

Contact: Marcia Brunson

ANNUAL REPORT ON CAMPUS SAFETY AND SECURITY

Action Requested: Receive the report.

Executive Summary: In accordance with Board of Regents Comprehensive Campus Safety and Security Policy (Chapter 11 of the Board's policy manual), the second annual report is presented. The individual reports from each institution are included as Attachments A through E. Crime statistics, by quarter, for calendar year 2009 for each of the universities are included as Attachments F through H. Attachments I, J, and K provides comparison between statistics for calendar year 2008 and calendar year 2009 for each university.

In compliance with Board policy, the annual reports address the following topics: mass communications capabilities; threat assessment and management; physical security capabilities; and training of institutional personnel as well as staffing, safety and security goals, relationships with other law enforcement agencies and use of force/firearms. A brief summary of the reports follows:

MASS COMMUNICATION CAPABILITIES

- The three universities utilize Connect-Ed for electronic mass communications. This includes e-mail, text messaging and voice mail.
- Each university has a system for external mass voice communication through outside speakers with siren and/or voice notification.
- The special schools use e-mail and web notification, intercom systems, emergency boxes in elevators and stair towers. ISD utilizes a visual alert system to insure all deaf and hard of hearing students and staff receive emergency notifications.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- Each university has long-standing relationships with law enforcement entities in the counties and cities surrounding the campuses.

STAFFING

- The police departments at the three universities are staffed with both state certified police officers and civilian employees. The University of Iowa has 44 sworn officers; ISU, 33; and UNI, 17. Each department also employs a number of part-time student employees.

TRAINING OF INSTITUTIONAL PERSONNEL

- The reports identify numerous training activities undertaken by the police departments. Some of these include:

University of Northern Iowa -- held an Emergency Communications Workshop in Maucker Union. Attendees included Deans, Directors, Department Heads, and the UNI Cabinet members. The four-hour session reviewed the roles of various campus entities, current

policies and procedures for notifications, modes and impact of communications. A follow-up session is planned for the spring of 2010.

UNI Police works closely with the Department of Residence on matters concerning student safety with programming, and officer contacts with residence system employees. Public Safety provides safety talks to Resident Assistants and to residence hall students in the fall semester. UNI Officers provide Rape Aggression Defense Training Program to the campus community as well as the Self Defense Awareness and Familiarization Exchange, and the S.A.F.E. program. The program offers information as to how to maintain their safety on and off-campus. This programming has been offered to students since 1990.

The University's Violence Against Women program was awarded a State Grant to develop an in-service training program through the Department of. In addition to the Federal Violence Against Women Program Flagship Grant, this State Grant will allow the development and programming of in-service training to police and judicial affairs panel on the reporting, investigating, interviewing, and student conduct code action, and disciplinary panel education will be developed and used in computer-based learning. The grant will allow the purchasing of software to develop the training program, similar to the programming developed by the State of Iowa Judicial branch. This program will be developed with the cooperation of SUI and ISU.

Iowa State University -- An overview of safety-related issues and services is provided to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State. Prevention and outreach programs have been provided to faculty and staff covering topics such as workplace violence; campus safety; dealing with difficult people; and threat assessment/management processes.

The annual ISU DPS publication, "*Safety & You*" is electronically mailed to all faculty, staff, students, and prospective employees. This document is printed in hard copy form and posted on the departmental web site. It contains information pertaining to personal safety and property security as required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

University of Iowa -- A table top training session exercising the Kinnick Emergency Operations Plan was conducted at SUI. Various departments participated including President Mason and the Vice Presidents participated.

The University of Iowa Police Crime Prevention Specialist presented safety related educational offerings as follows: Rape Aggression Defense program, Personal Safety and Self-Protection, Panic Alarms and Disruptive Persons, Counterfeit Currency Detection, Alcohol Awareness, and Club Drugs: "From the Rave to the Grave

UIPD utilized mass email as well as the website to provide newly created information on Active Shooter Guidelines and Threat Assessment.

The Threat Assessment Specialist and Crime Prevention Specialist created a "Recommended Protocol for Addressing Potentially Violent Situations" which addresses what to do when dealing with potentially violent people and situations. It was created, primarily, for frontline persons, i.e. clerical staff, office assistants, and others who deal directly with the public.

SMOKING BAN

- Each department has responded to numerous complaints of smoking violations during 2009 – SUI, 312 complaints; ISU, 151 and UNI, 112.

STUDENT INVOLVEMENT

- Each police department employs students in various capacities including evening escorts for students, dispatch responsibilities, records management and parking enforcement. Student leaders also participate in campus safety walks to identify potential hazard areas.

INDEX TO ATTACHMENTS

Attachment A:	University of Iowa 2009 Safety and Security Report
Attachment B:	Iowa State University 2009 Safety and Security Report
Attachment C:	University of Northern Iowa 2009 Safety and Security Report
Attachment D:	Iowa School for the Deaf 2009 Safety and Security Report
Attachment E:	Iowa Braille and Sight Saving School 2009 Safety and Security Report
Attachment F:	University of Iowa 2009 Crime Statistics
Attachment G:	Iowa State University 2009 Crime Statistics
Attachment H:	University of Northern Iowa 2009 Crime Statistics
Attachment I:	University of Iowa 2008 and 2009 Crime Statistics
Attachment J:	Iowa State University 2008 and 2009 Crime Statistics
Attachment K:	University of Northern Iowa 2008 and 2009 Crime Statistics

CAMPUS SAFETY AND SECURITY REPORT

THE UNIVERSITY OF IOWA

Calendar Year 2009

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- The University of Iowa (UI) currently utilizes Connect-Ed (HAWK ALERT) for the purpose of mass communication notification to UI faculty, staff and students. This system utilizes e-mail, text messaging and voice mail. The Hawk Alert System is used to notify the campus community of threats to physical safety in emergency situations (tornado, violence, hazardous material incident, and so on). Hawk Alert allows UI administrators to send recorded or electronic emergency messages (“Hawk Alerts”) to mobile phone, home phone, office phone, and e-mail (simultaneously). A Hawk Alert web page provides information to the UI community on registration and notification options and contains an extensive Q&A section.
- The UI currently utilizes an outdoor warning system consisting of five outdoor towers on the main campus and one tower located on the Oakdale campus. These towers are capable of emitting a severe weather warning siren as well as being used as a campus wide public address system utilizing recorded and real time live voice messages. The University’s outdoor warning system is activated by UI Public Safety when other sirens located throughout Johnson County are activated during severe weather events. In addition, the University’s system will be used to broadcast warnings for other weather and non-weather situations. Testing of the University outdoor warning system occurs on the first Monday of every month at 9:00 a.m. in conjunction with the testing of other sirens located in Johnson County; battery power is tested as well. The outdoor warning system has a companion device, a receiver that can be placed inside of buildings, capable of delivering the same emergency messages.

