: Catfish are biting on crawlers or stink bait fished in side channel current. **Freshwater Drum** - Excellent: Drum are biting. Use worms on the bottom or crayfish to target larger fish. **Walleye** - Fair: Expect the walleye bite to improve as they move on the wing dams, but so far the bite is slow. **Yellow Perch** - Good: Try crawlers fished just off the bottom in about 6-8 feet of water. **Black Crappie** - Fair: Crappies have moved into side channels with flooded trees and slight current flows; use a minnow. **Smallmouth Bass** - Good: Try crankbaits fished on rocky areas along main channel shoreline.

Upper Mississippi River levels are low. Boaters should use caution with new sand deposits and sedimentation on many parts of the river after several months of continuous flood water. As levels continue to drop, boat ramps and channels can become very shallow. Water temperature is in the lower 70's. Some roads and ramps are still covered in flood debris. Fish are hanging in areas with some current due to low water levels.

---

### Mississippi River Pool 16

Tailwater stage is 7.14 feet at Lock and Dam 15 in Davenport and has risen slightly. Current forecast has the river staying fairly steady. River level is 10.66 feet at Fairport. **Channel Catfish** - Fair: Use stink bait fished around brush piles and snags along the main channel or side channels. Some channel catfish are also being caught anchoring above the wing dams. **Largemouth Bass** - Fair: Some largemouth bass are being caught in Sunset Marina and the Andalusia Island complex. **Bluegill** - Fair: Some bluegills are being caught in Sunset Marina. Bluegills are also being caught in the Andalusia Island complex. Try fishing with pieces of worm or waxworms under a bobber. **White Bass** - Fair: Some white bass are being caught in Sylvan slough up by the dams casting jigs and twister tails. **White Crappie** - Fair: Some crappies are being caught in the Andalusia Island complex. Try jigs and plastics or minnows under a bobber fished around brush piles. **Walleye** - Fair: Troll crankbaits from the 280 bridge up to Sunset Marina Marina and below the 280 bridge on the Iowa side. Some walleyes are

also being caught in Sylvan Slough on jigs and plastics or trolling crankbaits. **Smallmouth Bass** - Fair: Reports of smallmouth bass being caught around the rocks along Sunset Marina.

### [Mississippi River Pool 17](#)

Tailwater stage is 5.71 feet at Lock and Dam 16 in Muscatine. River stage is 8.02 feet at Muscatine. The ramp at Big Timber is open. **Channel Catfish** - No Report: Look for channel catfish around brush piles and snags. Also try anchoring above wing dams. Use nightcrawlers or stink bait. **White Crappie** - No Report: Look for crappies in the backwaters around brush piles. Use jigs and plastics or minnows under a bobber. **Walleye** - No Report: Look for walleyes on the wing dams. Troll crankbaits or three-way rigs with nightcrawlers.

### [Mississippi River Pool 18](#)

Tailwater stage is 6.24 feet at Lock and Dam 17 above New Boston. River stage is 7.87 feet at Keithsburg. The Toolsboro landing is open. **Channel Catfish** - No Report: Use stink bait or crawlers fished above brush piles and snags. **White Crappie** - No Report: Look for crappies in the backwaters around brush piles. Use jigs and plastics or minnows under a bobber. **Walleye** - No Report: Look for walleyes on the wing dams. Troll crankbaits or three-way rigs with nightcrawlers. **Largemouth Bass** - Fair: Some largemouth bass are being caught in New Boston Bay/Bell Pocket. Use jigs and plastics. **White Bass** - Fair: Look for white bass around the wing dams. Cast jigs and twisters or crankbaits.

### [Mississippi River Pool 19](#)

Tailwater stage is 3.42 feet at Lock and Dam 18 above Burlington. River stage is 9.24 feet at Burlington. River stage is 525.71 feet at Fort Madison. **Channel Catfish** - No Report: Use stink bait or nightcrawlers fished around brush piles and snags along the main channel and side channels. Also try anchoring above the wing dams. **White Crappie** - No Report: Look for crappies in the backwaters around brush piles. Try jigs and plastics or minnows under a bobber. **Walleye** - Fair: Look for walleyes on the wing dams. Try trolling three-way rigs with crawlers or troll crankbaits.

