YOUR BOARD OF REGENTS

Demonstrating public accountability and effective stewardship.

Iowa's public institutions and centers share a common focus – enhancing the quality of life in Iowa and beyond through education, research, and service.

These exceptional institutions educate Iowans from all 99 Iowa counties on their campuses and in communities statewide. Through their education and outreach programs, they serve lifelong learners, families, K-12 educators, entrepreneurs, employers, nonprofit organizations, medical patients, and many others. The Regent special schools transform the lives of visually-impaired and hearing-impaired children through education and independent living skills. Iowa's public universities generate cutting-edge research and scholarship in areas ranging from agriculture to the biosciences to health care.

The Board of Regents, nine citizen volunteers dedicated to maintaining the trust and managing the investment Iowans have placed in the Regent institutions, govern the institutions. To fulfill their obligations to Iowans, the Regents have used strategic planning to create a long-term vision of the Board and the institutions; to establish the course by which the Board and the institutions will achieve that vision; and to maintain strategic focus and high-quality programs for the future.

Why is this important to Iowans? The Board's strategic plan, in concert with the strategic plans of the individual institutions, enables the Regent system to carry out its mission effectively, efficiently, and to the benefit of all citizens. As the needs of Iowans change, as funding sources fluctuate, and as new discoveries spark exciting opportunities, the Board of Regents will work to ensure that its institutions continue to serve our state, nation, and world.

On behalf of the Board of Regents, I thank you for this opportunity to serve Iowans.

David W. Miles
President

THE BOARD OF REGENTS, STATE OF IOWA

Governing Iowa's three public universities and two special schools.

The Board of Regents, State of Iowa, is a group of nine citizens who govern five public educational institutions in the state through policymaking, coordinating, and oversight. The Board enhances the quality of life of Iowans by maintaining the educational excellence, accessibility, and public service activities of Iowa's three public universities, the University of Iowa, Iowa State University, and the University of Northern Iowa, and two special schools, Iowa School for the Deaf and Iowa Braille and Sight Saving School.

The Board's nine members are citizen volunteers appointed by the Governor and confirmed by the Iowa Senate to serve six-year terms. They elect one member to serve as president and another to serve as president pro tem for two-year terms. According to Iowa law, one member must be a full-time undergraduate or graduate student at one of the public universities at the time of his or her appointment, and not more than five members can be of the same political party. Gender balance is also required.

The Board meets approximately eight times a year at the five public institutions or other locations around the state. The meetings are open to the public except when Iowa's open meeting law allows closed sessions for specific reasons, such as the discussion of personnel matters.

The Board is statutorily authorized by Iowa Code Chapter 262, which states that the Board is responsible to "have and exercise all the powers necessary and convenient for the effective administration of its office and of the institutions under its control."