Tower locations:

Main Campus

- West of Parklawn Housing Building
- NW of Banks Field
- SE of Gilmore Hall
- NE corners of Melrose Ave and Morman Trek Blvd.
- SE of the Boyd Law Building

Oakdale Campus

- SE of Multi-Tenant Facility

Three activation points:

- Primary encoder (method by which message is transmitted) is located in the UIPD Communications Center
 - Mobile encoder is maintained in a “Pelican” case with AC & DC power sources
 - Portable encoder (Kenwood TK-3180 handheld radio)
-
- The UI can also use the Mass E-Mail System, which will transmit information using the University e-mail system to all faculty, staff, and student e-mail accounts.
 - The UI Home Page Web Site will connect site users to the most current information, with links to the UI’s Critical Incident Management Site. The site will connect students, faculty, staff, patients, parents of students, and the general public to specific, pertinent information about continuity of operations, advisories and notifications, health and safety information, and additional information as it becomes available. Both the UI Homepage site and the Critical Incident site will be maintained by University Relations staff, in cooperation with Information Technology Services, and other agencies as appropriate.
 - The UI will also utilize news releases and direct media contact, providing the most current information for students, parents, staff, faculty, and the general public.
 - In the event that Internet communications are deemed ineffective, University Relations will use available radio stations (KRUI, KSUI, and WSUI) and the use of faxed releases sent telephonically to news media to disseminate information. University Relations would also schedule press briefings at designated locations to apprise news media in person.
 - UI DPS and UI Facilities Management are progressively moving toward using advanced fire alarm panels for interior building emergency communications that will be capable of being activated from a single point which will be located in the DPS dispatch/emergency communications center.

With any delivery system used for mass or emergency communications, there will be challenges. Some of those challenges are as follows:

- **Content of the messages** – the goal is to inform without alarming, to be as brief as possible but still provide enough relevant information that allows the audience to make good decisions.
- **When to deliver the messages** – deciding if a “community” emergency is truly an emergency that will affect the campus and what types of emergency messages should be broadcast; is the campus better served delivering this message or, by not delivering the message,
- **Complying with Clery** – Timely Warning Notifications
- **Timeliness and speed of delivery** - Hawk Alert, UI Website
- **Continuous training** (daily for dispatchers)

THREAT ASSESSMENT AND MANAGEMENT

- The UI utilizes the Behavior Risk Management (BRM) Protocol. The BRM is an attempt to respond with a planned comprehensive approach to the continuum of behaviors that could lead to hostility and violence in the workplace. Although it is difficult to "predict" violent or hostile behavior, there are methods to determine the risk components of a situation. BRM takes a clinical as well as consultative approach. The Behavior Risk Management Protocol is a planned, comprehensive, multidisciplinary response to workplace hostility and violence. The purpose is to ensure a safe and civil workplace for all UI employees by addressing any
- related individual or environmental issues that may contribute to hostility, violence or physical danger on the job.
- While the BRM protocol addresses faculty and staff, the threat assessment protocol creates an integrated and coordinated process for identifying and responding to students, faculty, staff, or other University affiliates who may be at risk of harming themselves or others, and then to respond effectively with all parties who may be involved with the concerning situation. This process coordinates the efforts of existing offices and services. The goal of these efforts is to coordinate activities from multiple stakeholders, but not to centralize all response activities.
- The UI has established a Threat Assessment Team (TAT) in response to the recent violent incidents on college campuses across the nation. This team includes representatives from Human Resources, Student Services, and University of Iowa Police. The Threat Assessment Team will be working in conjunction with the Faculty and Staff Services/Employee Assistance Program, Student Counseling, Resident Services, and many other resources within the University of Iowa community.
- Two UI Threat Assessment Specialists (TAS) coordinate efforts and provide needed services: Lieutenant Peter Berkson, of the University of Iowa Police; and Jane Caton, from Organizational Effectiveness. Their responsibilities include responding to reported concerns, monitoring, interviewing and developing assessment and prevention programming.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- U of I DPS has a long standing mutual aid agreement with the Iowa City PD, Coralville PD and the Johnson County Sheriff's Office which allows for the exchange of law enforcement resources (personnel and equipment) as needed. The UI Police division is a member of the Johnson County Drug Task Force, Sexual Assault Investigators Team, Sexual Assault Response Team and the Johnson County Metro Bomb Squad. We also work closely with all divisions of the State of Iowa Department of Public Safety as well as federal law enforcement agencies.
- The Iowa City PD, the UI Police division and the Iowa City Fire Department share the same radio system. Radio interoperability for every law enforcement agency in the entire county will become a reality in 2010 with the establishment of the Johnson County **Joint Emergency Communications Center (JECC)**. This will allow other law enforcement agencies to connect including the Johnson County Sheriff's Office, Coralville PD, North Liberty PD and the University Heights PD. At the time the entire county adopts the same radio system, the University of Iowa Police dispatch/ emergency communications center will become a back up Public Safety Answering Point (PSAP) for the JECC.

- Agency heads from UIPD, ICPD, CORAVILLE PD, the Johnson County Sheriff's Office and the Johnson County Attorney meet monthly to discuss shared interests and concerns.

PHYSICAL SECURITY CAPABILITIES

- Currently the UI Department of Public Safety (DPS) has 161 cameras feeding into the dispatch and emergency communications center. This includes 83 cameras covering specialized labs, residence halls, studio arts and IMU/Richey Ballroom; 70 covering the University Capitol Centre and 8 connected to 22 campus Code Blue emergency phones. Due to the generosity of the Parents Association, the University will be increasing the number of cameras on Code Blue phones at an estimated rate of 1 a year. Digital video recorders are used to record information for post event investigations if necessary. Additionally, some areas have local motion and intrusion alarms which will alert our dispatchers.