River levels have risen slightly the past few days. Water clarity is fair. Main channel water temperature is around 73 degrees. If you have questions on fishing Pools 16-19 contact the Fairport Fish Hatchery at 563-263-5062.

## **SOUTHEAST**

### [Iowa River \(Columbus Junction to Mississippi River\)](#)

The Iowa is at a stable level. The NOAA forecast is for it to slowly drop a couple of inches this week. **Channel Catfish** - Good: Continue to fish the outer edges of the brush piles; grass frogs work well this time of year.

### [Lake Belva Deer](#)

Water temperature is 75 degrees. The lake is getting petty green again. **Largemouth Bass** - Fair: Anglers are starting to pick up more bass in the shallow water with the cool

weather. **Bluegill** - Fair: Bluegills are still out deep. **Channel Catfish** - Fair: Most catfish have moved into deeper water; start along the old creek channel.

### Lake Darling

Water temperature is 75 degrees. The water is getting green in color again; need some rain to knock it back. **Largemouth Bass** - Fair: Anglers are still picking up some bass in shallow, but the catch rates have dropped a little. **Bluegill** - Fair: The bigger bluegills are still mostly in the deeper water (8-10 feet) around the rock piles and brush piles. A few smaller ones are in shallow. **Channel Catfish** - Slow: If we get some rain this Sunday, they might perk back up. **Black Crappie** - Fair: Anglers are starting to catch some crappies over the deeper habitat.

### Lost Grove Lake

**Largemouth Bass** - Fair: Bass fishing slowed a bit over the Labor Day weekend. Anglers were still able to catch bass in 3 to 4 feet of water. **Black Crappie** - Fair: Anglers continue to pick up crappies out around edges of the flooded timber in 8 to 10 feet of water. Some anglers are finding them all the way down to 20 to 25 feet deep. Try vertical jigging or using a slip bobber and minnow. **Bluegill** - Fair: The nicer bluegills remain out in deeper water; smaller ones are in shallow.

### Skunk River (Coppock to Mississippi River)

The Skunk River continues to slowly drop this week. There is still enough water to get around with jon boats. **Channel Catfish** - Good: Work the pools just downstream of the rock riffles, slow drifting crawdads or nightcrawlers to catch some nice eating size catfish. Don't forget to work the brush piles.

For more information on the above lake, call the Lake Darling Fisheries Office at 319-694-2430.

---

### Coralville Reservoir

The lake level is 684.2 feet. **Channel Catfish** – Slow: Slow troll or drift cut bait. **White Crappie** - Fair: Use minnows or bright jigs over brush piles.

### Diamond Lake

**Channel Catfish** - Fair: Try stink bait or chicken liver. **Bluegill** - Fair: Use worms or small jigs fished in brush. **Black Crappie** - Fair: Fish brush piles or drift the basin with jigs.

### Lake Macbride

Any sized motor may now be used at no wake speed (5 mph). **Walleye** - Slow. **Black Crappie** - Slow. **Wiper (Hybrid Striped Bass)** - Slow. **Largemouth Bass** - Fair.

### Pleasant Creek Lake

The main ramp is still closed for repaving. **Bluegill** - Fair. **Channel Catfish** - Fair: Evenings are best.

For more information, contact the Lake Macbride Fisheries Station at 319-624-3615.

---

### Hawthorn Lake

**Largemouth Bass** - Fair: Try rubber worms or spinnerbaits along the rock jetties and the face of the dam. Use topwater lures early and late in the day in the same spots. **Channel Catfish** - Fair: Use dead chubs or nightcrawlers in 4-8 feet of water. **Bluegill** - Fair: Try small jigs tipped with a waxworm. Sorting is needed for larger fish.

