Air Quality Bureau provides flexibility on certain requirements

The Air Quality Bureau will be exercising state enforcement discretion for certain regulatory requirements to assist businesses and industry in managing their operations during the coronavirus pandemic. The [DNR's website on the COVID-19](#) virus addresses not only air quality requirements, but also requirements in other Environmental Services Division programs.

Please review the [file at this link](#) for specific programmatic information. Please call program leaders if you have any questions, and check back periodically for amendments to this website.

DNR's Air Quality News listserve is targeted to the regulated public and consultants to deliver timely regulatory news, program updates, and technical guidance to your email. If you have difficulty, please contact DNR's Wendy Walker at 515-725-9570.