Due to the most recent version of electronic access control systems utilized on campus, DPS can also view various cameras at the following locations: Hillcrest, Rienow, Slater, Quad, Mayflower, Parklawn and IMU.

- Six residence halls (up from four in 2008), Parklawn, Mayflower, Rienow, Hillcrest, Slater and Quadrangle, are currently using cameras in conjunction with "Prox Card" access at entrances. These halls have cameras at all exterior doors and all first floor access points to student living spaces (elevators, stairwells, hallway doors). In addition these halls may have cameras at the 24 hour desks, some lounge spaces and Information Technology Centers. Cameras are monitored at the 24 hour residence hall desks; alarms informing staff that doors are propped open will alert staff to watch camera monitors to respond appropriately to those doors. Monitors scan each camera and record activity which is stored for a limited amount of time. All residence halls will be added to this system in the next few years. A project is scheduled for the summer of 2010 to add Currier and Stanley residence halls. Burge and Daum are tentatively scheduled for the summer of 2011.
- In 2009 all residence hall fire alarm panels were connected to DPS dispatch/emergency communications. This eliminated the decades long practice of fire alarms reporting to an off-site third party receiver.
- UI Facilities Management houses master keys; issues keys and proximity cards; grants access rights based on departmental requirements; maintains a university-wide key inventory database of key information and services lock systems. The majority of both exterior and interior doors that have a locking function are keyed. Electronic access, Millenium Enterprise (aka Marlok), is installed in 60 buildings and connected to approximately 1500 doors, both interior and exterior. Approximately two-thirds of these locations utilize the UI Identification card and magnetic swipe readers; the other one-third of access-controlled locations utilizes Facilities Management-issued proximity cards and proximity readers. Some administrative units have taken on responsibilities for programming user access, while others continue to place a high reliance on Facilities Management for access control services.
- Led by Facilities Management, the University of Iowa finalized a multidiscipline, year-long assessment of control technology to replace the current Marlock standard with a control system capable of meeting current and future institutional needs for card access, security,

- distributed control, and integration with building systems controls and institutional information technology databases. The University has selected AMAG software/firmware and Security Equipment Inc. as the AMAG integrator/reseller for the programs and components. We hope to sunset the Marlock system in approximately 9 to 10 years.
- Concerns about safeguarding university assets have highlighted the need to integrate “building access” and “building security.” The challenge is to provide appropriate control and security for all major buildings without unduly compromising convenience and the campus culture of openness. To help guide the process, the University has convened an Access and Security Steering Committee who has developed a University of Iowa Access and Security Strategic Plan to address security and access control for new and existing buildings. The committee includes members from Facilities Management, Office of the Provost, Information Technology Services, Public Safety, Student Services and Research Administration. The areas of concern that are being reviewed by the committee and various sub-committees are as follows:
 - Central Control Technology (AMAG)
 - Security Assessment, Process & Priority
 - Design and Installation Standards
 - Key and Card Issuance
 - Access Cards
 - Integrated Databases
 - Security Monitoring, Analytics
 - Service and Support Model
 - Financial Support Model
 - Administration Policy on Card Access and Security

STAFFING

- The UI Police Division currently employs 44 sworn, state certified officers, 16 security guards, 7 state certified dispatchers, 1 fire safety coordinator and 3 support staff. Part time student employees (14) assist with guard duties, fingerprinting, lost and found, assistance with NITE RIDE, records management and dispatching.
- UIPD has one explosives detection canine

TRAINING OF INSTITUTIONAL PERSONNEL

- In 2009 we held a table top training session exercising the Kinnick Emergency Operations Plan. Various departments participated including President Mason and the Vice Presidents.
- For several years the University of Iowa Police Crime Prevention Specialist has presented safety related educational offerings as follows:
 - **Rape Aggression Defense program R.A.D.**
 - **Personal Safety and Self-Protection**
 - **Panic Alarms and Disruptive Persons**
 - **Counterfeit Currency Detection**
 - **Alcohol Awareness**
 - **Club Drugs: "From the Rave to the Grave"**

- UIPD has utilized mass email as well as the website to provide newly created information on the following topics:
 - Active Shooter Guidelines
 - Threat Assessment (see page 2: Threat Assessment and Management)
- The Threat Assessment Specialist and Crime Prevention Specialist created a protocol titled: **Recommended Protocol for Addressing Potentially Violent Situations**. The document addresses what to do when dealing with potentially violent people and situations. It was created, primarily, for frontline persons, i.e. clerical staff, office assistants, and others who deal directly with the public. The two TAS and UIPD crime prevention specialist have met with several individuals presenting the related materials. They will continue scheduling meetings to present the protocols and facilitate discussions with various groups as needed or requested.
- A.L.I.C.E. stands for **A**lert, **L**ockdown, **I**nforn, **C**ounter, and **E**vacuate. The program is a comprehensive approach, advocating integrated strategies incorporating Environmental Design, Technology & Communication, Law Enforcement Response, and ACTION by those in immediate danger. The response options that are taught specialize in preparing schools, universities, churches, hospitals, and workplaces in how to respond to a violent attack on large numbers of people and increase the odds of survival. A.L.I.C.E. teaches individuals proven techniques and provides them with several options that are effective in avoiding, escaping and, if necessary, protecting intended victims from active shooters.

UIPD has three officers trained as instructors in the A.L.I.C.E. system who have created a two hour training component to begin training for faculty, staff and students. A.L.I.C.E. was presented to the leadership of UIPD/DPS and then to the leadership at the 2008 Big 10 Law Enforcement Director's Annual Conference. A condensed version was presented to President Mason and the Vice President group in 2009. We have begun advertising the program and will schedule classes as appropriate.

