

From the State Library - April 1, 2020

## Reminder: Submit & Update Library Closure Information Related to COVID-19

### [Iowa Library Closure Information](#)

As we announced last week, the State Library is collecting information from Iowa libraries on closures due to the COVID-19 crisis. Thank you to each library that has already responded! We used the information submitted to make the determination to suspend the IA Shares delivery service for the time being.

The information will also be used to inform the State Library on the best way to communicate to libraries during the crisis, to present data to the Governor's Office and other leaders to inform their decision-making processes, and as a resource for the public and other libraries to see the status of their local library.

**Please view the list below to see if your library's entry is up to date:**

[List of Library Closures](#)

**If your library has not submitted information on a closure yet, or if your information is incorrect or needs to be updated, please resubmit the following form:**

[Report a Library Closure](#)

Thank you again for reporting your closures and keeping your library's information up to date!
