READY TO CATCH CRAPPIE?

Crappies are biting in small ponds and lakes across Iowa. Grab your family and your poles, and catch a few moments you'll never want to release.

Crappie fishing is easy and lots of fun. Check the [DNR weekly fishing report](#) to find where crappie are biting. If your favorite fishing pond is busy, try a new spot that is not so crowded. Remember to practice responsible physical distancing.

Have a great weekend fishing!