USE OF FORCE/FIREARMS

- UIPD officers carry the M&P 40 caliber Smith and Wesson handgun. Incidents are reported to the Regents office, by phone, shortly after the time of occurrence and are reported herein. They are listed below:
 - On August 20, 2009, an officer ran a plate on a car and a warrant came back on the driver for aggravated assault with a gun. The officers conducted a felony traffic stop at gun point and arrested the driver without incident.
 - On October 14, 2009, the officer while on assignment with the drug task force was searching a residence for a federal drug investigation several miles off campus in rural Johnson County. The suspect tried to flee the police and the officer drew and pointed his weapon at the suspect as he captured the suspect.
 - On December 20, 2009, an officer accidentally discharged a weapon in the headquarters of Public Safety. There were no injuries and appropriate disciplinary action was taken.
- Commission on Accreditation for Law Enforcement Agencies Standards (CALEA) standards dictate that we must have a use of force policy: Officers have to receive training

- annually on these standards, must be trained with their authorized weapons, require reports when weapons are used, and cannot carry weapons until they have been trained. New officers must review all related policies prior to being issued weapons.
- The University of Iowa Police Department meets all CALEA standards and exceeds Iowa Law Enforcement Academy (ILEA) standards in regards to weapons qualification; CALEA dictates that we must have a policy that requires qualification.
- UIPD officers qualify twice a year with two qualification runs at each session, for a total of four; successful qualification runs are required; this exceeds state and national standards. Officers qualify on the low light course once a year, and shotgun once a year, meeting ILEA standards. For rifle qualification, UIPD requires 3 different courses of fire; standard FBI 100 yard course, the Close Quarters Combat Course, and the Close Quarters Combat Course in low light. This exceeds the standard FBI 100 yard course. UIPD currently has 6 ILEA certified firearms instructors on staff conducting all firearms training.
- UIPD also conducts *Simunitions* training once a year. This involves interactive training using devices that fire simulated rounds and a process that records officer actions with the simulated weapon. UIPD officers also train using the Multiple Interactive Learning and training Objectives system (MILO). Officers are required to train with MILO at least once a year; however, most officers will use the system several times a year. The MILO system instructs officers on the appropriate use of force, i.e., when to fire and when not to fire a weapon; new officers must receive this training before they are allowed to perform their duties. Both of these training opportunities exceed ILEA requirements.
- UIPD has facilitated access to training sites on campus for local law enforcement agencies. This creates a close partnership and provides the area agencies with knowledge of campus facilities, community and practices. This partnership creates a close working relationship and helps facilitate future assistance in the event of an incident on campus requiring mutual aid.
- Three of the department's firearms instructors received Active Shooter (AS) training at ILEA; they are responsible for training all UIPD officers during annual firearms qualification. This training includes instruction on how to enter an active shooter situation and covers building entry, room entry and clearing and securing corridors. During 2009 the last year, the department conducted joint AS training with local law enforcement agencies. Officers trained in this discipline will use this training and knowledge not only to respond to an active shooter, but to instruct students, staff, faculty and visitors in the appropriate response if an active shooter incident were to occur.
- ALERRT - Advanced Law Enforcement Rapid Response Training. ALERRT is a 2-day operator course that is similar to Active Shooter Training (AS) but is far more detailed and involves choreographed situations with specific training points. It addresses all of the components in the ILEA-AS course and also provides instruction in moving and firing in teams of 2 to 5, room clearing, rescue, improvised explosive devices (IED) recognition and hostage situations. Instruction included dividing the class into groups with each team participating in exercises with simulated weapons and rounds to place participants in stressful situations. The department has four officers trained in ALERRT.
- UIPD will continue to work closely with local law enforcement agencies to implement training for all area agencies regarding the response to an active shooter. UIPD continues to train and work with local agencies in reference to weapons and tactical training so we are

- "on the same page" in the event of an emergency in which multiple agencies would be needed for an appropriate response to an incident of violence on or adjacent to campus.

STUDENT INVOLVEMENT

- Students continue to be involved in the following:
 - NITE RIDE (late night safe ride option for women)
 - Citizens Police Academy; (i.e., a ten week academy for private citizens conducted by UIPD, Iowa City PD, Coralville PD and the Johnson County SO)
 - Student employees (i.e., traffic control, lost and found, campus walking patrols, assist with VIP escort services, fingerprinting, dispatching)
 - We continue to offer law enforcement internships for students (high school and college level)

SMOKING BAN

- UIPD continues to respond, warn, and direct smokers to areas where smoking is allowed. UIPD officers have responded to 312 prohibited smoking calls.
 - 270 contacts were initiated by UIPD officers
 - 42 contacts were complaint driven
 - 25 citations have been issued

SAFETY AND SECURITY GOALS

- Complete Access and Security Strategic Plan including the systematic installation of the AMAG access control system; DPS sections
- Continue to conduct annual table-top emergency exercises to test the various critical incident and emergency plans
- Complete necessary work to change over dispatch consoles, mobile and portable radios to comply with county radio interoperability requirements for Public Safety Answering Point (PSAP) backup status by the Spring/Summer of 2010
- Support Iowa City Police is addressing safety issues downtown and areas adjacent to the UI campus.
- Assign a uniformed police officer at the UIHC emergency trauma center.
- Continue developing relationship with UI Risk Management and continue existing efforts to establish protocols for preventing/addressing identified risks, including but not limited to:
 - Driver screening
 - Pandemic flu response and planning, other natural or manmade emergencies
 - General safety protocols and requirements encompassing faculty, staff, students, visitors and contractors

- Complete the process of connecting advanced fire alarm panels to connect to DPS dispatch/emergency communications to facilitate a single point of emergency message transmission for internal building emergency communications
- Complete the review of the DPS departmental manual including the submission of selected policies to UI General Counsel for review
- Begin training faculty, staff and students in A.L.I.C.E. (see page 6)

CAMPUS SAFETY AND SECURITY REPORT

IOWA STATE UNIVERSITY

Calendar Year 2009

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- ISU continues to utilize Connect-Ed as its selected electronic mass notification vendor. Ten administrative officials throughout the university, representing key disciplines, are authorized to activate this system. The program was tested twice and utilized on two occasions during the past calendar year. Positive feedback regarding mass notification capability was received from system subscribers, including faculty, staff, students, and parents.
- The university continues to utilize an Emergency Message Recording System (EMRS) in conjunction with ISU Alert. A loop recording can be played to an unlimited number of people calling the designated telephone number (4-5000); this is the same number displayed when the ISU Alert system is activated. The recorded messages can be updated instantaneously as conditions change.
- An Emergency Alert Homepage has been designed to enhance communication capabilities. The system is designed to overwrite the ISU homepage in a way that draws attention to the emergency—the elimination of graphics speeds access for those requiring immediate information. Ten administrative officials throughout the university, representing key disciplines, are authorized to activate this system. However, it is recognized that dire circumstances would need to exist before the situation would be announced to the entire world. Archived messages available for viewing would be used to more easily track and understand incident progression.
- An outdoor warning system, consisting of five towers placed strategically throughout campus, was installed in June 2008; the equipment has siren and voice capability. Procedures for activation have been developed and dispatch personnel have been trained in unit operation. Testing of the outdoor warning system is conducted monthly, unless inclement weather is present or projected. Templated voice messages relating to a variety of emergency conditions have been developed to expedite message delivery.
- CodeRED, a multi-platform emergency notification system, was recently implemented in Story County. This product utilizes internet mapping capability for geographic targeting of calls, coupled with a high speed telephone system capable of delivering emergency messages at the rate of up to 60,000 calls per hour.