### Lake Miami

**Bluegill** - Fair: Try small jigs tipped with a chunk of nightcrawler fished around the fishing jetties and rip-rapped shorelines. Drifting this time of year can also produce some fish. **Largemouth Bass** - Good: Use spinnerbaits or rubber worms around the fishing jetties and around the submerged cedar trees. **Channel Catfish** - Fair: Try nightcrawlers along the shorelines.

### Lake Sugema

**Largemouth Bass** - Fair: Try rubber worms around openings in the vegetation or spinnerbaits around the jetties and rip-rapped shorelines. **Black Crappie** - Slow: Use jigs tipped with a minnow around the flooded timber and submerged structure. Drifting in open water areas can also produce some fish this time of year. **Bluegill** - Fair: Try small jigs tipped with a chunk of nightcrawler in the open areas of the aquatic vegetation.

### Lake Wapello

**Channel Catfish** - Fair: Use cut bait or dead chubs along the shore. Don't fish too deep, most lakes have stratified. **Largemouth Bass** - Fair: Try rubber worms or spinnerbaits around rock jetties and submerged cedar trees. **Bluegill** - Fair: Use small jigs along the shorelines and around the aquatic vegetation. **Black Crappie** - Fair: Try drifting in open water areas for suspended crappie.

### Rathbun Reservoir

The current lake level is 905.15 msl. Normal operating elevation is 904.0 msl. Lake Rathbun has zebra mussels, so make sure to properly drain, clean, and dry equipment before transporting to another water body. **Channel Catfish** - Good: Try cut bait or nightcrawlers fished along the shorelines or any place with some water flowing into the lake. **Black Crappie** - Slow: Catch suspended crappie with small crankbaits. Sorting is needed for larger fish. **Wiper (Hybrid Striped Bass)** - Good: Anglers have been successful trolling crankbaits along rocky shores. Anglers are also vertically jigging over rock piles with some success. **Walleye** - Slow: Troll baits that imitate gizzard shad or bottom bouncers with a nightcrawler over submerged points or along rocky shores.

### Red Haw Lake

**Channel Catfish** - Fair: Use cut bait or nightcrawlers along the shorelines. Don't fish too deep; the lake is stratified. **Bluegill** - Fair: Try small jigs with a chunk of nightcrawler fished around the shores and submerged structure. **Largemouth Bass** - Good: Use rubber worms or spinnerbaits around brush piles and other submerged structure.

The district includes Mahaska, Lucas, Wayne, Monroe, Appanoose, Wapello, Davis and Van Buren counties. Contact the Rathbun Fish Hatchery at 641-647-2406 with questions about fishing in south central Iowa.

# SOUTHWEST

## Big Creek Lake

**Walleye** - Slow: Walleye fishing is slower after the gizzard shad hatch. Use live bait on jigs or troll spinner rigs and shad imitating crankbaits in the upper half of the lake around road beds humps and weed edges in 10 feet of water and less. **Wiper (Hybrid Striped Bass)** - Fair: Troll shad imitating crankbaits and spoons throughout the lake. Also watch for shad busting on the surface; cast into the frenzy. **Black Crappie** - Fair: Drift or troll jigs with twister tails or minnows in the West Boat Ramp bay. Shore anglers should fish live minnows near the rock jetties in the evenings.

## Des Moines River (Saylorville to Red Rock)

**Channel Catfish** - Good: Use cut baits and dip baits below the Saylorville spillway.

## Des Moines River (Stratford to Saylorville Lake)

**Channel Catfish** - Excellent: Use stink baits or cut baits.

## Don Williams Lake

**Black Crappie** - Good: Catch crappies from shore casting live minnows under a bobber 2 to 3 feet deep from the docks. Slowly troll jigs 3 to 6 feet deep. Good areas to troll are mid-lake between the boat ramp and the beach and from the beach north to the next bend. **Largemouth Bass** - Good: Catch quality 3 to 6 pound bass with shallow diving crankbaits and soft plastics around the tree falls and submerged stumps throughout the lake. Fish at depths of 8 feet and shallower.