THREAT ASSESSMENT AND MANAGEMENT

- ISU DPS has utilized a Threat Assessment and Management System (TAMS) since 1994.

- The department continues to partner with other institutional entities in threat management issues, including: Dean of Students Office; Thielen Student Health Center; Human Resource Services; Department of Residence; and Student Counseling Services.
- The department continues to actively participate in the multi-disciplinary Student Assistance and Follow-Up Evaluation (SAFE) Team, as well as the Faculty and Staff Safety Team (FASST). These groups meet weekly, or more often as needed, to share information and develop strategies for assessing and responding to potentially dangerous situations.
- Intermediate level training in threat assessment and management has been provided to all police investigative staff.
- The threat assessment and management process is coordinated by an individual who possesses a wealth of experience in this area. Specialized training pertaining to harassment, stalking, and interpersonal violence has been received.
- Sworn staff members have conducted training sessions throughout campus with regard to identifying and dealing with people who threaten or exhibit violent or harassing behavior. Feedback received from faculty and staff reveal these seminars are very much appreciated.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- ISU DPS entered into a mutual aid agreement with the Ames Police Department and the Story County Sheriff's Office in 1997. This intergovernmental agreement allows for the effective and immediate exchange of law enforcement resources during times of need. Officers continue to work collaboratively during major special events.
- All law enforcement agencies within Story County utilize an 800 MHz radio system that facilitates interoperability during emergencies and special events. The Ames Police Department, Story County Sheriff's Office, and ISU Police Division all share the same Computer-Aided Dispatch (CAD) and records management software. The three centers are linked through fiber and T-1 lines to ensure information availability and system redundancy. The ISU Communications Center was used twice by the Ames Police Department during the past year when the latter experienced computer related technical difficulties.
- The department continues to work with a variety of entities when staffing major special events, to include: Iowa State Patrol; Ames Police Department; Story County Sheriff's Office; United States Secret Service; Iowa Division of Criminal Investigation; Federal Bureau of Investigation; and Per-Mar Security.

PHYSICAL SECURITY CAPABILITIES

- The department was recently awarded a federal equipment-related grant to enhance safety and security near the College of Veterinary Medicine complex.
- A designated and specially trained employee continues to review blueprints and provide Crime Prevention Through Environmental Design (CPTED) advice to architects and project managers. This proactive approach helps identify any safety related concerns prior to construction.

- The university extensively utilizes electronic access control systems to enhance security. This technology is incorporated into all new construction.
- The use of digital cameras is expanding. The Department of Residence will soon be adding more than 200 cameras in public use areas.

STAFFING

- The ISU Police Division is authorized 33 sworn, state-certified police officers and eight full-time civilian staff. Part-time student employees are utilized to provide support services related to building security, safety escorts, and dispatch.

TRAINING OF INSTITUTIONAL PERSONNEL

- An overview of safety-related issues and services is provided to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State.
- An Associate Director and other staff have provided 36 prevention and outreach programs during the past year to faculty and staff; 65 hours of instruction have been provided to 712 people. Topics have included: workplace violence; campus safety; dealing with difficult people; and threat assessment/management processes.
- The annual ISU DPS publication, "*Safety & You*" is electronically mailed to all faculty, staff, students, and prospective employees. This document is printed in hard copy form and posted on the departmental web site. It contains information pertaining to personal safety and property security as required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.
- The ISU Department of Public Safety continues to annually train Department of Residence (DoR) staff and Cyclone Aides regarding safety related services for students, staff, faculty, and visitors. These sessions are conducted prior to each entity providing safety-related information to all incoming students as part of their respective orientation programs.

USE OF FORCE/FIREARMS

- The department's use of force and authorized weapons policies are in compliance with national law enforcement accreditation standards (CALEA).
- Instruction regarding departmental use of force policies and related laws is conducted semi-annually, thus exceeding national accreditation standards. Officers qualify with their issued sidearms twice each year—this exceeds national accreditation standards and state regulations.
- The department continues to equip officers with, and train them in the use of, chemical spray, expandable batons, and conducted energy weapons.

- The department has three firearms instructors certified through the Iowa Law Enforcement Academy (ILEA). Two officers have additionally received instruction through the ALERRT and Strategos, International programs.
- Officers participated in active shooter training twice during the past year; one session was conducted with officers from other Story County agencies.
- No officers discharged a firearm for other than approved training purposes, with the exception of dispatching one injured deer. No firearms were drawn and pointed on campus during the past calendar year. Two officers assisting the Ames Police Department drew and pointed their firearms while making entry to a residence where a man had shot his former domestic partner. The individual had already shot himself and later died from the injuries sustained.

STUDENT INVOLVEMENT

- ISU DPS officers conduct campus safety walks each year to identify issues related to lighting, foliage, and other hazards. The most recent effort, conducted in October 2009, was co-sponsored by members of the Government of the Student Body (GSB). Results were forwarded to FP&M for review and follow-up action, if required.
- The department hosts an eight-week Citizen Police Academy (CPA) each year for students, faculty and staff. This outreach effort has been very popular and has helped form collaborative relationships.
- ISU DPS has operated a Safety Escort program for approximately 13 years. Walking or vehicle-assisted escorts are provided free of charge to faculty, staff, students, and visitors. The service is very popular, as evidenced by the following statistics: 2006 (1,832); 2007 (2,413); 2008 (3,734); and 2009 (4,144).
- A Motorist Assist Program has been in existence for approximately 15 years. Services are provided free of charge for those requiring assistance, to include: vehicle jump starts; tire changing/airing equipment; and escorts to obtain fuel.
- The department employs approximately 70 students in various support functions, including: dispatch; security; parking enforcement; and records management.

SMOKING BAN

- ISU DPS received or initiated 151 smoking-related calls for service during 2009. The reports were documented and officers were sent to investigate. When possible, officers patrolled areas reported to be problematic.
- Officers issued 67 state citations and approximately 131 warnings, most of which were verbal, to campus visitors (e.g., football fans in grass parking areas, parents, construction workers, delivery drivers).
- Smoking-related signage has been posted at university entrances, on building doors and on fleet vehicles.

- A small committee has been formed to discuss continued compliance. Members include representatives from the following: ISU DPS; Environmental Health & Safety; Facilities Planning & Management; University Counsel; Department of Residence; and Human Resource Services.

SAFETY AND SECURITY GOALS

- Review proposals to replace and upgrade the multi-agency computer-aided dispatch and records management system. Once in place, the system will more adequately address emergency and routine information needs.
- Develop a funding strategy to ensure Sexual Assault Response Team (SART) services can continue on an institutional and countywide basis.
- Continue to coordinate a statewide college program promoting leadership and positive choices regarding alcohol consumption and driver safety.
- Participate in a countywide review of proposals to upgrade all two-way radio equipment. The system presently being used is approximately 15 years old.
- Develop policies to comply with new federal Clery Act regulations pertaining to fire safety and missing person notifications.
- Increase the number of doors controlled by electronic access systems, as well as the number of digital cameras utilized throughout campus.
- Continue to collaborate with other state agencies and organizations to maximize threat management, intelligence, and investigative functions.
- Systematize the delivery of crime prevention information disseminated to faculty, staff, and students during orientation and in-service sessions.
- Ensure continued compliance with all applicable Commission on Accreditation for Law Enforcement Agencies (CALEA) standards.

CAMPUS SAFETY AND SECURITY REPORT

University of Northern Iowa

Calendar Year 2009

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- UNI continues to utilize Connect-Ed for the purpose of mass communication notification to include e-mail, text messaging and voice mail.
- The UNI-Alert information is on the UNI web site and provides information to faculty, staff, and students about registration, as well as the notification process.
 - UNI-Alert was used in the following incidents:
 - January 12, 2009 cancelled classes on campus due to weather
 - June 6, 2009, Tornado Warning
 - October 7, 2009, campus-wide test of the Alert System
 - December 9, 2009, campus closure due to weather conditions

External Mass Voice Notification System

- American Technology Inc. continues to provide the campus outdoor voice notification system for the UNI. Installation of this system was completed and testing of the system was conducted on March 18, 2009.
- There are eight locations where speakers have been installed to provide coverage for campus.
- Speakers provide siren and/or voice notification in the event of weather or other emergency incidents on campus.
- Speakers can be activated via dispatch or by remote location by UNI Police Mobile Command Unit.
- The campus is currently using digital message boards on campus as well as UNI-TV as another source of campus emergency notification.
- The system is tested on a monthly schedule to coincide with the Black Hawk County Emergency Management warning system. Black Hawk County also offers the Code Red Warning System for all residents at no cost.

THREAT ASSESSMENT AND MANAGEMENT

- UNI Public Safety (DPS) continues to partner with other campus departments to ensure cooperation across various administrative domains of the University concerning issues which pose a potential threat or concern.
 - UNI DPS continues to participate with the Assessment and Consultation Team for Students and meets on a monthly basis, or as necessary.
 - DPS serves as a member on the Critical Incident and Assessment and Consultation Team responding to any personal, weather, or event-related concerns.
 - A Case Management Team is in place to address issues which affect employee concerns.
 - DPS is a member of the Bias Response Team whose purpose is to coordinate a University response to bias-related incidents on campus.
- A University safety web-page was revised this year and placed on the UNI Homepage under the Quick Links section. The site provides information on safety issues for personal and weather-related incidents.
- Numerous training sessions were held for new faculty and department heads, as well as various student organizations on campus, reporting and responding to issues which create concerns regarding student/faculty safety.
- UNI personnel served on a Lessons Learned panel at Hawkeye Community College. Information was provided to various campus and local police departments on the experience during the UNI lockdown. The program's featured speaker was the Incident Commander from the Columbine High School shooting incident in Colorado. There were approximately 120 participants.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- UNI Police continue our weekly meetings with Cedar Falls Police to discuss active cases and problems within and around the campus.
- UNI Police meet monthly with local and county law enforcement agencies to discuss various crimes and investigative efforts within the communities.
- The Director of Public Safety is a Board member of the Tri-County Drug Task Force which meets monthly to discuss drug-related cases and issues in Black Hawk and surrounding counties.
- UNI Police and the City of Cedar Falls Police Division work closely during major events on campus. We have partnered with local law enforcement during homecoming events with a joint operations center.

PHYSICAL SECURITY CAPABILITIES

- UNI continues to improve the physical security of its buildings by adding electronic locks to newly refurbished buildings to allow remote locking of facilities.

- Gilchrist Hall renovations have allowed space for a call center and an Emergency Operations Center. We continue to add to the capabilities of this center with additional equipment to allow the self-sustainment of the emergency operations within the facility.
- There are eleven emergency phones on campus which connect directly to UNI Police in the event of an emergency. The phones are checked on a regular basis to ensure operability.
- There are currently eight cameras located on campus allowing surveillance of overnight parking facilities. We are currently working to access existing cameras in various campus buildings which will allow the review of activity in the event of any incident within the facility. The sites include six additional buildings which access is available and accessible. This project should be completed within a few months.
- The new Multimodal Transportation Center has been in operation for the past several months. The facility will be equipped with emergency phones, as well as cameras, once completed. We anticipate this equipment to be operational within the next month.

STAFFING

- The Department of Public Safety currently employs 17 sworn officers with an authorized staffing level of 18. We are currently working to fill an open patrol supervisor position due to an early retirement this fall.
- The Department is currently seeking to replace a half-time dispatcher for the department and anticipate the position to be filled early in January.
- An organizational chart is attached.