## Red Rock Reservoir

**White Bass** - Fair: Troll spoons and crankbaits in the main lake from the marina to the dam.

## Saylorville Reservoir

**White Bass** - Slow: Troll or cast shad imitating spoons and shallow diving crankbaits. Tie on a leading or trailing twister tail jig if the bite is slow. Cast jigging spoons once you find fish. Good areas to start are from the Sandpiper boat ramp to the marina cove and out from Oak Grove Beach. Fish are also being caught from Cherry Glen to the dam.

For more information on Central Iowa lakes and rivers, call Ben Dodd at 641-891-3795 or Andy Otting at 515-204-5885.

---

## Lake Anita

Fishing at Lake Anita picked up this week. Water clarity has improved. **Black Crappie** - Fair: Anglers targeting brush piles are catching fish. Late afternoon has been good around the roadbeds. **Bluegill** - Fair: Anglers report catching bluegill slow trolling jigs and crawler in 10 to 14 feet of water. **Largemouth Bass** - Slow: Look for largemouth bass around deeper structure during the day. **Channel Catfish** - No Report: Fishing has been good for catfish off the jetties in the south arm.

## Lake Manawa

A few anglers report catching walleye on the west side of the lake. Manawa's no-wake

restriction has been lifted. **Channel Catfish** - Fair: Try dip baits fished in the windblown shoreline. **Walleye** - Fair: Troll shad raps on the west shoreline.

#### Littlefield Lake

Anglers report catching bluegills in the cedar tree piles. **Bluegill** - Fair: Use slip bobbers and crawlers around the tree piles; sorting is needed for larger fish.

#### Meadow Lake

The DNR has drawn Meadow Lake down 3.5 feet to improve the fishery. The stop logs will be put back in mid-October and the lake allowed to refill. The boat ramp can still be used.

#### Prairie Rose Lake

Prairie Rose has a quality panfish population and an abundance of largemouth bass. **Bluegill** - Slow: Look for bluegills around tree piles. Drift close or cast to find quality sized fish. **Black Crappie** - Slow: Troll along the dam or around brush piles to find 10 inch black crappie.

#### Viking Lake

Viking is down 8 feet and will be maintained at this level until October. At that time, the gate will be closed and the lake will be allowed to refill.

For more information, contact the S.W. District Office at 712-769-2587.

---

#### Green Valley Lake

**Bluegill** - Fair: Try nightcrawlers under a bobber fished along the fishing jetties or cedar tree brush piles for bluegill up to 8 inches. **Largemouth Bass** - Slow: Use finesse plastics fished near cedar tree brush piles for largemouth bass of all sizes.

#### Little River Watershed Lake

**Bluegill** - Fair: Catch bluegill up to 9 inches with small jigs or nightcrawlers fished near cedar tree brush piles. **Largemouth Bass** - Good: Try finesse plastics or jigs fished near cedar tree brush piles or along the weed line for largemouth bass of all sizes. **Channel Catfish** - Slow: Catch channel catfish up to 10 pounds with nightcrawlers or stink bait fished along the flooded timber.

#### Three Mile Lake

**Walleye** - Slow: Catch walleye up to 15 inches with a nightcrawler or minnow fished along the roadbed for fish mounds.

#### Twelve Mile Creek Lake

**Largemouth Bass** - Fair: Try jigs or finesse plastics fished along the weed line or cedar tree brush piles for largemouth bass of all sizes. **Bluegill** - Slow: Catch Bluegill up to 8 inches with small jigs or nightcrawlers fished along cedar tree brush piles.

Water temperature in most Mount Ayr district lakes is in the mid-70's. For more information, please call the Mount Ayr Fisheries office at 641-464-3108.