TRAINING OF INSTITUTIONAL PERSONNEL

- On August 11, 2009, UNI DPS working with the Iowa Department of Homeland Security, Black Hawk County Emergency Management, and other campus departments held an Emergency Communications Workshop in Maucker Union. A total of 86 participants, including Deans, Directors, Department Heads, and the UNI Cabinet members held a four-hour session to discuss and review the following areas:
 - Roles and Responsibilities
 - Current policies and procedures in campus notifications
 - Impact of communications, on and off-campus
 - Understanding the various modes of communication
 - Review the continuity of operations for emergency response

A follow-up training session is being planned for Spring of 2010.

- UNI is compliant with the National Incident Based Management System (NIMS) as required by law.
- UNI Police continue to work closely with the Department of Residence on matters concerning student safety with programming, and officer contacts with residence system employees. Public Safety provides safety talks to Resident Assistants and to residence hall students in the fall semester.

- UNI Officers provide Rape Aggression Defense Training Program to the campus community as well as the Self Defense Awareness and Familiarization Exchange, and the S.A.F.E. program. The program offers information as to how to maintain their safety on and off-campus. This programming has been offered to students since 1990.
 - Total Rape Aggression hours taught – 36
 - Total number of students in class – 30
 - Total S.A.F.E. hours taught – 20
 - Total number of student in class - 155
- The UNI Emergency Response booklet provided to all faculty and staff was revised for the 2009-2010 academic year. Information related to reporting a concern about a student or others, referring students for counseling, classroom disruption, response to threats, the UNI-Alert process and information, and student information disclosure were addressed in this booklet.
- The University's Violence Against Women program applied for, and was awarded a State Grant to develop an in-service training program through the Department of Justice this past spring. In addition to the Federal Violence Against Women Program Flagship Grant, this State Grant will allow the development and programming of in-service training to police and judicial affairs panel on the reporting, investigating, interviewing, and student conduct code action, and disciplinary panel education will be developed and used in computer-based learning. The grant will allow the purchasing of software to develop the training program, similar to the programming developed by the State of Iowa Judicial branch. This program will be developed with the cooperation of Iowa and Iowa State Universities.
- Two theft prevention classes conducted by UNI Police were presented to 30 staff and students employed in the retail venues in Maucker Union.
- Spring Break Safety Programming was provided to Residence Hall participants. Programming was an hour in length and provided to 110 students.
- Introduction to laws and legal system was presented to International Student Orientation. A total of 20 students participated in a half-hour program.

USE OF FORCE/FIREARMS

- During this reporting period, UNI Officers assisted Cedar Falls Police on an Armed Robbery call at the B&B Gas Station located on Hudson Road. Officers unholstered their weapons as they confronted the alleged perpetrators during this robbery. No weapon was discharged in this incident. Three subjects were arrested on the scene. In addition, UNI Officers dispatched three deer that had been injured by vehicles on UNI property.
- The department conducts annual training for firearms qualification which exceeds national training standards. During this training, the departmental use of force is reviewed at each training session.
- Officers are equipped with chemical spray, batons, and conducted energy weapons which officers receive training annually.
- The department has two state-certified firearms instructors (ILEA). Two officers are also certified in the Advanced Law Enforcement Rapid Response Training (ALERRT).

STUDENT INVOLVEMENT

- The department currently employs 15 student patrol members to assist Police officers in various roles for campus patrols, building lock-up and unlocking services, assistance during move-in, and campus escort requests during the evening hours. During the academic year, Student Patrols provided a total of 1,017 student escorts on campus. In addition, Parking Operations employs 9 students who assist in the office and field operations.
- The department employs two student dispatchers within its operations. These students are State of Iowa Certified dispatchers as required by law.
- On October 7, 2009, a night campus safety walk was conducted by President Allen, Vice President Tom Schellhardt, Dave Zarifis, Director of Public Safety, along with six members of the UNI Student Government. The campus was surveyed for lighting concerns, entrance lights to various campus buildings, and landscaping concerns. A report was issued and contacts made with those departments in charge of making the corrections to areas identified in the report.

SMOKING BAN

- The Department of Public Safety received a total of 112 complaints on smoking violations during 2009. The disposition of these calls is as follows:
 - Verbal Warning - 78
 - Written Warnings - 2
 - State Citations Issued - 6
 - Gone on arrival/Unable to locate - 26

We will continue to work with campus entities to continue our education of non-University persons who still remain unaware of the restrictions on campus. Many of the violations are occurring during large athletic events and other major campus functions.

- Signage was installed by the UNI Physical Plant designating No Smoking areas as required by law.

SAFETY AND SECURITY GOALS (2009 AND LONGER TERM)

- Continue training in areas of Active Shooter and Incident Management. We are planning a training session this summer with local police agencies.
- Review and revise the campus emergency response policies and procedures to ensure adequate response to all anticipated emergency responses are addressed. We continue to equip the facilities for operational issues in the event of any emergency. We will continue call center training as well as EOC operational issues and contingencies.
- Priority will be given to preparation and testing of the severe weather alert this Spring. We will develop and test a campus-wide severe weather scenario and response.

CAMPUS SAFETY AND SECURITY REPORT

IOWA SCHOOL FOR THE DEAF

Calendar Year 2009

OVERVIEW

The Iowa school for the Deaf continues to upgrade the security and safety environment for the students, staff and other stakeholders on an ongoing basis. This process is currently being refined and tested and changed as conditions warrant. The schools' crisis plan was modified after a site visit and assessment by Rob Bowers from Iowa State University's Department of Public Safety. The school's leadership teams discussed and evaluated their areas of emphasis and were critiqued on their plan of response to a crisis or critical incident. The school's plan was then reviewed by the Council Bluffs Police Department to insure that, as probable first responders, they were familiar with the school's protocols and physical layout.

MASS COMMUNICATION CAPABILITIES

1. The school's campus-wide calling plan was reviewed and adjusted as identified through the review and drill process.
2. The school's storm alert system was tested twice as required by code and as weather conditions warranted.
3. The school's visual alert system is tested monthly to insure that all deaf and hard of hearing students and staff receive notification in case of fire or severe weather.

THREAT ASSESSMENT AND MANAGEMENT

1. State certified officers are hired for large group school sporting events. These off duty officers are usually from the Council Bluffs Police Department. This arrangement works well and has a very high deterrent factor.
2. The school continues to upgrade its camera surveillance system and has installed additional exterior cameras in locations identified in the site review process.
3. The school has continued with the ongoing process where all new employees are subjected to a criminal and child abuse background screening.
4. There is limited access to all school buildings via one exterior door. The rest of the exterior doors are normally kept locked and need to have a key in order to enter the building space.
5. All exterior lighting is kept in good working order and serviced as needed.
6. The installation of the school's first card access locks were mounted on several doors in the school's administration building. This pilot project is undergoing a year long review to ascertain the viability and performance before a larger area is undertaken.

TRAINING OF INSTITUTIONAL PERSONNEL

1. The school regularly conducts harassment/bullying workshops for all students.
2. The school's crisis contingency plan has been distributed to tenant groups and organizations on campus and with the Lewis Central School district to allow for integration with their plans.

3. Developed a letter of agreement with Lewis Central School District to provide an area of refuge in the event either campus needed to vacate in time of crisis.

OTHER

1. All vehicles used to transport students comply with Iowa Department of Education Standards. This includes all vehicles used to transport students to and from home that are driven by appropriately licensed staff. Vehicles undergo school bus inspections by Department of Education staff or undergo DOT inspection for the larger vehicles. All staff is trained for the task at hand and vehicle evacuation drills are conducted as required.
2. The school is continuing to look at a cost effective inclusive electronic system that would provide for door access, enhanced intruder notification and lockdown. The school would need to acquire sufficient funding before design could be undertaken and installation started.

CAMPUS SAFETY AND SECURITY REPORT

**STATEWIDE SYSTEM FOR VISION SERVICES /
IOWA BRAILLE AND SIGHT SAVING SCHOOL**

Calendar Year 2009

OVERVIEW

The Statewide System for Vision Services / the Iowa Braille and Sight Saving School continues to strive to provide a safe and secure campus for the students, staff, families, community members, visitors, related professionals and the general public who access the campus. During 2008 the school began to share the campus with AmeriCorps, NCCC. AmeriCorps staff and the Statewide Vision staff work collaboratively and share a primary interest in maintaining and improving the safety of the campus surroundings. With the beginning of the 09/10 school year, the Iowa Braille School middle school and high school classrooms were relocated in the Vinton / Shellsburg respective public school buildings. Students reside on campus after school during the week and attend classrooms in the Vinton / Shellsburg schools in the daytime. The remaining on-campus students are participating in a 5th year program including work experiences both on and off campus.

The Iowa Braille School has a long history of providing a safe environment for students and staff and a climate that reflects the importance of safety as a key value. When physical or personal risk occurs, protocol is in place for the Crisis Management team to respond. The school also continues to comply with the Continuity of Operations Planning (COOP). Staff assigned to Safety and Security mitigation, prevention, preparedness, response and recovery include the Supervisor of Plant Services, the Residence Dean, the Director of Human Resources, and for health concerns, the Registered Nurse. The school no longer employs a Public Safety Officer. Local authorities are contacted and there continues to be a good relationship with local law enforcement. The school adheres to the Weapon Free campus policy. The security threat level protocol is also in place.

COMMUNICATIONS CAPABILITIES

IBSSS current electronic communication capabilities include e-mail; a 2008 AVAYA voice over IP telephone system; access to a web board; an intercom system; and emergency communication buttons in elevators and stair towers in the Old Main building to access assistance.

THREAT ASSESSMENT AND MANAGEMENT

The Crisis Management Plan has been reviewed and updating it is a continual process. Personnel ratios and supervision continue to be maintained at an appropriate level to guard against risk. Staff and students practiced fire and severe weather procedures in drills a minimum of four times throughout the 08/09 school year for both fire and severe weather safety. Evacuation drills from school buses were also conducted.

University of Northern Iowa risk assessment staff has agreed to be available for consultation. A risk assessment has not been initiated in recent years. With a staff of fewer than 100 people, awareness of individuals who may pose a threat is more obvious to the group as a whole. Staff report concerns to their supervisors, the Superintendent or the Human Resources Director.

PHYSICAL SECURITY CAPABILITIES

- The renovation of the second floor of Old Main was completed in the fall of 2007. Student dormitory space was then relocated from out lying buildings into the prepared Old Main 2nd floor area. Physical security and personal safety became a major focus of the renovation project. The renovation was designed through collaboration with Iowa State University engineering services. All building safety codes were met. New doors and new locks were installed throughout the entire area. Door security protocol was developed and implemented. A new interior alarm system, new evacuation plans and staff training was put in place.
- Updated outdoor lighting provides for safer access to walk across campus and through parking lots.
- Several systems for surveillance cameras in designated student safety areas have been reviewed by the Plant Supervisor and reported to the Cabinet. Vendors have been invited to visit the campus. We anticipate having a surveillance camera system in place for the fall term of 2010.
- A continuing short term goal regards outside alarm system enhancement. A fire alarm system company has visited the campus and looked at our needs and given us a materials price. A proposal will be reviewed by the cabinet.
- Facility safety precautions were implemented regarding: 1) the shared use of tunnels for student movement and the use of tunnels by AmeriCorps; and 2) the use of a student sensory awareness environment. AmeriCorps has incorporated the student safety needs into their Corps member awareness and training program.

TRAINING OF INSTITUTIONAL PERSONNEL

Staff and students reviewed safety procedures at the beginning of the school year. New staff received training during their orientation process. Safety procedures are published on the school's web board and in the Employee Handbook which is available on-line. The custodial staff completed Pandemic Response training in February 2010. Staff were alerted to resources for receiving the H1N1 vaccination, seasonal influenza shots and the Hepatitis B series of immunizations. Good hand washing procedures were posted and hand sanitizers were made available.

SAFETY AND SECURITY SHORT TERM GOALS

- Enhance the exterior alarm system
- Due to expanded AmeriCorps use of campus buildings a review of emergency procedures for severe weather is necessary and any resulting revisions will be implemented
- Train facilities staff in the use of fire extinguishers

SAFETY AND SECURITY LONG TERM GOALS

- Develop a process for threat assessment
- Implement an annual review of the Crisis Management Plan
- Appoint and train staff for future responsibilities regarding safety and security
- Maintain and provide adequate training for personnel in the areas of mitigation, prevention, preparedness, response and recovery
